PRODUCERS' SCHEMES.

Comments Which Are Passed Upon Them by Men in the Business.

ZELIENOPLE GETS A GOOD WELL.

New Locations Being Made in the Southwestern McCurdy Field.

THE WATSON OIL COMPANY BOUGHT OUT

The plans of the consolidated oil producers, which were published in THE DISPATCH Saturday morning, have occasioned considerable comment among the men in the oil business who are not in the P. P. A. There are many who believe the plans can be carried through to the end in view, and others are of the opinion that the producers have outlined too much work for the start. A producer from West Virginia was in Pittsburg Saturday, and in speaking of the situation said: "As far as I have been able to understand, the consolidated producers will have about $1,500,000 in their treasury before this time next year. This will be placed in the hands of a Board of Managers consisting of five persons, who are to superintend and carry out whatever plans may be decided upon. Unless these men are given absolute power to expend the money as they deem best there will be no end of trouble and delay. It has been the history of every combination of producers since '72 that the organization has been killed by internal strife.

Time Alone Will Tell the Story.

"The members have never been able to cling together. Time alone will decide the fate of the present organization. The producers who are not in the combination are wondering what will become of them if the P. P. A. is successful and should be merged into an immense monopoly. New producers will have to be cared for in some way. If to get the new company on a solid business foundation the members of the P. P. A. are forced to sell their oil for 60 or 70 cents a barrel they cannot blame outsiders for taking their product to a market where they can get a better price for it. There is liable to be a new field opened up at any time in which the big producers may be outside of the P. P. A., and in such an event the latter organization will either have to buy them out, give them stock in the new company or pay a high price for their oil."

A gentleman who is on intimate terms with all of the leaders of the producers said: "Some of the biggest producers in the field are not members of the organization. Not because they are not willing to be, but because in selling some of their property they have been obliged to take stock in partial payment, which is objectionable to the independent producers. This is true in the case of one man who has made and lost fortunes in the business and has been at the head of several independent producers' movements. It has been charged that some of the leaders would not be engaged in the present movement were it not that on the political horizon they saw emoluments in the future. If the organization is successful they can point to it with pride, and with the backing to be had from three or four thousand members scattered all over Western Pennsylvania they would no doubt be a power in State affairs at least."

From Neighboring Fields.

The quiet which has reigned for some months in the vicinity of Zelienople has at last been disturbed. Early Saturday morning the No. 2 well of Patterson & Co., on the Allen farm, entered the hundred-foot sand, and is flowing at the rate of 500 barrels a day. It is the biggest well which has been struck in that territory for a long time. It will be an incentive for operators in that locality—who have been inclined to hold off—to start the drill again.

Other Butler Operations.

The Butcher's Oil Company's No. 2 on the Robert Clendenning farm, near Bakerstown, is through all sands and dry. The No. 4, Williamson farm, at Glade Run, belonging to the Forest Oil Company, is 90 feet in the sand and apparently dry. The well of Boland & Cummings on the John Kennedy farm, near Mars, has been tubed and is pumping 30 barrels a day.

Showing for Wells.

WILDWOOD—Forst & Greenlee's No. 6, on the Alston farm, was in the sand Saturday night and showing for a good well. Their No. 7 has just entered the sand and had not made much of a showing yesterday. Griffith and the Forest Oil Company's Nos. 8 and 9, on the Ringeneisen, were unchanged yesterday. The latter is showing for 80 and No. 8 for 30 barrels a day. They are being rigged up for pumping. Guffy & Queen's No. 3, on the Kletzer, is in the sand and flowing. A gauge of it could not be taken yesterday.

Locations at McCurdy.

MCCURDY—Hackett, Shirley and the Fisher Oil Company have located a well on the McMichael farm, between the McCurdy No. 1 and the Forest Oil Company's Wright farm well in the southwest. The latter well is putting about six barrels a day in the tank. Unknown parties have located on another McMichael farm, a quarter of a mile south of Hewitt, Bott & Co.'s well on the Cowan farm in the southwest. The Cowan well is down 1,400 feet. The contractor has had to pull the casing and ream down. The Forest Oil Company has drilled a 6¼ hole past the tools in its Ewing farm well in the southwest, and will case below the bottom of the stranded tools, which stuck in the Gordon sand. Mellon's Scott No. 4 is showing for a good well.

Operations Around Murdocksville.

MURDOCKSVILLE—Showalter Bros. & Co. are down 950 feet on the Thomas Bigger, farm. Finnegan & Downey are building a rig on the F. M. Bigger farm. Showalter Bros. have located a well half a mile to the southeast of the Dunlap and Lisle farm developments. Finnegan & Downey are down 900 feet on the Stevenson heirs' farm. They have located half a mile ahead of Showalter Bros.' most southeastern well. Williams & Co. have cased their wildcat on the Taylor farm, four and a half miles southeast of Murdocksville. Fitzgibbons & Co. are drilling a test well directly south of Murdocksville.

In the Moon Field.

MOON—The Hervey Oil Company's well on the Goss farm is looking like a duster. Their well on the Linton farm is showing for a good Moon producer. Murphy & Bradley's well on the F. H. Stevenson farm is good for 90 barrels a day, and their well on the William Springer farm, in the extreme southwest, is doing 30 barrels a day.

It Will Be Drilled Deeper.

VERONA—The Equitable Gas Company has decided to drill its well on the McGregor farm deeper. It is now down 2,500 feet, and is located about two miles south of east from Verona.

Personal.

John D. Archibald, H. H. Rogers and John Bushnell, of the Standard Oil Company, were in Pittsburg yesterday. They are on a tour of inspection of the oil fields, and came to Pittsburg Saturday from the Ohio fields. It was their first visit to Ohio. Saturday afternoon they visited Wildwood. Mr. Bushnell remained in Pittsburg yesterday afternoon to visit his father, and Messrs. Archibald and Rogers went to West Virginia.

A Big Oil Deal.

J. K. Kemp, of Jamestown, N. Y., has purchased the producing property of the Watson Oil Company, most of which is located in McKean county. The consideration was $150,000.

Saturday's Oil Markets.

Saturday was as dull as any previous day of the week. There were no sales, and the only quotation was a bid of 68. The highest point touched during the week was 68¾, and the lowest 67. Refined was down at London to 5¾d; New York, 7.20c; Antwerp, 15¾f. There were considerable increases in daily average runs and shipments, but a decline of about 3,000 barrels in charters.

Tracy, Wilson & Co., 90 Fourth avenue, quote puts, 68; calls 70.

CLEVELAND, June 6.—Petroleum easy; S. W. 110, 6½c; 74 gasoline, 8½c; 86 gasoline, 12c; 63 naphtha, 6½c.

NEW YORK, June 6.—The petroleum market to-day was very dull, not a sale being recorded from the opening until the close. The quotations at the close were for July option, 68¾@69.

OIL CITY, June 6.—National Transit certificates opened at 68¾c; highest, 69¼c; lowest, 68¾c; closed, 68¾c. Sales, 14,000 barrels; clearances, 108,000 barrels; shipments, 57,797 barrels; runs, 86,753 barrels.

BRADFORD, June 6.—National Transit certificates opened at 68¾c; closed, 69c; highest, 69¼c; lowest, 68¾c; clearances, 100,000 barrels.

HORSFORD'S ACID PHOSPHATE.
Ill Effects of Tobacco
relieved by its use.

YESTERDAY'S NEWS

BOILED DOWN FOR THE BENEFIT OF WEEK-DAY READERS.

What Was Going On in the Two Cities, in the Three States, in the Whole Country and in Foreign Lands—Gleanings From a Great Newspaper.

Yesterday's SUNDAY DISPATCH was as large as usual, and even more than usually replete with choice reading. The mention of a few contributors is a guaranty of the literary worth of the paper—such names as Rev. E. R. Donehoo, Clinton Lloyd, Mrs. John Sherwood, Bessie Bramble, Frank G. Carpenter, Fannie B. Ward, Bill Nye, Shirley Dare, Edgar L. Wakeman, Celia Logan, Lieutenant Schufeldt, E. S. Fales, and a host of others. The following were the principal news features:

Foreign.

Sir John Macdonald breathed his last.... Sir Edward Clarke was severe on his witness, the Prince of Wales....Parnell will retire after marrying Mrs. O'Shea....Mrs. Shaw, the whistler, has returned to London from a tour in Russia....It is proposed to bestow the Victoria Cross on Mrs. Grimwood....Five thousand London omnibus men were on the eve of striking....Von Caprivi's refusal to reduce German grain duties has aroused national discontent....There is another outbreak in India....The Portuguese Chamber of Deputies has ratified the convention with England....Inside history of the Barings being ruined by a Yankee agent in the Argentine Republic is published....Spain will take back poor immigrants from South America....English Tories are troubled by the free education bill.

Domestic.

Philadelphia hat trimmers are suing for back duties.....A lawyer died in great agony as the result of a cat's bite....Two of the "first" citizens of New Orleans indulged in a shooting scrape. Neither was hit....Superintendent Gray, of Leisenring, acquitted of murder....Important evidence was taken in the Garrison jury impeachment cases at Wheeling....The Itata's officers denied that she violated the neutrality laws....None of the designs submitted for the new silver coins will be adopted....In Philadelphia a dog's nerve was successfully grafted upon a paralytic's arm....Sawtelle, confined in the Concord State prison for fratricide, has written a statement of the killing, in which he says, while he was present he did not commit the crime....General Schofield's coming bride was a dear friend of his first wife....Secretary Foster has withdrawn several million dollars of Government funds from the New York banks....James McBryde and R. L. Davis have returned from the West with money for the evicted cokers. ....A Baltimore suicide was a defaulter to the extent of $100,000....A Beaver county boy was driven insane by a task of cleaning an orchard of worms....A small Maine boy, attacked by a lynx, came out first best in the fight....Lightning burst a pipe and boiled water in Bridgeport, Conn....A fast train will be put on the Michigan Southern Railroad, to run between Chicago and Boston....Pittsburg lost another ball game....Director Young, of the Spring Garden Bank, was arrested....General Longstreet was reported to be dying....A monument to General Hartranft was unveiled at Norristown ....Many places nearby held primary elections....A row boat capsized at Sharon, Pa., with five occupants, one of whom drowned ....Erie carpenters won their strike....Jeff Davis' birthday will be a legal holiday hereafter in Florida....Large fires occurred in Bay City, Cleveland, Findlay, Brockton (Mass.) and Santiago (Chile.)....Harvard students are barred from leading Boston hotels because they are too tough....Female college graduates must wear the cap and gown at the University of New York.

Local.

Dr. McAllister closed his argument before the Reformed Presbyterian Synod....Pittsburg has been practically promised a patrol boat....Ex-President Hunter, of the Allegheny Common Council, was surprised by presents from 50 friends....Miller Leslie had an exciting adventure with a burglar.... Very little interest was taken in the primaries....A demented old lady was found in the Allegheny parks....William Gordon recovered a lost alligator....Commutation tickets on the Ft. Wayne and the Panhandle will hereafter be good for only the calendar days of the month.....A paralytic at Father Mollinger's religious hospital arose and walked after praying....An interesting bill in equity was filed in the United States Circuit Court....The Baltimore and Ohio Company has pensioned another of its old employes—Conductor Drake....C. C. Elwell succeeds W. A. Pratt as Engineer of Maintenance of Way for the Pittsburg division of the Baltimore and Ohio Railroad ....The new Keystone Express made its initial trip yesterday....Mill men and others picnicked at Beaver....Contractors at the new theater ask for an injunction against the interference of strikers....The Fort Pitt Glass Company has struck a fine gasser ....The Allegheny Bar Association met in monthly session....Several sentences were passed in the Criminal Court....Chief Bigelow discussed the serious charges made by Mr. Rea.

AN EFFORT IN GIBSON'S BEHALF.

The Counsel of the Ex-Secretary Seeks to Quash the Indictments.

CHICAGO, June 7.—An effort was made in the Federal Court yesterday to save George J. Gibson, ex-Secretary of the Whisky Trust, from the wrath of the Federal laws by a motion to quash the indictments against him. Gibson's attorneys argued that the indictment charged that Gibson had attempted to bribe Dewar, the internal revenue officer, to do some act contrary to his duties as an officer of the Government. To blow up a distillery was no violation of Dewar's duties as a Federal officer. If Dewar had of his own mind gone into the distillery and blown it up, he could not have been held by the Federal Court and tried by it. There was nothing in the Federal statutes that covered the case, and consequently Gibson could not be punished by the Federal Court.

The District Attorney argued that Gibson, having been indicted under Sections 3,177 and 5,451, which provide for the punishment of anyone bribing or attempting to bribe an officer of the Government, it certainly was a violation of Dewar's duties to blow up the distillery. His duties are clearly defined, and if he had overstepped them he was liable to punishment. Judge Blodgett took the case under advisement and will decide Monday.

AN EMBEZZLER AND BIGAMIST.

He Is Found Several Years After a Stream Had Been Dragged for Him.

HOLTON, KAN., June 7.—Last evening the Sheriff of Pottawatomie county, Ia., arrived in this city with a warrant for the arrest of J. O. Reed, alias J. Oliver, on a charge of embezzlement to the extent of $16,000.

Oliver left Corning, Ia., between five and six years ago, leaving a wife and five children. Aside from the charge of embezzlement he will no doubt have to answer to that of bigamy, as he married an accomplished young lady of this county since coming here. When Reed left Corning he placed his clothing on the bank of a stream, which was dragged for a week or more under the impression that he committed suicide, which fact aided to conceal his whereabouts for a long time. His identity was discovered by chance.

ANIMALS IN WATER.

Where the Millions of Creatures in Drinking Water Come From and How They Should Be Disposed Of.

"I cannot understand the carelessness of people." This remark was made by a leading New York chemist who was just making an analysis for the Board of Health.

"Take the subject of drinking water for instance. What sensible man or woman who ever held a glass of water up to the light felt that it was pure? Even a near-sighted person can see that it is full of vegetable and animal matter. In the city, where water is allowed to accumulate in tanks on the top of the roofs, naturally the bottom of the tank becomes covered with black mud. In the country, wells are simply drainings from the surface water outhouses, often from barns and stables. Is it any wonder it is impure? Is it any wonder people get sick from drinking it? Some people boil the water, and while this may kill the live germs, it does not remove them nor remove the vegetable matter which may be in the water and which is often poisonous. The safest way for any one to do is to mix a little pure whiskey with the water and thus wholly counteract all evil effects which may be in any water, however impure. Doctors advise this and science confirms it. But, only the purest whiskey should be used and Duffy's Pure Malt is admitted both by doctors and scientists to be the purest of all modern whiskies. Besides fortifying the system against disease, it also tones up, makes the sluggish blood circulate and replaces weakness by strength."

GREAT SPECIAL 3-DAYS' SALE

—AT—

KAUFMANNS'

—OF—

GENUINE SCOTCH CHEVIOT SUITS

FOR LESS MONEY

THAN YOU CAN BUY THEM IN SCOTLAND.

AND THEREBY HANGS A TALE-

An honest tale that speeds best being plainly told. Listen: Some time ago we heard of the embarrassment of a large New York importing house of Scotch Cheviots. At the time the house in question carried an immense stock of Imported Piece Goods, which it was compelled to convert into cash to meet matured obligations. We bought 2,500 yards (double width) of choicest medium and light colored Scotch Cheviots, valued at $2 50, for only $1 10 per yard. 375 yards of this purchase were placed in our Merchant Tailoring Department for custom work; the balance (2,125 yards) we had made up in New York City, and the result is 670 of as fine and fashionable Scotch Cheviot Suits as were ever shown in Pittsburg, and which we shall offer to-day, to-morrow and Wednesday.

AND NOW, GENTLEMEN,

Take our advice, and don't be slow in availing yourselves of this most extraordinary and remarkable offering. Never in the history of our house have we been fortunate enough to present to you a similar chance. The suits are cut in latest sack and frock styles, and they fit like a glove. The patterns are novel plaids, stylish checks, new mixtures and handsome plain colorings, mostly light shades of beautiful designs, such as only the "Land of the Thistle" can weave. We doubt whether ready-made suits have ever been shown in materials so fine. There certainly is no merchant-tailor in either city who will take an order for a suit from these goods for less than $32 or $35. Owing to the circumstances under which we bought the goods, however, we can and hereby do offer to-day, to-morrow and Wednesday.

$12! ONLY $12!

WEBSTER'S UNABRIDGED DICTIONARY!

STILL GOES FREE!

With every suit costing $10 or more. REMEMBER, this is no cheap, trashy present, but the most useful book ever published in this country. It contains 1,280 pages and is handsomely bound.
