

AMERICAN SHEPHERD

Opinions of an Englishman on Pittsburgh and its Many Advantages for Manufacturers.

CHAT WITH AN EX-LEAGUE UMPIRE

W. S. Wykoff Tells How He Managed to Get Along with the Ball Players Without Fining a Man.

SOME ADVICE ABOUT PLANTING TREES.

Hotel Bell Boys in Washington Have a Very Wholesome Fear of Mr. Blaine.

Henry Webb, one of the English iron and steel delegates who visited America last fall, has written a series of letters which he has done in pamphlet form for the benefit of his friends, giving his opinion of the places he saw.

Writing about Pittsburgh Mr. Webb says: "Pittsburgh is the Sheffield of America, and is the center of the iron and steel industry. Both here and in Philadelphia the paving is as bad as bad can be, but Pittsburgh seems much rougher than New York or Philadelphia. The houses and buildings are not so good, but the town is filled with life and bustle. They are highly favored with everything, natural gas being close to the city. This is used in all the works and houses, and they have no dense black smoke. Last year the amount of natural gas used represented 600,000 tons of coal so that anyone can imagine what an income it is to the city. The oil fields lie almost wholly in the basin of the Allegheny river, to the northeast of Pittsburgh. The total production of the first eight months of 1890 was 18,333,849 barrels. There seems to be no certainty of knowing whether oil is present in a locality or not, and it can only be determined by boring. In one field from the hill where we stood 23 wells could be seen. The petroleum industry has done a great deal to develop steam pumping machinery and the manufacture of cast and wrought iron pipes. Oil refining is also an important industry. The total railroad tonnage of the city for 1890 is estimated at 27,000,000 tons, and the total number of cars handled in one month is 110,000, with an average load of 20 tons each.

A CITY TRYST.

The Crowded Courts of Smithfield and Fifth in Request With Lovers.

"I had occasion to wait at the corner of Smithfield street and Fifth avenue for something like an hour this evening," said George Hibberd last night, "and I was astonished to find what a trysting place for lovers that crowded corner is. The corner I mean is the one outside the Pennsylvania Railroad ticket office. While I was standing there I have seen a couple of men at that point there must have been 20 at least in less than 60 minutes, or one couple for every three minutes. As a rule after they met they went into conversation, more or less tender, right in the main channel of the extraordinary traffic, for five or ten minutes. They generally appeared to care nothing for the suffocating atmosphere, and pedestrians bestowed upon them, and when they moved away went because they wanted to and out of no consideration for others."

PLAINT OF A CONDUCTOR.

A Pullman Man Kicks on White Vests and Heavy Clothes.

"It would be a humane act to allow the Pullman conductors to dress in negligee shirts during the summer," remarked one of the men who ran the limited last evening. He was dressed in faultless manner in a suit of blue, with a stiffly starched white vest, and a high collar encircled his neck and made extensive mounds on his shoulders. His clothes were polished, and he looked much like a captain of militia in dress parade.

EXCURSIONS THIS WEEK.

The Season Opens to Atlantic City—Low Rates for the Fourth.

The excursion season proper will open this week with the first excursion to Atlantic City on the B. & O. road on July 2. All sorts of low rates will be offered about the Fourth by all the roads. The B. & O. has made a half rate to Minneapolis between July 9 and 12 for the benefit of the Christian Endeavor Society, which holds its annual meeting there this year. The same rate is offered to Hagerstown for the convention of wheelmen between July 2 and 4. The usual excursion trains to Ohio will be run by the Baltimore and Ohio on the 10th.

CHAT WITH AN OLD UMPIRE.

Mr. Wykoff Says in His Experience He Never Fined a Player.

W. S. Wykoff, an old league umpire, was at the Anderson yesterday. He is now a New York lawyer and left the ball field because he could do better in other walks of life. He is a graduate of Princeton, and will be remembered as one of the most successful umpires that ever walked on a diamond.

A LOUISVILLE BEER SIGN.

How a Southern Saloon Man Reminds His Customers to Pay Cash.

"Louisville is noted for many things," said a Pittsburgher yesterday who had just returned from a river trip to that city. "But the principal thing is, during the winter months it is also considered a town of some educational importance. I went into a saloon there not long ago to get a drink of beer when this sign in big black letters confronted me:

To trust is to bust, and to bust is to lose. No trust, no bust, no loss. No trust, no bust, no loss.

"I laughed, laid down my nickel and walked out. I suppose this is not a fair sample of their educational attainments, but if it keeps the old German's customers from asking for tick the rhyme was not produced in vain."

TIME TO PLANT TREES.

An Observer Advises That They Be Put in the Ground in the Fall.

"The best time to plant trees," said Principal Jacobs, of the Blind School, yesterday, "is in the fall. During the winter the ground settles around the roots, and the tree gets ready to grow in the spring. If the tree is put in in the spring, the weather is uncertain, it may be dry during the summer, and the chances are it will die."

BELL BOYS AFRAID OF BLAINE.

The Secretary of State Inclined to Be Cautious When Not Feeling Well.

Chief Justice of the Supreme Court, for several years before he came to Pittsburgh held the same position in the Normandy at Washington. Secretary Blaine and William Walter Phelps took rooms in the house, and this fact heralded all over the country by the newspapers made the hotel. Mr. Wells is a great admirer of Blaine, and he had an excellent opportunity to study his habits. At times when his guest was a little worse than usual, and he was bothered by callers and affairs of State, the Plumed Knight inclined to scold down the young man who would growl at his Secretary,

SPORTS IN THE SUN.

East End Athletes Dedicate Their New Gymnastic Club Grounds.

SEVERAL INTERESTING EVENTS.

No Records Are Broken, but Some Very Creditable Work is Shown.

FULL DETAIL OF THE DAY'S EXERCISES.

The East End Gymnastic Club held its first field day yesterday under very favorable conditions. If ordered in advance the weather could not have proved better suited to the occasion, though it must be admitted that a trifle less heat would have been better for the athletes just as well. The sun shone out of a clear sky that had no cloud in it, but a soft breeze that blew across the grounds in a measure modified the effects of his too powerful rays. Save for the shelter afforded by several tall shade trees which looked down upon the inclosure from without the fence, there was no protection for the visitors of whom, though not as numerous as had been expected, there was a fair attendance, with a goodly sprinkling of the fair sex. These occupied a stand adjacent to the finishing post, and sheltered themselves, as best they might, with sunshades. During the afternoon many other visitors drove onto the ground in buggies, and before the ball game commenced there was a fair audience on the spot.

An Expected Boom in Athletics.

It is expected that this meeting, the first of a monthly series which will be held until the close of the season, will give the club the rest and encouragement it needs. Though the membership numbers 300, not more than 30 or 40 men take an interest in the athletic end of the institution. With opportunities within the club of extending interest in out-door sports, it is regarded as surprising that the Gymnastic club has not succeeded in attracting more men of athletic bent than it has. The field day yesterday is a very good result in this direction. The management has decided not to give prizes for each occasion, but the men with the best records at the end of the season will receive a valuable acknowledgment of their prowess.

Prof. Kirchner acted as clerk of the course yesterday and it was not his fault that the various events were brought out with more of lost time than was necessary or desirable. W. A. Stanton was referee; D. Sheehan, starter; J. A. Wells, H. Henry, Jr., J. Davis and E. McQuinn acted as judges; James Gardner, Jr., J. C. Moore, and W. H. Hastings as timers, and A. G. Bireland announced the various events, which were as follows:

Proceedings Were Commenced at 1:15 o'clock by a contest at hammer throwing.

J. B. McKennan flung the iron 61 feet, Addison Boren being next with 59 feet 4 inches and A. Jarrett third with 55 feet 2 1/2 inches. Putting the shot was the next item. A. Jarrett winning with a distance of 29 feet 11 inches. H. C. Fry was second with 29 feet and J. B. McKennan third with 28 feet 7 1/2 inches.

The 100-yard dash was run in two heats, H. C. Fry winning the first and G. M. Laughlin, Jr. the second. The deciding heat was carried off by Laughlin, and rather easily, in 10 1/2 seconds. Fry was second, Jarrett third and C. S. Miller fourth. Record, 9:30 4-5.

Four contestants out of six entries came to the scratch for the one-mile bicycle race.

E. E. Kehean and J. E. Duff were first away, closely followed by W. Ady and J. B. McKennan. The race was maintained for the first two laps, when Stewart dropped away and Ady on entering the third lap forged ahead, but could not get near Ady, who ran a good race, but lost 48 seconds, Kehean being second. Record, 2:43.

An Interesting Run of a Mile.

Of five entered for the one-mile run four toed the scratch. J. McGrew got away with a good start, but was quickly overhauled by J. Davis and G. Keenan, while W. L. Watt failed to draw near the leaders and was never in the race. This order was maintained until well on to the concluding lap, when, about half way around, McGrew drove away with a 30-yard lead and never caught, winning easily by 30 yards from Davis, who was separated by 20 yards from Keenan. Watt gave up on the second lap. Time, 5 minutes 8 seconds. Record, 4:24 4-5.

The 220-yard dash was killed to be run in two heats, but as only five runners out of 13 entered put in an appearance it was decided in one. Laughlin again showed fine speed and won by three yards from Fry, with A. Jarrett, Addison Boren and E. D. Batcher well up in a bunch. Time, 26 1/2 seconds. Record, 22:1 1-5.

The hop, step and jump contest brought out all the men entered but one. In the first heat D. D. Miller cleared 5 feet 2 inches; C. S. Miller, 38 feet 10 inches; J. B. McKennan, 39 feet 7 inches; Addison Boren, 36 feet 8 1/2 inches; A. Jarrett made a foul. In the next heat DuBarry came up to 37 feet, and Boren to 37 feet 10 inches. McKennan won, with Miller second and Boren third.

There were three contestants for the half-mile bicycle race. W. Ady got the best of the start, with J. E. Duff next and E. E. Kehean in close pursuit. This order was maintained until 900 yards from home, when Duff fell, and Ady came away winning easily from Kehean.

Not a Bit of Trouble to Win.

G. Collins, J. McGrew, Addison Boren, S. Middleton and H. C. Fry toed the line for the 440 yards dash, out of 11 men entered. Fry got a little the best of the others at the starting shot, and was never overtaken, winning easily from Collins, second, and Middleton third. McGrew dropped off. Time, 55 seconds. Record, 50 seconds.

The spectators seemed to take more interest in the running high jump than in any preceding event. The contestants were Du Barry, Boren, Miller and McKennan. Each man's style was very different, and he was watched and followed closely, and any peculiarities were conspicuously in the men created interest as the bar was raised over and over again. McKennan's style was very pretty. He reached the bar in three or four slow strides and popped over, half turning as he landed. Miller advanced with more of a dash and cleared the obstacle with his feet well drawn up under him. DuBarry was a strong jumper, while Boren's peculiar hop as he measured the distance to the takeoff evoked a smile from the ladies who were not initiated into the mysteries of athletic training.

Another Record That Wasn't Broken.

One or two frogs were made, but afterward redeemed until Miller cleared 5 feet 2 inches, a height that was just beyond the others. DuBarry and Boren tied for second place with 5 feet 1 inch. Record, 5 feet 10 1/2 inches. H. C. Fry pulled off another victory in the 220-yard hurdle race, winning from McKennan in 31 1/2 seconds. C. S. Miller had a yard place when he fell. Record, 22:1 1-5 seconds.

This event brought the time up to a point 4 o'clock, when the grounds had to be given over to the ball game. Accordingly the remaining events, the two-mile bicycle and half-mile run, were postponed until evening. The ball game between the home team and the Climax Club apparently had more interest in it for the friends and supporters of the Gymnastic club than the trials of strength and skill in the pure athletics which had gone before. From 3:30 o'clock onward, visitors arrived in goodly crowds, and when the game was called, at 4 o'clock, the spectators numbered 1000 persons or more. The result of the game will be found in another column.

MANIA FOR STEALING RIDES.

Pennsylvania Detectives Kept Busy Keeping Tramps Off Trains.

"We are bothered a great deal this summer by people stealing rides on passenger trains," said Special Agent Hampton Houghton, of the Pennsylvania road, last evening. "It is worse this year than it has been for a long time, and I suppose the numerous strikes are responsible to a large extent. A great many people try to beat a ride and are able to pay. It got to be quite a practice for them to jump on the fast line at East Liberty. They would hide on the bumpers between the baggage cars and the engine, and I put some detectives there to watch, and as soon as one boards the train he is arrested. It is surprising how many we have caught at this station lately."

Judge Slagle Won't Uphold Decoy Telegrams From Detectives.

NOT HIS WAY OF DOING BUSINESS.

The Fitzsimmons Gang to Be Arraigned To-Morrow for Burglary.

GLEANINGS FROM THE COUNTY COURTS

Those Leaving the City Can obtain information as to rates and accommodations of many resort hotels, inns and cottages by applying at THE DISPATCH business office.
