Her Opinion of Things Parislan.

This young lady is authority also for the statement that Paris is alive with spots, the dies wearing nothing but spotted goods this summer; that a dress of walking length s a rarity; that the hotels are poor; that what she wanted most when she reached ne was some genuine American cooking. While relieving her mind thus she presented a most fascinating picture in a Parisian gown of India silk, made with a demi-train and with loopings of black lace that toned down the resilistic vines and sprays that seemed to have been thrown at the black background; a gray crownless hat, with a coquettish wing placed on one side; a black lace sunshade and long undressed kids that

As the party of which she was a member consisted entirely of lacies, who were considered legitlimate prey for all store-keepers, cab-drivers and hotel waiters, they put their heads together and devised schemes whereby they could outwit the grasping foreigners, and, by refusing to purchase when exceptionally processed and declining the use of a carriage when the driver asked double fare, managed to get things much their own way. Their method of feeing the lotel attaches was especially unique. When they intended departing from a hotel a bell netlified all the waiters, and other servants as well, and each one, whether they had previously seen the guests or not, expected to recorde a cash souvenir of the visit. So the hadies, that they might retain enough money active a cash convenir of the visit. So the addles, that they might retain enough money or return home, bestowed their offerings in cration, and, as they run the gauntlet of straints, each lady tipped one or more, acording to the rule of arithmetic. How the lan satisfied the expeciant servants the rules is never waited to see.

Brady, who is Mr. Gaylor's manager, has been at work for the past six months on this production, and is determined that it shall excel anything of the kind ever seen in Pittsburg. Many new mechanical inventions will be introduced in the piece, and the specialties will not only be new, but the neatest and most refined ever seen in farce comedy. The company selected to support Mr. Gaylor includes among its members Miss Georgie Parker, so well known here in Pittsburg as the leading soubrette with George C. Jenks' U. S. Mail Company and the Hoyt and Thomas attractions; Pearl Arding, the California dancing wonder, her first appearance in the East; "The Olympia Quartette," for the past seven years with Evans & Hoey's Parlor Match Company; J. AT a meeting of the line officers of the Eighteenth Regiment last week, it was decided to have an officers' mess at the coming encampment. Captain Simmons, Captain encampment. Captain Simmons, Captain Penny and Licutenant Dook were appointed the committee in charge. The movement is a good one, and while it has been contempiated for years, this is the first actual attempt to carry it through. Nearly all the line officers of the regiment have signified their consent to go in on the scheme. Greene, Augustus Thomas and Max Free-man—have contributed a plot abounding with humorous dialogue and funny situa-tions. The songs, dances and specialties have been arranged expressly for this pro-duction by that greatest of specialty in-ventors, Barney Fagan, who will himself lead eight gorgeously costumed dancers in a direction song and dance. Other special numbers will be a hoop chorus by 16 little girls, a song and dance by four monkeys dressed in dude costumes, a butterfly ballet, a decollette minuet, and a grand choral march by the whole company.

AT the last meeting of the Eighteent Regiment the adoption of campaign hats was decided on for the coming camp, and was decided on for the coming camp, and most of the companies have taken steps to procure them. This move is one of the most beneficial that could have been made in the interest of the enlisted men, as for general wear the hats are a great improvement over the regulation cap. The color of the hat will be gray. An attempt was also made to adopt a uniform shirt, but the matter was dropped for the present.

Hundreds of wild beasts, chariots, triumphal cars, etc., are needed in the piece, and 300 ballet girls show how the Emperor Nero was regaled in his palace. Truly it is most wonderful throughout. When Dr. Nichols says it is not only possible for a man to live upon figs, but, that sitting Coghlan visits Pittsburg next season, she under his own vine and fig tree, a man would have pienty to cat and no landlord to pay. Coghlan visits Pittsburg next season, she would find it advantageous to put on "As You Like It" for two or three nights. If she does so, however, she will have difficulty in obtaining an Orkindo of such rare grace and enlture as Mr. Joseph Haworth. The performance of this young actor confirmed the impression which he has made so generally that he is destined to be a champion of the boldest kind in the romantic and the Shakesperian schools. Not long ago Mr. William Winter, the eminent critic of New York, expressed the opinion that Mr. Haworth gave promise of being the great Booth's successor, and the opinion is likely to be widely echoed. The time is indeed opportune for the rise of a new star in this quarter of the theatrical heavens. With Booth retired, Barrett dead, and not more than three or four actors of any considerable ability essaying the great roles of the legitimate drama, Mr. Haworth has no one to blame but himself if he does not take the lead. seasons figs are almost the most common food of the Italians. They are nutritious, and, as we all know, possess valuable medicinal virtues. Fresh figs served at the heginning of a repast form an exquisite cold hors d'aluvre, and they enter largely into the composition of many sweet dishes. I here subjoin a few reliable recipes: Fig Pudding. Mix together one-half pound of best figs, chopped, one-half pound bread crumbs, one-half pound suct, one-half cup flour and four-eggs. young actress who kept pace with Miss Coghlan in "As You Like It." Miss Burress' talents were recognized by The Dispayon when she played here with Mayo, and since talents were recognized by The Disparch when she played here with Mayo, and since then she gained amazingly by study and experience. Her greatest endowment physically is a melodious voice, which has been trained in a good school; this will serve her more than her good looks and lithe, graceful figure. But she has real histrionic talent as well, and so much of it that there is no denying her a brilliant career, if she will but avoid the pitfalls so plentifully provided for young women who are much flattered and applicated in public. Another observation which this performance of "As You Like It" tempts one to make is that nowhere are actors so prone to exaggerate, to overleap naturalness in voice every way, as in essaving Shakespearian characters. Mr. Osmond's Adam would have been very good if it had not been so terribly overdone. It not only lacked repose and repression, but had not the least shading in it. Declamatory violence was the prevailing fault with the minor characters; and Miss Dossert magnified the unpleasantness of Audrey to the verge of repulsiveness. There is aiready talk of an out of door performance of "Midsummer's Night Dream" or "As You Like It," with professionals in the leading roles and amateurs for the balance, for charity's sake. The grounds of some wealthy East Ender will be used, if the plan is carried out, and one or two ladies thoroughly able to undertake such a thing are said to have fallen in love aiready with the idea.

For a very fine dessert and one easily made we recommend this compote: Make a syrup of four ounces of fine white sugar, the rind of a large lemon (or orange juice and rind) and a pint of cold water. When the sugar is dissolved add a pound of fine figs and allow to simmer very gently over a slow fire for about two hours. Add two glassfuls of wine and the strained juice of the lemon. Facts About Pickles. Fickles are best preserved in glass or hard stone jars. Scald the jars thoroughly and set in the sun for a few hours before filling them. Pickles often spoll and become soft, because the vinegar does not completely cover them. Always put a weight on them and tie up carefully to keep out insects. A harmless greening for pickles is vine leaves or spinach. The practice of using a brass kettle for this purpose is a very dangerous one. It spices are used or tumeric for coloring tie these in thin muslin bags.

Of Interest to Mothers.

The success of Mrs. Annie M. Beam, of McKeesport, Pa., in the treatment of diar-rhea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several eral children with us, two of whom took the diarrhea very badly. I got some of Cham-berlain's Colic, Cholera and Diarrhea Remedy from Rev. Mr. Chapman. It cured both of them. I know of several other cases where it was equally successful. I think it cannot be excelled and cheerfully
