WIFE OF AHASUERUS.

Rev. Dr. Talmage Talks Concerning Esther the Beautiful

TO PEOPLE OF THE NORTHWEST.

An Address at a Chautanqua Assembly at Monona Lake Shore.

TIME FOR WORK WILL SOON BE PASSED

[SPECIAL TRIEGRAM TO THE DISPATOR.] Madison, Wis, July 26.-Dr. Talmage prenched this morning at a Chautauqua Assembly on the banks of Monona Lake near this city. It is a great gathering of people from all parts of the Northwest. His text was Esther 4, xiv.: "Who knoweth whether thou art come to the kingdom for such a time as this.'

Esther the beautiful was the wife of Ahasucrus the abominable. The time had come for her to present a petition to her infamous husband in behalf of the Israelitish nation, to which she had once belonged. She was afraid to undertake the work, lest she should hose her own life; but her uncle, Mordecat, who had brought her up, encouraged her with the suggestion that probably she had been raised up of God for that peculiar misclergyman preaches in it. Your pulpit is the story Your pulpit is the story Your pulpit is the story Your pulpit. been mised up of God for this, pechan and sion. "Who knoweth whether thou art come to the kingdom for such a time as this?" Esther had her God-appointed work; you and I have ours. It is my business to tell you what style of people we ought to be in order that we may meet the uemand of the age in which God has cast our lot. If you have come expecting to hear abstractions discussed, or dry tochnicalities of religion glorified, you have come to the wrong place; but if you really would like to know what this age mas a right to expect of you as Christian men and women, then I am ready in the Lord's name to look you in the lace. When two armies have rushed into battle the officers of either army do not want a philosophical discussion about the chemical properties of human blood or the nature of guapowder; they want some one to man the batteries and swab out the guns. And now, when all the forces of light and darkness, of heaven and bedl, have plunged into the fight, it is no time to give ourselves to the definitions and "Who knoweth whether thou art formulas and technicalities and conventionalities of religion. What we want is practienl, earnest, concentrated, enthusiastic and triumphant help. What we need in the East you in Wisconsin need.

MUST BE AN AGGRESSIVE CHRISTIAN. In the first place, in order to meet the special demand of this age, you need to be to unmistakably aggressive Christian. Of half-and-half Christians we do not want any more. The Church of Jesus Christ will be etter without ten thousand of them. They are the chief obstacle to the Church's adcancement. I am speaking of another kind of thristian. All the appliances for your recoming an curnest Constian are at your hand, and there is a straight path for you not the broad daylight of God's forgiveness. You may have come here to-day the condition of these doors you may become the ness. You may have come here to-day the bendsmen of the world, and yet before you go out of these doors you may become the princes of the Lord God Almighty. You know what excitement there is in this country when a foreign prince comes to our shores. Why? Because it is expected that some day he will sit upon a turone. But what is all that honor compared with the honor to which God calls you—to be sone and daughters of the Lord Almighty; yes, to be queens and kings unto God. "They shall reign with him forever and forever."

But, my frien's, you need to be aggressive Christians, and not like those persons who spend their lives in hugging their Christian graces and wondering why they do not make any progress. How much robustness of health would a man have if he hid himself in a dark closet? A great deal of piety of the day is too exclusive. It hides itself, in needs more fresh air, more outdoor exercise. There are many Christians who are giving their entire life to self-examination. They are teeling their pulses to see what is the condition of their spiritual health. How long would a man have robust physical health if he kept all the days and weeks and mouths and years of his life feeling his pulse instead of going out into active, earnest, everyday work?

I was once amid the wonderful, bewitching exclus growths of North Carolina. I never

est, everyday work?

I was once amid the wonderful, bewitching cactus growths of North Carolina. I never was more bewildered with the beauty of flowers, and yet when I would take up one of these cactuses and pull the leaves apart the beauty was all gone. You could hardly tell that it ever had been a flower. And there are a great many Christian people in this day just pulling apart their Christian experiences to see what there is in them, and there is nothing attractive left. This and there is nothing attractive left. and there is nothing attractive left. This

I remember when I was a boy I used to have a small piece in the garden that I ed my own, and I planted corn there, and every few days I would pull it up-to see and every few days I would pull it up-to see how fast it was growing. Now, there are a great many Christian people in this day whose self-examination merely amounts to the pulling up of that which they only yes-terday or the day before planted. O my friends: if you want to have a stal-wart Christian character, plant it right out of doors in the great field of Christian use-fulness, and though storms may come uponalness, and though storms may come upon , and though the hot sun of trial may try may have their habitation. I have no pa-icence with these flower-pot Christians. They keep themselves under shelter, and all heir Christian experience in a small, ex-imate circle, when they ought to plant it a the great garden of the Lord, so that the whole atmosphere could be aromatic with heir Christian usefulness. What we want in the Church of God is more brawn of all the countries of the

The century plant is wonderfully suggestive and wonderfully beautiful, but I never look at it without thinking of its parsimony. It lets whole generations go by before it puts forth one blossom; so I have really more heartfelt admiration when I see the dewy tears in the hearts of the volots, for they come every spring. My Christian friends, time is going by so rapidly that we cannot afford to be idle. A recent statistician says that human life now has an average of only 12 years. From these 32 years age of only 32 years. From those 32 years you subtract all the time you take for sleep und the taking of food and recreation; that will leave you about 16 years. From those 16 years you must subtract all the time that is years you must subtract all the time that you are necessarily engaged in the earning of a livelihood; that will leave you about hight years. From those eight years you must take all the days and weeks and nonths—all the length of time that is passed a childhood and slekness, leaving you about me year in which to work for God. Oh, my out, waite up! How darest thou sleep in mirrest time and with so few hours in which o reap? So that I state it as a simple fact hat all the time that the vast majority of ou will have for the exclusive service of God will be less than one year?

MUST AVOID ICONOCLASM. Again, if you want to be qualified to meet the duties which this age demands of you, on must on the one hand avoid reckless conoclasm, and on the other hand not stick too much to things because they are old. The air is full of new plans, new projects, The art is full of new plans, new projects, new theories of government, new theologies, and I am amazed to see how so many Christians want only novelty in order to recommend a thing to their confidence; and so they vacillate and swing to and fro, and they are useless, and they are unhappy. New plans—secular, ethical, philosophical, religious, cisatlantic, transatlantic. Ah, my brother, do not adopt a thing merely because it is new. Try it by the realities of a Judgment Day.

cause it is new. Try it by the realities of a Judgment Day.

But, on the other hand, do not adhere to anything merely because it is old. There is not a single enterprise of the church or the world but has sometimes been scoffed at. There was a time when men derided even Bible scoleties; and when a few young men met near a haystack in Massachusetts and organized the first measurery society ever organized in this missionary society ever organized in this country, there went laughter and ridicule all around the Christian Church. They said the undertaking was preposterous. And se also the work of Jesus Christ was assalled. also the work of Jesus Christ was assalled. Preopie cried out: "Who ever heard of such theories of ethics and government: Who ever noticed such a style of preaching as Jesus has!" Ezekiel had talked of mysterions wings and wheels. Here came a man from Capernaum and Gennesaret, and he drew his illustrations from the lakes, from the sand, from the ravine, from the Pharisees scoffed! How Herod derided! How Caipphas hissed! And this Jesus they plucked by the beard and they spat in his lace, and they called him "this fellow!" All the great enterprises in and out of the Church have at great multitude who have thought that the charlot of God's truth would fall to pieces if it once got out of the old rul.

THE CHURCH SHOULD WAKE UP. And so there are those who have no pachurch architecture, or with anything like they deride any form of religious discussion which goes down walking among everyday men rather than that which makes an excursion on rhetorical stilts. Oh, that the Church of God would wake up to an adaptability of work! We must admit the simple fact that the churches of Jesus Christin this day do not reach the great masses. There are 50,000 people in Edinburgh who never hear the Gospel. There are 1,000,000 people in London who never hear the Gospel. There are a least 380,000 souls in the city of Brooklyn who come not under the immediate ministrations of Christ's truth; and the Church of God in this day, instead of being a place full of living epistles, read and known of all men, is more like a "dead letter" postofilee. "But," say the people, "the world is going to be converted; you must be patient; the kingdoms of this world are to become the kingdoms of Christ." Never, unless the Church of Jesus Christ puts on more speed and energy. Instead of the Church converting the world, the world is converting the Church. Here is a great fortress. How shall it be taken? An army comes and sits around about it, onts off the supplies and says: "Now we will just wait until from exhaustion and starvation they will have to give up." Weeks and months and perhaps a year pass along, and finally the fortress surrenders through that starvationand exhaustion. But my friends, the fortresses of sin are never to be taken in that way. If they are taken for God it will be by storm; you will have to bring up the great siege guns of the gospel to the very wall and when the armed infantry of heaves thall confront the battlements you will have to give the quick command, "Forward! Charge."

THERE IS WORK TO BE DONE.

THERE IS WORK TO BE DONE. Ah, my friends, there is work for you to do and for me to do in order to gain this grand clergyman preaches in it. Your pulpit is the bank. Your pulpit is the store. Your pulpit is the editorial chair. Your pulpit is the anvil. Your pulpit is the house scaffolding. Your pulpit is the mechanic's shop. I may stand in this place and, through cowardice or through self-keeping, may keep back the word I ought to utter; while yon, with sleeve rolled up and brow besweated with toil, may utter the word that
will jar the foundation of heaven with the
shout of a great victory. Oh, that to-day
this whole audience might feel that the Lord
Almignty is putting upon them the hands
of ordination. Every one, go forth and
preach the Gospel! You have as much
right to preach as I have, or as any man
has. Only find out the pulpit where God
will have you preach, and there preach.
Hedley Vicars was a wicked man in the
English army. The grace of God came to
him. He became an earnest and eminent
Christian. They scoffed at him, and said:
"You are a hypocrite; you are as bad as
ever you were." Still he kept his faith in
Chr st, and after awhile, finding that they
could not turn him aside by calling him a
hypocrite, they said to him: "Oh, you are
nothing but a fanatic." That did not disturb him. He went on performing his Christian duty until he had formed all his troop
into a Bible class, and the whole encampment was shaken with the presence of God.
So Havelock went into the heathen temple
in India while the English army was there,
and put a candle into the hand of each of
the heathen gods that stood around in the
heathen temple, and by the light of those
candles, held up by the idols, General Havelock preached righteousness, temperance,
and judgment to come. And who will say,
on earth or in heaven, that Havelock had
not the right to preach?

SEEMED TO REACH THE THRONE. you, with sleeve rolled up and brow besweated with toil, may utter the word that

SEEMED TO REACH THE THRONE. In the minister's house where I prepared for college there was a man who worked by the name of Peter Croy. He could neither read nor write, but he was a man of God. Often theologians would stop in the house-grave theologians—and at family prayers Peter Croy would be called upon to lead, and all those wise men sat around, wonder-struck at his religious efficiency. When he struck at his religious efficiency. When he prayed he reached up and seemed to take hold of the very throne of the Almighty, and he talked with God until the very heavens were bowed down into the sitting room. Oh, if I were dying I would rather have plain Peter Croy kneel by my bedside and command my immortal spirit to God than some heartless ecclesiastic arrayed in costly exponicals. Go preach this gospel.

and command my immortal spirit to God than some heartless ecclesiastic arrayed in costly canonicals. Go preach this gospel. You say you are not licensed. In the name of the Lord Almighty, this morning, I license you. Go preach this gospel—preach it in the Sabbath schools, in the prayer meetings, in the highways, in the hedges. Woe be unto you if you preach it not.

I remark, again, that in order to be qualified to meet your duty in this particular age, you want unbounded faith in the triumph of the truth and the overthrow of wickedness. How dare the Christian Church ever get discouraged? Have we not the Lord Almighty on our side? How long did it take God to slay the hosts of Sennacherth, or burn Sedom, or shake down Jericho? How long will it take God, when he once arises in his strength, to overthrow all the forces of iniquity? Between this time and that there may be long seasons of darkness—the charlot-wheels of God's Gospel may seem to drag heavily, but here is the promise, and yonder is the throne; and when Omniscience. yonder is the throne; and when Omniscience has lost its eyesight, and Omnipotence falls back impotent, and Jehovah is driven from his throne, then be despondent, but never until then. Despots may plan and armies may march, and the congresses of the nations may seem to think they are adjusting all the affairs of the world, but the mighty men of the earth are only the dust of the chariot-wheels of God's providence.

THE LAST TYRANNY MAY FALL, I think that before the sun of this century shall set the last tyranny may fall; and with a splendor of demonstration that shall be the astonishment of the universe. God will set forth the brightness and pomp and glory and perpetuity of his eternal government. Out of the starry flags and the emblazoned insignia of this world, God will make a path for his own triumph, and returning from universal conquest, he will sit down, the grandest, strongest, highest throne of earth his footstool.

Then shall all nations' song ascend
To Thee, our Ruler, Father, Friend,
Till heaven's high arch resonnis again
With 'Peace on earth, good will to men.'
I preach this sermon because I want to
encourage all Christian workers in every I preach this sermon because I want to encourage all Christian workers in every possible department. Hosts of the living God, march on! march on! His Spirit will bless you. His shield will defend you. His sword will strike for you. March on! march on! The last despotism will fall, and paganism will burn its idols, and Mohanmeelanism will give up its false prophet, and the great walls of superstition will come down in thunder and wreck at the long, loud blast of the Gospel trumpet. March on! march on! The besiegment will soon be ended. Only a few more sturdy blows: only a few more buttle cries, then God will put the laurel upon your brow, and from the living fountains of heaven will bathe off the sweat and the beat and the dust of the conflict. March on! march on! For you the time for work will soon be passed, and amid the outflashings of the judgment throne, and the trumpeting of resurrection angels, and the upheaving of a world of graves, and the Hosanna of the saved and the groaning of the lost, we shall be rewarded for our faithfulness or runnished for our stupidity. Blessed be the Lord God of Israel from everlasting to everlasting, and let the whole earth be filled with His glory. Amen and Amen.

HOME SECURITIES AND MONEY.

A Fair Volume of Transactions, but No Sur prises Flash Up.

There were no developments in the stock market during the week upon which to base extended comment. Business was fairly good for the midsummer season. Total sales were 881 shares, against 1,310 the previous week. In addition about 500 shares were sold at auction. The only sale Saturday was that of 40 shares of Luster at 13%. Closing prices as compared with those of the previous Saturday show the following

changes in the active list: Loster gained by and Airbrake 1½. Philadelphia Gas lost 1½ Wheeling 1, Central Traction 24, Pleasant Valley ½ and Switch and Signal 34. There were no fluctuations of consequence in other parts of the list. parts of the list.
The local banks did well the past week, the The local banks did well the past week, the call for loans being liberal and discounting fair. The supply of funds was abundant, and rates were steady around \$1467 as the extremes. The bank clearings were larger than those of the previous week, over \$1,200,000 below those of 1890, when everything was booming.

PROLIFIC

Putting Forth More Than the Consumers of Produce Require.

GARDEN STUFFS DROP IN PRICE, And Housekeepers Can Put Up Things Cheaply Against a Cold Day.

THE LATEST ABOUT HIDES AND LEATHER

OFFICE OF THE PITTSBURG DISPATCH, SATURDAY, July 25. The feature of the week in lines of farm and garden products has been the great gint of stuff and, as a result, a sharp decline in prices all along the line. Fruits and vege tables are lower this week than they have been for several years. The drop in pota-toes within the week has been equal to \$1 per barrel. Watermelons, which were firm last week at \$20 to \$25 per hundred, are now dull at about one-half these figures. Cabbage, tomatoes, apples and in fact all gar-

bage, tomatoes, apples and in fact all garden products are in excessive supply and prices have been daily declining all the week.

Home-raised products now have the field and Southern fruits and vegetables have little show at this date. Large quantities of stuff from the South will not yield enough to shippers to pay freight bills. While the week has furnished few crumbs of comfort to the producer, consumers have no cause to complain. The articles that enter into home consumption have not been lower in price the past decade than they are this season. With an abundance of fruits and sugar at 20 pounds for \$\frac{1}{2}\$ the householder has little cause for complaint. Vegetables, wheat and flour are also steadily drifting downward, and it is now an assured fact that 1891 will be one of the cheapest years for household supplies.

From present outlook it is plain light hides and calfskins are at bottom. Tone of mar-kets has elightly improved in the West the past week and effort was made to advance prices. Eastern tanners, however, failed to respond to the upward movement, but are respond to the upward movement, but are free buyers at present prices, showing their faith that prices are now down to hard pan. There is not the anxiety to seil there was a week or two ago. Steer hides are steady-and unchanged. Latest Boston advices intigened at a stronger tone to hide markets. I is claimed, however, by those of bearish tendencies that there is no substantial reason for an advance, and that, if the present boom is attempted to be forced by Western dealers in hides, Eastern tanners will hold off till October before buying.

Following are prices paid by tanners and hide dealers for stock delivered here:

hide dealers for stock delivered here:

No. 1 green salted steers, 60 hs and over.

No. 1 green salted ows, all weights,

No. 1 green salted hides, 40 to 60 hs.

No. 1 green salted hides, 40 to 60 hs.

No. 1 green salted buils.

No. 1 green salted dulls.

No. 1 green salted calfskins.

No. 1 green salted runner kips.

No. 1 green salted runner kips.

No. 1 green salted runner kips.

No. 1 green salted salt sips.

No. 1 green hides, 40 to 60 hs.

No. 1 green hides, 25 to 40 hs.

No. 1 green kips.

No. 1 green veal kips.

Harness Leather.

Harness leather tanners report a free movement of stock at present prices. There is little doubt that prices are now at their lowest for this year. The great crops of the country point to extra demand for horse equipments the coming fall. When farmers prosper harness leather is always in demand. That this is the common faith of consumers is evidenced by the fact that tanners report a good demand for all stock produced.

leather, as established by the Allegheny tanners:

No. 1 trace, 37c P h; B trace, 35c P h; No. 1 extra heavy, 100 hs and over, 35c P h; No. 1 extra heavy, 100 hs and over, 35c P h; No. 1 extra heavy, 30c P h; No. 2 extra heavy, 28c P h; No. 1 heavy, 130 to 160 hs, 31c P h; B heavy, 29c P h; No. 2 heavy, 27c P h; black line, 28c P h.

The Boston Herald has this to say of trade in shoe and leather lines:

"The condition of the boot and shoe manufacturing trade is not yet all that could be asked. Manufacturers are struggling along with a few orders, and waiting for more orders. But the best informed of them scarcely expect much of a change so long as the present bankrupt stocks of goods are hanging over the market. It is a fact that there are now some eight stocks of goods of this character—the goods of failed concerns, and goods that must be sold—still hanging this character—the goods of failed concerns, and goods that must be sold—still hanging over the market. The goods are not all those of New England concerns, to be sure, but they are goods that are being offered on this market to a greater or less extent. These goods are also being offered at low prices, and at prices that it is impossible for manufacturers to compete with. In some cases the value of the goods being obtained is not nearly up to the valuations put on them by the assignees. Stocks of goods that were valued as high as \$150,000 are being sold out at figures that will not make the total figure above \$80,000.

The West on the Lockyot.

The West on the Lockout. "Such prices are demoralizing to the trade, and houses that have continued in business, with good credit, find that their own goods are being sold at prices that they find themselves obliged to stop, by actually tak-

themselves obliged to stop, by actually taking the goods back. The jobbers in the West and the larger retail concerns are taking advantage of such sales, and are buying all the goods that they can make answer the purpose of goods that they would otherwise be ordering from manufacturers. It is safe to say that until these bankrupt stocks of goods are sold out of the way, there will be no great improvement in the boot and shoe manufacturing trade.

"It is true that the general impression is that the worst is over; but the period of mending promises to be a long and a tedious one. This is especially true of leather, and of finished leather in a marked degree. When a buff leather shoe, that cost \$1 lo to build last season, is selling from bankrupt stocks at 80c and 90c, there is not much chance that the manufacturers are going to pay any considerable advance in the prices of buff leather, nor that they are actually obliged to have. It is also no surprise that manufacturers are looking after cheap buff leather, and that in the face of this inquiry the cheap buff leather should have become scarce." ing the goods back. The jobbers in the West

Indianapolis — Cattle market dull; un-changed. Hogs—Receipts, 1,700; stronger; choice heavy, \$5 40@5 60; choice ight, \$5 40@ \$5 60; mixed, \$5 40@5 55; pigs, \$3 50@4 90.

SATURDAY'S MARKETS. CHICAGO-Wheat showed a great deal of strength during the early part of the session, the news having a decidedly bullish coloring. Receipts were largely below the estimate, and cables generally reported a better tone abroad. A private dispatch better tone abroad. A private dispatch All of these gave a strong turn to prices, and, with light offerings and a good short degmand, December sold from 881/4085% c to 81% c. It held around 83c for a time, when there was free selling. This checked the advance, and then the estimate of 850 cars for Monday came, when weakness set in and the price went off to 88% c, and closed at 88% c.

Hog products were strong and higher. Live hog receipts were only 8,000 head. The strength in corn strengthened provisions. The general crowd scemed on the buying side, probably covering short sales. September pork started at \$11 45; touched \$11 46; advanced to \$11 60; fluctuated within that range, and closed at \$11 47%.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 45 Sixth street, members of Chicago Board Trade:

NO NEW FEATURES IN GROCERY LINES

OFFICE OF PITTSBURG DISPATCH, SATURDAY, July 25. COUNTRY PRODUCE (Jobbing prices)—About all that can be said of farm and garden products is that trade was not quite so mean on Saturday as it was a day or two before. Nearby gardeners report a better demand for their products than at any time this week. Saturday, however, is their good day. Prices show no improvement. Water-melons and praches are in such that the same of day. Prices show no improvement. Watermelons and peaches are in supply much
beyond demand. Ripe peaches were unloaded to-day in large quantities at nominal
prices. Home raised fruits and vegetables
now have the field and Southern stuff is a
drug. Ohio Cheese is firm and active at the
advance and prospects are that still further
advances will come at an early day. Strictly
fresh eggs have gained in firmness the past
few days, and outside quotations rule. Some
dealers report candled stock at le per dozen
above our quotations.

Flour, Grain and Feed.

There was very little life to trading at the Grain Exchange to-day. The ups and downs of markets for a few days past, partake so much of a speculative character that regular dealers are disposed to go slow and buy only as necessities require. Sales on call the past week have been very few. There were no sales to-day. Receipts, as bulletined, Il cars as follows: By Pittsburg, Ft. Wayne and as follows: By Pittsburg, Ft. Wayne and Chicego, 2 cars of oats, 2 of hay, 1 of middlings, 1 of straw, 3 of flour. By Pittsburg, Cincinnati, and St. Louis, 1 car of mill feed, 1 of bran. Receipts for the week ending July 24, 217 cars, against 164 cars last week. In this week's receipts were 53 car loads of wheat, the largest run in this line for the season. season.
Following quotations are for carload lots on track. Dealers charge in advance on these prices from store: on track. Dealers charge in advance on these prices from store:

THE BIG SAUTERS WELL.

IT WAS DRILLED DEEPER AND THE OUTPUT INCREASED.

For Some Time It Made Nearly 180 Barrels an Hour-A Light Well Drilled in at Moon Saturday-Reports From Other Outlying Districts.

There was almost as big a surprise at Mc-Donald Saturday as any day during the week. It was the only subject which oil men could be induced to talk about. The week. It was the only subject which out men could be induced to talk about. The grant state of the Royal Gas Company, which was doing \$5 barrels an hour at noon Friday, was drilled deeper late that evening, and increased its production to nearly 180 barrels an hour. It kept this gait for some time and then fell off to 150 barrels an hour, which it was doing Saturday morning. Saturday evening it was doing from 105 to 110 barrels an hour, and showed no signs of decreasing. It has already paid for the drilling of it, and is now putting out a small fortune every 24 hours. How long it will hold up to this rate is only a matter of conjecture. There is nothing near it now, but before the week is over the well of Lacount & Valalee, on the Short lot, 200 feet south of it, will get the fifth sand, and probably drain some oil from the rock from which the Sauters is now flowing. The Venture Oil Company has a rig up on the W. B. Moorhend farm, one mile southwest of McDonald station, and will commence drilling to-day or to-morrow. There are 100 acres in this farm, for which they paid a bonus of \$5,000.

Making Its Usual Time.

Making Its Usual Time. Nonlestown-The big well of Guffey, Jen nings. Murphy & Co., on the Matthews farm, nings, Murphy & Co., on the Matthews farm, a mile west of this place, is still doing about 40 harrels an hour. It has not been agitated since it was struck, and probably could be run up to 75 or 100 barrels an hour if drilled into the sand a short distance. The Forest Oil Company's well on the Herron farm will be shot this week.

Not a Large Well. x-Bradley & Murphy's No. 2 on the

P. H. Stevenson farm came in Saturday, and will make a 30 or 40 barrel well. F. E. Boden & Co.'s Nos. I and 2 on the Hood farm are ex-pected to get the sand to-day. Still Producing Oil.

ton was renewed immediately and in the most open manner, and that stock was soon of material amount. A pressure was afterward brought upon the Richmond and West Point securities, and the bonds suffered severely, while the preferred stock, which has not been dealt in during the week, sold down over 8 per cent from its last previous sale. In addition to these declines Jersey Central was also almost unaccountably weak, losing 2 per cent, which affected the rest of the list unfavorably, and small losses were sustained all along the line.

The bank statement, however, unexpectedly showed a material gain in the surplus reserve, and the downward movement was checked except in the stocks most directly affected by the manipulation, so that the final dealings were devoid of feature of interest. The market closed dull and barely steady for the general list, but in most cases at the lowest prices of the day. The final changes are generally insignificant losses, but Jersey Central is down 1½; Burlington, 1¾, and Richmond and West Point 1¾.

Railroad bonds displayed the usual dullness, the sales for the session amounting to \$261,000, but the tone was weak, and while the active bonds were only slightly changed as a rule, the Richmond and West Point 6's lost 1½ at 91.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE Disparch by WHITNEY, & McCuapy-Guffey & Gailey's No. 1 on the Annie Adams farm, north of the Bell, is still Annie Adams farm, north of the Bell, is still producing nearly 50 barrels an hour. Black, Emerson & Guffey's No. 1 on the Aiken farm is in the stray above the Gordon, and their No. 2 on the same farm is in the 20 foot. R. G. Gillespie & Co.'s No. 5 on the Jane Riddle, 180 feet south of the Bell well, is fishing at 2,000 feet.

In Old Chartiers. lost 1% at 91.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday.

Corrected daily for The DISPATCH by WHITNEY & STEPHENSON, oldest Pittsburg members of the New York Stock Exchange, 57 Fourth avenue.

CHARTIERS-About the only well now drilling in this once active district is the Foster Oil Company's well on the Duff farm, which is down 900 feet. Plenty of Gas.

DEHAVEN-The well of Spang, Chalfant & Co. on the Judge Sterrett farm at this place has struck a strong flow of gas, which is esti-mated at 400 pounds. Nearing the Sand.

GREEN GARDEN-The test well of the Forest Oil Company, on the John Ingle farm, near this place, is due the last of the week. Fishing for the Tools. MONTOUR-The Fort Pitt Gas Company is

still fishing for its tools at its No. 2 on the Burns farm. It looks now as if the hole would have to be plugged, but if the tools are gotten out the well will be put down to the fifth sand. W. P. Black has a rig up on the Margaret Burns farm, 500 feet east of the old Depp well No. 2. Bradford Field Notes. On the Deltor farm C. K. Book's well No. ?

is about completed and will be shot next week, and this will wind up operations on that farm.

The P. C. L. & P. Co. have finished a five-barrel well on the Haven farm and have a rig building for No. 11.

M. Shear's well on the Paton has been completed and is good for three barrels a

In the vicinity of Sugar Run Smith & Jones are drilling a well on warrant 4,009. It was drilled to the depth of 1,400 feet and shut down, but it is alleged that work will be renewed in a few days. A showing of oil and gas was found in the second sand, but not sufficient to warrant a test.

In the Old Butler Field.

CALLERY—The McCalmont Oil Company has a rig up for its No. 2 on the Walters farm, and is building a rig for its No. 3 on the John Staples farm. The same company got the sand Friday on the John Staples farm, and has an excellent show for a well. It has made several flows of solid oil. They got the first pay at 27 feet in the sand and the second at 35 feet. They will go on 60 feet the second at 35 feet. They will go on 60 feet in the sand. The Breakneck Oil Company's No. 3, on the George Marburger farm, found the second pay at 35 feet in the sand. It now shows for a fair well.

Reports From West Virginia Down in Marion county the work of development has regained some of its old-time activity. Beaty No. 4 is in and will make a good well. Burt No. 12 is through the sand and showing for a good well.

At Fairview some important wells have come in lately. Among the number is Snider No. 1, which came in last week, and is doing 100 barrels. Sutton No. 2, South Penn, is just in, and is a good 100 barreler. Burns No. 1, South Penn, is in the first pay and has filled up 1,700 feet with oil, which is considered a good showing. Toothman No. 2, Fleming Oil Company, yesterday was about 75 feet in the sand, with discouraging prospects. S. Yost No. 3, which has been drilling since last October, is now in the sand. Timbers are on the ground for the Nay Yost No. 3. Several new wells are being started at Jake's run. The flowing wells are holding up very nicely. Down in Marion county the work of devel-

Saturday's Oil Markets.

There were no sales Saturday, but 15,000 barrels were offered at 67%c. Previously the few figures made were bids. It thus seems impossible to make both ends meet.

Refined was marked up a fraction at Antwerp, to 16%. The London quotation was 5-16; New York, 7.65. Average daily runs increased about 1,000 barrels and shipments 2,602.

CLEVELAND, July 25.—Petroleum easy; S. W. 110°, 63/c; 74° gasoline, 7c; 83° gasoline, 10c; 63° naphtha, 63/c.

New York, July 25.—Petroleum opened steady and declined 3/c on a few small selling orders, then became dull and remained so until the close Pennsylvania oil—August option, sales, 8,000 barrels; opening, 67%c; highest, 67%c; lowest, 67%c; closing, 67%c.

Bradpord, July 25.—National Transit Certificates opened at 67%c; closed at 67%c; highest, 67%c; lowest, 67c.

GOV. BOIES ENFORCING THE LAW. The Anti-Prohibition Executive of Iowa

Disturbs Political Calculations. DES MOINES, IA., July 26.-Governo Boies yesterday revoked suspension of sen-tence against "Stony" Jordan, of Ottumwa. Jordan is a notorious character against whom, at one time and another, over \$35,-

000 in fines has been assessed for liquor law violations. Two years ago Governor Larabee suspended all fines and jail sentences against him on condition that he would not go into business again. When Governor Larrabee went out and

When Governor Larrabee went out and Governor Boies, an anti-Prohibitionist, came into power, Jordan returned to Iowa, and has since been running a saloon at Ottumwa. Many Democrats are not pleased at the Governor's action, and Republicans declare it an attempt to catch Prohibitionist votes next fall. Many similar suspensions will be refall. Many similar suspensions will be re-voked by Governor Boles. It is a decided departure and is upsetting political calcu-

HIS CHILDREN.

My little son had a number of bad ulcers and running sores to come on his head

and body, which lasted for four years. I tried all the doctors and many remedies, but the sores still grew worse, until I did not expect him to recover. My friends were confident that if the sores healed it would kill him. I at length quit all other treatment and put him on Swift's Specific, and less than three bottles cured him a sound and healthy child. S. S. S., also cured a sore on another of my children.
