

frail of breakers to commit themselves to an extent worth speaking of. The Republicans in the State of Indiana have had a man for Chairman Andrews since he used his official position to promote nominations, and when Delamater's star went down Andrews' sun commenced to set. A question, which is more interesting to the leaders is whether he should be allowed to serve out his term or not. C. L. Magee has declared strongly against him, and he says Mr. Anderson, who is set down as soon as the next convention meets.

**COOPER'S OPINION ON THE CHAIRMANSHIP.** Some new light was thrown on the fight yesterday by one of the editors of the State Editorial Association who was on his way home from Atlantic City, where the organization enjoyed its annual outing. Thomas Cooper, by virtue of the fact that he runs a country paper, was on hand at the seashore, and he spent the week in gathering political information about various parts of the State from the editors. The red-headed ex-Chairman is on the inside, and can always get the inside story. He has been told the editor in question that Andrews was willing to step down and out, if the party would square the books. Owing to the Chairman's method in the last campaign, the Committee said in the committee was badly in debt, and Andrews thinks if he were permitted to run things this fall he could straighten out affairs.

**THE WATER BUREAU IS FORCED TO RETURN TO THE USE OF COAL AND WILL ADOPT SMOKE CONSUMERS.** A cloudless example to all is the idea Mr. Wilcox would like to bring out by placing them in each station.

**POSING FOR PURITY.** The matter was brought out by a conversation between Superintendent Wilcox and Senator Flink in an elevator. Mr. Wilcox opened the matter by stating that bids were in for fuel for the coming year and that coal would have to be used. He closed with the remark that it would make an awful lot of sense.

**LADIES ARE JUBILANT OVER THE MOVE.** The ladies who have been working so hard to liberate the nuisance caused by smoke are jubilant over the idea that the city will have a partial combustion of fuel. The women are still conducting their warfare, and yesterday they received the following able ideas on the smoke nuisance from Mrs. Lewis.

**WORTH WHILE TO BRADICATE.** The extent to which beneficent reforms, science, and inventive genius have been directed in the abatement of these hills is worthy of our admiration and respect in every direction with us, and that it is worth our while to expend some means, time and labor in its eradication.
