#### BIG BOILER EXPLOSION

It Considerably Startles the People Around Massillon.

SEVERAL BUILDINGS BURNED UP.

The Engineer Instantly Killed While at His Post of Duty.

ONLY PART OF HIS BONES ARE FOUND

Massillon, June 21. - A frightful boiler explosion occurred between 3 and 4 o'clock this morning, at the Drake Coal Company's mine, two miles west of this city. The engine and boiler, used in supplying power to the works, were completely wrecked, and several buildings about the works were destroyed by the fire which followed the explosion. Henry Vogt, the night engineer, who happened to be the only one on duty at the time, was instantly killed by the force of the explosion, and his body was so terribly burned by the resultant fire that only a portion of his body

was found.

This afternoon the Coroner held an inquest, and called before the jury Rinehart Kellar, General Manager of the company, and D. W. Johnson, of Cleveland, boiler inspection Passurance Company. The latter testified that the big coincides the properties. testified that in his opinion the explosion must have been caused by low water in the boiler. Portions of the boiler were ex-amined, and indicated this idea to be correct. The loss to the coal company is about \$2,000, which is fully insured.

#### SUIT FOR A ROW BOAT.

It Is Dismissed for Want of Jurisdiction by 'Squire Dobbin.

TITESVILLE, June 21 .- Squire Dobbin, of Lincolnville, lying on the banks of a pleasant lake near here, has dismissed an interesting suit, for fear it does not come under his purisdiction. The case was that of Shreve vs Emerson, to recover the value of row boats which Shreve had out on the lake, and which he ciaims Emerson had destroyed.

Some years ago the Canadotah Club bonght a large tract of land, including the lake. They claim the right to control it, and say who shall and who shall not put boats on the lake. On the other hand the people in the neighborhood claim the lake is public property, and they can put boats on the lake, and fish and hunt whenever they see fit. This question, that is of interest to every sportsman in the vicinity, will likely be taken to court. Emerson, to recover the value of row boats

#### AN UNSATISFACTORY SCALE.

Sixth District Amalgamated Lodges Discus

It at Length. Youngsrown, June 21.—A general meeting of representatives from Amalgamated lodges of the Sixth district was held here last night, continuing until a late hour. The changes in the new scale limiting the time of charging in the finishing mills and also the ading in the finishing mills and also the advance in pay to puddlers' helpers was discussed at length, the sentiment being against these changes. A committee was appointed to visit the Amalgamated Convention in Pittsburg, and lay their grievances before it.

The helpers assert that if the puddlers do not grant the advance, they will unite and force the issue. The new scale is not satisfactory to either manufacturers or ironworkers, and unless changed, will not be accepted by the Mahoning Valley iron manufacturers.

#### A PLENTITUDE OF SNAKES.

Eleven Kitled and Relieved of Their Skins in an Hour.

MIDDLETON, June 21.-Chaunceford Stranss of York county, came into the city last even-ing and told the champion snake story up to date. He said that in the space of an hour he had killed near Middletown ferry eight blacksnakes, two copperhends and a garter snake, and to substantiate his story he pro-

snake, and to substantiate his story he pro-duced the skins of the sinkes.

The largest blacksnake measured five feet, and the copperheads were over two feet in length and were vicious looking reptiles.

Mr. Strauss says that vicinity is infested with the deadly copperheads, though up to encounter their fangs.

#### THE FOURTH AT ATHENS.

It Will Be Celebrated With Races and Other Festivities.

ATHENS, O., June 21.—This place is prepar ing for a great celebration on the Fourth of July. There will be a street parade; a chorus of school children's voices, bicycle racing

and a baseball game.

At noon there will be a picnic and a barbe At noon there will be a picnic and a barbe-cue, and later a tilting tournamant, and a number of interesting horse races. These last named will consist of a free-for-all trot, a free-for-all pace; mixed race, 2.35 class; mixed race, 3 minutes class, and a half mile dash. The purses aggregate \$1,300, and good horses are assured. Many have already been entered.

#### ARRIVED JUST THE SAME.

The Dispatch Reaches Bedford Springs Despite the Storm.

BEDFORD SPRINGS, June 21.—THE DISPATCE overland special that brought Tur Drs. PATCHES from Hyndman to Bedford Springs, a distance of 22 miles, to give the editorial excursionists the news, came in contact with a terrific storm between Buffalo Mills and Bedford, which resembled a water spout, small bridges were washed away and it was necessary to have several relays of horses before reaching here, where THE DISPATCH was eagerly devoured, it being the only paper reaching here to-day.

#### CHURCHES TO COMBINE.

The Best Interests of the Congregation Subserved That Way.

SPRINGPIELD, O., June 21.—An informal meeting of the Baptist congregations of this city was held yesterday, when it was decided that the best interests of the several congregations would be subserved by a union of all the churches in the city under one roof, and one pastor.

A meeting was called for some time next week, when definite action will be taken. It is understood the Rev. G. R. Richards will be the pastor of the united churches.

#### WATER PEOPLE PREPARING.

They Are Getting Ready for the Coming Political Campaign.

MERCER, PA., June 21.—The Prohibitionists of this county have issued an urgent call for a mass meeting in this city for Tuesday, June 23. The object of the meeting is to elect delegates to the State convention, and transact important county business.

Able speakers are promised for the event, which will probably be attended by the temperance contingent of this county, which is very strong, comparatively, to the work that has been accomplished.

#### STEVE WILSON STABBED.

He Is Attacked and Badly Wounded by a Gang of Toughs.

Youngsrown, June 21 .- Steve Wilson, a well-known colored man, was found on the street early this morning nearly dead from loss of blood, caused by numerous cuts from

Wilson asserts that Ed Sheridan, who recently killed Captain Stewart, of Pittsburg, and served a term in the Western Penitenti-ary for it, was his assallant, assisted by sev-eral other white toughs. The officers are searching for Sheridan and the gang.

#### FOUND DEAD IN BED.

Violence Is at First Suspected, but He Died Naturally.

morning. Violence was at first suspected, but it was Saints' Cathedral to-day, Dean Williams

Kopf Memorial Services. ALLIANCE, O., June 21 .- The Kopf memorial services were observed with great solemnity in this city this afternoon. Visiting Knights were present from Youngstown, Salem and Salineville. An imposing procession marched to the cemetery.

A NEW WAY OF FISHING. The Fish Warden Will Probably Find Way of Stopping It.

New Castle, June 21 .- Some parties at

Wampum have arranged an ingenious and successful method of catching fish. It is a oat, in which the seats are so arranged that the boat can be dipped, the water almost coming over the side. Just after dusk in the evening two men take their places in this bont, and row up one side of the Beaver river for a distance of about a mile, keeping the dipped side of the boat as near as pos sible to the bank. This contrivance can only

be used when the river is on the rise, as the

be used when the river is on the rise, as the fish then congregate along the shore. As the boat passes along the shore the fish become frightened and jump into the boat.

After going up, the boat is rowed to the other side, where the same tactics are pursued. No light is used, and the darker the night the better. The parties using this system have been at it for some time, and overy night come in with a large catch. The fish are unable to escape, owing to the bottom of the boat nearly touching the bed of the river, thus forcing them to jump directly into the boat. There is no law covering this lagenlous method of poaching, but it is probable that the Fish Warden will find some method of stopping it.

#### HIRED A SUBSTITUTE.

A Uniontown School Teacher Who Wante Time to Cast His Ballot,

Uniontown, Pa., June 21 .- Some time ag A. C. Woolsey, of Perry township, took a vacation, and put a substitute in to teach his school. The directors of the school refused to pay him, and he has brought suit. Mr. Woolsey taught the Summer Hill school in that township, and when he went home to vote he engaged Miss Annie Moss to take his place for a week. At the hearing before Justice Shank, of New Geneva, the directors presented a letter from Deputy State Super-intendent John Q. Stewart in which that centleman said they had done right in re-

gentleman said they had done right in re-fusing the pay for the week, as a teacher had no right to hire a substitute.

In order to make their annual report to the State Department, and receive the town-ship appropriation, the board has employed C. R. McDonald to teach the extra week dur-ing Woolsey's absence. Justice Shank took the papers and reserved his decision, and up to to-day he has not given out any opinion. All parties concerned in the suit for a few dollars had come some 30 miles to the Squire's, and after the tempest in the Squire's office the directors took a steamboat excur-sion. If the decision is against them they will take the matter to court.

#### BACCALAUREATE SERMON.

An Eloquent Discourse Delivered at Mend ville Yesterday.

MEADVILLE, June 21.—President D. H. Wheeler, of Allegheny College, preached his necalaureate sermon here this morning. He took Solomon's song, eighth chapter, sixth and seventh verses, as his text. His eloquent discourse upon the subject was listened to most attentively by a very large congregation. He divided his discourse nto 12 subdivisions and closed by saying:
"We have all heard that sneer of the "We have all heard that sneer of the trifling and frivolous about a never-ending song, and a never-ending harp, in the blessed world. But these figures of John are simply the promise no scoffer can take from us, that the human heart may by and by realize its dreams of a flawless life and a perfect song. What we want—in which all other wants meet—is life, more life, joy, more joy, unspeakable joy. And since joy always sings, the heavenly song and the heavenly harp are intimations of an unstinted gift of life and the high jubilate of immortal delight. Their simple sense is the dream come true—life forever more, life in fullness of joy."

#### A NEW SUNDAY TRAIN.

The First in the History of the Cleveland

and Pittsburg Road. ALLIANCE, O., June 21 .- For the first time n the history of the Cleveland and Pitts burg road, the Pennsylvania Company ran a scheduled train Sunday over that road. The object is to provide a fast limited train between Cleveland and the Eastern cities. The train arrived here at 18:05 s. w., on the Pittsburg, Ft. Wayne and Chicago, and left on the Cleveland and Pittsburg at 10, reaching Newburg, a distance of 49 miles, where it strikes the city limits of Cleveland, in 65 minutes. Returning this train arrives here minutes. Returning this train arrives here in the least showing for either coppay, June 22, at 2 p. M. Friends of the family it strikes the city limits of Cleveland, in 65 minutes. Returning this train arrives here at 3:16 r. M., connecting with No. 6 on the Pirtsburg, Ft. Wayne and Chicago road. This train makes faster time than any other on the entire Pennsylvania system west of Philadelphia. The charter of the company provides that no train shall be run on this road on the Sabbath day, but it is not likely that any trouble will arise from this new departure.

#### BRAVE FIREMEN REWARDED.

They Fought Nobly and Saved Much Property From Burning.

ALTOONA, PA., June 21 .- P. H. Walls, Manager of the Cresson and Clearfield Coal and Coke Company, of Frugality, has shown his gratitude to the firemen of this place, who fought so nobly to save the property of that cought so noted to save the property of that company, and of the village of Fringality during the severe forest fires that lately threatened to devastate that village, and no doubt would have swept the town had it not been for the timely assistance of the Altoona

been for the timely assistance of the Altoona Fire Department.

Yesterday a check was received from the company at Frugality for \$250, to be paid the members of the department here for their work. The money is to be paid to the mem-bers of the Vigilant. Excelsior and Patrol Company, and makes a neat little sum for each member of the company.

#### DESTRUCTION OF FISH.

Thousands Found Floating on the Surface of Lake Conneaut. CONNEAUT LAKE, PA., June 21 .- Thousands

of dead fish are floating on the surface of the lake here, and every day the proprietors the lake here, and every day the proprietors of the several liotels walk along the beach and bury the hundreds of fine fish that fleat ashore. Many of the dead fish are 10 and 15-pounders, while they will average fully three pounds in weight.

There is no doubt the fish are killed by dynamiting, and unless the contemptible business is soon stopped, the glory of the lake for excellent fishing will soon depart. It is a strange thing that spottsmen and hotel men here do not put a stop to work that is depriving the lake of its chief attraction to thousands of summer tourists.

#### NEW RIVER STEAMBOAT.

It Will Run Along the Monongahela for the Market Trade.

ELIZABETH. June 21 .- A steamboat is being built at Wiegel Bros.' yard which is built at Wiegel Bros.' yard which is intended for the market trade along the Monongabela. The boat is to be run between Pittsburg and the towns on the upper Monongaliela. The officers on the boat will undertake to fill orders from merchants of Pittsburg, Mc-Keesport and other places, for produce and farm products, which they will fill up the river.

They will also take orders from up river people, which they will fill in Pittsburg, thus providing for a cargo of goods on both up and down trips.

#### AN ANNUAL SERMON.

Preached to a Large and Select

New Wilmington, June 21.-The annual Sew wikinglos, June 21.—The annual baccalsureat serinon was preached by Dr. Ferguson in the Second U. P. Church this evening. The house was crowded to its utmost capacity and many were taken away, being unable to get standing room. The doctor took his text from the second chapter of Phillipians, eighth verse, "Obedience Unto Death."

Unto Death."

Three points were discussed. First—What is law and its relation to the condition of men. Second—Christ's obedience to God. Third—The attractive example which his obedience furnishes his followers.

#### WISCONSIN'S BISHOP-ELECT.

It Is Believed That Rev. Mr. Nichol NEW CASTLE, June 21.—John Steel, a colored man, was found dead in bed here this Accept the Honor. MILWAUKEE, WIS., June 21 .- At All

decided by physicians who were called that heart disease was the cause. He was 32 years of age, and cause here from Steelton four weeks age, where he has a wife and two children. here this week to attend the meeting of the Nashotah Mission Home trustees, and would then give his final decision as to his accept-ance of the election as Bishop.

The feeling here is that he will accept.

### VERY RICH IN GOLD

Are Most of the Discoveries Now Being Made in Colorado.

SUMMER WORK IN FULL BLAST.

Many Old Mines Respened and Operated With Good Results.

PAYING VENTURES IN SEVERAL FIELDS

[SPECIAL TELEGRAM TO THE DISPATCH.] NEW YORK, June 21 .- The following reports have been received from the mining enters of the West:

Denver-Summer work in the Colorado mines is now fairly under way, and news of mportant strikes is received daily. From Lake City comes news of a strike in the Golden Fleece property made by Charles Davis. The ore was found in a body, and is rich tellurium. At Pitkin the Silent Friend is taking out good mineral. At Crested Butte new properties are being worked and old ones started. Cripple Creek shows gold discoveries. The camp seems something of a mystery. A correspondent writes: "The fact is, it is a puzzle to the people here why so few men come to these mines when they are so promising, quartz assaying \$40,000 a ton."

Aspen shows its usual excellent work and

steady output, with no especial new fea-tures. From Ophir, near Telluride, comes news of preparations for more extensive work on the Caribou Mine, a contract for 20,000 timbers having been let. Silverton reports the sale of the Crowley Mine at Chattanooga to the Silver Ledge Company, for \$80,000. The Silver Ledge Company will near the preparation of the contract of the contract of the silver Ledge Company. will work the property extensively. In Park county the Colorado Comstock has exhibited some remarkably good ore. Around Ouray mining was never in a more prosperbus state, or, indeed, throughout the San Juan generally. The American Nettie at Ouray recently shipped 20 tons of ore, which was valued in gold at \$10,800. The Hew and Lake Mines, on Red Mountain, have been bonded to an Eastern syndicate.

Old Mines Being Reopened.

Son Francisco—The North Star Mine, Amador, will be reopened and worked this summer by a company that has bonded the property on liberal terms. The Comet Mine will be prospected through the North Star. The Hirsh Mine, Inyo, which has lain idle for a number of years, is being worked and is developing into a small bonanza. Ten tons of ore recently shipped gave a return of \$1,347. The ore assays 73½ per cent lead, 664-10 ounces silver and \$10 gold per ton. For about a month past each tenth lead, 66 4-10 ounces silver and \$10 gold per ton. For about a month past each tenth load of gravel from the Harmony Mine, Nevada county, has been put aside, with a view to determining whether much gold is lost in the washing process. The Union Consolidated Mine, Phineas, half of which is owned by an English syndicate, is producing \$20,000 a month.

Lucky Dan Higgins, an old silver pros-pector, recently discovered a rich silver lead in San Diego county, extending from the Mexican line some 30 miles northwest, and nine locations have been made in the and nine locations have been made in the new camp, which is near Dos Cabezas Springs. Following are the results of an assay of ore from the claims made last week by W. S. Young, of San Diego: Virginia, \$271 per ton; Charleston, \$278 32; Washing-ton, \$68 88; Silver Hill, \$98 50; Silver Peak, \$74; San Diego, \$83 33; California, \$36 73.

Great Activity in New Mexico.

Silver City-Mining men at Hanover are Silver City—Mining men at Hanover are much elated at the prospect for that camp, and there is every indication that within three months Hanover will be producing more ore daily then any other camp in the Territory. The rails have been laid on the Silver City and Northern Railroad about one-third of the distance to Hanover, and the line will be completed to that place early in next month. Since work was commenced on this line there has been a lively scramble for the possession of claims there. there was the least showing for either cop-per or iron mines, so that now there is hardly a foot of ground within three miles of Hanover guleh which is not located.

There are mountains of iron and coppe ore which cannot be worked out for dozen ore which cannot be worked out for dozens of years to come, while only four miles distant are the 40 mines of the Santa Rita Copper and Iron Company, which have never been offered for less than \$1,000,000.

Operations in the Gold District.

Idaho City—The property of the Gold Hill Company at Quartzburg has been ex-amined for a Colorado company. The ex-pert recommends the mines very highly, so there is no doubt that the transfer will be made in the course of two or three weeks. John McKay has located a mine three miles northeast of the Horn Silver, in the Eldorado district, that gives great promise. A little over a year ago four energetic miners, after. Notice of time of funeral here with good standing qualities, secured the Hard Scrabble, in the Gambrinus district, a mine that has yielded very rich gold ore on the surface, and began running a long tunnel to tap it at a depth of about 300 feet. For over a year they worked day and night in the hardest rock ever run through in the district. They now have a heavy flow of water in the face of the tunnel, which is in over 600 feet, and have crosse two stratas of quartz that prospect well in gold. The miners at the Washington have broken into a vein of very rich gold ore, much larger than any heretofore discovered in the mines. During the past three weeks the ten-stamp mill turned out \$6,000, run-

ning days only. Thousands of Dollars a Day.

Tucson-Encouraging news comes from every mining section of Southern Arizona, which includes all the country lying south of Mojave, Yayapian and Apache counties to the Sonora line, west as far as the Colo rado river and east to the line of New Mexico. In this section there are many valuable mines that are now producing thousands upon thousands of dollars every day, and, though many of them have been worked for 20 years they are the Colorador. worked for 20 years, they are still good ore producers. The Antelope, in the Catalinas, owned by General Johnson and associates, is giving every evidence of being very profitable. In the Olive camp there is an

increased activity and a large quantity of ore is being taken out from the mines that are being chlorided.

With the sudden and unexpected death of the old pioneer, M. D. Hayden, near Campo, Cal., last week, dies the secret of the existence of coal West of Yuma, on the Colorado desert. That he found coal there in three different locations can't be doubted, for he exhibited the samples and also

# DELICIOUS Flavoring

LATURAL FRUIT FLAVORS.

Of great strength. Economy in their usc Rose etc. Flavor as delicately and deliciously as the fresh fruit. proved them at his forge at his cattle ranch between Coyote Wells and Clarise Creek. It is a well-known fact that a coal measure exists, extending from the Carisso Mountains southerly, via Signal Mountain, across the desert to the Cocopah range.

RIVALS OF FATHER MOLLINGER.

A Band of Chicago Christian Workers Praying Sick Folk Weil. CHICAGO, June 21.-Last November

CHICAGO, June 21.—Last November Charles H. Weeks, an expert accountant of this city, was, he says, injured by falling from a railroad train at Toledo, since which time he has been an inmate of the county hospital here, apparently suffering from a serious nervous trouble which physicians were unable to name or cure.

Friday a number of revivalists and "Christian Workers" from various parts of the country, who believe in healing through faith, began a series of meetings at Western faith, began a series of meetings at Western Springs, a suburb of this city. Weeks was among the sick and crippled people who were taken to the place to be prayed for, and he claims suddenly to have been restored to health last night through faith. A number of similar cases are reported.

#### A MANIAC'S SUDDEN FREAK.

While on Shipboard He Snatches His Child

and Throws It Overboard. NEW YORK, June 21 .- The steamer La Bretagne, which arrived here to-day from Havre, reports that Joseph Feys, aged 40 years, a steerage passenger and native of Switzerland, while conversing with his family, consisting of a wife and five children, suddenly dragged his 5-year-old son, Pierre, from his mother's arms and threw him into

the sea.

The child was lost, and the father, who was apparently insane, was seized by the officers of the ship and put in irons. He had threatened to throw all his children

CONFESSED ON A DEATHBED. The Mystery of a Western Murder Cleared

Up by the Death of a Desperado. WICHITA KAN., June 21.-For over year the mystery surrounding the murder of Christopher Helm, a wealthy cattleman, whose body was found on the Cherokee Strip riddled with bullets two weeks after he had been killed, has baffled the authori-

A few days ago a burglar was fatally shot at Cherokee, Tex. Just before dying he confessed that he and a man named Ben Scott killed a man named Helm and robbed his body of a large sum of money. It is said that the authorities have Scott located.
