SHEEP AND SWINE ARE DECLINING

OFFICE OF THE PITTSBURG DISPATCH, MONDAY, May 25. At the opening of the markets in the East Liberty Yards this morning there were 85 car loads of cattle on sale against 75 last Monday, and 50 Monday before last. The average quality of the offerings to-day was

cows were not in as large supply as last Monday and those of high grade were par-ticularly scarce. Prices are practically the the same, the range being \$25 to \$40 per head. Calves also held up fairly well to last week's range, which was 5c to 6c per lb for

Sheep, Lambs and Porkers

SHEEP AND LANES-There were 26 loads on sale at the opening, and markets opened alow at a decline of 15635c per cwt., from highest prices a week ago. Top price of sheep was 5c, and yearling lambs are now quotable at about the same price as sheep, spring lambs having taken the formerplace

Hoss. The number on sale was about 12 loads, against 22 loads last Monday. Philadelphias were fairly active at \$4.85 to \$4.25, and Yorkers slow at \$4.60 to \$4.70. At Chicago top price this morning was \$4.60, according to advices received by one of our leading packers from his buyer there.

The demand from butchers has fallen off very much since the advent of warm weather, and packers are disposed to buy sparingly, in the faith and hope of lower prices.

At the Allegheny Yards. Receipts of cattle at Herr's yards were not

so large as they were a week ago, but demand was slow and prices were lower, all excepting prime beeves, which were steady at last week's prices. Prime heavy beeves sold at \$6.50 to \$6.75; medium weights at \$2.5 to \$6.25; light weights at \$4.75 to \$6.00.

THE BULLS GET THERE.

VARIOUS CAUSES WHICH LED TO THIS IN THE WHEAT MARKET.

Bad Weather in England and France an Stories From the Extreme Northwes Helped to De It-Corn Goes a Shade Higher in a Wild Market.

CHICAGO-It was a hand-to-hand strug

chicago—it was a hand-to-hand strug-gle to-day for mastery between bulls and bears in wheat. The former had the heavier ammunition and got the best of the fight, though their opponents forced them back two or three times during the session. Under the influence of the reduction in the French import duty on wheat, announced after the close of the board on Saturday; cold and wet weather in France and Eng-land; the announcement by Toronto millers land; the announcement by Toronto millers of a short supply in Canada; a statement that chinch bugs were at work in the wheat around Bine Springs, Neb., and the further intelligence that the temperature was down to 22° in Manijoba, the market average quality of the offerings to-day was very low. There were no heavy prime beeves on sale in car load lots, and very few primes of light weight. In the receipts were nearly a dozen car loads of dry cows, the largest in this line since last summer. There were not more than 10 per cent of the cattle on to-day's market which could, in largest charity, be called good butcher beeves.

As a result of the large run and the low quality of offerings the markets opened slow at a decline of 20c to 50c per cwt. from last week's prices, when the top of the market was \$6.00 per cwt. Though the supply of light, tidy butcher beeves weighing 1,000 to 1,230 fbs was light—and there has been of late a strong market for this grade—the markets were so demoralized by the large run of poor cattle that even the good suffered more or less from the weak fanrkets. The range for good butcher beeves from 1,100 to 1,250 in weight was \$5.00 to \$5.40. Fresh cows were not in as large supply as last Monday and those of high grade were par.

MINNEAPOLIS—There was very little competition in the sample wheat market to-day for No. 1 Northern. There was a good demand, however, for that grade at le under July. Only one large buyer was in the market. No. 2 sold at about 3½c under No. 1 Northern for choice wheat, but the demand was slow. Low grades and No. 1 hard were as dull as they had been for some time past. Stocks of wheat in country elevators in Minnesota and Dakota decreased 28,000 bushels. The supply at present in such houses is 2,627,600 bushels. Prices to-day were about 1½c above Saturday's on the bulk of sales. The Heirs of Nancy Collins Sell Out to an Iron Manufacturer.

DEMAND FOR APARTMENT HOUSES

Values of Local Securities Let Go a Little for the Want of Steam.

OFFICE AND STREET NEWS AND GOSSIF

A transaction in real estate was consummated yesterday which emphasizes the statement made in this column a few days ago, that the demand for property is drifting south of Fifth avenue. Black & Baird sold for the heirs of Nancy Collins Nos. 133 and 135 Second avenue, lot 45x80, with two old buildings of little value, to one of the largest iron manufacturers of the city, for \$30,000, being at the rate of \$550 a foot front. The nurchaser will improve his new possession

being at the rate of \$550 a foot front. The purchaser will improve his new possession by erecting thereon a large business house.

This quarter of the city, bounded by Fifth avenue, Grant and Ferry streets and the river, has developed considerable activity of late. All of Mr. E. M. Ferguson's recent acquisitions are here, as are, also, those of Colonel Schoonmaker, George H. Bennett and others.

Apartment Houses Are Popular. While little has been said of late about apartment houses, or flats, it is well known that several buildings of this kind are in contemplation. Plans for one of four stories, to contain 16 apartments, on Ohio street, Allegheny City, not far from City Hall, were drawn up last fall, and work on it was to have been commenced early in the spring, but the carpenters' strike upset the calcula-tions of the promoters and necessitated delay. It will likely be started early in the

tions of the promoters and necessitated delay. It will likely be started early in the fall. There is talk of an apartment house on Washington street of about the same size as the Allegheny structure. Several smaller ones out Fifth avenue are being arranged for.

As remarked on former occasions, apartment houses have proved very popular in this city. The first house of this kind was erected on Wylie avenue about five years ago. The venture was immediately successful, every floor being quickly occupied. This success stimulated the new departure and apartment houses became quite the rage. An enumeration of them a short time ago showed between 25 and 30 completed and occupied. They pay the owners from 8 to 10 per cent, and give less trouble than ordinary dwellings.

The high price of ground in desirable locations in and around Pittsburg is greatly in favor of this style of building, as it is cheaper to build in the air than on terra firms; and now that the ice has been broken and success assured, there are good reasons for saving that many more apartment houses will be erected in the near future; not only in the nearby wards, but in many of the downtown districts. The "fift" has come to stav.

nearby wards, but in many of the downtown districts. The "flat" has come to stay. Business News and Gossip. The demand for cheap building lots is equal to that of the same time last year. More subdivisions will soon be put on the market.

Citizens' Traction 5s were wanted yester day at 105, but were held at 108. Mr. D. P. Black and wife left the city yesterday evening for New York, whence they will sail for Europe on Wednesday. They will be absent two or three months.

THING TO TURN UP.

Trading Unimportant and Prices Shaded in Some Cases-Airbrake and Cable the Strongest Features-Old-Time Leaders Neglected-Thomson-Houston Rights.

There was no rush in the local stock market yesterday. The change of time for hold-ing the calls went into effect. The half hour ket yesterday. The change of time for holding the calls went into effect. The half hour gained in the afternoon is of advantage to brokers having business with the banks.

New York was dull and fairly steady and London was a seller. This is settling day there and a buying movement is expected. The Bank of England reduced the premium on American eagles. A revolution was reported in Buenos Ayres, but it had no effect upon the London market, as nothing definite had been received. Dispatches from nearly every section of the West were to the effect that the crop situation had been greatly improved by the recent rains.

Business on the local board covered a wider range of properties than usual of late, but trading, as intimated, was slow and prices had a drooping tendency. About the only strong features were Airbrake and Underground Cable. Nearly all of the recognized leaders submitted to small concessions for want of active support. The street railway group held around Saturday's figures, but there was no urgent demand for them. Electric sold off to 13%, and was not much better at Boston. It was stated on good authority that 50,000 shares of the stock had been deposited under the reorganization plan. It is now believed by many that the required amount, 50 per cent, will not be assented by June I, and that the meeting set for that date will be again adjourned.

The rights which it is said the Thomson-Houston people propose to issue at an early date will, it is understood, be put out on securities held by the company in its treasury, and of which it will make another series similar to the Series D and those that proceded the same. The new series will, however, be offered to the Thomson-Houston stockholders only, and on terms that will be very favorable. The company needs ready money, and this is the plan proposed for securing it.

Yesterday's transactions aggregated 325 shares, contributed by Electric, Philadelphia Gas, Luster, Airbrake and Pipeage, as appended:

It was a notable feature of the market that stocka, like St. Paul and Rock Island, which are supposed to be so thoroughly cliqued that their fluctuations are under complete control, were as weak as the remainder of the list. The business done was more and the half-dozen leaders furnished about one-half of the transactions. The selling in the market was again apparently largely for foreign account and it checked not only the buyonarcy of the market that the movement was the continuation of the outgoor gold. There was a lower opening although the losses were confined to small fractions, and the early demand was sufficiently in the list up to something better than Saturday fluid prices. The further expected shipments, however, proved too much for the foreigners and the west which realized too portion of the week. The market continued to for the week. THE MONETARY DRIFT.

The local money market was practically unchanged yesterday. There was a moderate calls for loans, which were made at 5540 per cent as the rule, shading either way beof the routine sort. Clearing House exchanges were \$2,534,038 37, and balances \$229,-310 82.

changes were \$2,534,038 37, and balances \$229,-310 82.

A prominent financier writes: "There is one thing, now being very largely ignored, which deserves attention, and very close attention, and that has to do with the complete disappearance from the financial world of calls for funds to carry on inflated real estate speculation in the West and Southwest. There is hardly a vestige of the land boom in the West or Southwest, and the millions of money—and I estimate that \$150,000,000 went from the East during the last two or three years to help along these booms—are now in the East, or ready for the East, to use in legitimate channels. To my mind—and I reflect the opinions of other conservative bankers—the money let loose through the elimination of these wild land speculations is going to be a very important factor in our financial situation. It will be helpful, in fact, beyond calculation."

Secretary Foster says that, while it is not altogether settled, it is more than likely that

the Treasury Department will give the holders of the \$50,000,000 4½ per cent bonds outstanding an opportunity to renew these bonds after September 1 at a reduced rate of interest. In the opinion of some bankers these bonds could be floated at 1½ per cent; he himself does not think such a thing feasible with an interest rate less than 2 per cent.

At New York yesterday money on call was easy, ranging from 2½ to 4½ per cent; last loan 3; closed offered at 2. Prime mercantile paper, 5½67. Sterling exchange quiet but firm at \$4.83½ for 60-day bills and \$4.87½ for demand.

By Pittsburg, Cincinnati and St. Louis, 9 cars of corn. By Baltimore and Ohio, 2 cars of oats. By Pittsburg and Lake Erie, 6 cars of hay, 3 of flour. While sales on call at the Grain Exchange were larger to-day than for many days past, they were made in most cases at ruinous prices. Bullish operators have gathered few crumbs of comfort from this month's transactions. Oats are a shade lower, and corn and millfeed are weak at quotations. Choice hay is steady.

COKE PLANTS RESUME WORK.

The Frick Company Takes Strong Mea Against Organized Workers. [SPECIAL TELEGRAM TO THE DISPATCH.]

SCOTTDALE, May 25.—Resumption of the coke plants in the region has been very heavy to-day. Both the big plants, Standard and Trotter, of the Frick Company, were put in operation. At the latter place considerable trouble is anticipated. John Mc-Sloy, an active strike leader, was re-elected check reserver. entitle troute is an activated. John McSloy, an active strike leader, was re-elected check measurer by the men this morning, and took his place on the tipple. As soon as he had got started to work one of the Finkerton guards placed him under arrest, and escorted him from the Company's property to the public road, when he was told to go and advised not to return.

McSloy left, but it was to Uniontown, where he employed Judge Campbell to prosecute the Frick Company for interfering with his rights as a check measurer. The State law authorizes the employment of such an official by the miners, and makes an offense against it punishable with a fine of \$500. Heretofore the Frick Company has not objected or interfered with the men having a representative on the tipple, but McSloy was elected a representative of an organized body, and their first plan in resuming is to rid the fregion of all semblance of organization. If the men persist the plant will probably be closed down again.

New York, May 25.—Trade in drygoods opened with a fair demand and good indications for the week. Sales of plain and colored cottons were very free in some instances, and such woolen articles as flannels, blankets and dress goods have been placed well under contract for the coming season. Stocks are lighter everywhere. The position of the market all through will probably be settled in a short time. The tone of the market shows considerable strength.

TOLEDO—Wheat firmer; cash and May, \$1 0834; July, \$1 0034; August, \$834c; December, \$1 0034. Corn steady; cash and May, 55c. Onts quiet; cash 5054c. Cloverseed duil, firm; cash, \$4 25.
