borrow at 4 to 5 per cent. Thirty or 40 years ago the average rate was 6 to 8 per cent. The change has not been brought about by the increase of wealth, making money more plentiful, but by deliberate efforts on the part of governments, or private companies acting under their authority, to provide the sources of money supplies needed by the agricultural interest, which was suffering greatly for the lack of them. In commenting upon this, a broker remarked: "A change in our laws that will make the collection of loans on land as certain, as prempt and as cheap as the collection of loans backed by Government bonds or railroad stock will bring about the same result in the United States."

The news of the growing crops continues favorable. Some capital was attempted to be made out of the slight damage in Kansas, but this covers such a very small area that it is of no consequence at all. The winter wheat is being harvested, and is showing both in quantity and quality to be exceptionally fine.

Fourtieen lots were sold at Kensington by the Burrell Improvement Company yesterday, aggregating \$11,591. The Allegheny Valley Railroad has commenced lowering its tracks through this property. The cut will be about six feet, leaving the ground nicely cievated above the railroad.

There was less talk yesterday about Trac-There was less talk yesterday about Traction consolidation than usual. While brokers and investors, or at least those not on the inside, are convinced that one or two important movements of this kind are on foot, they are unable to put their fingers on them, and are going slow until further developments. It is a little singular that the stocks of the companies most frequently mentioned in this connection continue to advance in the face of repeated protestations that any change is about to take place. naturally follow. Enterprise of all kinds has been held in check for some kinds has been held in check for some time past by fears of tight money. Conservatism appeared imperative in manufacturing as well as commercial and financial circles, and no wise manager cared to ineur obligations extending into the fall months, which a tight money market might interfere with. The result has been a wholesome restraint in all directions, which, though pinching severely in some quarters, has left general trade in a sounder condition than before in spite of the common complaints of duliness. The reduction of the Bank of England rate means that the tension in Europe is abating; that London is prepared for all Russian demands for gold, and has no immediate apprehension about sending gold back to the United States during the fall months in return for such grain and other produce as Europe will be obliged to buy.

"Coincident with the removal of fears

other produce as Europe will be obliged to buy.

"Coincident with the removal of fears about the foreign monetary situation, the home outlook has also cleared and proves more assuring. The Treasury is expected to meet all obligations this fall; so that uneasiness on that score is set at rest. The Western bank reserves are larger than usual, and each year the West grows more independent of Eastern aid. Then, too, the money now in circulation in the United States stands at about \$1,504.000,000, a larger sum than ever before at this season, and larger also than at the times of heaviest crop demands. In 1888, the year of big crops, the total circulation was \$1,371,000,000, while now the amount in circulation is \$1,504.000,000, a showing of \$103. was \$1,571,000,000, while now the amount in circulation is \$1,501,000,000, a showing of \$103,000,000 in favor of this year. Further evidence of confidence in the future of money is shown by freer offerings in time money, extending from \$90 days to eight months. Merchandise imports, though smaller than a year ago, are still running in excess of exports, creating an adverse balance; but the probability is that this will be settled later on in other ways than by gold shipments; though, should further amounts leave, no concern need be felt unless they reach much larger figures than now seem possible. In the event of additional shipments of the precious metal, it will be due to the fact that we have, as usual, but little else to send forward at this season of the year. It is the period between hay and grass, as it were, in our crops.

between hay and grass, as it were, in our crops.

"The wheat and corn crops are far the most important of any single influence affecting the future of stocks. Indications suggest the possibility of the largest wheat crop on record, estimates varying from 500,000,000 bushels for export. If prices only afford a reasonable profit to growers, and the shortage in Europe renders it likely that they will, it is easy to see the effect of such a harvest, not only upon the interior, but upon the trade, railroad and financial interests of the whole country. Europe will have to take our wheat and pay us in gold. Our securities will become intrinsically better in the opinion of both home and foreign holders. In short, should present hopes concerning the harvest be realized, it would impart a degree of prosperity such as has not been seen for several years past. Our opinion regarding the immediate future is hopeful, and favorable to a moderate improvement in the business conditions. Comfortable money, moderate prices for stocks and good crops are sufficient to counterbalance all the weak points discoverable at this time."

nove and increasing in membership, has so-cepted the cards of John Campbell, William cowell and D. C. O'Kain, late of No. 7. Pittsburg Legion No. 1 had one of its old-fashioned meetings Monday evening last and much enthusiasm was manifested. It is cal-culating on going to the Grand Legion ses-sion at Bradford with 25 or 30 members.

The race for the office of chaplain, to be created by Allegheny Councils, is getting to be exceedingly interesting between Colonel Lewis and Harvey Henderson, with the chances strongly in favor of the Colonel. Comrades C. L. Hannan and James A. Me-Kee, were enjoying themselves wonderfully on the moonlight picnic Monday evening last on board one of the popular boats, but when they came ashore the gang plank was hardiv wide enough for them. Major James A. McKee and Adjutant James M. Todd called upon Colonel Lewis at 2 A. M. Tuesday, and requested him to issue rations to them at that unseemly hour, but as the Colonel had nothing but ice water on hand (as he never uses anything stronger) they departed in disgust.

they departed in disgust.

Comrade John Doyle, who was a regular attender at the meetings of Spartan Legion No. 7, has deposited his card with Pittsburg Legion No. 1, where he will be pleased at all times to see any of his former comrades of No. 7. He takes a deep interest in the Ancient Order of United Workmen and Select Knights of America, which could be patterned after by many with good results.

At the late session of the Supreme Lodge of A. O. U. W., held at Detroit, Mich., some of the able representatives wasted a great deal of ammunition in their efforts to have a resolution adopted compelling the Select Knights to drop the letters A. O. U. W. For their information it may be stated that the Knights did drop them at the session of the Grand Legion when they also decided to sever all ties with the A. O. U. W. sever all ties with the A. O. U. W.

The Grand Legion Finance Committee is now in good working order, two new appointments having been made lately in the persons of Frank Burdett, of Pittsburg Legion No. 1, and W. J. Fawcett, of Duquesne Legion No. 10. The committee, as it now stands, is composed of Robert McCoy, of Central Legion No. 2, and the two comrades mentioned above, who can be relied on to attend to business. The selection is a good one.

one.

Pittsburg Legion No. 1 held a very lively meeting Monday evening last, upon which occasion a great many comrades from sister legions were present, and many interesting discussions took place for the good of the order. The members of the Finance Committee of the Grand Legion were present, and reported the order in a flourishing condition financially, all death policies being paid up to date and a neat little surplus on hand. It is likely that the Grand Legion will meet in August at Bradford, Pa, and it behooves the subordinate legions to send some of their ablest members as representatives, as some very important legislation will be necessary to complete the organization. Comrade Fawcett, of No. 10, will represent that legion, which is certainly an excellent choice.

The comrades who were absent from Pitts-burg Legion No. 1 at its meeting last Monday night, have good cause to regret it. Besides a good attendance of its own members, a

night, have good cause to regret it. Besides a good attendance of its own members, a large number of comrades from other legions were present. Financial matters were explained by Grand Recorder Thompson, greatly to the satisfaction of the members present. It would have been well had all of those comrades who have bee censuring their Grand Commander been present. On this subject a large number of those present expressed their opinions, and all agreed that the bulk of the blame which has been placed on him for alleged neglect of duty has been wrongfully placed, and it was clearly shown that the censure should have fallen on those chairmen of committees and the committees themselves, who have abused the honor placed on them by entirely neglecting their duties, when there was urgent necessity for their work. In this connection, however, it is well to state to those comrades who are ignorant of the fact, that the Chairman of the Finance Committee, who has been blamed pretty severely for his inactivity, is a medical man whose popularity in the community in which he resides, causes an almost constant demand for his services at all hours, and in consequence it can hardly be expected that he could attend to his duties as Chairman of the same time. It would be well for those of us who do not have to answer the calls of suffering humanity to remember this, and not take snap judgment on a comrade who is thus situated.

Pittsburg Council is arranging a perma-nent initiation team for the purpose of perrecting the work. The question of making the National Council a representative body will come up for consideration at the session in Waterbury. Brother Deputy National Councilor C. B.
Wylle, formerly of this city, but now of East
Liverpool, O., is here. He called on several
members of the order last evening.

Through the efforts of National Councilor J. W. McCleary, Deputy National Councilor G. E. Kepple and Fred. J. Shaler, a resolution was introduced in the National Council of the Jr. O. U. A. M., and passed by that body, recognizing the D. of L., and making it compulsory upon councils of the Juniors to furnish the financial standing of their members who may apply for admission in the D. of L.

Deputy National Councillor G. E. Kepple is organizing a council in Washington, D. C. Nearly a hundred names have been secured, among whom are some of the real society, people of the national capital. The council will be instituted (if it gets a charter) with over 200 names, and will be one of the finest councils in the organization. A. L. Goodall, an active member of the O. U. A. M. has charge of the list in Washington.

charge of the list in Washington.

The national officers are carnestly desirous of having every council represented at the next meeting of the National Council. Low railroad rates have already been secured. The National Councilior has sent out a circular advising the councils of this fact. There is not a council in Pennsylvania that cannot afford to send at least one delegate, and it is hoped that all who can send their full quots will do so.

There have been several unnecessary de-lays recently in bandling the by-laws of the various councils by the National Law Com-mittee. Brother G. E. Kepple, a member, says it is due to no fault of his. The last mackage of laws that come to him had been ap-proved by the other members of the com-mittee 20 days previous to his receiving them. This explanation is made so that councils having by-laws on the way will

At the meeting of Unity Council on Friday evening, A. G. Waiters, Mrs. Orpha Berry, Mrs. Mary Gaily and J. P. Johnston were nominated for representatives to the National Council, which meets in Waterbury, Conn., in August. Unity is the oldest council of the order west of the mountains, and has been making some progressive strides lately. Arrangements have been made for the anniversary of the council, which will be celebrated by the members on July 3. The council has donated \$10 to the Southside Hospital. Supreme Vice President McMillen will leave the city early next week for Eastern Pennsylvania to work the interests of Solon. The supreme office was closed Friday out of respect to the memory of late Past Supreme President Albert E. Henser, M. D. A number of the supreme officers attended services and tendered their tributes of respect to the deceased.

Supreme President Ball has received a very interesting letter from Supreme Medical Examiner Dr. W. W. Cole, written from Salt Lake City, Utah. The doctor's health is improving rapidly. His next stopping place will be San Diego, Cal. place will be San Diego, Cal.

Charter Lodge No. 1 held an interesting meeting Monday evening. Supreme President Hall was among the visitors. Robert Godfrey, Jr., eldest son of Supreme Treasurer Godfrey, was initiated. No. 1 has quite a number of applications for next meeting.

It is with profound regret that the death of the First Supreme Past President, Albert E. Henser, M. D., is announced. Brother Henser had been in poor health for several months, and, although the end came suddenly, it was not wholly unexpected. He was one of the incorporators of Solon. Conservative, unassuming and of sterling qualities, he was an honor to the order. Memorials will be spread on the rolls of the Supreme and subordinate lodge and copies presented to the family of the deceased.

## Order of June.

Keystone Temple No. 7 held its monthly meeting at Moorhead's Hall, Grant street, Thursday evening. Notwithstanding the heavy rainstorm there was a fair attendance. Among those initiated were three lady candidates. Secretary James N. Bebout fead the resignation of Charles Anderson as Marshal. "Charley" is a confirmed old bachelor, and it is surmised that the presence of so many ladies has scared him out. Anton Butfelder, Tyler, expects soon to make a trip to the seashore for his health. The next meeting will be held July 2, at which time several candidates will be present for initiation.

A letter received from Supreme President Harper says that from the 1st of January until the present time not a claim has been presented for sick benefits.

Washington Temple No. 10 will hold its regular meeting at Allentown Wednesday evening, July 1. Every member who can should try and attend. Business of importance is to be transacted.

Allegheny Lodge No. 44 initiated four nembers last Friday evening. The lodge is members last Friday evening. The lodge is growing rapidly.

Pittsburg Lodge No. 55 gave an entertainment and pound social last Tuesday evening. A large audience was present and a very enjoyable evening was spent. After an address by President Charles G. Brown on the aims and objects of the order, Prof. Heneken's orchestra furnished some fine musical selections. Rev. Brother Thomson delivered an address in his most elegant style. The members wish their thanks to be extended to Brothers Stein and Gallinger for the fine musical selections rendered by them.

New York June 20 -The stock market to New York, June 20.—The stock market to-day was insignificant in every respect, and reflected only the waiting attitude of opera-tors, the trading being extremely small and the fluctuations strictly in accordance. The foreigners were inclined to buy, but the trading element was bearish, and there was no disposition to trade by domestic opera-tors. The feeling abroad was indicated by nigher figures in London this morning, and this produced generally higher prices at the opening here, which, however, were soon neutralized by the short sales by the trading element.
No material change occurred, and the expectation of a good bank statement, which poctation of a good bank statement, which was not disappointed, developed a firmer tone before the expiration of the first hour. Prices were, therefore, brought up to a shade better than the opening figures, and kept there for the remainder of the session. Lackawanna was the only feature of the day, developing marked strength in the last hour, moving up sharply on the buying of traders, and scored the only material gain of the day. Of the other stocks, St. Paul, Louisville, Burlington and Chicago Gas were more active than the general list, but failed to make more than slight fractional advance.

to make more than slight fractional advance.

Silver certificates were strong and active. The bank statement met all expectations, making a remarkable showing, and served to keep the market firm to the close, which was dull at the best prices, but only slightly better than last evening.

Railroad bonds were as dull as stocks, the sales reaching \$174,000, and while a firm tone still prevailed, the movement was scarcely perceptible.

The exports of specie from the port of New York amounted to \$2,751,898, of which \$2,890,601 was in gold, and \$131,907 silver. The imports of specie amounted to \$46,446, of which \$20,741 was in gold, and \$25,705 silver.

Uncle Sam Very Rich.

Uncle Sam Very Rich. Watson & Gibson sent the following to John M. Oakley & Co.: "There is a little cheap gossip going around to influence small speculators that the United States Treasury is 'hard up.' With the one hundred million gold fund and twenty-three millions depos-ited with the national banks it is a trifle bold to talk about the straits of the Treasury as a bear argument. If we were to enter the

ted with the national banks it is a trifle bold to talk about the straits of the Treasury as a bear argument. It we were to enter the autumn with the Treasury vaults full of money withdrawn from circulation, and doubts were present as to whether the Secretary might let it out by bond purchases promptly enough to prevent a stringency, then the bars would have more reason to predict trouble. We confess that we think the late Congress was absolutely iddifferent to and ignorant of the relation of revenues to expenditures, but with bankers willing to take the Government bonds at 2 per cent, the credit of the nation, by actual test, is higher than ever before.

"It is hard to see just what is going to produce tight money in Wall street. The banks in the West, as we have shown by actual figures prepared for us by she Controller of the Currency, have nearly \$14,00,000 more cash than a year ago, and as mercantile business there, as elsewhere, is dull nearly all the resources of the interior banks will be at the disposal of the farmers. The indisposition of bankers in Eastern cities to place their funds on time loans will probably operate to curtail commercial business and to leave a large proportionate amount free for brokers and speculative uses than would ordinarily be available.

"The outlook for Wall street values is certainly favorable, and sooner or later the speculative spirit will be aroused and will discount the magnificent harvest prospects. So far we believe that this has been very little done. Business may remain dull for some time, but we are running into a period of prosperity to which Wall street will show the way, just as a year ago we were running into a period of prosperity to which Wall street will show the way, just as a year ago we were running and semi-panied a falling and semi-panied a falling

Weak Points Counterbalanced. Henry Clews & Co. are hopeful. They say in their weekly letter: "The most significant event of the week was the reduction of the Bank of England rate of discount from 4 to 3 per cent. For months past London has been the objective point of interest, the storm center, so to speak, of the financial storm center, so to speak, of the financial world; and the clouds of distrust which had gathered in from all parts of the world threatened to burst with renewed fury over those intrepid racers on the sea of finance who had been carrying an over-press of sail in South American waters. The danger signal, however, has been lowered; the coulook is bright, and now that coulook is bright, and now that coulook is bright, and now that coulook is pright, and now that coulook is pright.
