HOW SOME SIZE UP THE SITUATION

# OFFICE OF PITTSBURG DISPATCH, } WEDNESDAY, June 10.

At East Liberty there were S5 loads of enttle on the market at the opening on Monday morning, and 5 loads have been received since. In the receipts were 12 loads from Kentucky and 15 from Chicago. The balance were from Ohio and Indiana. There was a scarcity of bayers, and with the large run markets opened 10@22c lower than last week. and there has been no improvement as the week advanced. Not less than 20 loads were shipped on in first hands for want of cus-tomers, and there were quite a number of odds and ends still in the pens this morning waiting for buyers. The highest price paid this week was \$6

ora car extra 1,500 % beeves from Ohio. Aside from this load there was nothing sold above \$5 60 in carload lots. Fresh cows were in air supply and range of market was \$200 40 per head. Calves were in light supply, and vealers sold at 51466c per D.

There have been, all told, about 45 car-londs of sheep and lambs on the market this week, and prices are off fully 25 per cent, and

declined ic since Monday and are quoted to day at 8c per B. A leading dealer said this morning: "I bought a load of 35-pound sheep of extra quality this morning at \$4 56, and a week ago 1 paid \$5 20 for a load not nearly as good." The run of hogs for the week has been small and the demand is light. There were 15 carloads on saie Monday, and very few have been received since. Top price of Philadelphias was \$1 90.

### Dealers Review the Markets.

Holmes, Rowian, Briggs & Co. in their re-

view of the market say: "We report 90 loads of entile for our mar-ket, which, wish a limited demand, proved to be an over supply, especially of common grassers and half fat rough grades, which To be an over supply, especially or des, which were slow sale at 20c to 25c decline from last week's prices. Good corn cattle were scarce and were more readily sold at a decline of 10c to 15c. That Stocks Are Still Decreasing. That Stocks Are Still Decreasing. CHIA GO—The corn pli was the center of attraction on the Board of Trade today, and speculators from the other pits flocked to that point to take a hand in the proceedings. There was a big slump in prices in the early trading, followed by a partial recovery. Wheat was dull, with nothing of import-ance doing until near the close, when busi-ness picked up a little. Price changes were confined to extremely narrow limits during most of the session. Operators were in-clined to hold off for the Government crop report, due at 4 o'clock in the afternoon. There was not much news of a very import-ant character to Influence values. Early chiles showed dull markets, without much chinge in values ibroad. Advices from the Northwest told of fine growing rains in that section, but this news was neutralized by the Signal Service notice of the development of a cold wave, with frasts, extending over Dakota, Minnesota, Kansas, Iowa and Nebraska Thursday night. A strong point was made by the buils of the Michigan crop report, showing a loss of ten points in co-dition since the last previous report, and the statement that the acreage of winter wheat in Inlinan was two points less than iast report, showing a loss of ten points in co-dition since the last previous report, and the statement that the acreage of winter wheat in Inlina was two points less than iast report were received from Kansas, claim-ing that the wheat was affected by rust on account of recent mins. ing that the wheat was affected by rust on account of recent mins. Broadsreets' report of stocks east of the Rockies showed a decrease of 1,392,000 bush-els, and west of the Rockies and on the Pacific coast showed no change. The export clearances from four ports of wheat and four were rather larger, and arrivals in the Northwest were fair. July opened at 93%, sold off to 93%, fluctn-ated for a long time between 93% and 93%, then, when the bull news began to have its effect, advanced to 95%, with possibly a sale or two at 99, and closed at 95% or % above yesterday's close.

week, and prices are off fully 25 per cent, and slow at the decline. The top price of sheep was acand spring lambs 7c. The latter have declined lo since Monday and are quoted to day at 8c per E. A leading dealer said this morning: "I bought a load of 32-pound sheep of extra quality this morning at \$4 35, and a week ago 1 paid \$5 20 for a load not mearly as good." The run of logs for the week has been small and the demand is light. There were la carloads on sale Monday, and very few have been received since. Top price of Philadelphips was \$4 90

alized. Reports from the interior were to the effect Alized. Reports from the interior were to the effect that a large amount of corn was being loaded for Chicago, and big receipts were looked for during the next few days. Cables were lower at the lowest point. The estimates for to-morrow came in, showing small receipts in sight. The sellers seemed to have been hailed out, and as many shorts who had a satisfactory profit began to cover, and there was good reaction, July selling back to 57% and closing steady at 37%. — Trovisions were weak an sympathy with corn, and July fell from 43% early to 42% or but, rallying with corn, closed at 43%. — Trovisions were weak and lower. Receipts of hogs were heavy and prices lower. Corn was sumplish, and the longs were growing tired of carrying their heavy loads. There was no general liquidation, however, and functuations were rather narrow compared with yesterday. Fork shows a loss of 10 cents: hard and ribs of 24@5 cents. A BROAD HINT TO SOME OWNERS.

. cipal Event in Local Stocks. STATEMENT FROM COMMODORE KOUNTZ

Speaking of prices recently realized for property in New York, a business man re-marked yesterday: "They bear out what I have always maintained, that property in a live, growing city always commands top prices. It is a necessity. People must have it, cost what it may. It is the same way in Pittaburg Bushness is constantly demand. Pittsburg. Business is constantly demand-ing more space, and good sites for stores are getting scarce. Bearing this fact in mind, how any one can expect or hope for conces-sions is more than I can figure out. The fact is, Pittsburg real estate is cheaper than it ought to be, considering the solid wealth and wonderful prosperity that are behind it, and cheaper than it ever will be again. Foot frontage on our best streets is rated at from \$2,500 to \$4,000-dirt cheap in compari-son with values in cities with half the busi-

ness and scarcely any of the advantages for manufacturing and mercantile operations. In my opinion there is no better investment than Pittsburg real estate at present prices."

There Is Many a Slip. Real estate is never sold until the deed is passed and the money paid over. Unlooked for hitches are liable to occur at every stage of a transaction. Last Thursday negotia-tions were begun for the sale of a piece of tions were begun for the sale of a piece of Northside property involving almost \$100, 000, with every indication that it would be consummated by Friday or Saturday. Saturday morning one of the buyers was called away and did not return until Mon-day. In the meantime he had found a weak spot in the title, which put a temporary stop to the dicker. Yesterday this difficulty was removed, but one of the buyers was called away from the city, causing another delay, and it may be a week or more before all the papers are signed; but there is little doubt that the sale will finally go through.

# A Broad Hint to Owners.

The following from a Chicago real estate man has more or less local bearing: "When the most prominent real estate agents in the city are obliged to turn away investors who come to them with money in their hands because they cannot find a piece of business

because they cannot find a piece of business property that they dare recommend at the price the holder demands, there is something wrong with the market. That something is the ex-travagant ideas that the owners of property are entertaining. No one supposes that rents can be materially advanced, at least not for some time. That being the case the not for some time. That is only inducement that can investor to convince him to investor to convince him to get a fair return upon asked to put into a piece show him how changes as can be made in the buildin

CITY REAL ESTATE. Values Very Low When Compared With Those in Other Cities.

was a sharp decline in Duquesne Traction. It sold at 15 and closed offered at 14%. This was a tributed to dissatisfaction with the manner in which the road is operated and interest of a rival. Promises of amendment in these matters seem to have little weight with the impatient public, which looks chiefly to results. This is a wrong view to take of an interest which is capable of doing ruch festiy unreasonable to expect perfection at quesne. There is little doubt the company will correct errors and strengthen weak here is no apparent occasion for holders of sacrifice. In this case it is perfectly safe to any that success will come to those who Bitmingham Traction was barely steady

the slock to lose their neads and shift to say that success will come to those who writ. Birmingham Traction was barely steady at 20 bid and 21 asked. A Fourth avenue broker yesterday received a letter from his New Tork correspondent, who controls considerable Birmingham stock, in which he stated that he had been informed there, was an active and strong market for it here, and he thought he ought to find a quick purchaser at between 21 and 22. He was informed that the stock was rather weak from the large amount offered, and that buyers were hard to find. This a fairly accurate description of the condition of the stock, but it should be stated, as an offset, that the road, like all others of the kind here, has an encouraging prospect, and in the course of time will no doubt be a good dividend earner. While those who bought stock with expectations of realizing quick profits will probably be disappointed, others with more patience and reason stand a good chance of making money. These remarks will apply to all of the store trailway group. This all reports of any consolidation, or proposed consolidation, of the fitsburg. Allegheny and Manchester Company with the Dequesne or any other railway are absolutely false. This means that the Manchester Will be run on its merits. Commodore Kountz added: "The Pittsburg. Allegheny and Manchester Traction Company's road is equal, if not superior, to any other property of the kind in the county." To particularize: Philadelphia Gas was steady. Wheeling Gas was a fraction better. Manchester Gas was bid down to 23, with none offered. Luster finished with a gain. It was reported that the mill was on the ground, and would be in operation within a nonth or six weeks, Electric was down a fraction. Underground Cable was the following: "Rental due the New York Company is in default, and the westinghouse Reorganization Committee offers stockholders of the New York company, subject to the success of the general rechange their certificates for 25 per cent in say wait.

tee offers stockholdars of the New York com-pany, subject to the success of the general reorganization plan, opportunity to ex-change their certificates for 25 per cent in the Westinghouse 7 per cent preferred stock, and 50 per cent of the Westinghouse common assenting." Yesterday's sales on the local Exchange

of Local Finances. The local money market continues well upplied with funds. Reports yesterday were to the effect that borrowers were rather more urgent than usual of late, but

<text><text><text><text><text><text><text><text> rather more urgent than usual of late, but still the market could not be called active. As the hot season is near, no special change for the better is expected for some time. Rates were easy at 3567 as the extremes. It was reported a few call loans were made at 5, but this rate is exceptional Exchanges were \$2,322,729 & 65, and balances \$399,097 \$9. New York exchange was scarce. Anancial expert says: "We do not think that the drafts for gold from abroad will continue: the Bank of England reserve has been brought up to a 2 per cent money mar-ket basis, and is now larger than last year at this time. There has been a very percepti-ble clearing of the skies in spite of the fact that Great Britain, like the suspicious Dutch-man, who wanted his money out of the sav-ings bank and was only too glad to leave it when he found that the bank could pay, is still testing the ability of the country to pay gold.

At New York yesterday money on call was easy, ranging from 263 per cent: last loan, 254; closed offered at 354. Prime mercantile paper, 55467. Sterling exchange quiet but hrm at \$4 554 for 60 day bills and \$4 57% for demand.

Receipts as bulletined were unusually light, the total being 15 car-loads, 14 of which were by Pittsburg, Ft. Wayne and Chicago Railway, as follows: 7 cars of oats, 6 of hay, 1 of straw, 1 of flour, 1 of feed. By Pittsburg, Cincinnati and St. Louis, 1 car of hay. Receipts so far this week have been very much below last week. The record for the first half of last week was 131 cars. For the corresponding period this week there have been bulletined fl cars. The upward movement of corn, already noted in this column, has apparently spent its force. Oats are fairly steady at quota-tions.

ments in prices were confined to even smaller limits than usual of late. A firmer tone was imparted by some arbitrage purchases, but the exchange market showed also a firmer tone in the absence of offerings of commercial bills, and the demand for remittances in consequence of the latter sell-ing for London account. The dealings were

more than on any day recently of a profes-sional character, and only in Chicago Gas was there any movement worthy of note. In that stock realizations on the rise of yesterday caused a reaction of over 1 per cent from the best figure, but the loss was afterward partially recovered.

The market opened slightly higher than last evening, and after a small concession the general list followed the advance in Chicago Gas, and while the improvement was only for the smallest fractions the sub-sequent decline in Chicago Gas failed to neutralize the gains. After the movement referred to the interest even in the Indus-

SIGWRY. OFFICE OF PITTSBURG DISFATCH, WEDNESDAY, June 10, COUNTRY PRODUCE (Jobbing Prices)-Old potatoes touched their highest point for years yesterday. There were sales at \$2 per bushel. Some dealers report sales a shade above \$2. The sharp advance was due to a some tamelit of stock in this market. above \$2. The sharp advance was due to a great scarcity of stock in this market. It is doubtful if old potatoes commanded as high a price anywhere in the land as here. The high price has had the effect of drawing supplies to this market and the best were offered to-day at \$1 750/180. Strawberries are in bountiful supply; but no signs of a glut appear. Baltimore berries ranged in price from 7 to 16c per box and home-raised from 13c to 15c per box. Home-raised cherries are coming in freely and markets are steadily drifting downward. Eggs are in better supply than they have been for a week or two past and prices are a shade lower as our quotations will reveal. Country butter and cheese are slow at quotations.
