appropriation will contribute about \$620,000 more to the city's exchequer than the old

The increased school appropriation will give Allegheny county added funds amounting to about \$265,000, the new retail liquor

law nearly \$300,000 and the increased tax on personal property about \$86,000, making an aggregate increase in the three items of \$651,000.

There are nearly 2,300 school districts in

the State, none of which have received their appropriations except Philadelphia, whose school year ends on the 31st of December,

while all the rest terminate their year or

the first Monday of June. Between 200 and 300 of the school districts have submitted the necessary documents to the Department

of Public Instruction to secure the amounts due them, but owing to the complications

which the appointment of Prof. Snyder as Superintendent of Public Instruction have

ntroduced, none of these have been paid.

The required warrants on the treasury have

not been made out by Prof. Waller, and if

they were presented to the State Treasurer

for payment they would not be honored, be-cause of the legal dispute as to the right of

There are due the various school districts nearly \$1,600,000, in addition to the amounts

owing the county school superintendents for

the last quarter, aggregating about \$20,000. None of these moneys will be paid out until the present controversy is settled by a judicial opinion from the highest court, or an amicable agreement is reached to treat the acts of the acting superintendent as

legal, pending the proceedings to oust him from his office.

There are in the general fund of the State Treasury nearly \$3,000,000, and owing to the losses to which the State Treasury has been subjected in the collapse to two banking institutions, in which State moneys were deposited, and the financial unrest

which City Treasurer Bardsley's rascality has produced, the yearly liquidation of the

FIRE RECORD.

A FRAME stable, owned by Garet O'Don-nell, on McDonald way, Allegheny, caught fire about 4 o'clock yesterday morning and was damaged to the extent of about \$100. An alarm was sent in from box \$15 and it was quickly extinguished. AT 8:50 o'clock yesterday morning there

40,488 71 6,866 00 43,978 02 York..... The \$5,000,000 for Schools. An impression has gone abroad that there

is a string to the provision appropriating \$5,000,000 a year to the public schools, because the payment of the appropriation is made contingent on the certification by the State Treasurer that there are sufficient funds in the Treasury to meet the obligation. At the Department of Public Instruc tion this provision is construed as not being prejudicial to the payment of the entire amount of the State's bounty and as simply preventing warrants from being issued on the State Treasurer when the funds are inadequate to cash them.

In a number of instances the school dis-

tricts had to wait months after their allowances became payable under the law before they received them. This was due to the fact that the State Treasurer was unable, through other heavy payments, to cancel the claims of the school districts. DROWNED WHILE DRUNK.

Sad Fate of an Eight-Year-Old Southsid Boy Said to Have Been Given Whisky-Captain Stewart Looking for the Man Who Did It.

There are several young men on the Southside who can feel responsible this morning for the death of an innocent boy, if the investigation of Coroner McDowell of the drowning of Willie Moore, an 8-year-old boy, which occurred yesterday morning, is correct. The Southside has been gaining a reputation of late years for its Sunday rowdyism on the hills which the most strehuous efforts of the police have even yet failed to check, but nothing quite so shameful has occurred as the drowning of yesterday, which is now being investigated by Captain Stewart. According to the story of Coroner Me-Dowell, developed through his own investi-gation, Willie Moore and a companion named Tommy Cotton, both about the same age, went down to the river to take a

PREMIER ABBOTT'S CABINET.

It Will Probably Include Nearly All o Macdonald's Coadjutors. OTTAWA, June 14.-Hon. J. J. C. Abbott, Premier-elect, spent several hours at his office in the Senate chamber to-day and

had many callers. It is officially learned that he is making progress in his task of forming a ministry, and will likely be able to announce when the House meets on Tuesday next that he has been successful. The Government will be carried on on the old lines till after the session, when the re-

construction takes place.

As far as can be learned, all of the recent colleagues of the late Sir John Macdonald have been invited to join Mr. Abbott's Ministry. It is definitely known that already Sir Hector Langevin, Sir John Thompson, Hon. George O. Foster and Hon. E. Mc-Kenzie Bowell have accepted. If any A. The gas burner was turned on full force, but was unlighted. On the bureau was a bottle half filled with mucilage. Takes a Very Quiet Departure. ISPECIAL TELEGRAM TO THE DISPATCH, 1 NEW YORK, June 14 .- Just a month ago Dr. William A. Newell, of Jersey City Heights, and his wife, Dr. Jennie Newell, made their first simultaneous appearance in a Police Court. Dr. Newell was a prisoner, accused of assault and battery on his wife. When the case came up before Judge Davis the next morn-ing Mrs. Newell declined to press the complaint, and the case was dismissed.

The smoldering fires broke out afresh to-day. Dr. Newell went to the Third Precinct police station and reported to Captain Newton that his wife had disappeared and taken with her all her personal property, a great many things that did not belong to her, and the best part of the furniture. He also said an attempt had been made to set fire to the house. On Thursday night last, when he returned home he found a man in his wife's room. Who the man was he declined to say, but he did say that he was a frequent visitor to the house in his (the doctor's) absence. The discovery revived the quarrel between him and his wife.

Pathetic Scenes as the Fatal Envelopes Were Handed Around. PITTSBURG, June 14.—The United States Signal

THE APPROPRIATION IS EXHAUSTED

MESSAGES OF SORROW

That Caused Great Consternation in

the Census Bureau.

[FROM A STAFF CORRESPONDENT,] WASHINGTON, June 14 .- Over 500 emloyes of the Census Office have been discharged within the last week and many of the scenes attending the dismissals are said by those present to have been pathetic in the extreme. When the messengers entered, their hands full of the fatal yellow envelopes, there was an immediate hush, When the envelopes began to be handed around the uproar commenced. "Well, I've got my valentine," a man would say. A typewriter girl would open her envelope with tremblings, trying to hope that it contained someting else than her dismissal, and

then gave way to harrowing sobs. One brave little woman in the Lincoln Hall building,

who is the only support of her mother and her dead sister's four children, closed her teeth down hard on her under lip and said not a word. She was used to reverses. An old man with a fine, intellectual face spoke up to a group of young men standing around and discussing the situation. He said: "You young fellows, with strong arms, sound bodies, and heads clear with youth, you talk among yourselves of what you are going to do when you get home. Your advantage over me is manifest. I have no home." The talk among the men mingled with the suppressed sobs of the women, But, as almost always happens amid such distressing surroundings, there were some humorous incidents to relieve the tension. A very large lady, when her envelope was passed over to her, bridled up and grew tremendously indignant. As soon as she was capable of speech she gasped out: "Just wait till my Senator gets here. He's coming to-morrow. Then they'll find out that he is a bigger man than the whole Census Office put together. Just you wait till he gets here. I won't budge from this

apology from the whole crowd for daring to The chief of one of the large divisions, whose force was deciminated to almost nothing, said the dismissal of his people was the sorriest task he had ever undertaken, and that he could not again listen to the recital of all the sad tales and pleadings for recitat of an the sad takes and pleasings for reinstatement for all the money in the treasury. As a matter of course, about three-fourths of those dismissed will make frantic efforts to be reinstated. They will bring all the influence in their power to bear and the Superintendent of the Census will hardly lie on a bed of roses for a long while. The dismissals are purely on account of the near exhaustion of the appropriation, though a vast amount of work remains to be done. It is the intention to work a very much reduced force steadily, if possible till there is a new appropriation, and possibly if the money be completely ex-hausted, a force will in some way be kept
