..... 7 Cincinnati 1 A prominent turf authority in the East has the following to say relative to the indefinite suspension of the famous jockey, Garrison: "Just this and nothing more. It meant that one of the best jockers in the country had been the first to be made an example of by the new racing board, and that he was not to be permitted to ride on any of the Eastern tracks. There is no reason given as done 'on general principles.'

"It is assumed by many that Garrison is rullty of pulling Judge Morrow at Sheepscallty of pulling Judge Morrow at Saceps-iead Bay and of doing the same thing with bequiman at Morris Park. But on the other and, it can be assumed that while the Snap-ier is guiltless of both of these charges, the eard considers that the public will be better

without than with his services.
Whichever way the matter is looked at,
must be acknowledged that the Board of control composed as it is of fair-minded and equitable people, must have had strong evilence upon which to base its ruling. Garrien rode for two members of the Board, dessrs. D. D. Withers and Philip J. Dwyer. Cheir influence evidently could not out-ceigh the evidence, whatever it may have

meen
Though it has been openly charged that
Garrison pulled Judge Morrow last week,
the writer has some doubts on the matter.
There is a reasonable doubt, and Garrison
should receive the benefit of it. In the race
in question Judge Morrow was badly beaten
by Tulla Blackburn, at a mile and a sixicenth, in 147, very fast time. Tulla Blackburn carried 115 pounds and Judge Morrow

"A few days afterward Judge Morrow cartied 113 pounds and defeated Banquet and thers, a mile and a furlong in 1362-3. On vednesday Judge Morrow again won, carting 123 pounds at a mile and a furlong in 1361-3. He was whipped out. Now compare lesse performances with the race which full Blackburn ran yesterday.

"She carried 122 pounds, only a pound less han Judge Morrow did on Wednesday, and an a mile and an eighth in 1:33-45, winning in canter. Whipped out, she could have overed the distance in 1:55. It must be come in mind also that a mile and a forlong a trifle further than Tulla Blackburn was ogo. In comparison Tulla Blackburn to-day better than Judge Morrow.

"These things are in Garrison's favor, hey should go a long ways toward refutging the timing that he pulled Judge Morrow, he trouble is that Garrison is a very talk-dire young main and his tongue gets him not trouble. He is expected to win all the me, and when he does not the cry immeditely goes up: "The Snapper yanked the arse. St. Louis Amateurs Want the Right to Have

WORLD'S EXPOSITION

Central American Republics Decide to Be Represented.

THE DECREE OF GUATEMALA. Date of the Unveiling of the Great Colum-

bian Monument WILL MOST PROBABLY BE CHANGED

WASHINGTON, June 28.—Captain Gilbert P. Cotton, Special Commissioner of the World's Columbian Exposition to Central America, reports that the Government of British Honduras has accepted the invitation to participate in the World's Colum bian Exposition and has appointed commis-sioners to look after an exhibit. The commission consists of the Hon. J. H. Phillips, Frederick Gahue, Esq., M. D., E. C. Connor, Esq., J. M. Currie, Esq., W. S. Marshall, J. M. Moir, M. D., Sydney Cuthbert and F. Fisher.

The first act of the new Ministry, which has recently been appointed in Guatemala, was to issue a decree concerning the representation of that country at the Chicago Exposition. The Diario Official of June 5, which arrived by the last steamer, contains the following, issued from the executive

palace:

Whereas, The Government of the Republic has been invited by the United States to take part in the World's Columbian Exposition, to be held at Chicago in 1893; and, Whereas, In order that the nation should properly respond to this invitation and show to the world its resources and elements of prosperity in this peaceful contest, it is necessary that the Republic of Guatemala be represented at this great exposition.

Therefore, it is decreed:
First—That the Republic of Guatemala take part in the Exposition which will be held in Chicago in 1893.

Second—That the products and articles destined for that exhibition may be acquired by paying their value out of the public treasury, and be carried to their destination for account of the Government, and without any

account of the Government, and without any taxes being levied thereon by officers of the Hepublic.

The Minister of Progress will take charge of the execution of this decree, taking the necessary steps, appropriating the necessary sum, and organizing the commission to early it out.

Ecuador Will be There. A report was received to-day from Mr.
Tisdel, the Commissioner of the Latin
American Department of the World's
Columbian Exposition, who is now at Quite,
the capital of Ecuador. He confirmed his
cablegram received some two weeks ago announcing the acceptance of the invitation to
participate in the Exposition by that republic, and says that the government will crect
its own building at Chicago.

It is the intention of President Flores to
hold a local exhibition at Quite during the
months of November and December of 1892,
the object of which is to interest the people

the object of which is to interest the people in the display of the national resources and industries, and secure a collection of native products and antiquities which may after-ward be transferred in bulk to Chicago. In this way the President thinks that he will be able to secure a much larger exhibit from Ecuador than could be obtained for Chicago alone.

The last was written on Friday at the Foot The last was written on Friday, at the East-ern headquarters in this city, by Special Commissioner Alex. D. Anderson. In it he says: "If you select October 12 for the unveiling of the statue at New York, the ceremonies will necessarily be somewhat of J. P. S.—B wins, as there were two men who had better batting averages than the player you will on that day be the center of attraction. April, 1893, the ceremonies will be both nal and international in scope and more commensurate with the grand pur-

ose of your patriotic work." A Flagship Will be Reproduced. "In this connection it may be mentioned that plans have already been prepared for a reproduction of the flagship of Columbus, the Santa Maria, and that she will lead and be saluted by the fleet at the international eview. Also, that it is believed that the neads of many foreign nations will be present in person in April, 1893, to participate in the ceremonies, as, for instance, the Emperor of Brazil, Dom Pedro, was present at the Philadelphia Centennial in 1876. It therefore seems that you have everything to gain and nothing to lose by selecting April,

93, for your celebration.
"In brief, the Exposition management, "In brief, the Exposition management, the official representatives of American States and the republics and the nations of the Old World would like to participate in your ceremonies and help make them as grand and impressive as possible, if you will select a date when they can be present. With co-operation and reciprocity between New York and Chicago, the commemoration at each place can be made international in the fullest sense."

While the roads have claimed all along that they would not make any effort to compete with the Central, they were nevertheless figuring on a pool arrangement whereby six or eight of them would be able to land passengers on the grounds. None of them can now get to the Midway Plais-ance entrance of the grounds without run-ning over the Illinois Central tracks part of

BEN BUTLER AMONG THOSE INTERESTED

CEPECIAL TELEGRAM TO THE DISPATCH. 1 LOUISVILLE, June 28.-Two years ago President Diaz, of Mexico, granted a conession of 10,000,000 acres of land in Lower California to a syndicate composed of citizens of the United States. The Mexican Government was then, as now, crushed under t burden of debt, and the grant was made without reserve. The land lay on the Southern boundary of the United States and stretched from the Pacific Ocean to the Gulf of California. The syndicate also the Gulf of California. The syndicate also organized a stock company and began to make arrangements to utilize their acquisition. General Eli Murray was made president. General Murray is a native Kentuckian; was a gallant soldier for the Union in the war; is ex-Marshal of Kentucky and Governor of Utah, and has been prominent in the councils of the Republican party. He was a candidate to succeed Hearst in the late election for United States Senator from California.

from California. He is the man chosen by the syndicate to lead them in the scheme to establish an American Monte Carlo in Lower California, whose monarch will be an American citizen. A large force of surveyors was sent to Lower California and the boundaries of the grant, extending across broad table lands and over mountains and deep rivers, were laid off. Included in the grant were the holdings of the Mexi-cans whose families had held the land for centuries; Mexican hidalgos, whose vast centuries; Mexican hidalgos, whose vast estates stretched for miles, and who had lived in feudal splendor undisturbed almost since Cortez wrested the lands from the Aztec owners. They were rich and powerful in the Mexican capital; the rights of the Americans meant beggary to them, and they appealed to the Mexican courts and to the Government for protection. So loud did the clamors become that President Diaz could not ignore them, and, pending the settlement by the Mexican

pending the settlement by the Mexican courts of their claims for damages, the oper-ations of the Americans were suspended, so as to perfect their financial plans. Fifty millions of dollars would be required to complete their modern Monaco, and the members of the syndicate turned to the Eastern cities for a portion of the capital

required. In January last General Murray came t Louisville, while his associates sought other cities in quest of the millions they needed, several of them stopping at St. Paul, where many of the wealthiet men, it is said, bemany of the weathnet men, it is said, be-came interested and contributed liberally to the scheme. A New York banker named Murray, who has just retired, has a hand in the scheme. A telegram received here to-day announces that he is ready to start for the West. General Butler is also said to

A Young Englishman Lands in New York

With That Amount and Disappears. [SPECIAL TELEGRAM TO THE DISPATCH.] NEW YORK, June 28 .- Among the 23 cabin passengers who landed from the steamship Tower Hill when she arrived at her dock in Brooklyn Tuesday last was Charles Warner, a young English chemist from Devonshire. He intended to embark from Devonshire. He intended to embark in business with his brother Thomas, who is engaged in the manufacture of an antiseptic fluid under the name of T. P. Clayton & Co. Thomas called on Inspector Byrnes on Wednesday last and asked his assistance in finding Charles, who, he said, had not been seen since he left the Tower Hill. He had with him \$10,000 which he expected to invest with T. P. Clayton & Co.

Worked by New Yorkers. NEW YORK, June 28 .- A company has ust been organized, with a capital of \$1,000,000, for cultivating a farm of 112,000 acres in Florida. This will be the largest farm in the world, and upon it enough could be raised to supply the city of New York with food. The name of the company is the San Sebastian Land Improvement, Sugar and Investment Company. The farm lies between the Indian, San Sebastian and St. Johns rivers, and is drained into the St.

The farm has a muck soil, similar to that Ine farm has a muck soil, similar to that in the Valley of the Nile. The company does not propose to raise cereals or garden stuff, but sugar cane and cocoanuts, especially cocoanuts. This will be in the nature of an experiment, as cocoanuts are not indigenous to Florida. The company is composed of New York and Southern cap-italists. The land was bought from a syn-dicate of young men of New Orleans, headed by Mr. W. W. Wallis, who has some stock in the farming enterprise, and will be presi-

with respect to his mission to this country, but to an Associated Press reporter he said official dispatches from Iquique contained a denial of the truth of the reports from San-tiago; coming by way of London, to the effect that the revolt is making no progress; that provisions are scarce, and that the army is discontented. Senor Montt said army is discontented. Senor Montt said the fact of the occupation of the Lobas Islands by the Esmerelda is in itself proof that the revolt is making progress. The lower part of the city was entirely cut off and surrounded by water. A fireman on the Central road went out to investigate, and becoming frightened, sent a neighbor to ring the fire bell while he gave the alarm. The bell quickly called the entire city to the danger, and undoubtedly was the means of saving hundreds of lives. In two hours after the alarm the entire Sioux Valley was inundated.

Heroic Action of Many People. Heroic Action of Many People.

Fifty houses are lost and at least 100 wrecked. Thomas McCulla, editor of the Times, rendered heroic and valuable aid to the flooded district. With a frail canvas the flooded district. With a frail canvas boat he braved the terrible current which was sweeping everything away and saved many lives. This was repeated in many cases by others and acts of heroism were performed which will go on record in hundreds of grateful hearts. The greatest wonder is that not one life was lost as far as can be ascertained. The ladies of the city are now busily engaged at Mrs. McKenno's dressmaking parlors making clothing for the unfortunate ones.

One of the pathetic incidents is that of a Statement.

of revenue to certain bee hunters in this vicinity. The past year, however, has been absolutely barren of such results, and the reason given is that the steady inroads of the mill men on the former large tracts of basswood have cleared the woods of such trees, thus robbing the bees of their chief sources of honey supply—the basswood flowers.

Another source of honey—the white clover blossoms—for some unknown reason are growing scarcer, and wild flowers, as a rule, are honeyless. As a result, the bees have nothing to fall back upon but the buckwheat blossoms, and the crop of this grain has been lamentably light. Ira Felt is a local beekeeper of large experience, and he says the days of his business have departed. He has more fears and trouble supplying his bees with proper food in summer than he has in keeping them over winter, while for many weeks he has not found a single bee tree, where two years ago he had all of that work he desired.

All of the Catholic societies of the city, besides several visiting societies, formed a big procession, which paralled the principal streets of the city between the hours of 12:30 and 2 r. M., and the dedication ceremonies followed.

The programme of the day was opened by high mass at St. Peter's Church. The church was crowded and during the ceremony the different societies formed in line, marshaled by Dr. H. L. White, with James B. Arnold and James Stratton, Chiefs of Staff, and 12 assistants. Aside from the 25 McKeesport societies several visiting societies and two brass bands were in line. Pror to the procession leaving the church the high mass was celebrated and Father McCrarar, assisted by the visiting priests and Rev. Father Murphy, of the Holy Ghost College, conducted the services. The dedication sermon was then delivered by Father Murphy.
