What the utmost care in the selection of
Sealskins, what both money and time could
accomplish, nothing was left undone so asto be able to show the richest, the largest,
the finest line of Sealskins ever seen in Western Pennsylvania. And as with the quality of the Sealskins so with the standard of the men, brought from the East by me to cut and make up these skins into Sacques and Manteaux.

and Manteaux.

But precisely the same care and attention will I give the redyeing and the general alterations of old Seal S cques. While I can positively guarantee ay new work, both as to fit and quality, I will in no less a degree endeavor to please t e most fastidious as to reshaping, redyeing or other repairs of an old sucque. By using the same dye as on the new sacques I can give an old one the same luster, the same appearance, almost, as a new garment generally only possesses.

That my charges for new work as well as for repairs will be very moderate I hardly need to emphasize here. During a period of 20 years back in the manufacturing line I have demonstrated this fact to the many thousands of my patrons and the flourishing condition of both the Ladies' and Gentlemen's Silk and Straw Hat Manufacturing Departments is sufficient proof of moderate prices. Requesting the favor of a call from you, I remain, Your obedient servant,

A Very Marked Decrease in New Operations Over the Old Fields. M'DONALD IS NOW TO THE FRONT.

From All Quarters, A VERY BIG WELL IN THE FIFTH SAND

he Southwest Is Attracting Attention

The monthly oil report for June shows decrease in completed wells of 10; a decrease in production of 2,612 barrels, and an average for June wells of 17% barrels. In the Southwest district 4 new wells were completed, with a production of 3,519 bar rels. Forty-seven of these were dry holes.

Last evening the surprise of the trade was
the well of Clarke & Bannister, on the Butler lot at McDonald, which was reported to be doing from 25 to 35 barrels an hour from the fifth sand. This report was confirmed

WHY? Why will people attempt things for which they are entirely unsuited?

Why do women worry, cry and fret when they should be pleasant and happy most of their time?

Why are men blue, despondent, melancholy, stolid so often, when they should be strong, hopeful, enterprising and vigorous?

Why should any man endanger his health, possibly his life, when a little care will prevent it?

Why should any man endanger his health, possibly his life, when a little care will prevent it:

Why is the present season of the year so depressing, enervating—the very air filled with malaria and malarial influences?

Why will people permit the dangers, sickness and troubles of this season to affect their health and undermine their life when they can easily be counteracted by the use of pure whiskey and water?

Why will people persist in taking impure, adulterated, injurious whiskey, when so pure a whiskey can be secured as Duffy's Malt?

Why will unscrupulous druggists seek to
