In the case of Achuff the latter swore that a deal had been pending for the sale of the horse, and that a man named Leats, of Phindelphia, was to get \$1,000 for selling him. The latter said Brewster pulled the horse in consideration of \$250, and it was done so openly that he knew there would be a change of drivers; and if the horse won he would be ruled off. This fact he imparted to Davis, the owner, and the latter offered Achuff an inducement to pull the horse, which he declined. Subsequently, while the horse was in the stable he was fixed. On the strength of this testimony, Achuff waspalso reinstated. Davis, Brewster and the horse, however, will not be reinstated. SMOKE-CONSUMING BILL VETOED. provides for the creation of a State banking department. As introduced, the bill authorized the Governor to appoint a Superintendent of Banking under it, but when partisanship reached its zenith in the Legislature, the provision was changed, so as to lodge the power of the appointment of that official in the Auditor General. Toward the close of the wession the bill was restored to its original shape, and the Governor will appoint the Superintendent of Banking, provided any person wishes to fill that position in the absence of any appropriation, which the Legislature failed to make in the hurry that characterized the last days of the session. THE RACING RECORD. Bad Day for the Backers at Morris Park -Judge Morrow the Only Favorite That

Wins-A Big Event Arranged for Record Beating This Week. NEW YORK, June 8.-This was more or less of an off day here. Still, fully 7,000 persons were present, and nine out of ten went home losers. From a weather standpoint the day couldn't have been improved upon, but the going was very bad and that in a great measure accounted for the defeats of the favorites. Probably the biggest surprise was when Russell was defeated for the Fleetwood stakes. He was an odds on favorite and carried thousands of dollars, but at the end

carried thousands of dollars, but at the end Taral rode a masterly race and landed Pessara a winner by a short head.

The only favorite to win during the day was Judge Motrow, the balance of the races going in most instances to outsiders in the betting. The club to-day offered a purse of \$2,000, with \$1,000 additional, if the one-mile record is broken, starters to pay \$50 each, the race to be run either on next Thursday or Saturday. It is expected that Tenny, Tornament, Tristan, Ambulance and one or two others will go to the post.

First race, six furiouse—Favored fast: Long. third. The New Torks did nothing but prevent the Pittsburgs scoring until the fourth inning, when they proceeded to do some more scoring. Connor was first at bat, and he provoked a yell of delight by smashing a beauteous two-baser to right. Beckley made a grab at it, but might as well have clutched at a shooting star. O'Rourke hit a saucy bounder to Miller, and the latter gave an example of expert Japanese juggling, during which performance Connor ran to third. Gore hit a high fly to left. Miller rushed out and Hanlon came in. Miller, however, succeeded in muffing the ball and Connor came home while O'Rourke got to third and Gore to second. Basset's grounder to Reilly reached first before the runner. Then Clarke got first on balls and there was a white uniformed man on either hase. Welch hit a bounder to Miller, and Clarke was nipped at second, but O'Rourke scored on the play. Gore, who had reached third, was coaxed by a short throw to second to run for the plate. He was neatly caught by Berger and Mack. The Giants then resumed the pleasing task of putting out three Pittsburg batsmen before any one of them could touch the home plate. Many children were suffering from diphtheria or whooping cough and some from both diseases. Dr. McPherson left his assistant, Mr. McKay, on the island. The grip is also epidemic at Magdalene Island. Hundreds of people are sick, and the canning factories have had to be closed. The principal change it effects in the present revenue law is the increase of the tax on the capital stock of corporations, not engaged in manufacturing, from 3 to 5 mills; raising the tax on personal property from 3 to 4 mills, and providing that three-fourths of the amount realized from this species of taxation be allowed the counties according

CHICAGO AND THE GAS COMPANIES.

The Mayor and Council Empowered to Act on All Contracts. CHICAGO, June 8 .- An ordinance was passed by a unanimous vote in City Council to-night that the Mayor and Controller be empowered to adjust all matters in litiga-tion and dispute between the city and the several gas companies, and to contract with said companies for gas for the use of the

smoke from bituminous coal, and to provide penalties for its violation. The following reasons are given for the disapproval of the bill: ing reasons are given for the disapproval of the bill:

"I know of no reason why the particular express authority which this bill seeks to vest in the cities of this Commonwealth should be provided for by legislative enactment. All the cities of this Commonwealth have already the right, power and authority to regulate their own internal affairs, and, by the exercise of their inherent police powers, to prevent practices noxious to public health and safety. Moreover, the people of each community have protection in law and equity from public nulsances, which they may enforce and secure by the regular and ordinary process of law. I regard the bill as wholly superfluous for any sanitary and needful purposes, and if it is intended to effect any other it ought not to be allowed to become a law."

An act to make provision for the preven-

An act to make provision for the preven-tion of mental disorders was also vetoed, and the following reasons are given: No Need for the Bill. "The title of this bill in no manner indi-cates its contents. So far as they are intended to permit the management of State institutions to extend their co-operation to all meritorious cases, there is no occasion for this legislation; so far as they are

all meritorious cases, there is no occasion for this legislation; so far as they are intended to interfere with and disturb the orderly management of these institutions, the bill is without justification. In no event should the State hospitals, exclusively under the control of the State, be subject to any uses inconsistent with the purposes of their establishment."

The Governor also disapproved the bill defining and declaring the meaning of the words "surviving members" and "assessment plan," whenever they appear in the laws of Pennsylvania relating to insuring lives on the plan of assessments and upon surviving members, or to life insurance on the assessment plan. The following reasons are given by the Governor.

"So much of this bill as declares what the laws of Pennsylvania mean relates to a subject that is exclusively for the courts of the Commonwealth. It is their function to construe and interpret the statutes. So far as the provisions of the act are consistent with the decisions of the court, legislation is unnecessary.

The other bills vetoed related to Philadel.
