PHILADELPHIANS SAY DALZELL INSULTED THEM

[SPECIAL TELEGRAM TO THE DISPATCH.] PHILADELPHIA, July 18 .- A number o Senator Quay's close political friends asserted publicly to-day that Quay will resign the office of Chairman of the Republican National Committee at its next meeting. Just when this will be is not definitely decided. Senator Quay has called a meeting of the Executive Committe in this city for the 29th inst. As it seems to be the general feeling that the national convention should be held earlier than usual, it is likely that the full committee will meet not later than September. This meeting will be held either in New York or in Washington, and May seems to be the popular date for the national convention. ome say the Senator will resign at the

meeting here July 29, but as this is only a meeting of the Executive Committee it is likely that the determination to resign will simply be made known then and the formal resignation presented to the full committee in September.

No Doubt About the Resignation. The fact that Sepator Quay will resign can no longer be doubted. For some months past his attitude regarding the chairmanship of the committee has been the subject of more or less speculation, and all sorts of rumors have been in circulation. The Senator's characteristic reticence, however, left the matter in an uncertain State, and no one actually knew what he intended doing. But all things come in time. Congressman "Jack" Robinson, of the Sixth district, who is one of Quay's most devoted

Confirmed by Other Close Friends. Naval Officer Thomas J. Powers made substantially the same statement and another close friend of Senator Quay, Resident Clerk of the Legislature Charles F. Vorhees, also declared that the innior Senator from Pennsylvania would give up the enairmanship. He further stated that Clarkson had been agreed upon to succeed

him. It is said here that ex-Assistant Post-

master General Clarkson has been selected

known activity, long experience in politics and his especial fitness in other respects. It is stated that the members of the committee have been consulted by mail regarding the proposed change, and that the replies indicate beyond question General Clarkson's election.

Upon the question of the reason for Senntor Quay's retirement no one is able to speak definitely. All that is known is that will step down and out, just as United States Senator Gorman did from the chairmanship of the Democratic National Com-

mittee after his successful leadership in

1884. No Reason Will Be Assigned in the letter of resignation, and, doubtless, so far as the committee is concerned, none will be asked for. It is well known, howover, to his nearest friends that, in view of recent political events in Pennsylvania and at Pittsburg. While their car was in the the fear that they might have an unwholesome influence upon the Republican National campaign next year, Senator Quay preferred to occupy a less prominent position ig the National Committee 1892. It was felt under the electronstances that to retain the national chairmanship during 1892 would invite criti- | did that but clinched the insult by walking cism possibly disadvantageous to Republi- away. can success. Senator Quay, it is stated, viewed the matter in this light, and, having the best interests of his party at heart, decided voluntarily to retire. It is highly a draws." question of policy with him. As before stated, however, the reason will not be re

ferred to in his letter of resignation. That is the way his friends put it, but That is the way his friends put it, but mand the election of John Dalzell as the Quay's opponents do not hesitate to say that next President of the League. If we get him Quay's record has become such a scandal that the other members of the National Committee are unable to stand it longer, and have forced Quay to step down, much against that statesman's inclinations.

An Organ Puts It Mildly. The Press to-morrow will say: When United States Senator Quay was in Philadelphia last week en route from Atlantic City to his home in Beaver, he told a friend in the Continental Hotel, he would probably retire before long from the chairmanship of the Republican National Committee. He gave as his reason the fact that his health was not very good and that he did not feel like taking upon himself the work of another Presidental campaign.

He would still remain a National Com minteeman, but proposed to retire from the position of the organization which involves so much hard work.

General Brayton, the Political Warwick of Little Rhody, Made an Attorney. SPECIAL TELEGRAN TO THE SISPATOR.) PROVIDENCE, July 18 .- General Charles R. Brayton, a typical politician, a "boss" of the Republican party in Rhode Island and the acknowledged Warwick of this State, was to-day made a lawyer by the sanction of the Supreme Court. General Brayton is in his 54th year, and he is the oldest man ever admitted to the bar in Rhode Island. He took the examination with eight other candidates not one of whom Rhode Island. A Full Meeting to be Held in September, to The Third Party Movement Liable to Cause Trouble Down There-President Polk Flops-He Has Now Come Out on the Third Party Side.

[FROM A STAFF CORRESPONDENT.] WASHINGTON, July 18.—All of the latest reports from the South, and they are many and interesting, indicate the certain erystallization of the Alliance and labor rganizations into a great third party before the campaign of 1892 begins in earnest. President L. L. Polk, who has been one of the conservatives, has given notice that he is ready to go over to the third party advo-

One of the leading lights of the party at headquarters in this city declares that there will not only be a third party, but that it will win. "If the farmers of the South and West will only stand by their colors," said he, "we can carry every Southern and nearly every Western State. It we do that what is to prevent the election of our candidate? But I will admit that at this time it ooks as though we might have a little trouble in doing so. Our people are not agreed on the sub-Treasury plan and a great many Democratic Alliance men are loth to leave

the old party."

Some of the Democrats look with alarm on the possibility of the Republicans carrying one or more of the Southern States through a division of the old Democratic through a division of the old Democratic vote, and they say that if there is a probability of this they will withdraw their electors, and vote for the Alliance electors, and then throw the election into the House. The Republicans are very sure that no such scheme as that just mentioned will work. They say that the feeling now being worked up between the Democrats and the sub-Treasury men will be so bitter by the time of the election will be so bitter by the time of the election that neither will touch each other with a "40-foot pole," not even to save their own There is some arguraent in this view, and the unprejudiced observer is bound to admit that the political weather forecast indicates squally times for the Democratic electoral ticket in some South-

Startling Rumor That Comes From Reliab Sources in Europe - They Had Lived Single Lives Too Long-Each of Ther Has a Positive Character.

[BY CABLD TO THE DISPATCH.] LUZERNE, July 18 .- The famous African explorer, Henry M. Stanley, is now stopping at Murren. If he goes to the Engadine again he will have a chance to examine a family of dwarfs who are been subporned, but he has gone to Boston just as small and ugly as the race of Pig- and will not be present. The committee Sannaun and are now being exhibited at any who have been implicated by the al-Chur, in the Canton of Grisons.

The suggestion of the dwarfs and the association they bring up of the name of Stanley calls to mind a rumor which seems to come from a reliable source, that the famous traveler and his wife, formerly Miss Dorothy Tennant, have separated. He left London about a fortnight ago and, after going to Paris, came here. He proposes to extend his trip to Australia, where he will remain everal months. As it has been already announced that his wife would not accompany him but would stay in London, it is robable that they desire to attract as little

attention as possible to their separation. The cause of this is said to be due to the ositive nature of both husband and wife, which, owing to the many years they lived alone, renders it difficult for them .to conform to their peculiar views of each other.

A LOST BOY RECOVERED

He Wandered in the Mountains for a Week Living on Huckleberries.

[SPECIAL TELEGRAN TO THE DISPATCH.] HARTFORD, July 18.—The queer boy, Richard Davis, who has been wandering for a week on Barrack Mountain in the forest of Litchfield county, has been recovered. Richard, who is 14 years old, and not bright, used to be in the County Home, but a year ago he was bound out to S. H. Howe. On Tuesday, July 7, Farmer Howe sent him to mend a fence on a ditched part of the farm, and in crossing a piece of timber the lad lost his way and strayed into the fastnesses of the mountain. All the men of Falls Village and South Canaan orranized themselves into a searching party, 5 persons in number, and they beat the brush thoroughly for two or three days, striving to catch the wandering lad. They had almost abandoned the hunt in lespair when at daybreak the other morning, H. H. Woodin, who was looking for his cows, glanced toward Cansan Mountain and saw a boy running on the slope of the big hill. Mr. Woodin gave chase, and edily overtook the fugitive, who was the lost boy. The boy lived entirely on huckleberries in the mountains.

The only testimony that could be given by Mr. Morris, he writes, as to his reasons for calling Mr. Wanamaker's loan in 1889 is that it was a demand loan, and was called in the ordinary course of business. A Public Loss of \$2,000,000. The public loss through the operations of John Bardsley will amount to the grand total of \$2,000,000. An exact conclusion on that point has never yet been set forth on paper by the experts in all the figuring. The reason is that they have been obliged to pursue so many separate lines of accounts. In all the figuring that has been used on the Bardsley business, many people have been so considerably mystified that they could not conclude in safety whether his misappropriation was in hundreds of thousands or millions.

presented last Wednesday, stated Bardsley's deficit to be \$558,000, allowing him credit for the \$925,000 in the due bills. Both together made an apparent loss of \$1,478,000. It was suggested by Mr. Smithers, of the Investigating Committee, that that total might carry with it the impression that it was the total public loss through Bardsley's operations. One of the experts was seen to make sure that this was a summing up of Bardsley's misappropriations only. It did not include the other two items in the recapitulation of public losses. Their report of Wednesday did not cover the city accounts, as they were not for the time being consider ing that part of the subject.

BARDSLEY'S MONEY MISSING.

A Round Million and a Quarter Vet to Re

Accounted for. PHILADELPHIA, July 18 .- Checks in the ossession of Thomas L. Hicks, one of the Bardsley Investigating Committee, show that the firm of Glendenning & Co. had paid to Bardsley in their settlement with him over \$1,250,000. These checks show that from October 10, 1890, to the 21st of May, the day upon which Bardsley resigned, the firm paid him \$1,374,729 79.

This money cannot be accounted for as being represented by due bills of the Keystone Bank, for it was received after the last due bill from that institution was received by Bardsley. None of the experts' eports submitted an account for what has en done with this money. Mr. Hicks says this fact, together with the report that the City Solicitor had unearthed a certain sum sited with one of the trust companies, eposited with one of the trust companies, eads him to believe that some of the money has been quietly and safely placed in hiding.

REID'S DIPLOMATIC VICTORY.

How the Rescinding of the Decree Again

American Pork Was Secured. Paris, July 18.—The decree rescinding the prohibition of American pork, which takes immediate effect, simply enacts that the duty on American salt pork, hams and bacon, which paid 834 tranes before the prohibition, will now be 20 francs per 100 kilos. In accordance with the new tariff all the prohibitions will be abolished.

The immediate application of the decree is due to the persistent pressure brought to bear by United States Minister Reid, especially during the last few weeks, when M. Ribot, Minister of Foreign Affairs, who was hesitating over the matter of rescinding bill was passed and promulgated. Mr. Reid urged that if the Government postpone the rescinding of the prohibitions until the end of autumn it ought to pass a special law without delay. M. Ribot consulted his colleagues, and finding no opposition to the matter introduced the project in the Chamber of Deputies. Under an arrangement with the Government, M. Felix Favre moved at the end of the sitting on Thursday urgency for the proposal. Only one deputy, M. Lecour, offered hostile criticism of the measure.

The victim of the horsewhipping known best in New York was Francis B, Haves, son of the late millionaire, whose connection with the Massachusetts Horticultural Society made him known all over the country. The assailant was Clyde D. V. Hunt, a prominent society man of Boston and President of the Sulli-

American Catholics Need a Friend There to Warn Them of Trouble.

[SPECIAL TELEGRAM TO THE DISPATCH.] NEW YORK, July 18.-Although the Pope has rejected the Cahensly memorial, which asked for the appointment for the United States of Bishops of the same nationality as the Catholic immigrants who settle in this country, influential Catholics of this city believe that steps should be taken to prevent foreigners from meddling in American affairs at the Vatiean. The Rev. John Talbot Smith, editor of the Genolic Review, suggests that a prelate of rank d power reside in Rome, moments of emergency might warn Americans and at the same time use his influence in the propaganda to delay the decisions of overhasty and interested officials.

"While we can congratulate ourselves on

the Holy Father's prompt rejection of the Cahensly memoria," says Father Smith, "it must be borne in mind that this rejection does not mean the dissolution of the foreign forces that besiege Rome. The attack in the open field, only lately adopted as a tactic, will indeed be discarded, but this secret manouvering will continue, and wires will be laid from Quebec and St. Louis as hereto fore to secure by strategy what force failed to win. It is quite possible that surprise may do what trickery could not. The agents of conspiracy are always at Rome and always at work. IDENTITY OF THE WOMAN IN THE CASE

(SPECIAL TELEGRAM TO THE DISPATCH.) NEW YORK, July 19 .- About the American crook, George F. Parker, who put a bullet through his heart at his lodgings in London Thursday, Police Captain Mc-Laughlin, who is in charge of the detective bureau, told an interesting story to-day. Parker first came under the eye of the New York police in 1877. He was his nickname of "Gentleman George." His picture, which has been in the rogues' galery for several years, shows the face of a man who might be taken for a prosperous banker. The face is round and full. A well-kept black mustache and heavy white hair gave a very dignified appearance to "Gentleman George."

Gentleman George wasn't heard from again until 1886. In the fall of that year he established the "British-American Claim Agency" in room 156 in the Stuart Agency" in room 156 in the Stuart build-ing and fitted up the place nicely. On the door of the office appeared the names of George F. Parker, as President and Manager, Edward H. Witherell as Secretary and George W. Gibbons, of 320 Broadway, as counsel. Everything in the apartments of the bogus agency was got up in a way calculated to deceive the most in a way calculated to deceive the most wary. In the spring of 1887 complaints began to pour into Inspector Byrnes from persons who had paid money over to Parker without getting any satisfactory return. Police Commissioner Monroe, of London, heard of the agency, too, and he warned Inspector Byrnes about it. Detective Sergeant Timothy Golden was detailed to investigate the agency. He planked down \$25 and in re-turn "Gentleman George" agreed to search his title to the estate of Jonathan Golden, an Englishman who died many years ago and who, Parker assured the detective

On Thursday, March 3, the case against Parker was ripe, and bench warrants were issued by Recorder Smythe for Parker and the other two directors of the agency, Gibbons and Witherell, on the charge of obtain-ing money under false pretenses. Witherell confessed that the whole scheme was a fraud. The "agency" had a correspondent in London named J. H. Hales, who, Witherell said, wrote letters to the agency here simply for "form's sake" and to keep up appearances. The 14 typewriters were very much astonisned, indeed, to learn the char-

Two and Perhaps More Negroes Will Die

Because of a Plantation Fight. WEST POINT, MISS., July 18 .- There was a riot among the colored population on the Captain Fred Broll plantation, west of this city, last night. Two young bucks had a difficulty about a girl and proceeded to cut each other to pieces with hoes.

Some 15 or 20 men, women and children then took a hand in the fray, and an inventory showed one woman with her brains oozing out of a frightful hole in the back of her head, made by a hoe; one boy in the same condition, and two of the bucks were frightfully cut and bruised. Everyone en gaged was more or less hurt, and at least
