Are Being Looked After by Consumers in Purchasing Iron.

LITTLE ACTIVITY IN THE MARKET,

ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, July 9 .- The Iron Age reports the condition of the iron and steel markets

as follows: Pig iron reports from consumers generally indicate unwillingness on their part to do more than purchase for urgent requirements. The only exceptions are the manufacturers of agricultural implements, who report a heavy demand, and some of whom are in the market for heavy blocks. Stove manufacturers have not bought for some time, and are expected to come forward later on for larger forward later on for larger Machinery builders are buying lots. Machinery builders are buying sparingly. Little activity is expected at this senson of the year, and the dullness prevailing be causing no surprise. Low offerings have been made lately by at least one representative of Alabama interests, the figure named for No. I foundry being \$16, on dock at New York. Malleable iron works in this section? have recently placed orders for charcoal iron, one lot of \$60 tons being taken by a Michigan turnace on the basis of \$17. Buffalo. It is reported that even this low figure was shaded \$5 cents.

The Coke Market Shows No Visible Signs of a Very Early Improvement. [SPECIAL TELEGRAN TO THE DISPATCH.]

SCOTTPALE, July 2.- The coke market isstill on the decline, and no immediate improvement is expected, as midsummer is nearly here and the usual duliness will set in. The conditions surrounding trade are about as invocable now as this time last year. A good fall trade is confidently looked for. The production is still being restricted to the de mand, and operations will not be on such an

mand, and operations will not be on such an extensive scale this week as last. Frick's Eagle, Morgan, White, Summit and Kyle Works will be off four days, while their other works will lay idle only one. McClure's works will be banked one day, as will some of the smaller producers' plants. Bainey will make six days and will have a company in the Pennsville, Hogsett and Mariin firms. The demand is still falling off and the rapid diminution in shipments continues.

GRAIN AND PRODUCE.

Wheat Dull and Weak, With Only Local Trading-Corn Still Worse-July Oats Active and Steady-Provisions Firm at First, but Weaken.

CHICAGO-Wheat was dull and weak today, and most of the business accomplished was of a local character. The preponderance of news favored the bear side. Liver-pool reported prices %d lower. London quoted cargoes to arrive within one month 3d lower, while those due in two months were is \$\mathbb{g}\$ is 6d lower. The weather through out the districts where the harvest is in

progress was fine.
The Cincinnati Price Current, in its weekly summary of the crop situation, reported all the recent favorable indications fully main inined, and that threshing was being pushed by the farmers in order to get the grain quickly to market so as to take advan-tage of present values. This led to a belief heavy receipts at an early day, started olders unloading and stimulated the short holders unloading and stimulated the short selling. The Pric Current estimates the deficiency in the European wheat crop at 180,00,300 bushels, but says that with our big crop no greatly enhanced prices can be expected. As the world's supply will probably half shart of the ordinary aggregate connumption only a per cent. St. Louis reported therefolds, Tolebox renelpts were also reported heavy, while Chicago got 82 cars of new wheat, with 68 of them for contract. December opened at 89%c, cased off some, but held for a long time between 88%c and 80%c, held steady for a time and advanced 4%c, but weakened again and closed at 84c.

Corn was weak from the start, and September sold off nearly le from yesterday's close. The warmer weather, improved crop prospects, and the weakness in wheat were weakening factors. The offerings were generous, and while early sales were very close to the resting price yesterday, the weakness increased and buyers reduced their bids. Cables were reported lower, and the cash demand less active. The market was a triffe firmer in sympathy with wheat, but eased off some toward the close. September started at 52%c, sold at 52%c, broke to 51%c, conts were fairly active and steady for July, but ranged somewhat lower for August and September.

Middle-aged people remember when Law renceville was a borough; now it is one of the most progressive portions of Pittsburg. Butler street is the principal thoroughfare. It begins at the Forks and ends at Sharpsburg bridge, a distance of about three miles. This street is almost entirely given up to

Some of the side streets, notably Fortieth, Fisk and Main, are bordered with handsome homes. Young Mr. Fuhrer is building a fine Queen Anne residence on Fortleth, Mr. Black, President of the Keystone Bridge Works, owns and occupies a palatial man-sion on the same street. It was built last

Fisk is comparatively a new street, having been open but a few years. It is devoted almost entirely to homes. This is one of the handsomest streets in Lawrenceville. Property on the street has enhanced 50 per cent

in the last three years.

Main street is another comparatively new thoroughfare, and, like Fisk, is largely occurred. pied by residences. Among many beautiful places on this street are those of George Seibeck, Mr. Fuhrer, Sr., George Folsom and Miss Sadie Wilkinson.
Forty-fourth, above Butler, is another fine

street, and displays many handsome homes, among them being those of Mr. Siemen, of Siemen, Sleeth & Black, Mr. Wallace and Mr. Mitchell, who was chief clerk to Mayor McCallin. All of these streets are in the

The Eighteenth ward is building up faster than the Seventeenth, but with a cheaper class of houses. It is a great manufacturing center. The Home for Incurables, founded by the late Miss Jane Holmes, is in this ward. It contains many fine residences, denoting opulence and cultivation.

Residence property in Lawrenceville, as ascertained from Mr. Thomas McCaffrey, the enterprising real estate broker, can be bought at almost any price, but in choice localities it is held at pretty steep figures. A sale on Main street recently was at the rate of \$200 a foot front. Cheap property is on unimproved side streets, and near the mills. Business property is strong, with an advaning tendency. WAITING MARKET AND BROKERS GENERALLY ON THE FENCE.

fore Gains Than Losses but Changes Confined to Fractions-Street Railways in Better Favor-Holders Too Confident to Make Concessions-Electric Reorganization.

The local stock market was unusually quiet yesterday. The first two calls passed without a sale; at the last 20 shares of Pleas-

23%. Neither bulls nor bears displayed any courage. At no previous time, perhaps, has the market been more distinctly a waiting one. Almost every broker has orders, but is unable to place them. Every fractional advance encourages sellers to hope the mar-ket is coming their way, and they raise the price; and, on the other hand, buyers inter pret every trifling slump as the precursor of a general catastrophe and hold off to get the benefit of it. These tactics, while safe, are

benefit of it. These tactics, while safe, are death to business.

In the general list there were more gains than losses, but they were restricted to small fractions. Insurance shares were in good request. Philadelphia Gas improved 1/2. It was said a few buying orders were received from the East. Central Traction was 1/4 stronger, and Pleasant Valley 1/2. The starting of the main mill forced Luster up nearly a point, with small offerings. Electric was dull but steady. If it holds its own until the outcome of the meeting be known it will do well. As holders are indisposed to incur any additional loss, it is pretty safe to say the stock will hang around present figures until after the 15th. Mr. Westinghouse returned to the city yesterday in good spirits. He expressed absolute confidence in the success of the reorganization plan. Switch and Signal was a shade stronger on the belief that the company is considering measures to improve its financial position. Underground Cable advanced 1/2 at the last call.

SPECULATORS HOLD PACK

WALL STREET NOT INCLINED TO BE VENTURESOME NOW.

Stocks on the Down Grade Wost of the Day Cordage Makes a Bad Break Toward the Close—Foreign Selling of Louisville and

Nashville. New York, July 8 .- Notwithstanding the abundance of money available for specula-tive purposes, together with the bright prospects of the coming season, there seems for the present to be no disposition to enter into any ventures in the stock market, and dullness, narrowness and general stagnation still mark the trading. To-day there was a reversal of yesterday's movement, and fractional losses were the rule, though only mong a few stocks was there any percept ble tendency in prices.

The rate of the Bank of England re-mained unchanged this morning, and the best observers proclaim that there is no indication of a further shipment of gold this week; but the traders thought they de-tected a selling of Louisville and Nashville for foreign account, and they attacked that stock with some effect. The Grangers came stock with some effect. The Grangers came in for some of the same kind of attention, and especially St. Paul and Burlington weakened under the pressure. The remainder of the market was, as a rule, devoid of feature from the opening to the close, though Jersey Central lost a portion of its late advance. The traders, who are in complete possession of the market, such as it is, after being scared into the covering of their shorts, have discovered that the expected demand for stocks has not materialized, and are again encouraged to put out the stocks so lately covered, but only a few shares are deemed vulnerable enough to make the risk in, and the market, therefore, continues to be all in the few shares which have of late been most prominent in the dealings. These to-day include only St. Paul, Burlingon, Louisville, Atchison and Chicago Gas, but the last named was the strongest of the out the last named was the strongest of the ot, without news of a character to have

lot, without news of a character to have much effect.

The opening was heavy and extremely dull, and under the pressure the leading stocks made considerable progress toward lower figures in the first hour. The declining tendency was unrelieved by any feature of note until late in the day, when Cordage again gave way, dropping 2½ per cent and recovering only a small portion of the loss. The three or four active stocks showed losses of something over 1 per cent at the lowest prices, and with some covering in the last hour a shade was recovered. The close was very dull and stagnant, with the active shares at close bottom figures. The final changes are in almost all casee insignificant, but Wheeling and Lake Eric lost 1½; the preferred, 1½; Cordage, 1½; Burlington, 1½; Missouri Pacific, i, and St. Paul, Union Pacific and some others large fractions.

Railroad bonds give about the usual amount of business, and displayed rather a stronger tone than stocks, but felt the weakening influence and falied to score any material change. A large number of issues were traded in, but the transactions were without importance and the fluctuations hardly perceptible in most of them. The business of the day reached \$767,000.

GOOD OIL WELLS AT MOON.

THE SPOTTED TERRITORY IS BEING SOMEWHAT DEFINED.

The Western Edge of the Pool Has Been Struck on the Meeks Farm - Several Wells Due in the McCurdy Field - A Butler Wildcat.

The Moon field rather redeemed itself ves terday. For a week or two every well which has been drilled in the field has been small or dry. Yesterday W. L. Mellon drilled in his No. 4 on the Meeks farm and is showing for 100 barrels at least. It has made several good flows. It is located about 450 feet west of his No. 3 on the same farm, which was dry. His No. 1 on the Meeks was expected to reach the sand last night. He has a to reach the sand last night, He has a rig up for his No. 5 on the Meeks, and is rigging up his No. 1 on the Rouser. The Orlon Oil Company's No. 2 well on the Doty ten acres, was shot, and is flowing at the rate of 175 barrels a day. The Hervey Oil Company's No. 4 McCutcheon is due to-day. The Kauawha Oil Company expects to get the sand in its No. 2 on the Hood to-day, and No. 2 Onstott to-morrow. The same company's No. 5 on the Meeks, due south of Mellon's Meeks No. 4, is expected in the first of the week. Mellon & Galley's No. the first of the week. Mellon & Galley's No. 1, on the Wilson Onstott eastern farm, near Sharon, is due to-morrow. Boden & Co.'s No. 1, on the Chapman lease, Sam Stevenson farm, will be completed next week. Their No. 1 Sam Stevenson is down 1,500 feet. Their two wells on the Hood farm are down 1,000 feet each, and their two wells on the Phil Stevenson lower farm are each 200 feet deep.

Work Around the Church. McCurpy-Mellon & Wilson's No. 4 on the Palmer farm is due to get the sand to-day. His Jane Riddle No. 1 is 2,100 feet deep. It was reported last night that Switzer & Co.'s well on the Shaffer farm, half a mile east of the pursonage, was a good well. This could not be confirmed. The Fisher Oil Company and others have located a well on the school

New Work Going On.

CORAOPOLIS-The Forest Oil Company has rebuilt the rig on the Hogbar. The Coraopolis Oil Company is building a rig on the John Watson lot. Galley Bros. well on the Cooper farm is due to-day. They have located on the T. F. Watson farm, and W. P. Black has a rig up on the T. F. Watson. He has located two others on the T. F. Watson and one on the C. A. Watson farm.

A Well at Murdocksville. MURDOCKSVILLE - The Raccoon Oil Company drilled in its No. 9 on the Armor farm last night. New Wildwood Work.

Wildwood-Finegan, Downing & Co. have located their No. 2, on the Wallace beirs'. Evans & Mandeville have commenced to drill their Marks 4. The Roth Oil Company will case their well on the Dunlap to day.

The French Territory. McDonald-The Ogale Oil Company is down 1.500 feet on the Baldwin farm, which is located between the Butler and Matthews wells. Forst, Greenlee & Co. have just put the second string of casing in their well on the Miller farm.

Reports From a Wildest. SAYONBURG-It was reported last night that Webber Bros' wildcat on the Webber farm was good for 200 barrels a day. This could not be confirmed. It is located between the Thorn creek extension and the Gold field. Guffey & Queen's venture on the Glasgow farm, between the Gold field and Bakers town, is said to be a well.

Yesterday's Local Markets. There were no bids for oil yesterday, but the feeling was a trifle stronger on light buy-ing in New York. OFFICE OF PITTSBURG DISPATCH, THURSDAY, July 9. COUNTRY PRODUCE (Jobbing Prices)—Eggs are lower, as our quotations will reveal. The top of the market is 18c per dozen, a decline of nearly 2c from prices of last week. Ohio cheese is still in plentiful supply, but the general view is that prices are at bottom. In this faith jobbers are laying in heavy supplies. Creamery butter of choice grade is fairly firm at quotations, and demand for country rells is improving. Supply of berries is not above demand, as was the case for day or two past, and markets are a shade higher. Watermelons are abundant and demand is slow at a decline from last quotations. Southern potatoes are weak and prices are lower. Cabbage is firm and good stock readily brings outside quotations. Among the new arrivals in fruit lines are wild plums and Jamalea oranges. Call ornia oranges are about at their end for this season. The untimely cool weather of July

has checked the upward movement of APPLES-\$1 00 a bushel, \$2 50@3 00 a barrel.

NEW ADVERTISEMENTS. SPEAKS FOR ITSELF.

SSSI not only speaks for itself, but has thousands of people to speak for it. The testimonials that have been given in its favor by people who have been cured by it would fill pages of a newspaper. No other medicine has been so thoroughly endorsed by the public. Here is a

sample of Disinterested Testimony.

Rev. M. B. Wharton, pastor of the First Baptist Church, Montgomery, Ala., writes: "I have seen Swift's Specific used, and have known many cases of the worst form of blood disease which have been cured by it. I know the proprietors to be gentlemen of the highest type, and of the utmost reliability. I recommend it as a great blood remedy une-qualed by anything that I know of."
