

MYSTERY OF THE MIST.

Dr. Talmage Talks Learnedly Upon the Topics of the Weather.

IS THERE A FATHER FOR RAIN?

Ministers Forget That God Ordains Moisture, Also Salvation.

ASTRONOMICAL VIEW OF THE SUBJECT

BROOKLYN, N. Y., July 5.—Dr. Talmage's sermon today is of a kind of Gospel in which few people believe. The weather is a common topic of complaint and fault-finding, but Dr. Talmage finds a Gospel in it, which today he proclaims from the text, "Hath the rain a father?" Job XXXVIII, 28.

This book of Job has been the subject of unending theological wrangle. Men have made the ring in which to display their ecclesiastical ingenuity. Some say that the Book of Job is a true history; others, that it is an allegory; others, that it is an epic poem; others, that it is a drama.

God is either in the affairs of men, or our religion is worth nothing at all, and our God had better take it away from us, and let us have a religion which teaches the doctrine of the Father of the rain.

God is either in the affairs of men, or our religion is worth nothing at all, and our God had better take it away from us, and let us have a religion which teaches the doctrine of the Father of the rain.

God is either in the affairs of men, or our religion is worth nothing at all, and our God had better take it away from us, and let us have a religion which teaches the doctrine of the Father of the rain.

A PHANTOM SURPLUS.

Seems to Be What the New Treasury Statement Aims At.

THE GOLD RESERVE IN DANGER.

Extravagance of the Last Congress Not Unmixed With Good.

THE NEW FINANCIAL POLICY'S EFFECT

NEW YORK, July 5.—Matthew Marshall reviews the financial and speculative situation for the month of June as follows: The Treasury statement issued today has contributed two important items to the financial news of the week. He has changed the form of the monthly Treasury statement so as to make it show a large surplus instead of the deficit which it otherwise might have presented, and, with the advice and consent of his colleagues of the Cabinet and of the President, he has decided not to pay off the 4 1/2 per cent Government bonds maturing September 1, but to extend them to 2 per cent. Of the new form of Treasury statement I have to say only that the adoption of it seems to me to be an unnecessary and useless complication of public accounts.

Had it not been for the hoarded gold which the Treasury opportunistly poured out on our money market would have suffered for the benefit of that on the other side of the Atlantic. Now both are in a comfortable condition.

As to the effect upon the stock market and upon business generally of the Government's new financial measures, I know that my readers would like to be informed, and I would like to inform them if I could do it with anything like absolute confidence in the correctness of my judgment.

THE RECORD OF A DAY.

THE SATURDAY NEWS BOILED DOWN FOR RAPID COMPREHENSION.

Telegrams, Cablegrams and Local Items Gathered in Foreign Lands, in the Home Country and in Pittsburgh—A Dictionary of Events All Over the World.

The DISPATCH of yesterday morning contained a full and complete record of the conditions of Saturday, July 3, 1920. The substance of the record of events has been condensed into small and comprehensive items for rapid perusal, as follows:

Foreign. Emperor William of Germany was given a grand reception on his arrival in England. German artisans will not be permitted to interview the Emperor. France is trying to capture Siam. The exact date of Gladstone's death is being determined. A brilliant reception in London. American goods are replacing British manufactures in Brazil. Forty soldiers are suffering from sunstroke in Weimar. Caray again defeats foreign runners. Socialism discussed by the Royal Labor Commission. Mrs. Mackay gives a well-dinner in London. Russian credit impaired. The Vatican disturbed.

Domestic. Sixteen killed in a Charleston, W. Va., railroad disaster. Three men drowned in a boat accident. A 7-year-old girl killed by a rock in a town explosion. Conger believes Bix will have no discouraging letters. Ex-President Hannibal Hamlin dies. Denver capitalists plan to give \$100,000 for gaining the favor of another man's wife. A Baltimore belle behaves badly. Racing at Homewood. Patriotic display at Woodstock, Conn. Foundry, Beloit, Wis., closes. Youngstown and other places. Daniels speaks on the race problem. Ballonists killed at New Lisbon and Elvira. O. Letter carriers erect a monument to the memory of Susan Cox. President Harrison at Cape May. Ben Butler's company a success. The North-eastern Seaport at Newark. Irish-American encampment in New York. Plans for electrical executions. Ballonists narrowly escape at Mendville. Boy injured at a town explosion. A Chinese baby born in Washington. A gun bursts in a revenue cut at Chicago. The mid against the Moquis. Fought in Birmingham. A man shot by a coroner's fight for the possession of a body. Girl shot at Newark by a discarded lover. Chautauque Assembly opened with ceremonies. A man shot by a coroner's fight for the possession of a body. Nelson Stetter drowned at Chautauque. A strange fever at Douglasville. A child's escape at Crawfordville. A girl devoured by a panther.

Local. One hundred and twenty-five thousand people celebrate at Schenley Park. Old soldiers' funeral at Schenley Park. Only one Fourth of July. Original letters in papers. A panicle over the new bridge. The display of fireworks. The chapter of accidents. Central Park opened with exercises. East Enders' picnic. The Hebrews will not have a special World's Fair exhibit. A family thrown from a buggy. Southsiders celebrate independently. Second night in normal lines. Libby prisoner celebration during the war. Trade in tents is good. A new plan for furnishing power. Bennett's switchmen. Families moving from Ellwood. Labor Day preparations. The new boys building to be commenced soon. The Pittsburgh Post-Intelligencer. Kirk Buffum found dead. Jealous woman kills on rats. Asleep for sixteen years. Herman Harms, the Minnesota Sleeper, has at Last Awakened. St. Paul, July 5.—Herman Harms, the Minnesota sleeper, is now awake. His case is probably the most peculiar known to the physicians, whose skill it has baffled for the last dozen years. He had slept almost continuously for the past 16 years. He awoke one day, and has taken only an ordinary amount of sleep since. His recovery, however, is doubtful. Mr. Harms is now living on a farm, about midway between St. Charles and Quincy, Minn. Some 16 years ago he was attacked by a severe fever and had intense pains shooting through his head. He was then in Illinois. His physician advised that he was to be kept in a cold climate. He accordingly came to this State. During his stay in Illinois he did not sleep all the time, but since he came to this State he has not slept a wink. He has been in bed for an interval of a year and a half, since 1881 and two months of 1880 and 1890. When he is sleeping he can only be awakened by his wife, who has been his nurse. Calling has no effect on him. He takes no nourishment at all to speak of, and then only when aroused from his comatose condition. Harms was born in Germany. He was married to Miss Burman in 1883. His faithful wife has zealously guarded him through all these years.

Five Indians to Two Chinamen. A Race War That Has Been Raging on the Pacific Coast. San Francisco, July 5.—It has been learned that the butchery of a Chinaman at Bridgeport, after his acquittal on the charge of murdering an Indian, was the result of a race feud between the Mongolians and Indians which has been waxed in Nevada for five years. The Indians of this coast have always hated the Chinese and this feeling has been returned with interest. Five years ago a Chinese miner was shot by an Indian in a quarrel. His countrymen tried vainly to have the murderer punished. Then they vowed vengeance. They killed the next four Indians, who were the Indians all came to Wadsworth to celebrate.

The Chinese decamped four Putes into a laundry and filled their tin. When the Indians were helplessly drunk the Chinese poured kerosene over their bodies and over the floor of the shanty and set the place on fire. Only one Indian escaped. He told his story and again there was a prosecution. The Chinese followed this up by the torture and murder of a solitary Indian at Candelaria. The last murder was at Bridgeport, brought things to a crisis. The Putes have been holding pow-wows lately, and it is thought they are plotting retaliation on the next Fourth of July, when the Indians all came to Wadsworth to celebrate.

An Average Well. PITTSBURGH.—The Forest Oil Company's No. 2 on the Dunbar farm, will make an average of 25 barrels a day. The Forest Oil Company's No. 2 on the Ripper farm, is down 800 feet. The Forest Oil Company are down 1,200 feet on the Rader with their No. 6. The Forest Oil Company are drilling at 800 feet. Curtis & Co. are building a rig for No. 3, J. Dambach. Slagle & Lentz have finished a 90-barrel producer on the J. E. Dambach well. A. Clark & Co. are building a rig on the Peter Rader for their No. 18. No. 17 has started to drill.

FROM A THIRD-STORY WINDOW. Thomas Nowak Drops to Death From a Chair While Sleeping. Thomas Nowak, a Pole, who boarded at 803 Manor street, Southside, was killed yesterday by falling from a third-story window at his boarding house. It appears

RAILWAY ARITHMETIC.

It Is Very Peculiar, According to the Kansas Board of Railroad Assessors.

THE PRESIDENT AT CHURCH.

He Attends Divine Service Sunday at a Historic Old Meeting House.

NO PLACE LIKE PITTSBURGH.

Where a Fourth of July Celebration Is Not a Picnic for Crooks.

Chief Brown is highly pleased with the work done by his officers at the Schenley Park celebration. The Chief was not a case of pocket picking, nor a fight, nor any other disorder was reported from the grounds, and the celebration was a success. The officers were there and attended to their business well.

The President's presence in the church did not make any difference. He was not expected, and there were but about 80 in the congregation. Mr. Wana-maker attended services at Headle Memorial Chapel, Cape May Point, this morning.

No Place Like Pittsburgh. Where a Fourth of July Celebration Is Not a Picnic for Crooks. Chief Brown is highly pleased with the work done by his officers at the Schenley Park celebration. The Chief was not a case of pocket picking, nor a fight, nor any other disorder was reported from the grounds, and the celebration was a success. The officers were there and attended to their business well.

The Gold Reserve in Danger. Of the decision to offer the holders of the 4 1/2 per cent Government bonds the privilege of extending them to 2 per cent, I think there can be only an approving opinion. As I showed four weeks ago, and as the 4 1/2 per cent bonds are now being paid off, it will be put to its trumps. The bonds will be paid off during July and August, without impairing its \$100,000,000 gold reserve. If, in addition, an undertaking to pay the whole of the \$51,000,000 of 4 1/2 per cent bonds on September 1, it could not avoid the impairment.

MORE WILDWOOD OIL.

The Ireland & Hughes Well, on the Corner Farm, Is a Producer.

ANOTHER GOOD WELL AT McDONALD'S.

A Big Lot of Wells to Get the Sand This Week at Moon and McCurdy.

THE OPERATIONS IN BUTLER COUNTY.

There are few more patriotic men than those engaged in the oil business. They are Americans and they love to celebrate in the most potent sense of the word. Consequently there were few walking beams in the Southwest district which were moving Saturday and all of the drillers and tool dressers who could possibly do so flocked to Pittsburgh, which has long been the Mecca of the trade in general. They forgot for the time being about the temper screws, bits, jars, stems, ropes, casing wrenches, sand, salt water and oil and spent the day in various moods and places. There were few wells which, owing to the limited time allowed in the leases for their completion, were kept going.

One of these was the well of Ireland & Hughes, the oil well tool manufacturers, on the Corner farm, at Wildwood. It reached the sand Saturday, and after drilling several rods in the sand pressure of gas and a good showing of oil were struck. It was then shut down, but not before several good flows placed it among the 100-barrel class. The well is located about half a mile west of the 29th street run through the Wildwood pool; is directly north of the Kolbar farm, and joins the main line of the well. It is probably a branch of the main line. It is producing rock running north-west from the Runge and Kretzer farm. It is not before not before suspected. It is not before not before suspected. It is not before not before suspected.

One of these was the well of Ireland & Hughes, the oil well tool manufacturers, on the Corner farm, at Wildwood. It reached the sand Saturday, and after drilling several rods in the sand pressure of gas and a good showing of oil were struck. It was then shut down, but not before several good flows placed it among the 100-barrel class. The well is located about half a mile west of the 29th street run through the Wildwood pool; is directly north of the Kolbar farm, and joins the main line of the well. It is probably a branch of the main line. It is producing rock running north-west from the Runge and Kretzer farm. It is not before not before suspected. It is not before not before suspected.
