Liberty Live Stock. There were but 50 loads of cattle on the

market at the East Liberty yards this morn-ing, against 85 loads last Monday and 75 the previous Monday. A large proportion, in fact, nearly all the beeves on sale, were from Chicago and Indianapolis. Quality of offer-ings was described by dealers as common to ood, with no strictly prime beeves on sale utside of retail pens. It has not been posble for weeks past to secure prime heavy t these yards in a wholesale way. There these yards in a wholesale way. There ere a few loads of smooth butcher cattle is ale this morning which range in weight cm 1300 to 1450 pounds. This grade was noted at \$5.75 to \$5.90. Prime, ripe, 1400-bund beeves would have easily com-anded 5c per pound, but there were one on sale which answered to this secription. Owing to the light receipts lifers were firm in their views of values, ad, though buyers were slow to accept an tynnee, as cost at sources of supply was a nade lower than last week, an advance of loc to 25 per cwt, was secured, the greatshade lower than inst week, an advance of of loc to 25 c per cwt, was secured, the great-est increase being on good, smooth butcher beeves fron 1,200 to 1,300 hs in weight, of which the run was unusually light. The run of cows and calves was light and last week's prices were well maintained. Good fresh cows were particularly scarce. Dry cows of poor quality were about the slowest thing on the market. Too, price of good yealers narket. Top price of good vealers

on the market. Top price of good vealers was 6c per B. Sheep and Lambs—There were 18 carlonds on sule, against 26 loads last Monday, and while there was no marked change in prices, markets were slow and dull. A few fancy wethers were sold at a shade above 5c, and come choice spring lambs were sold at 7½c. Yearlings are no longer quotable, as they have been supplanted by spring lambs. The range for lambs was 5c to 7½c per B. Hogs were fairly active, with 5c as the price of hest Philadelphias. There were 18 loads on sale this morning, against 12 loads last Mon-der.

At Allegheny Yards.

The supply of beeves at Herr's Island yards varied very little in number or quality from that of last Monday. Demand was slow, and the result was a decline of 15c to 5c per cwt. from last week on good grades and a still greater decline on common and

A leading drover said: "I paid \$6 25 for the best beeves in Chicago, and hardly came out even by selling at \$6.65. Markets were, as a tenn, as they have been for a year." Best heavy Chicagos sold at \$6 25 to \$6 65;

OFFICE AND STREET NEWS AND GOSSIP

The week opened up with a good outlool for real estate. An official of the Recorder's office, who is familiar with the transfers, ome, who is infinitar with the transfers, said they showed business to be but little in arrears of the same time last year, and any change, he thought, would be for the better, especially in the building line.

Among the transactions that came to the surface yesterday was the sale by Samuel Plammer, the well-known attorney, to Will-iam Eberhardt of 60 lots in Homewood, extending from the river to Dixon street, for \$22,000. This property adjoins that recently purchased by Attorney John M. Cox, which, in turn, adjoins the City Farm. It will be ubdivided. Albert H. Wilson bought from Mrs. Caro-

line A. Graff a residence property, on Lin-coln avenue, Twenty-first ward, lot 57x131, with a good two-story brick house, for

Of the same com-plexion, probably, is the agitation in regard to the railroad station at Wilkinsburg. It has been removed so many times without budging it that citizens of the borough have budging it that citizens of the borough have come to think it will remain where it is for years to come. The latest in this connec-tion is credited to the manager of the loing station, just off Pennavene. He is reported to have said on Saturday that that concern would be removed early next year to Walls station, or Turtle Creek, and that the rail-road would then erect a large station or freight house there or in the immediate vicinity. icinity. letter to a New York financier, expresses the opinion that, so far as America is concerned, the very worst has already happened in the foreign situation. He indicates an expecta-tion in London of long continued liquidation upon the part of speculators overtaken in the recent crisis, but says only good results will follow to the United States. He adds: "There will, from this time on, be a demand for the securities of the United States from attention to such investments. The way the United States has been able to stand up while all the younger countries have gone to pieces, and while the great nations of En-rope have been stunned, is an exhibition which will not be lost upon the people who, upon this side of the ocean, have money to proft." In considering the financial situation, it is important to note that sufficient currency has been drawn from the interior to offset the exports of gold without depleting re-serves in the West to any appreciable ex-tent, for money is as easy in Chicago now as ever, and there is no suggestion of any possi-ble stringency. In fact, financiers now be-gin to appreciate how extraordinary were the drafts from the South and West last full; so heavy that the demand was made with difficulty, and liberal imports from abroad were necessary in order to prevent a much more scrious decline in stocks. This money has been retained in the West and has only begun to return East within the past week or two, when it was called upon to meet de-mands from abroad.

Almost every street in the business quarter is disfigured by these relics of antiquity, which, so long as they are allowed to stand, present an effect-ual barrier to improvement in a direction where it is so much needed. Owners should look into this matter and see if they cannot find a way to get a larger income from their holdings and at the same time confer a boon of inestimable value upon the city. There was a notable absence of vim in local stock circles yesterday, and trading was of small proportions. In the absence of Secretary Chaplin, who is doing duty as the foreman of the grand fury, the venerable Captain Barbour wielded the gavel, but even his eloquence was inadequate to the task of working the room traders up to the sticking point. Transactions were of the retail sort,

ings in Boston to 125 feet. This restriction applies to buildings in process of erection. The meeting to declare the "Big Four" dividend will be held June 6. The regular dividend will be held June 6. The regular dividend will be declared on the preferred. No extra dividend will be declared this year. Two loans of money were made by indi-vidnal capitalists yesterday at 5 3-10 per cent. Work has been resumed on a number of buildings in the Wilkinsburg district. Semi-aanual dividend payments due in Boston this month foot up \$4,362,982, a de-crease of \$1,492,610. The American cotton crop is now figured at 8,600,000 bales, or 1,300,000 larger than ever and footed up only 147 shares.

The tone of the local money market has undergone no material change since the close on Friday. Supply continues in excess of demand, but the latter is a little more urgent and accumulations are not quite so rapid. There are no apprehensions of any approach to a stringency. Interest rates were quoted yesterday at 5426 on the usual run of commercial paper. Long loans were on the basis of 667 per cent. Yesterday's exchanges were \$2,554,591 11 and balances \$25,650 23. fluence, and acts as a dead weight to every-thing else. There was no pressing demand for any of the Tractions, but they could have been sold at slight concessions. Manchester was a good fraction higher. Birmingham was of-fered at 22, with 21% bld. Duquesne was on the market at 19%. The reduction of fare by the Pittsburg had no perceptible effect upon the stock, which was practically neglected. Apprehensions of a rate war or some other complication, about which frequent hints are heard on the street, will be likely to re-strain any enthusiasm on the stocks until each of the systems shall be placed on a good working basis. In the natural gas list Philadelphia was a shade weaker, while Wheeling and Chartiers closed half a point each better than the opening. Manufacturers' Gas was a fraction weaker in the bidding. Luster was put up a peg, but the other miners were in disfavor. Airbrake and Switch and Signal were ellpped a little at the last call. Underground Cable was firm at 70 bid. In a general way the markets were unsat-tisfactory. New York had few supporting orders, and prices were weak until near the close, when there was a slight rally and fractional gains were made. London was lower on bad news from Buenos Ayres, where gold was at the highest premium yet touched. The Bank of England was borrow-ing money on Government securities in or-der to retain the gold which had been immonin of May is ingured at over 200,000 par-rels. The Chicago Stockyards' annual meeting will take place July 2, when it is expected a favorable annual exhibit will be made. Seligman Bros. say that gold at present can only be sent abroad at a loss. The statement of the Bank of Pittsburg issued vesterday shows loans and discounts of \$2.435,734 06: United States bonds, \$338,000; money on hand, \$734.083 94: assets, \$3,923,-150 47, and liabilities the same; profits and earnings are \$409,568 89. It is understood that nearly all of the Westinghouse Electric stock held here has been assented. The total amount of stock thus far surrendered is stated to be 79,548 shares—about 50 per cent of the whole. The Building Record.

RIVERS FALLING RAPIDLY.

Packet Men Taking Advantage of the Rise to Ship Freight.

With the wickets up the river in the harbor was about 8 feet yesterday afternoon and falling fast. In the morning it was 8 feet and 2 inches. Below the dam the water

s feet and 2 inches. Below the dam the water averaged 6 feet, and only light craft could go out. The Hornet started in the morning with a tow of light barges and flats. Gray's iron line took advantage of the slight rise to send the Iron Duke with a cargo of rails to St. Louis. There was considerable activity yesterday among the packet men. Captain Hender-son, of the Cincinnati line, hadn't loaded a pound of freight for three weeks on account of the low water, but he was filling up the Keystone State for its trip to Cincinnati. The lack of water has knocked the packet lines out of a great deal of money, and it gives the railroads a chance to rejoice. The Bedford to Wheel-ing, however, has been running regularly. The Courier came in Saturday night and the Ben Hur on Sunday. Neither of these boats nor the Matt F. Allen have been out since the water got so low. For a day or two it is thought freight can be taken to Wheeling, Marietta and Cincinnati. Rivermen are not complaining much of the dry spell, but they wish they had some of the water that went to waste last winter during the strike.

-One of the novelties at the St. Pancras Exhibition, in London, lately was a sausage machine driven by an electric motor. In con-junction with this machine it has been pro-posed to employ an electric heating attach-ment, whereby the savory dish can be de-livered cooked.
