Some Special Fostures for This Afternoon That Are Good Drawing Cards.

The invorites had what the sports call a dead easy picnic at Homewood yesterday. At no time was there much excitement or enthusiasm, but for all that the large crowd. moyed the contests. The races were of the kind that always please the winning owners and make the other fellows very weary. The boys would rather have seen more of the neck-and-neck business and the close struggle on the homestretch, which makes truggle on the homestretch which makes they can't have everything to order in this world. Those who follow the mees had no trouble in picking the winners,

epened with a clear sky and bright sun. A few clouds lingered here and there in the

past, and it is to be hoped that this ng will be an exception. So far, so The track, in comparison with others country, is claimed by experts to tile soft. This was so near the pole be a little soft. This was so near the pole presterday. It was in fair condition, but will be much faster to-day. The morning sun had dried the water, and it can't be said to have been the fault of the course that bet-ter time in some of the merces was not made. Fully 7,000 people were present, the grantest attendance since 1882, when Mand 5 broke the record. If the crowd can be taken as a gauge they will number from 10,000 to 15,000 to day. It was noticed that the class of people was above the average, which augurs that the interest in mering is being revived in Pittsburg. Sev-tral Catholic priests and ministers of other demoninations were in the andlence. It oc-curred to the reporters that most of the haveves and politicians in the city were on swyers and politicians in the city were on and. All factions were represented. The ity Hall people evidently turned them-selves loose for a day's sport.

IT WAS A PRESENT. Time, 2:21, 2:17%, 2:16, 2:16%, 2:16%. In the third race, trotting, 2:27 class, A. W. Pawcett was drawn and Play Boy took his place. The starters were N T H. Florence Dillard, Leicester, J M D and Play Boy. The race was very one-sided, Leicester winning the first three heats with case. The crowd has great faith in Goldsmith, and as he has a string of 25 good ones to pick from he is counted generally a sure winner. Leicester, however, was in too low a class, and would have made the race with St. Elmo more ex-citing if he had been entered. Indeed, it looked as if he could beat St. Elmo ensity. Last week Leicester made a record of 2:5%, which was really 2:17% according to the knowing ones. It is claimed he can make the mile in 2:16, and Secretary Me-Gracken said he would have to go into the Did bas at the next races. At Point Breeze not even the horsemen got on to him, and 2:19 class at the next mees. At Point Breeze not even the horsemen got on to him, and during the morning while in practice he broke and plunged so much that scarcely anybody paid the least attention to him. The result in the afternoon is known. In the first heat Play Boy had the pole. It was dead easy for Leicester from start to finish; time 2:25%. N T H showed up poorly, but at times he acted as if he could do business. The next heat was a walk-over for Leicester, and the others enne under in the same positions as they did in the first. This was the order: Play Boy, J M D, Florence Dillard and N T H. In the third heat Leicester had as much of a picnic as ever. Leicester had as much of a picnic as ever. N T H surprised the sports by pulling into second place.

The second day of the Grand Circuit increased with a clear sky and bright sun. A few clouds lingered here and there in the benyens, but there was no sign of rain. No More Rain This Week. Secretary McCracken remarked that it had rained the night before all it would for the work, and if this should prove true it would be a wonder. The Pittsburg people have certainly had a streak of bad weather in the past, and it is to be hoped that this meeting will be an exception. So far, so

Robin and Frank Dortch seem to be the favorites. It is doubt-ful whether Greenborn will start. The third is the 2:23 class trotting for \$2,000. The en-tries are Strader H, Keokee, Dandy, Nichtin-gale, Carrie Walton, Packer, Sadie M and Abbie V. This list contains several that are liable to win.

This will be a great event. In addi-tion Hamlin will drive Justina, Globe and Belle abroast against, 2:20. A new rig has been specially made. Globe takes the shafts, with the other two on the outside. They were tried yesterday afternoon, and made the half mile in 1:095. complete, and every phase of the case was considered. Early today there were doubts of the truth of the story of Mrs Polly Newberry, the grandmother, and before night it was whispered a round that she was suspected of having committed the horrible deed. Those engaged in the investigation, how-ever, would say nothing and nothing was done all day yesterday or last night. It was added that the old lady knew too much about the affair for a woman who had been cut in the throat 17 times by the persons who murdered her children, and then it looked strange that she, the only person who could have told the particulars of the tragedy, should not have been killed along with the children. Her wounds are all slight and not dangerons, which fact gave rise to the idea that she inflotted them on herself in order to create the impression that she had also been assaulted. She has been arrested and was taken to Cleburne to night. AT Altoona yesterday morning a most disastrous fire occurred, in which the entire stock of several wholesale houses went up in smoke. The fire originated in the icecream factory of Harry Mixdorf. In the same building were Heneman & Besant, wholesale grocers; James C.
