THE PITTSBURG DISPATCH. SATURDAY, JULY 18, 1891.

by Bradstreet and Dun.

6

EIG INCREASE IN IRON OUTPUT.

Prospects for General Business More Hopeful All Around.

A COLLAPSE IN WHEAT SPECULATION

PETERIAL TELECRAN TO THE DISPATCH.] NEW YORK, July 17 .- Among telegrams to Braistnet's from leading trade centers, those from Boston and Minneapolis are remarkable for reporting increased activity in several lines. The boot and shoe fac-tories have resumed full time, purchases of leather are freer, wool is rather more ac-tive and there is a better request for woolen.

Wool markets at Philadelphia, Cincinnati and St. Louis show no signs of a revival, and woolen goods mills at Philadelphia report no improvement. Elsewnere the wholesale trade in general is fair for the season, without being brisk. An exception may be made of San Francisco, where a very active export trade with the west coast of South America has sprung up, owing to Chile's inability to supply the usual quantity of wheat and provisions for export. Estimates are made that this trade will aggregate \$1,500,000 within a few weeks.

The State of General Morchandise.

Sugar is stronger and 1-16c higher for granulated. Drugs at wholesale are slow of movement and low in price. Hides and lumber continue quict, as do iron and coal. Prices of the latter are being openly cut, and sales of pig iron, excepting best grades, have been shaded. Sales of Southern iron have been made at very low figures. The output of pig iron increased heavily during June, about 24,000 tons weekly.

Business failures in the United States number 262, against 228 last week, and 181 this week last year. The total from January 1 to date is 6,665, against 5,883 last

Crop reports continue uniformly favoraable as to wheat, sugar, rice and cotton. Corn, too, has improved in Iowa. Texas wheat is accumulating at New Orleans, and 40 vessels have been chartered there to load

wheat within 60 days. Mercantile collections at Duluth, Min-neapolis, St. Paul, Chicago, Milwaukee, Omnha, Lincoln, St. Joseph, Kansas City, and St. Louis are notably slow, owing to the activity of work on the farms. Electipts of live entitle at some Western centers are lighter and prices higher; and other quotations are steady. There is a endency reported at Northwestern and Western cities to scrutinize credits and to

curtail time on which goods are sold.

Sameness in the Exports of Wheat.

For the third week in succession the total of weekly exports of wheat from both coasts of the United States, including flour as wheat, has amounted to about 2,220,000 In the second week of July, 1890, the total was nearly 2,000,000, and in the like weeks in July, 1889 and 1888, nearly 1,500,000 each. Available stocks of wheat. oth coasts, have been declining on the verage about 1,400,000 bushels weekly Doubt is expressed as to any considerable direct export to Europe of wheat from Duluth or other Western lake ports in the near future, the total thus far

nded July 16 amount to \$1,009,023,781, a screense from the like week of last year of per ceut. At 57 citles, New York's total excluded, a decrease of 4.7 per cent is shown. New York city's total decreased \$10,600,000, and Philadelphia, \$20,000,000, as compared with the week a year ago.

A Duliness in Wall Street.

sponding improvement in the demand for manufactured products is yet seen, and the stocks unsold at only a part of the furnaces are now recorded as amounting to about 480,000 tons, showing a very large increase, particularly in coke iron. Unless the de-mand rapidly improves, the market must soon weaken—so far as to test serverely the ability of some of the concerns to continue production. Altendy there is perceptible weakeness in the market at Philadelphia, and some concersions in prices are noted for

and some concessions in prices are noted for pig iron and for plates, while the market for structural iron is extremely dull. As usual, of late, the demand for rails is scanty, the market for railroad bonds being still

dull and disappointing. Reports from other cities are generally hopeful. Some improvement in the de-mand for goods is seen at Boston. Pros-pects are considered brighter at Philadel-

On Lake and River Ports. In spite of the usual dullness of the Orders for clothing are good at Cancinnail, and the retail trade in drygoods is brisk. At Detroit manufactures move very fairly, and at Milwaukee trade is helped by im-proving crop prospects. Receipts of wheat, dressed heef, wool and

hides at Chicago show a great increase, and new wheat comes in liberally, 85 per cent of it grading No. 2. The clothing and shoe trades show a large increase over last year, though in drygoods the trade shrinks a lit-tle. At St. Paul trade is backward, but prospects are good, and for Minnesota es-pecially bright. Bank clearings at St. Louis exceed last year's by 7 per cent, and money is going out to move crops with free-dom, while general trade in all lines is of foir volume. At other Northweatern points fair volume. At other Northwestern points, without exception, excellent crop prospects are noted as promising improvement.

The Condition of Trade Southward. At Nashville trade is fair, but dull at Memphia, unsatisfactory at Little Rock, falling off at Sayannah and sluggish at New Orleans, though a better demand is seen for

cotton. At Jacksonville trade is better, with crops in good condition. The collapse in wheat speculation has come, with a fall of 8 cents during the past week, but corn is scarce and 3½ cents higher, while oats have declined about 1

cent. Pork and hog products are higher. Coffet has risen a 3/c and oil the same, but cotton is unchange), and the general course of prices has been downward, as is natural at this season, the fall during the past week having averaged nearly threemarters of 1 per cent.

The money markets are generally in fair shape, and collections fair for the season.

DALZELL TALKS OUT He Says the Executive Committee's Action Was Illegal. OUALIFICATIONS OF MEMBERS Can Be Acted Upon by the Coming Con-

vention and by It Only.

LOCAL REPUBLICANS ARE INDIGNANT

The action of the Executive Committee of the State League of Republican clubs in deciding to bar out newly-formed clubs

from the organization is the chief subject of comment among politicians. The com-mittee, as was stated in THE DISPATCH yesterday, passed a resolution providing that no club be permitted to have delegates at the coming convention that was not on the official roll at the convention one year ago. The friends of Hon. John Dalzell through

the Western end of the State are considerably worked up over what they term the irregular effort to crowd out their favorite in the race for chairmanship of the State League. Mr. Dalzell has little fear that the action of the committee will be sustained. In speaking of it yesterday, he said:

"The action was illegal, and therefore void, because the Executive Committee are powerless to prescribe what clubs shall stay out of the convention. The Republican League is an organization which has a constitution. This constitution provides,

article 3, as follows: 'Any permanently organized Republican club in this State having adopted a constitution, and having not less than 20 members, shall be eligible

to membership in this league.' It is thus apparent that if the action of the committee yesterday is of any validity, and there are any permanently organized Republican clubs having a constitution and not less than 20 members, the name of which were not on

the official roll when the last convention met, it is in the power of the Executive Committee to change the constitution of the league. Calls It an Absurdity.

"This, of course, is an absurdity, and must so appear to any man who gives the subject a moment's attention. But furthermore, article 7 of the Constitution says the con-

ing formally members of the league. "But the resolution also excludes every

Only One Mushroom Club.

ing in Philadelphia vesterday.

since-genuine mushroom clubs.

Inactive, but on the Rolls.

"Ninety-eight of them are on the official

roll, under heads 'new clubs,' 'disbanded' or

'inactive.' The resolution uses this lan-

vention shall be the 'sole judge of the qualifi-cations of its own members, shall have power to admit and expel clubs from the league.' So that it is clear again that yesterday's ac-

clubs.

tion can amount to nothing. "If now you look at the terms of the reso-

CINCINNATI, July 17.-Pisgah, Butler county, is in a state of excitement over a most remarkable case of the return to life

of one of its best-known citizens after death

had claimed her. The residents of that hamlet were shocked on Wednesday morning to hear the announcement of the death of Mrs. Richard Middleton, the wife of one of the best-known farmers in that section, on Monday morning. Imagine the feeling but the community vesterday when it was learned that the dead had come to life again and prospects were favorable for her com-plete recovery. Mrs. Middleton was a middle-aged lady who was taken suddudy ill Sunday evant

plete recovery. Mrs. Middleton was a middle-aged lady who was taken suddenly ill Sunday even-ing. A physician who was hastily summoned tried to relieve her, but to no any particular time.

avail, and she apparently breathed her last at 2 o'clock Monday morning. Preparations were at once made for burial and word was sent for the undertaker to come. The remains awaited the coming of that gentleman through Monday until about 6 o'clock in the evening, when the long-expected undertake: arrived. As he looked at the corpse he discerned a

faint flush upon the cheeks. He was com-pletely upset, and the surprised relatives which I did not seek, was that my candidacy

also upon the President's registry. I would be very loath to do Mr. Stuart, the Mayor of Philadelphia and President of the league, an injustice, as I have always respected him very highly, but it does seem to me a little extraordinary that just at this time he should have sent out a printed circular di-recting applications for enrollment and pay-ment of ices to be made to him, and it seems the more singular to me when I dis-covered that the official headquarters of Mr. Robinson in the conduct of his cam-pain and the office of Corresponding Secre-tary of the League are identical. "As I said, this action may complicate matters, but most eventually fail of its pur-pose. The great body of honest, intelligent

matters, but most eventually laif of its pur-pose. The great body of honest, intelligent Republican voters, who believe in fair play, will not be misled by any humbug cry of mushroom clubs nor any glaring headlines in newspapers misrepresenting the situa-tion, but will see that justice is done, and I predict that when the Scranton convention most it will heave its constitution says it predict that when the Scranton convention meets it will be as its constitution says it shall be, 'The sole judge of the qualifica-tions of its own members.' That conven-tion will be abundantly able to relieve it-self of mushroom clubs, and the cry made in Philadelphia yesterday is a cry of defeat

in advance Pittsburg Members Are Angry.

Secretary Lindsay, of the State League, said: "The effort to keep out newly-formed clubs is very foolish. When Robinson en-deavored by such a slick trick to shut Dal-zell out he only showed he knew he was beaten. The scheme will fail, as the convention alone has power to act on member

ship matters. George W. Miller, a member of the Exe-cutive Committee said: "The committee assumbed the right to perform that which is regulated by the constitution, and is solely the work of the league, not a creature of it. Article 15, of the constitution, states that 'this constitution may be amended at any convention.' That is certainly plain enough convention.' That is certainly plain enough to be understood; and yet the Executive Committee took upon itself the right to change the method by which clubs are ad-mitted to membership in the League. To amend the constitution it also requires a majority of the clubs to vote in the affirma-diagonal definition is a set of the se tive, and before agtion can be taken 30 days notice in writing must be given to each notice in writing must be given to each club. Then, rule 3 provides that the annual dues of each club belonging to the league shall be \$10, payable on or before September 1 of each year, after which all clubs not pay-ing the same shall be considered in arrears. The rule does not state when the club must be considered to give more participation of the league organized to gain membership in the club mat be organized to gain membership in the league. Under rule 13, I contend, if a club is or-ganized on the last day of August and pays its admission fee, there is nothing to pre-vent it from being placed on the roll and given representation at the convention."

Special Telegram to The Dispatch.

SEASHORE, July 17 .- We are advised by the Pennsylvania Railroad Company that they intend running an excursion to the sea shore on July 23, 1891, leaving Pittsburg at lution it will be apparent that its author overreached himself. It prescribes that 'no weather if you will only come down to Sea overreached himself. It prescribes that 'no club shall be permitted to have representa-tion and a vote at the annual convention at Scranton in September next that was not regularly upon the rolls of membership at the last league convention of 1890.' Now it is a fact that a large number of clubs in Descention at large number of clubs in Pennsylvania, many of them older than the league itself, are not upon the rolls of membathing, fishing and sailing. Tickets, par-lor car seats and berths in night trains can bership of the league at all. Many of these are country clubs who have never joined the league. Under the constitution these clubs be secured at their office, 110 Fifth avenue. for this excursion. Plenty of hotel accom modations, and it doesn't cost any more here than to stay at home. Very truly yours, "OLD PROB."

HOLY GHOST COLLEGE.

Stock speculation is at a standstill. The ustomary summer callness is aggravated y cantion as to the future of the money market. While call money is superabun-dant at 2 per cent, time leans for six months ommand 6 per cent, indicative of appreension of higher rates when the West calls or money to aid the crop movement. Share values, in the absence of activity, tend to decline slightly, though supported by the enerally invorable outlook for the railroads. The Western Traffic Association met this week, but did nothing, and post-panel consideration of the joint agency scheme till October. Foreign exchange is wenker under pressure of approaching grain exports. Nevertheless, 8300,000 in gold was taken for Europe to-day on a oal transaction.

New England textile industries are deressed, owing to restricted domestic de-anad, enlarged production and large stocks. Export demand is good. Print cloths are most depressed. Woolen goods are dull mulating. Cotton manufacturers in 1891 and 1890 did not do as well as in the

previous three years. Net railway carnings for May show the first monthly decrease reported this year, both gross and net declining 3.5 per cent commated with May, 1890, owing to there being te business day less in May this year and evenerally depressed condition of trade. Last Year's Railroad Earnings Compared.

May last year showed the largest gain m net earnings of any month for two years orections. The total net earnings of 117 roads for May were \$10,420,420, a decrease of 3.7 per cent, while the gross fell off 3.5 per cent. Central Western trunk lines, othern, Southwestern and Pacific roads Il chowed decreases in net, but none in excoss of 8 per cent. Net earnings for five months by 113 companies aggregate \$73,-309,033, a gain of 3.4 per cent. The gain in gross was only 1.2 per cent. The Grangers, intral Westerns, trunk lines and Southwestern roads show decreases for five nonths from the corresponding months of 1500. The large gain on the Pacific roads alone more than accounts for the entire net General trade throughout the Canadian

Dominion presents few new features. Drygoods are fairly active in Ontario, and also groceries in Quebec. At Montreal ocean freights are active. Crop prospects gener-ally are excellent. The Dominion reports business failures this week, against 33 last week and 21 this week last year. The total number from January 1 to date is 1,076, ngainst 925 last year.

Business Growing More Active.

Businens clearly grows somewhat more ac-tive, though midsummer dullness is still the rule. At Eastern cities there is noticed more demand for manufactured more action at 8:20 larger siles for materials. At the West trade is enlivened by the large yield of winter wheat already harvested, and by the very bright outlook for other crops. At the South, however, though crop advices are niso favorable, no improvement appears in business, which is duller than usual even for the senson, and at some points is pronounced

quite unsatisfactory. The general confidence is strengthened by The general confidence is strengthened by the fuancial news from Europe, which in-dicates that the disturbance of the money markets from that quarter need not be feared, and by the change in the foreign index of this country, which points to a material reduction of balances payable abroad in specie. Imports at New York have sharply declined since July 1, amount-ing to about \$4,300,000, or 18 per cent less than for the same weeks last year. On ing to about \$4,300,000, or 18 per cent less than for the same weeks last year. On the other hand, exports of products at this point show an increase thus far in this month of \$3,324,000, or nearly 33 per cent, in comparison with the same weeks last YORT.

Greater Production of Pig Iron

CHINESE RIOTS CONTINUE. Brutal Murders of Europeans Where Not

Protected by Gunboats. SAN FRANCISCO, July 17 .- The steam-

ship Belgie arrived to-day from China and Japan. The Shanghai Mercury of June 8 announces the murder of an English customs house officer, A. W. Green, and of Mr. Argent, a member of the Methodist that could be called in any fairness a mush-

mission, by Chinese rioters at Wuhsiep. A number of houses were burned during the riot. The ladies of the mission were taken aboard the steamer Tepsing by Captain Cain, while the bodies of the murdered men were taken aboard the United States Steam-

ship Palos. Argent was knocked down on the street by a rock from a boy's hand, and the mob fell upon him, shattering his head with a large slab. Green was reported to have had his throat cut by the mob. It is stated that the Canton woman in the latter's household was murdered by an assassin after she killed three of their number with a sword. The threatened outbreak at Kinkiang did not assume very great proportions owing to the presence of three gunboats which landed their forces and held the mob in check. The reports from other quarters, however, show that the destruction of property continues
