The present pipe line has been in operation since January. It runs from the West Vir-ginia oil fields through two pumping sta-tions, and across the Maryland line to War-ren township, this county. A pumping sta-tion near Quincy, nine miles from here, forces the oil over the mountains through Adams and York counties to Millway, in Lancaster county, where it connects with the main line running to the refineries in Philadelphia. The other pumping station is near Cumberland, Md. It is said the survey now being made is for a line to carry the oil directly from West Virginia to New York.
