PAPECIAL TELEGRAM TO THE DISPATCH. 1 TOPEKA, KAN., June 10 .- With less than 200,000 voters in Kausas the secret political societies have a membership of 138,000 Their growth is phenomenal, and by 1892 they will be in a position to make party platforms and dictate all nominations. As result affairs politically have become so adly mixed that the voters who have refused to join any of them have been forced to take a stand against secret societies in olitics for their own protection.

The Republican campaign last fall was made on the platform that secret political societies were un-American and should have no place in the politics of a free govern ment. It was used everywhere. On the stump and in the party organs secret political societies were denounced and the State Central Committee prepared an able address covering all the points.

Meeting Them on Their Own Ground. Since the election, however, the Repubicans who were dissatisfied with the maner in which the campaign was conducted have adopted the Alliance tactics, and the Kuights of Reciprocity, with its membership of 20,000 in the State, and the Knights and Ladies of America, with a total membership of 5,000 and a voting membership of 3,000, is the result, and these two so-

and Ladies of America, with a total membership of 3,000 and a voting membership of 3,000 and a voting membership of 3,000, is the result, and these two societies form the secret political strength of the Republican party.

The People's party, however, is composed of nothing but secret political societies. The Citizens' National Industrial Alliance, composed of town politicians and labor agitators, the Anti-Monopoly Society, made of the same material, and the Parmers' Alliance comprise the full strength of the party. The Citizens' Alliance has a membership of 20,000, the Farmers' Alliance 99,000 and the Anti-Monopolists 3,000.

The Democrats are not in it at all so far the secret society feature is concerned,

There is no truth in the alleged prospective assault on the State Committee administration that I know of. I have no knowledge of such a movement, nor do I believe that it is contemplated. Of Magee's intentions I know nothing, and I have only to say that the whole story of the alleged movement against Senator Quay has no foundation in fact; that is so far as it connects me with the scheme. I am not in it." Senator Quay left the city on the 9.20 express this evening. He was bound for Beaver. He was not at all worried over the rumor of the alleged combination against him, and when spoken to about it, laughed and declined to talk seriously about it. "Harrisburg," he said, "is a good place to locate the foundation for such a story; eslabor agitators, the Anti-Monopoly Society, made of the same material, and the Farmance 90,000 and the Anti-Monopolists 3,000.

as the secret society feature is concerned. and the consequence is that the auxiliary societies of the People's and Republican parties are being constantly recruited by

The Kansas love for mystery is intense. The State is made up of "joiners." Every kind of secret society prospers in the Sun-flower State, and, when politics is added, there is a fascination about it all which is irresistible. There is only one hope for the voters who are out, and that is to get the various secret organizations within the same parties to fighting.

The Knights and Ladies of America, the very latest in the way of political mysteries, is destined to be a very popular institution. It is organized on the principle that sweethearts and wives can keep Republicans out of the Alliance ranks, or convert them after

Senator Norton, of Cherokee county, who organized the order, made a pilgrimage to Topeka a few days ago to confer with the Knights of Reciprocity in regard to uniting the two Republican societies. "We have organized on the right theory," explained Senator Norton. "When we want to make a Republican out of a young farmer who has joined the Alliance we first

the order. We present the social side of the organization to the wife of some Republican who is lukewarm and through her reach the husband. That is the idea, and if the Knights of Reciprocity accomplish anything they must guard well the ladies." But the Knights of Reciprocity gave Senator Norton but little encouragement, and the two Republican societies will have

to work separately.
The greatest fear of the People's party lenders is that the Citizens' Industrial Alliance which it has fostered will disrupt the parent organization. There are two auxilary societies in the People's party with names almost identical, and it is the jealonsies between them which have caused all the trouble. The Citizens' Alliance was organized at the Ocals convention by Ralph that will not favor one class at the expense Reaumont, its present Secretary, and was indorsed by the Farmers' Alliance at that

organized in Topeka by the Citizens' Alliance leaders of Kansas the day Senator Ingalis canization and the only man present from without the State, T. W. Gilruth, of Kansas City, was elected President. But little attention was paid to the organization of the order at that time because of the great interest in the Senatorial election. But the men who were given control builded wisely and strong.

The Jealousy of Two Orders.

The Kansas love for mystery was fed by grips, signs, passwords and symbols. There was a hidden meaning in everything, and the order grew and grew until it got too big to be handled by the men whom it was orig-

done.

Beaumont was perfectly willing to compromise, and submitted a proposition in which he agreed to resign with all the other officers of his order if Gilruth, Rightmire and the five trustees of the Citisens' Industrial Alliance would also resign. The People's party leaders were delighted, and it was whispered around that everything was fixed.

Not of the Resigning Kind.

Not of the Resigning Kind.

But the leaders did not know Messrs, Gilruth and Rightmire. These gentlemen laughed at the idea of presenting their resignations, and stated that they could not do it even if they wanted to. There was another consultation of the leaders, and to help the matter along Mr. Beaumont came forward with another proposition. He agreed to go in with Rightmire and issue a joint address to the people in which they should advise those wishing to take the secret work to join the Citizens' Industrial Alliance, and those wishing the open work to join the Citizens' Alliance. But this proposition also fell through, and the convention adjourned with discord rankling in the breasts of the brothers.

The impression prevails among the farmers that the Citizens' Industrial Alliance is nothing but a money making insti-

farmers that the Citizens' Industrial Alliance is nothing but a money making institution, and its rapid growth, which they are unable to check, is a continual source of alarm. The Reform Press Association has taken the matter in hand, and if it becomes necessary the order will be publicly denounced. Notwithstanding the alleged strength of the People's party in the cities and towns through its auxiliary societies, the recruits gained in this way are a continued menace to the party, and the People's party leaders admit that the experiment has not been a success.

"I am not a candidate for State Chairman,"said the Collector, when asked about the matter; "and I know of no sircumstances under which I would be suggested for the place. Of course, if I felt it my duty to accept it and the party de-manded that I should do so, I would con-sider a proposition to that end, but as such circumstances do not exist, there is posi-tively nothing in the story of a combination against Senator Quay, so far as I am

DES MOINES, June 10 .- The Prohibitio State Convention met here this morning About 50 counties of the 99 were repre sented by about 150 delegates. The morning session was opened with an address by Temporary Chairman D. B. Turney. The convention adopted a platform and nominated a full State ticket. The platnominated a full State ticket. The plat-form adopted is long and complicated. Beaumont, Secretary of the non-secret order, and Gilruth, President of the secret society, had a newspaper fight, and the leaders, who had, up to that time, been able to get all the warring factions together, concluded that it was high time that something was being done.

Beaumont was perfectly willing to compromise, and submitted a proposition in which he agreed to resign with all the other officers of his order if Gilruth, Rightmire and the five trustees of the Citizens' Indus.

None Other Can Do It, According to John M. Langston-He Says a Free Ballot Will Be the Great Issue-The President Sound on It.

[FROM A STAFF CORRESPONDENT! WASHINGTON, June 10 .- Hon. John M. angston, of Virginia, was in the city today and gave to some friends quite a long talk on the political situation, in which he declared that the great question in the next canvass is not going to be so much one of tariff, or one of banks, or the extension of American commerce or navigation, or the adjustment of labor and industrial measures. as this important question: "Shall the American ballot in the interest of the American people to sustain American citizenship. advance American free institutions, be sus tained by law, and its use be enforced through the courts?" The man who repre sents this idea of law as the shield of the American ballot is to be the man who shall be elected to the Presidency of the United States to carry out this idea.

"We are no longer," asserted Mr. Langs ton, "debating the negro question. There are no whites and no blacks in connection with this question. There is no North and no South. Now, the question naturally arises, what man among the great statesmen of our country represents in the highest, the broadest and the deepest and the best sense this great question. On this subject there is just one single man that has been a little ahead of all the others, and his record on this question will be brought out fully when we come to consider the ques-tion as to who shall be nominated by the Republicans to run against Grover Cleve-land, the only man in the United States that can be nominated by the Democratic party.

Radical Opinions Cause a Sensation.

The denunciation of the Prince of Wales by the newspapers, especially by the Tory press, has caused a tremendous sensation throughout Great Britain, and it is freely asserted that the revelations made during the trial of the baccarat suit in court are judged to have done more to imperil the monarchy than any event which has taken place for many years past Tamaqua, where his son has been a practicing physician several years. Mr. Little was born at Cowder Hall, Ceell county, Md., in 1825. For several years he taught school in Georgia and Alabama and, going to Pottsville, in 1847, took charge of the Pottsville Academy under Prof. Schneider. After serving two years, he resigned and became editor of the Minera' Journal, which he held for four years, at the same time studying law under James H. Campbell. He was admitted to practice at the Schuylkill county bar in 1853. Mr. Little was an active and prominent Free Mason. A long ritual contest reaches its climax in this appeal against the judgment of the Archbishop of Canterbury. The public history of the Lincoln case opens with the petition presented to the Archbishop June 2, 1888, asking for the citation of the Bishop of Lincoln to answer charges of having offended against the established ritual. A prolonged period of legal argumentation followed the opening of the case, February 12, 1889. It was a year later when the case began to be argued on the merits.

The charges against the Bishop were practically, first, the use of mixed chalice, or the consecration of wine with which some water had been mingled; second, the mixing of the water with the wine during the service; third, taking the ablutions, afterward drinking such wine and water in the face of the congregation; fourth, taking the east-

The Students Show Fight.

There were 25 student prisoners in court to-day and ten times as many fellow students, who crowded into the court room is to see the sport, for the rumor had students, who crowded into the court room in order to see the sport, for the rumor had gone abroad that a fight was on hand. The students appeared with counsel, Mr. W. K. Blodgett, Jr., and the latter asked for a continuance. He pleaded not guitty for his clients, collectively, but Judge Sanger would not consent to such a proceeding. He demanded a roll call, to see if all were present, and the pages of some of the first present, and the names of some of the first in the land were called out, just the same as if they did not represent untold wealth and un unbroken line of blue-blooded aris-

The first name was: "George R. Fear The first name was: "George R. Fearing." After a silence of perhaps ten seconds a thin voice arose from a rear seat and finally reached the dock. It was only the word "here," and with it the presence of the great high jumper and hurdle fiyer of Harvard became known. His record on the field will not serve in law athletics. "Francis R. Banga." "Here," and the well-known center rush in last year's second football eleven serenely brushed a fly off his nose. He is for fight every time.

"Fred D. Winthrop." "Here." Fred's voice sounded just as strong and clear as it did at New London last year when he took his place in the 'Varsity shell. "John T. Heard, Jr." "Here," saying which the guard on the second eleven smiled sweetly. "Fred N. Watriss." The fearless and gritty "sub" of the present "Varsity crew didn't appear for a second or two, possibly mistaking his name for the word "go." He was not in a race, however, and finally shouted out "Here." Since Captain Perkins was injured, Watriss is rowing regularly with the crew.

The next response to the clerk's morning salutation was Edwin S. Mullins, who has won many honors in the field and track athletics. He struck a high "C" in his "here." Columbus C. Baldwin was next called and responded promptly. At this point the students seemed to eatch on to the fact that they might have a little quiet fun without giving offense, and they did. Freeman Allen struck a low "C" and was followed by Robert G. Emmett, with a "here" sharpened at "F." Charles L. Barlow burst the "here" into high "C" and J. D. More Famous Athletes Up.

sharpened at "F." Charles L. Barlow burst the "here" into high "C" and J. D. R. Baldwin lowered it to "G." John W. Lawrence tried a little flatting at "D." while Hugh Whitney soared into high "A." John W. Geary tried "here" in "F" and Ingersoll A. Morey followed a half tone lower. Addis M. Griswold and James A. Burden, Jr., faltered at "E," while James A. Garland, Jr., and Charence B Denny pushed their "heres" into big "C."

Winding Up the Roll Call. William R. Odell and Robert S. Barlow wound up the scale exercises at "F," and also the roll call. Clarkson A. Potter's name was called, but he did not respond as he is at present in Europe. James H. Morgan, S. T. Chase and Francis Skinner, Jr., were also absant. After the arraignment Judge Sanger fixed Wednesday, June 17, for the trial, but not until he had cautioned all about being present. "If any of you are not in court that morning in reply to your name, a warrant will be issued for William R. Odell and Robert S. Barlos to your name, a warrant will be issued for your arrest, and I need not tell you that you will be dealt with just the same as any other

risoner."
This ended the exercises, as far as Zeta Psi was concerned. But everybody waited for the next act. Charles L. Emerson and Psi was concerned. But everybody waited for the next act. Charles L. Emerson and Ralph L. Wetmore, of the Alpha Delta Phi Club, were summoned before the Judge to take their dose of judiciary medicine. Both were charged with assisting in keeping a liquor nuisance in the clubroom of the Alpha Delta Phi. Emerson pleaded guilty and was also fined \$65, which he paid. Wetmore pleaded not guilty and asked for an immediate hearing. He was accommodated, although Sergeant Pullen, who had charge of the raid, looked a little surprised. He detailed the raid on the club last week, and claimed that Wetmore was a member of that association. Among the things which he captured was a printed list of members. Wetmore's name had been written in, not printed. written in, not printed.

Wetmore Wins an Acquittal.

Wetmore next took the stand and testified: "I am not an active member of the club, Your Honor, and have no rights in its management. I left it two years ago and am accorded the privilege of the house simply as a member of the fraternity. I would be given the same privileges at Amherst. I have no more rights there than have Joseph Choate, of New York, or Francis Peabody. I am a member of the fraternity and that is all."

Judge Sanger, after hearing Wetmore's

fraternity and that is all."

Judge Sanger, after hearing Wetmore's evidence, concluded that he was not technically assisting in the nuisance and ordered him to be discharged. As he went forth in the midst of a number of students he was almost shaken to pieces with congratulations. This was the first victory for a Harvard student before the court and it will give the batch that is to come up June 17 a ray of hope and a cue for defense. While the students were in court and during the proceedings in their cases, an artist was arrived here this morning from Caldera and intermediate ports. The latter vessel brought more than 2,000 men, fully armed and equipped, from Copiapo.

The Itata will leave for California on Saturday with her cargo of arms and ammunition on board. She will be accompanied by the United States steamer Charleston. The steamer Monsarrat arrived here to-day from San Francisco with a large supply of flour and provisions. the students were in court and during the proceedings in their cases, an artist was busily engaged sketching the scene, which it is understood is to appear in the Lampoon. The major part of those arraigned this morning are seniors, and the whole affair is particularly annoying, coming as it does on the eve of class day, when all their energies and thoughts are so engrossed in preparing and thoughts are so engrossed in preparing for that day of days to the graduates.

The appropriation of \$3,000 to pay the expenses of the Senate Finance Committee in investigating the accounts of John Bardsley was rightfully vetoed, as the originators of the inquiry were more concerned about making a little money than having the dark deeds of the imprisoned City Treasurer exposed to the light of day.
