AFTER MOONSHINERS.

A Desperate Battle Expected in West Virginia Mountains.

THE GANG RULES A WHOLE COUNTY

Oil Is Now to Replace Coal in the Manufacture of Stoneware.

A HYDROPHOBIA CASE TWO YEARS OLD

[SPECIAL TELEGRAM TO THE DISPATCH.] CHARLESTON, W. VA., June 24.-A posse of marshals are on their way to the mountain | burg. rendezvous of notorious Preston Multius and his gang, and the people of McDowell county are hourly expecting news of a terrible fight when the two factions meet. A party of 25 deputies passed through Peerey-ville, McDowell county, on their way to Mullins' mountains, where for a number of years a party of 56 persons, under the leadership of old Muslins, have been making moonshine

There are a number of women in the gang, There are a number of women in the gang, but they play the part principally of spies. The men are a desperate set, and have carried on their work openly, as the officials of the county are afraid to make any attempt to break up the business, and the gang has been running that county just about as the members pleased.

members pleased.

A few weeks ago a posse of officers went up into the mountains and located the gang at their work. The outlaws, however, opened fire on the officers with their Winchesters, and the latter were forced to beat a hasty retireat. Two of their horses were wounded, but no one was lurt, though the bullets whistled unconfortably close to their heads. Last fall a brutal nurder was committed by some of the gang and warrants were issued, but no officers could be found brave enough to serve them.

to serve them.

There are also other warrants out for the arrest of Mullins and other members for petty depredations on neighbors, but these warrants also are useless. The United States officers have now taken the matter in hand in earnest and will hunt the gang to earth.

The latest reports from the scene are that the 26 marshals have located several of the fillest stills, but the proprietors had disappeared, and it is thought the gang has gathered together to make a stronger fight when together to make a stronger fight when

A NEW USE FOR OIL

It Seems Destined to Displace Coal as Fuel

in Stoneware Works. Annox, June 24.-An experiment is now eing conducted in this city which may revolutionize the manufacture of stoneware, whiteware and sewer pipe. At the stone-ware factory of Whitmore, Robinson & Co. a kills has been provided, with apparatus for the burning of ware by the use of oil instead a coal, with a view of proving the relative cost of the two methods. If the system is found to be a success it will be adopted by Il the factories in this city making clar-products, as well as by those of Barberton. The first kiln burned by those of Barberton. /
The first kiln burned by the new process
was opened to day and will be drawn as soon
is it is sufficiently cool. One or two pieces
were drawn to day, and the ware was fully
segood as that which is burned by coal.
The process used is called the Aerated Oil
y-tem, and has never been applied to the
burning of clay products.
