ANOTHER SHUT OUT.

The Reds and Old Radbourne Brace Up and Defeat Our Sluggers in a Somewhat Dead Game-Good Pitching on Both Sides, but the Home Players Do Some Bocky Fielding.

Our sluggers were beaten again vesterday the Reds, mostly because the former played a very poor game. They were shut out once more, but they shouldn't 寺官

have been if they had used a little good judgment at stages; indeed, if better E. Andrews; by St. Louis, J. P. Visner; by Washington, Thomas H. Hart, J. P. Visner, F. H. Duniap, Ed Beecher. cised at stages they might have won. The attendance was probably the poorest of the season. The weather was bad and a drizzling rain fell almost continuously. There was little or

no enthusia sm in the contest, because it was one of the dead kind, and also because the weather was not at all cheering. There was no stage of the game where anything like excitement appeared. Once or twice the home players got a man to third when a un would have tied the score, but that run

sould not be tailled.

Radbourne, the old boss, pitched in rare form, and the home players could not by any means make themselves at home with him. The ball was hit often enough, but the fielding was always so brilliant in the part of the visitors that there was no chance at all given to score a run. The Reds really put up a fine game and a plucky one. That's what made them the victors although they did not carn one of their four runs.

The home team twice particularly looked The home team twice particularly looked like scoring. In the fourth Beckley sent a scaker down the right foul line for three bags. Muck then sent up a little fly to McPhee. Carroll followed with a moderately long fly to Browning. Becriey lesinated a little about trying to score on the throw in, but he set out for the run when he saw the throw was a bad one. The plate was well backed up, however, and he was nabbed at the post. In the sixth inning Shugart made a double after King was out, and Refly fooliship tried the bunting act, and struck out. Shugari stole third, but was left there. Sacrifice hitting may be all right, but yesterday it didn't seem good policy when a man was on first or second and a man out.

The visitors made their first run in the nd inning and it was really a gift by build. Halligan led off and made a sin-Mack. Reilly struck on a wild throw by Mack. Reilly struck out and Smith sent a grounder to Newell. The latter threw the ball to Beckley, but it was a little off line. Still Beckley got the bull and had Smith fairly out and be was called sare. INDIANA DEFRAUDED.

A Special State Agent Unearths Some Extensive Rascalities.

(SPECIAL TELEGRAM TO THE DISPATCH.) INDIANAPOLIS, July 28. - Governo Hovey recently sent his agent, John W. Coons, to Washington to look after the \$0,-000 due the State in repayment of \$irect war tax. If half is true that is reported the agent has discovmuch unmitigated rascality ered or idiotic bookkeeping in Washington de partments. In digging among the Wash ington documents Coons uncarthed the fact that \$200,000 is due the State, the greater part of which, he says, the Govern-

nent has given its assurance to repay.

There were found warrants amounting to \$46,000, which included vouchers duplicated as often as four times, raised vouchers and false ones, many of them in favor of some of the most prominent persons in this city. One voucher for \$53 70 was raised by unknown persons to \$5,370 and collected. That this money was paid is certain, but who the beneficiaries of this vast swindle are, or whether the money was received by the State, is not known. Private authority says that the visit of Coons has set the Washington officials to looking up records and that evidences of gigantic fraud will undoubtedly be found. The Government seems satisfied that Indiana never read the \$46,000 charged to her name.

THE STRIKE ON AGAIN.

List of Discharged Operatives Renews the Dobson's Mills Troubles,

PHILADELPHIA, July 28.—The strike at Dobson's Mills was broken for about six hours to-day, but is now on again. When the gates opened 360 weavers, who had been on strike ten weeks, entered and took their old positions. Before many had doffed their street apparel for their mill suits, however, Superin-tender.t Bently was seen going from loom to loom bearing a paper containing a long list of names. It was a roll of those to be discharged. As each received the unlooked-for notice, his loom was knocked off and he left the mill. Thirty-eight black-listed men

and women were soon congregated on Ridge avenue discussing the situation.

About an hour after a squad of nearly 100 sympathizers also quit work and joined the discharged working people. A meeting was soon organized, when the Messrs Dobson were violently denounced. The meeting continued until noon, when another large force ideal. until noon, when another large force joined the crowd. Those who had remained at their work were stopped on their way home and coaxed to stop work. At 1 o'clock all but 75 old weavers and 22 imported weavers again joined the strikers.

GRASSHOPPERS IN OHIO.

They Are Ruining the Crops Along the Indiana Boundary Line.

Boston, July 28.-Grasshoppers are ruining the oats prospects in 20 counties along the Ohio and Indiana border line, and the devastation is most marked in the region around the headwaters of the Wabash, Miama and Maumee rivers.

The crop is ruined by the small green hopper on farm after farm, and many growers, alarmed at the ravages of the pests, cut their oats green, but the hoppers followed it into the shock, and are now in the corn.

The second round was opened cautiously by both men. Dixon rushed, but accomplished nothing. A moment later he planted a swinging left on the Australian's jaw. Several sharp rallies and much clinching followed, then they kept up a see-saw on each other's jaws at the closest possible range. The round closed with cheers for both men.

In the fourth round, after two minutes of sparring. Dixon rushed and landed on Willis' jaw and body several times, receiving two sharp blows in return. Both were very quick and saved themselves by dodging.

The fifth round was opened like the others. Neither seemed disposed at first to rush and force matters. Toward the close there was a sharp rally near the ropes, in which it was give and take for a moment, though Dixon was plainly landing harder and oftener. Presently Dixon caught the Australian on the jaw with his left and sent him down. Willis rose to his hands and knees and took his ten seconds on the floor. He arose and when he did Dixon rushed him; he stood prepared to receive the attack. He was not able to do much, however, in the rally that followed, and Dixon's right soon came into contact with Willis' jaw, and the latter went down flat on his back. He fell heavily, and lay like a log. When ten seconds had expired Willis' seconds had to lift him from the floor, and Dixon was declared the winner. The colored man seemed as strong as when the fight commenced. (special trieghams to the distance.)

A PECULIAR thing about rivermen is that they are always watching for up-rive: news, especially after a rain. The question was asked a DISPATCH representative yesterday. "What is the latest from up the river?" and like the proverbial Yankee, it was answered by the question, "You are not expecting another rise, are you? Besides, there is nothing to go out." "Well, you see we always have more or less craft tied up along the shore, and it takes a continual watch so that the rivers do not come up on us too fast and sweep them from the moorings, or go down too suddenly and leave them high and dry, which cause them to warp and spring a leak. This has been a very good year for rivernen, as a whole, but I hope the present stage of water will continue for about six weeks, as there is plenty of coal in the lower markets, and it will give us a chance to stock up for the fall rise."
