THE PITTSBURG DISPATCH, WEDNESDAY, JULY 15, 1891

vestors continues very moderate, there is strong disposition shown to subscribe to commorcial investment stocks which are now coming on the market. The Lorillard stock recently issued was over-subscribed, and the Trow directory stock placed before the public to-day shows large advance sub-scriptions. Railroad bonds to-day were like stocks-even less animated than usual of late, the total transactions reaching only \$50,000, while the usual lack of movement in the active issues was seen. Nevertheless, Delaware and Hudson and Pennsylvania 7s lost 3½ at 140. The following the shows the prices of active stocks on the New York Stock Exchange rester-day. Corrected daily for Thue Disparche by wirry NEX & STEFILENSON, oldest Pittsburg members of the New York Stock Exchange. St Fourth areane: SUPPLIES. WHEAT WEAK, CORN STRONG. WANT FOUR this stock was due to a well authenticated report that the company was making money, but how much or little was not dirulged. Switch and Signal was another good point. It opened at 8, sold up to 9, and closed at that figure, with the demand unsupplied. The cause of the bulge was the confidence expressed in the adoption of the reorgani-zation plan of the Electric and Manufactur-ing Company at today's meeting. It will be remembered that when the rupture occurred, which resulted in the reorganization of the Switch and Signal Company, Mr. Westing-house claimed if was indebted to him \$200,000. The company, on the other hand, claimed \$500,000 from Mr. Westinghouse has admitted the correctness of this claim and has agreed to Hquidate as soon as the affairs of the electric company are settled. The \$500,000 will put the Switch and Signal Company in a secure position by enabling it to wipe out its floating debt. This prospect was suf-ficient reason for the advance. The directors of the Central Traction Com-many held a meeting at Whitney & Stephen-son's office yesterday afternoon, and after full discussion and careful consideration lev-ied an assessment of \$250 a share. The books close August 15. The assessment is payable September 1. This money is needed to complete the Center a venue branch of the road. The failure to declare a dividend was no surprise, as no one acquainted with the condition of the company had expected such action. Although the outcome of the meet-ing was not known until after the last call, the seck was at fraction stronger. Electric was strong. It opened at 12, sold up '4, fell back and closed at 12, with a fait demand. The strength was due to the good prospect of a harmonious meeting and full settlement of the company's affairs to day. Thiadelphin Gas receded at tife, but the rest of this group underwent no change. Luster scored a further advance and held it to the close. The weekly meeting of the board will be held to day, and inportant news may be divulged. German Mational lank of Alleghen DAIRY PRODUCTS FIRM FARMERS' TRACKS Each of the Two Leading Cereals Has but a Prospects Good for an Early Advance Panhandle People Again Talking of Temporary Influence on the Other-Wheat News All Bearish-Corn Ad-This Is an Unusually Favorable Seain Ohio Cheese. Canada Southern Control of Naw Lorent 21% arrivals of new wheat were about 30 cars more than had been estimated, and the The bark question is one of great interest short cut to Mansfield or vicinity by tunnel

to one of our most important industries, mely, the manufacture of leather. It was stated in this column a day or two ago that tanneries of Allegheny absorb about hides weekly. With one exception 5,500 hides weekly. With one exception these tanneries, which are ten in number, are devoted to the manufacture of harness and collar leather. One only pro-duces sele leather, in Pittsburg proper 1300 indices weekly. With one exception in number, the devoted to the manufacture of harness and coilar leather. One only proper laces sole leather. In Pittsburg proper laces sole leather. In Pittsburg proper date of the second date of th there is but one tannery the product of which is belting. These eleven tanneries consume in round numbers 65,000 cords of ark annually. Of this amount 40,000 cords are heudock. The latter comes in the main bark from the Southern part of the State and the Virginins. The cost of hemiock bark is about \$7 per cord, and oak bark \$10 per

Trices are the same this season as last, though the supply this year is much larger than hast. By ordinary rules of trade there should be a docline in prices, especially when, as has been the case this season, heather has been depressed. But bark con-tracts are made a year ahead, and, notwith-standing the fact that this has been an un-usually invorable year for peeling and pre-serving bark, tanners are paying the old prices. There is this compensation, how-ever, to the tanners that their bark is stored in beiter shape and quality for the coming campaign than for many a year. The dry spring weather of 1881 was unusually Favorable to Bark Peeling.

and stock is coming to market in much better shape than usual. Bark is for the most

In addition to the amount of bark con-unced by our tunneries, a large and increas-ag amount of extract is consumed. This struct comes, in the main, from the bark origins of Virginia. Recently a company as been organized, with Boston and En-lish capital, for the manufacture of ex-tract, and a location has been chosen for the everplant on the Pennsylvania Railroad, a tills west of Greensburg. The new enter-rise will soon be in the field, and will be in ompetition with Virginia manufacturers of ark extract for the trade of Allepheny tan-ers. It would seem that there is a future at the trade in extracts of bark, when the eavy railroad freights and the large room of storage are taken into c. asideration. The Wheat and Flour Ontload.

The Wheat and Flour Outlook.

our is evidently trembling on the edge of a fall, and though jobbers do not lower their rates, there is not a little cutting going on in order to effect sales. Some of the Northwest mills have already reduced prices De per harrel, and it is only a question of a day or two when prices here must be re-

Our Jobbers are carrying very light stocks, as is the rule when markets are on the de-cline. The new wheat crop, the first fruits of which are already on the market, prom-ises to be larger and better quality than for

s to be larger and better quality than for any years past. A Pittsburger who recently returned from the through Minnesota and Ohio had this say of crop prospects. The wheat harvest about ten days behind time this season, i the yield will be beyond any previous at and quality promises to be of the very ef. The color of Minnesota wheat was all at the most sangulae could desire, and if yield is not greater than for many years in very winch mistaken.

ing under Mt. Washington. A gentleman connected with the road said yesterday: "We need four tracks badly, but to make room for them we would have to cut into the hill, and this would involve a heavy expense and would be no saving of distance. The easiest way out of the difficulty, to my mind, is to tunnel. I think property owners beyond the hill would be willing to bear some of the cost, as a tunnel would make some of the cost, as a tunnel would make their land twice as valuable as it is now by bringing it so close to the city in point of time as to make it desirable to home seek-ers. I think the company made a great mis-take when they laid out the road by not locating it along the river where the Lake Erie tracks are."

impression that the market is in excellent condition for midsummer. Lots are selling faster than at any previous time in the his-tory of the city, and there is a strong undertory of the city, and there is a strong under-current of heavy transactions which will in time produce tangible results. In some cases sales are "hung up" by the absence of buyers on their vacations. But, all in all, the market is full of good points, with fair prospects for a very active fall movement. Values are stiff. If those who think differ-ently will go into the market as purchasers they will soon acknowledge their mistake.

Pittsburg people are chan

tenants to proprietors so fast assessors considerable troubl founding is almost a mania. illustration of this fact came to days ago. An enterprising indi-chased a hillside lot out Second cost him about \$200, nearly all th had. He scooped out a hole abor an ordinary room, covered it w and moved his little family seemed perfectly contented. "I no rent," he remarked, "and wil up money enough to build me house. I want to be indepen lords." Surely where there's a a wav.

He Was Surprised.

Few people fully realize the vances in population and built tions in Pittsburg in the last few well known business man visite

ington yesterday for the first tim He was astonished at the chang "I had heard that the Mount was being built up, but had no idea of its remarkable

rowth. Why, it's a perfect hive. The pop growth. Why, it's a perfect hive. The pop-ulation is as dense as in any other part of Pittsburg. When I was here before I could have bought a good lot for \$300. Now I would have to pay \$1.00 or more. The place is full of business, too, and there are as fine churches and school houses as can be found anywhere. Seeing is believing. I can no longer doubt that Pittsburg is wonderfully pros-perous and growing at a rate almost unex-ampled in the history of American citles." If other gentlemen who have hazy notions of the city's progress would visit any of the suburban districts, they would see enough in an hour or two to convert them from growiers to enthusiasts.

Streets in European Cities.

Mr. D. P. Black, of Black & Baird, who is

sight-seeing in Europe, was in Vienna when last heard from. From that place he wrote that almost any European city could give Pittsburg points on street opening. Orig-inally streets in Continental cities were not inally streets in Continental cities were not more than eight or ten feet wide. With the growth of business more room became neces-sary. This was secured by tearing down buildings for miles, regardless of expense or who were benefited or injured. In Vienna, Mr. Black says, some of the streets which have not been widened are so choked with traffic that many of the banks are located on the second and third floors. At one bank where he had business he had to ring the door bell before he could gain admittance. Brathare New York and the streets which

A BETTER FEELING.

Money in Good Request and Interest Rate a Shade Stiffer.

Bankers continue to report improvement

in the call for money from the commercial classes, showing better trade conditions and chasses, showing better trade conditions and a broadening tendency. Supply of funds is liberal, but not so abundant as a month ago, and as a result rates are a little steeper, 6 per cent being the inside, except in special cases. Time paper is quoted around 7. Bus-iness was good in all lines yesterday. Cur-rency and exchange were about even. Bank clearings were \$2,478,035 99, and balances \$38,659 42.

At New York vesterday money on call was

At New York yesterody money on call was easy, ranging from 1½ to 2 per cent, last loan 2 per cent, closed offered at 2 per cent. Prime mercantile paper, 5½@7. Sterling exchange dull but weak at \$4 & for 60-day bills and \$4 87 for demands. BOSTON, July 14.-Electric stock quotations here to day were: Bid. THE VETERANS IN CAMP.

One of Them Falls From a Third Story

(SPECIAL TELEGRAM TO THE DISPATCH.) WILLIAMSPORT, July 14 .- Camp Maloney was comparatively quiet to-day. No partic-ular programme had been arranged, and many of the veterans spent the day visiting

the points of interest about Williamsport. Considerable time was spent at the various

industrial establishments. As on previous days, many Grand Army men arrived in the

While a bail, given by the Sons of Veter-ans, was in progress this morning shortly after midnight, Frank Lewis, a Grand Army man of Shamokin, who was at the ball, feil from a third story window to the street be-low. In his fall he struck a wooden awning over a store in the first story and from that he fell to the street below. He was taken to the hospital, when it was found that five ribs were broken and that he had several contusions. The physicians have hopes of his recovery. The usual dress parade oe-curred this evening, and the camp was crowded with visitors until a late hour. They Will Aim to Establish Their Claim o

be greatly excited. They are preparing to resist any attempt on the part of the Gov-ernment to arrest the leaders in the raid on the cattle and sheep ranges in this vicinity. They have warned the stockmen to leave their imaginary territory to them, threaten-ing their lives if they do not do so, and it is the belief of the people that this is the com-mencement of the expected outbreak of the Navajos. Twenty-five more citizens left here last night to reinforce Sheriff Francis and his

A LITTLE BABY'S SKIN

tas wheat, TI effects of frost are een in the oats crop, and I do not look for a yield in this line. As to corn, it is too to make predictions. The crops in line are not as far advanced as they arily are at this time, but with favoring ter there is yet time enough to make

up for lost time." About the only bull symptom that ap-peared in the interview was the fact that supply of wheat in the hands of farm-ers through the Northwest is unusually light. With the good prices offered for wheat of late and bright prospects for a large crop, the furmer who failed to unload has old wheat was blind to the situation. light. Nent of

THE DEPTH OF DULLNESS

REACHED IN YESTERDAT'S WAITING STOCK MARKET.

Chicago Gas Goes Down on a Judicial Decision - Edison Electric Goes Up for a Similar Reason-All Other Changes Are

Very Slight Losses. NEW YORK, July 14 .- The apathy of operators in the stock market, and its resultant dullness and stagnation in the trading, in all probability reached their limits to-day, all feature disappearing from the market, while trading on the floor was practically paralyzed. The morning's operations showed some life, the selling by London and Chicago encouraging further efforts by the local trading bears to get prices down, but when these attempts ceased, utter stagna-

tion took possession of the market. The seiling by London was supposed to be on account of the bears after the fortnightly settlements were over, but Chicago was a seller of Chicago Gas, at the same time, on scher of Chicago Gas, at the same time, on the passage of the ordinance over the Mayor's veto permitting the opposition company to begin business. The decision of Judge Wallace contirming the right of the Edison Company to the incandescent lamp also infused some life into the market by causing a sharp rise of 7¼ per cent in Edison stock. The bears again circulated rumors of

further shipment of gold to-day, but the old story gradually lost its influence, and the story gradually lost its influence, and she early downward movement reached only slight proportions and soon ceased alto-gether. Considerable speculative vigor has lately been infused into Atchison, and it fairly rivaled St. Paul to-day, Boston being reported as a buyer of stock. There was some inclination to sell sugar on the pros-pect of expensive litigation and an uncer-tain amount of annoyance from it. The market opened under the pressure small fractions lower than last night's fig-ures, but the further losses sustained in the early dealings were sufficient to bring Chi-cago Gas down 34 per cent, while other stocks showed smaller concessions. Bur-lington, however, displayed some strength, and Edison shot up rapidly from 28 to 105%. Later in the day Lackawanna weakened and North American showed the influence of the rise in Edison, of which the company is a holder, but the movements were slight in all cases. early downward movement reached only

is a holder, but the movements were slight in all cases. It is a waiting market pure and simple, operators being disposed to postpone a formation of opinions till the showing of the earnings on the 'new crop are seen, and while London bankers report a growing feeling in favor of American securities, the buying from that source is insignificant at present. The pressure upon Chicago Gas was kept up till the close and resulted in a material loss for the day, that being the only stock in which any important change occurred. The late dealings showed no im-provement in the tone of the market, which finally closed dull but heavy at about the lowest figures, though in most cases only slightly changed from those of last evening. Chicago Gas, however, is down 1½ per cent at 49.

<text><text><text><text><text><text><text> I have used your CUTICURA REMEDIES in two cases where it proved to be successful. The first was in the case of a boy a year and a haif old. His face and body were in a terrible condition, the former being completely covered with sores. I took him to the Massena Sulphur Springs, but he did not improve any. I was then advised to try the OUTICURA REMEDIES, which I did. He took one and one-half bottles of CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA to his sores and the CUTICURA SOAP in washing him. He is now 5 years of age and all right. The other case was a disease of the scalp, which was cured by washing with the CUTICURA SOAP and rubbing in the CUTI-CURA, one bottle of CUTICURA RESOLVENT heing used. It is surprising how rapidly a child will im-prove under this treatment. JOHN R. BERO, Hogansburgh, N. Y.
