TAKEN BY SURPRISE.

Junction Railroad Officials Didn't Know Just How Close a Tab

WOMEN WERE KEEPING ON THEM.

The Ladies' Health Protective Association After a Charter.

LETTING NO GRASS GROW UNDER THEM

The detective work of the Ladies' Health Protective Association, as published in THE DISPATCH, was a big surprise to the Junction Railroad officials, but little satisfaction could be obtained at the company's office yesterday. Superintendent Finney was out on the road, and Superintendent Holbrook, of the Baltimore and Ohio, was along the line somewhere attending to his duties. Chief Clerk Welsh, of the Baltimore and Ohio, laughed when asked what he thought of the answer of the ladies about burning soft coal on the road. "I would rather have you see Mr. Holbrook," he said. "I don't know much about it, but coke is burned in the June ion engines. Occasionally engines burning soft coal may go over the road, but it is not

done except when occasion requires." Reasoning of the Railroaders. The Junction is a valuable adjunct to the Baltimore and Ohio, and is the connection with the Pittsburg and Western. The Baltimore and Ohio people claim that frequently the traffic is so heavy that assistance must be given the little line, or the business would be paralyzed. As the Baltimore and Ohio intends to use the Junction when its main line is established to Chicago through Pittsburg, the road will be put to much inconvenience if this city ordinance will hold and is enforced. In Pennsylvania the industrial laws are famous for their wide scope and liberality. The lawyers state that in all nuisance cases actual injury to life and property must be shown and not mere convenience. The opinion is quite common that if a test case were pushed in the present uncertain conion of the smoke consumer for locomotives that the railroad would come out ahead. As it is the Junction officials do not appear to be worried, and scarcely give the

matter passing notice.
It is rather singular, but the Junction officials occupy a suite of offices on the rear side of the Fidelity building. They are very much annoyed from the smoke that comes from the neighboring stacks in Marshall Brothers' foundry on Diamond street. Frequently they have to close the windows, and the office is hard to keep, clean on account of the soot. The clerks were wondering how they could live through it this summer.

Makes Them Grit Their Teeth.

Yesterday great volumes of dense, black smoke were pouring out of the foundry stacks, and making the atmosphere very disagreeable. When their attention was called to it the Junction people heroically gritted their teeth and remarked that they supposed there was no remedy for it.

H. P. Dilworth has been making a study of the smoke nuisance. He says that unless t can be stopped in some way, high build-ings will be out of the question in Pittsburg' Office holders on the upper floors are complaining constantly about the dirt and smoke. No man who has any regard for the looks of his office, Mr. Dilworth says, will think of leaving the windows open. On the hover floors the nulsance is not noticed so much. Mr. Dilworth thinks that the people won't rent the offices in high buildings, and this will stop the work of erecting domes that pierce the clouds, especially of

papers necessary to secure a charter Women's Health Protective Association were filed in the Prothonotary's office set winy by Edward B. Scull, the attorney of the association. The papers were signed by five members of the association: Mrs. John M. Oakley, Miss Mary McClelland, Mrs. Jerbert Du Puy, Mrs. F. F. Nicola and Miss Kate McKnight. The association being a corporation without profit the Court

Chief Brown was asked yesterday about Mrs. Denniston's statement concerning the smoke nuisance on the Junction Railroad.
"I do not think there is any ordinance preventing the Junction from using bituminous coal," said he. "If there is I do not remember of it, but I will look the matter up to-morrow. There is an ordinance against the use of earl in the city limits by the Pennsylvania Railread, but it is obsolete. Few will deny that the black smoke is a unisance, but it is not to be gotten away within the center of the bituminous conf region, as Pittsburg is, by prohibiting its use. Such a course would be a death-blow to many industries.

"The proper may is to enforce the use of smoke consumers thus permitting the use of each, but deling away with its disagreemable frames. There is a bill in the Legisharary on this subject which I longs to see

Mr. Covley always has a good story to tell, and he was not without it yesterday. Recently he was in Lancaster county, and contracted with a lot of Pennsyl ania. Dutch, for which the county is noted, who were going West. He thought it was the proper thing to ask the boys up to have a drink. Whisky is not rare in the country Whisky is not care in the county, but they were not in the habit of taking it except when somebody else paid for it, and then they made up in good slugs for ineir long abstinence. They didn't break the rule this time, and Mr. Cooley noticed they took more than the usual fuger. A short time after another section of the party, who had not been treated, appeared. They were gently led to the bar and asked what they would have, and the first crowd received the same invitation. The which were being the same invitation. tation. The whisky was beginning to tell on the others, and they were afraid they would get foll. An old man was tackled first for his order, and he paralyzed the genial Pat when he said in broken English, I guess I take an orange," and they all

HOWARD FIELDING spins a yarn about a spendthrift's spasm of economy in THE DISPATCH to-morrow. One of the humorist's brightest sketches. All the news; twenty pages.

A VICTORY FOR LUMBER DEALERS.

A Strike Declared Off and an Arbitratio

Committee Appointed. NEW YORK, May 22.—The difficulty be tween the New York Lumber Dealers' Association and the lumber handlers was settled apparently finally this afternoon, an agreement having been reached between Alonzo T. Decker, representing the lumber dealers, and Charles P. Rogers, representing the Board of Walking Delegates of the building trades, by which the lumber yards are to be opened at once and all strikes at

nce declared off. An arbitration committee is appointed to settle all difficulties that may arise, such committee to remain in office until July 6, next. This is practically a very decided victory for the Lumber Dealers' Associa-

SPRINGER FOR SPEAKER.

THE ILLINOIS LOWER HOUSE UNANI-MOUSLY INDORSES HIM.

rats and Republicans of That State Apparently in His Favor-The Northwest Will Probably Support His Candidacy-Senator Palmer Is for Him. SPRINGFIELD, ILL., May 22.-Congressnan William M. Springer, the dean of the Illinois Congressional delegation, has begun his fight for the Speakership of the National House of Representatives. To-day's developments would indicate that, so far as Illinois is concerned, this distinguished parliamentarian will have the support and encouragement, not of Democrats alone, but of Democrats and Republicans alike. By an unanimous vote and amid enthusiasm and cheers, both branches of the General Assembly to-day adopted the following

resolutions;

Be it resolved, By the House of Representatives of the Thirty-seventh General Assembly of Illinois, the Senate concurring therein, that, in the opinion of the members thereof, the Speakership of the Fifty-Second National Congress should be given to a Western man, and that Illinois, by reason of her position as the third State in population, and never having been honored by the selection of one of her Congressmen, holds especial claims at this time for the position. We, therefore, recommend for Speaker the Hon. William M. Springer, who for 16 years has ably represented Illinois in the House of Representatives. His distinguished parliamentary ability, his unimpeachable honesty and his uniform courtesy together, especially fit him for the honorable position, and we heartily unite in urging the Illinois delegation in Congress to use every honorable means to secure his election.

United States Senator John M. Palmer is

United States Senator John M. Palmer is the foremost Democrat in the great North-west in furthering Mr. Springer's contest west in furthering air. Springer's contest for the Speakership. To a press representative this evening he said: "I fully indorse the resolution. You may say that it will afford me great pleasure to do everything in

The friends of Mr. Springer claim to-night that he will have the practically unan-imous support of the Northwest, and that if he develops the strength in other sections of the country that is confidently expected by will certainly secure the carons aminahe will certainly secure the caucus nomina he will certainly secure the caucus nomina-tion. The announcement that Bynum, of Indiana, is out of the race, and the increas-ing rivalry between Crisp and Mills in the South will, they insist, greatly add to the strength of Springer's candidacy. The an-nouncement of Congressman Jerry Simpson, that the Congressmen elected by the Demo-cratic-Alliance fusion tickets will also prob-ably support the Illinois leader has conably support the Illinois leader, has con-tributed increased confidence to the Springer

A Mad Dog at Sheridan Station

A mad dog created considerable excitement at Sheridan station, on the Panhandle road, yesterday morning. It was finally killed.
