IRON TRADE REVIEW

It Is the Dull Season, but Manufacturers Are Not at All Uncomfortable.

LAKE ORE FREIGHTS ADVANCED.

Pittsburg Brokers Purchase a Furnace at Which to Make Bessemer Exclusively.

IRON ORES GO UP 25 CENTS A TON.

Reports Which Show the Drift of the Trade Wind All Over the Land.

OFFICE OF PINTSBURG DISPATOR, FRIDAY, July 31.

MAW IRON AND STEEL-The summer dullness has fairly set in. During the coming three weeks sales will be restricted to lim-ited amounts. Prices for most descriptions are weaker but not quotably lower, with few exceptions. It must be borne in mind that the July sales of raw from beat all previous records. Many thousand tons have been sold for delivery the next three months. This places both parties in a safe condition. The furnaces will be kept busy making iron already sold, knowing exactly what price they will receive for it. Consumers will be in similar shape. They have made their contracts for large amounts, know exactly what the material will cost and when the same will be delivered. Under these circumstances quite a number of dealers have left business to take care of itself and departed for various points to en-joy a needed rest for a few weeks to prepare for a big fall and winter trade, which, unless all signs fail, will be one that will place all previous records in the background.

Will Make Bessemer Iron.

An iron firm of this city has leased Hall & Co.'s furnace at Sharon, Pa., and will make Bessemer iron. The new firm has also purbased about 100,000 tons of Bessemer ores. Since our last both Bessemer and non-Besseover over have advanced 25 cents per ton, and both kinds are said to be scarce. Hence those who made purchases earlier in the ason will have that much advantage over use who have to purchase later. Lake eights have advanced 10 cents per ton thin a short time. The impression seems that a further advance may be

The furnaces in Shenango and Mahouing Valleys are well sold up, having disposed of Valleys are well sold up, having disposed of sufficient to keep them employed during August and September Under these circumstances they are not in want of new business for carly delivery. Sou chern irons continue to be neglected. We have heard of no business for some time. The financial position is disquieting, and, while there is nothing unfavorable on the surface, there is an unaccountable feeling of uncertainty, and until that is removed it will be hard to get up a large demand for iron. So far as crops are concerned everything is favorable, while the demand promises to be almost unprecedented. Railroad earnings are also showing a steady increase, which, after crops begin to move, are likely to become the heaviest on record. Under such conditions it is useless to make predictions, so that the trade is patiently waiting for developments. maces in Shenango and Mahouing

A leading iron man has this to say: "Conring the large increase in production, in connection with so many mills being closed, the market holds very well. Good city brands are taken at quoted rates without much effort on the part of sellers, and while holders of other descriptions are a little anx-ious for more business they are not disposed to force matters."

The Situation—Prices generally are a

shade weaker than last week. Holders, gen erally, show no inclination to make conces-THE LATEST-The week's business show well for the senson. Bessemer wa her with less inclination to operate es show no cleange. Gray Forge steady

tive prices maintained. Steel rails at works, \$10. Scrap material weaker, for certain grades. Old steel rails, long lengths in de mand. Taken as a whole this is no season to plain of the week's business.

Information for Iron Men.

Pittsburg cash prices of Bessemer plg, even mogeths for past five years. It will be found useful for reference. Average figures for the month are given:

Nothing Hoped for in the Southern Market

Before Fall Sets In. SPECIAL TELEGRAN TO THE DISPATCH. Bushingham, Ala., July \$1.—The chronic duliness of the iron market continues withine and the milroads are complaining of the short movement. As the fall approaches, when the long hoped for rise is expected to make its appearance, operators are showing less disposition to cut prices and force sales, and the outlook is that enothous quantities will be stored in the yards of the Birming-ham district. The market is quoted, t. o. b., at the farmece. No. 1 foundry, \$12.50, No. 2, \$11.50, No. 2, \$19.50 gray forge, \$9.50. The question of steel anaking is now embying the attention of aid the from men in the district. The preliminaries have been completed and a call made on the public for subscriptions. The response is invorable so far.

The convict labor troubles in Tennessee when the long hoped for rise is expected to

have caused some uneasiness to the coal mining and furnace interests here. Two of the largest companies employ nearly 2,600 convicts in mining coal and making coke, and the district has always depended largely on this labor, especially as a preventative of strikes. The opinion is general that the sys-tem will go out before very long, when the cost of fuel will inevitably be increased by the higher wages that free labor will secure.

COMPETITION IS LIVELY

For the Limited Number of Orders Coming in to Cincinnati.

PRPECTAL TELEGRAM TO THE DISPATCH. CINCINNATI, July 31.—Rogers, Brown & Co. say: Pig iron is going forward quite rapidly to consumers on existing contracts, partly for immediate use, and, to some extent, in anticipation of a scarcity of cars hereafter. There has been the usual active competition for the limited number of orders placed during the week, but only one or two transactions at very low prices are reported, and these are not well authenticated. There is but little change in the condition among Southern coke furnaces. The higher grades of foundry, soft and silvery irons are scarce and the lower grades abundant. The Wood-

of foundry, soft and silvery irons are scarce and the lower grades abundant. The Woodstock coke furnaces are accumulating iron in their yards, hoping that the long-looked for revival in car building will soon materialize and relieve them.

The Actua charcaal furnace for some time past has been making "basic" pig for the Chattanooga Steel Works. As the capacity of the furnace is greater than that of the steel plant at present, a limited portion of the product is placed on the market for foundry use. This kind of iron is quite a novelty in the United States. It is high in phosphorous and graphitic carbon, with only a trace of sulphur and but little combined carbon, and the No. 1 has less than one-half of 1 per cent of silicon. In spite of this the iron is said to be extraordinarily fluid and especially adapted to art castings and work where fine lines are needed. The marked depression in Wall street and the stacks made on railroad and industrial stocks help to make the general outlook more discouraging. The good crops are still looked upon as the factor that will straighten matters out a little latter.

THE CHICAGO SITUATION.

Orders Are Not Very Heavy and the Few Are for Early Delivery Mainly.

[SPECIAL TELEGRAM TO THE DISPATCH.] CHICAGO, July 31.-Rogers, Brown & Merwin say: The market for pig metal continues in practically the same condition as last reported, orders for the most part being of small size, and covering early delivery. There are some large buyers who are still waiting for special prices, and are prepared to quierly pick up any bargains of this kind which may be offered. Two or three sales of round lots of Southern coke iron have been reported, ranging in size from have been reported, ranging in size from 1,000 to 2,000 tons. With this exception, orders placed have been mainly for small amounts. Prices remain practically unchanged, though on Lake Superior charcoals one or two of the largest companies are now holding their product at \$15.0, Chicago, in consequence of the heavy sales which they have made, taking nearly the entire product for the coming season.

Other furnaces making the same class of metal are still in the market for business at from \$17.59 to \$18.00. During the past 30 to 60 days there has been a marked increase in production. The question is a pertinent one as to whether consumption is keeping pace with this increase. If the railroad thus become large buyers in the autumn, as

one as to whether consumption is seeping pace with this increase. If the railroad lines become large buyers in the autumn, as expected, it will certainly bring about an era of prosperity and activity in all departments of the iron and steel industry.

cinity continues to improve. We note quite a difference in number of inquiries and increased sales. However, most of the orders are for small lots. The car works are all running full, and report some improvement in trade. We understand that an order for 500 cars has been placed with one of the works in this territory a few days ago. We quote for cash, f. o. b. St. Louis:

LOOKING TOWARD THE FALL.

Furnacemen Are Uneasy, but Are Hop-

fully Preparing for the Future. PERSONAL TELEGRAM TO THE DISPATOR A PHILADELPHIA, July 31.-Rogers, Brown & Co. say: This has been a very uneventful week in iron circles. But few sales have been made either in coke, iron or charcoal Furnaces are uneasy, it seems, regarding the light demand, but are filling old orders and preparing for the fall business, which has every indication of being large.

Matal Market

New York, July 31.—Pig iron quiet and un-changed. Copper quiet and easier; lake, July, \$12 25; do August. \$12 25. Lead nom-inal: domestic, \$4 37½. Tin dull and heavy; strairs, \$20 20.

THE MARKET BASKET. A Giut of Garden Stuff and Prices the

Lowest of the Season, So far as fruits and vegetables are conperned prices are lower than they have been for years at this time of the year. Potatoes were firm a few weeks ago at \$4 50 per barrel, while now they are weak at \$1 50. There was no time last season when cabbage would not sell at 90c to \$1 00 per bushel basket. The same have sold this week at 25c per basket. Tomatoes which sold a week ago at \$3 50 per bushel are now heavy stock at \$2.25 per bushel. And this is the situation all along the line of farm and garden products. All the past week our markets in these lines have had an overdose of stuff, and prices have daily drifted downward. The smaller fruits are near their end for this season. Raspberries have become a thing of the past, and blackberries add hackleberries lead in lines of small fruits. In place of that which has passed away comes the fruit of the vine, which appeared for the first time this week. which appeared for the first time this week. The supply of peaches is steadily gaining, and by another week our markets will no doubt be glutted with this fruit. The rush of apples from nearby farmers is such that prices have become merely nominal.

The absense of many of the best customers, who are seeking rest and recreation at the sea shore and mountains, and the presence of such immense quantities of stuff have together had a demoralizing influence on trade. Florists report the quietest week of the season. At the fish and neat stalls of the Diamond market the same testimony was given. The average consumer, who per force must remain at home, can have no cause to complain of the situation. Following are the latest retail quotations of materials for the Sunday dinner:

Female College People Said to Be Considering the Singer Place.

NEW MOVEMENTS IN THE EAST END

CHANGE OF BASE

The Month Closes With a Decided Rally in Local Stocks and Petroleum.

OFFICE AND STREET NEWS AND GOSSIP

It has been rumored for several days tha the Pittsburg Female College trustees have had the Singer property, at Wilkinsburg, offered to them as a location for their institu-tion. The location of the land is unequaled for such a purpose, there being 31 acres, conveniently and beautifully situated, high and dry, yet easy of access; and if desired a large part of the ground, fronting prominent streets, could be sold at a price that would reduce the investment far below the cost of the improvements now on the property. The advantages of this location for such an in-stitution, in the opinion of competent judges, are superior in every way to any-thing the trustees have previously had under consideration, and from what is known of their intentions it is a reasonable prediction that they will close with the affair.

East End Movements. Real estate is of perennial interest in this community. People not only talk, but write about it. Several prominent East End ladies have formed a syndicate and will hereafter invest their "pin money" in building lots. No matter what the conditions of the market may be at other places, it is all right here The following signed "East End" was reeived yesterday. "The question is again asked why some en-

terprising citizens do not build a theater in the East End. Well, it would be a paying institution, and to-day we learn that a cer-tain gentleman who is able and willing to embark in the venture made an offer for a large frontage on Penn avenue, between Highland and Negley avenues. Property

can be bought in that locality at one-fourth of the price asked, east of Highland, or about \$8.00 per foot. Our informant states that the investor expects to make enough on the advance in price to get back the cost of building. Hence he proposes buying several extra lots.

"Several improvements are also spoken of as sure to go on soon in that section. The American Mechanics are going to build an imposing hall with store underneath. A large property holder also has plans out for a four-story building. It is strange that this locality has been so long overlooked, as property one square east has been sold for \$1,000 per foot and \$1,300 refused for corner lots. Look out for a lively movement out that way soon."

Foreign Thirst for Specie. The returns of the chief English joint stock banks for the half year ended June 30 go far to explain the foreign thirst for specie. For some years the banking institutions of Great Britain have been running on perilously small specie reserves. They have de-pended on the Bank of England. The Baring panic has apparently awakened all hands to the danger of such a situation. The Government and the Bank of England authorities A BETTER PROSPECT.

More Inquiries Coming in and Increased Sales in the St. Louis Market.

[STECIAL TELEGRAM TO THE DISPATCH.]
ST. LOUIS, July 31.—Rogers, Brown Meacham say: The iron market in this vicinity continues to improve. We note quite

Philadelphia Company Meeting.

The quarterly meeting of the Executive Board of the Philadelphia Company was held yesterday afternoon. Among other business a financial statement was submitted showing the operations of the com-pany during the quarter just closed: The statement shows the gross earnings to be \$388,822 98 and net earnings \$328,212 25. This, allowing \$111,702 16 as rent paid leased com-pany lines, leaves a balance of \$216,516 09. The total assets are \$9,955,071 78, and the un-divided profits \$1,192,430 32. The net debt is \$225,431 68, and total debt \$1,292,661 41. The statement shows a decrease of \$71,406.79 from June 1 in the net debt.

Business News and Gossip. side, is badly in need of rapid transit. Within the last three years nearly \$2,000,street improvements in the borough of

merding. The movement for a theater in the East End is making steady progress. An offer has been made for a site on Peun avenue. Vacant houses are as scarce on Mt. Trox as in any other quarter of Allegheny. Business stands are at a premium.

The trustees of the Bellefield Presbyterian

Church have placed a mortgage for \$20,000 with the Safe Deposit and Trust Company. The money will be used in improvements on their property.
Within a few months \$10,000,000 in bonds will be offered for sale in Chicago. Of this amount \$5,000,000 will be the issue of the World's Fair bonds authorized by the law of the State of Illinois. The other \$5,000,000 will be issued by the board of drainage trustees of the sanitary district of Chicago. It is said that there have been more trans-fers of real estate in Steubenville this year

fers of real estate in Steubenville this year than in any other since 1881.
Interest on the bonds of the following corporations, due August 2, will be paid by the Fidelity Title and Trust Company, Allegheny County Light Company, Butler Water Company, Bennett Water Company, Hennett Water Company, Union Water Company of Beaver Falls, Westmoreland and Cambria Natural Gas Company.
There were bids of 70 for Electric scrip yesterday. It was offered at 73.

New York and London were active and higher yesterday. The month went out with the bulls in control.

The Building Record. Permits for the erection of the following buildings were issued yesterday: Mrs. Annie Shidle, stone and frame two-

story stable, 23x26 feet, on Dinwiddle street, Eleventh ward. Cost, \$800.

Alfred Turner, frame one-story shed, 16x 50 feet, rear 3904 Fifth avenue, Fourteenth ward. Cost, \$130. Oscar Leitholf, frame four-story dwelling,

Henry Fuchs, brick three-story store and dwelling, 20x60 feet, on Forty-third street, Seventeenth ward. Cost, \$5,800.

B. Thaw, frame addition two-story and basement dwelling, 20x40 feet, on Wilkins avenue, Twenty-second ward. Cost, \$2,500.

Joseph Kennedy, frame two-story and attic dwelling, 20x32 feet, 35 Inwood street, Twenty-first ward. Cost, \$1,450.

John P. Feth, frame two-story and attic dwelling, 20x30 feet, on Madison street, Thirteenth ward. Cost, \$1,200.

Bostwick & Irwin, brick one-story laundry, 20x100 feet, on Forty-sixth street, Seventeenth ward. Cost, \$2,500.

Henry Lager, brick two-story and attic dwelling, 17x32 feet, on Rose street, Eleventh ward. Cost, \$1,500.

Movements in Realty.

Movements in Realty.

lot No. 4 in his plan, having a frontage of 52 feet on State avenue and running back a distance of 273 feet to Ridge avenue, situated at Cornopolis, P. & L. E. R. R. Consideration, \$1,500.

John K. Ewing & Co. sold three lots 20x100 each on Grant avenue in F. G. Rohrkaste sub-division. Tenth Ward, Allegheny, to Louis Steiner for \$750 on monthly payments. The above firm report quite an active demand for lots in this sub-division.

The Burrell Improvement Company reports the following lots as sold at Kensington, Friday, July 31: To Mrs. Mary Jane Johnston, Pittsburg, lot 70, block 2, for \$600 cash; to Louis Olejniczak, Pittsburg, lot 103, block 8, for \$276 25; to Wogciech Wisniewski, Pittsburg, lots 104 and 105, block 8, for \$487, 50 cash: to Emma T. Moran, Altoona, Pa., lot 23, block 3, for \$650; to W. H. Swaney, Pittsburg, lots 67 and 68, block 7, for \$1,360.

HOME SECURITIES.

LIVELY MARKET CHARACTERIZES THE LAST DAY OF THE MONTH.

Philadelphia Gas and Luster Maintain Their Leadership-Airbrake Stronger-Traction Talk-Steadiness Still a Feature-Dignity of the Exchange to Be Upheld. Yesterday's stock market was the liveliest of the month. There was a good sprinkling of buying orders, and a more pronounced disposition to operate than since the flurry in Electric. Total sales were 205 shares.

Philadelphia Gas and Luster maintained their position as leaders, and furnished the bulk of the business. The former sold at 11% and 11%, and finished steady at the latter figure. One or two big orders for this stock are about filled. Whether the withdrawal of this support will lower the quotation remains to be seen. It probably will. Luster sold up to 13 and down to 12% affording op-

sold up to 13 and down to 12%, affording opportunity for quick turns, but transactions were too small to make this profitable.

There was a quiet demand for the street railways, but with the exception of Birmingham there was no movement in any of them. The recent decision was further discussed, and the prevailing opinion seemed to be that the roads affected would find a way out of the difficulty without interruption of business or serious financie' loss. The value of rapid transit to Pittsbalg is so well understood that technical violations of law are not likely to be severely punished. are not likely to be severely punished.

Airbrake advanced to 100 bid—double the

Airbrake advanced to 100 bid—double the par value—without bringing any of it to the surface. It is so strongly held that buyers will be compelled to revise their figures. The rest of the list stood about as previously reported.

After the close of the last call attention was directed to the practice, much in vogue of late among some of the brokees, of bombarding each other with paper wads and other missiles. President McKelvy announced that the limit of endurance had been reached, and that he would hereafter strictly enforce the rules for the maintenance of the dignity of the Exchange.

Sales on call yesterday were:

THE MONETARY SITUATION.

Stronger Rates Show Better Employment of Funds-Record for July.

There was nothing new in the local money market yesterday. Business was firm for the season. There was no scarcity of funds, but that they are beginning to find employment is shown by the slight stiffening in rates. There is very little, if any, money on the market below 6 per cent, and on time paper 7 is exacted.

The Clearing House statement for the

month disclosed a larger volume of business month disclosed a larger volume of business than expected. Clearings_were \$4,000,000 in round numbers in excess of those of the previous month, and nearly \$4,000,000 greater than in July, 1889. This is considerably below the level of 1890, but the showing is exceedingly gratifying under the circumstances and full of encouragement. The following are the figures: following are the figures:

Ioliowing are the figure yesterday's exchanges. Yesterday's balances. Exchanges for month. Balances for month. Exchanges for June. Exchanges, July, 1889. Balances, July, 1890. Balances, July, 1890. About \$13,000,000 of the 4% per cent bonds have been presented to the Treasury Department for continuance at 2 per cent, and about \$8,000,000 have already been examined about \$8,000,000 have already been examined and the proper measures taken to issue the new bonds. The amount presented is only about one-quarter the amount outstanding, and some of the holders are evidently waiting to see if they can get a larger premium than the bonds are now bringing.

At New York yesterday money on call was easy, ranging from 1½ to 2 per cent, last loan 2 per cent, closed offered at 2 per cent. Prime mercantile paper, 5½@7. Sterling exchange quiet and firm at \$4 84½ for 60-day bills and \$4 86½ for demand. Closing Bond Quotations.

THE STOCK MARKET AGAIN ACTIVE FRUITS OF ALL KINDS GO SLOWLY

For the Very Good Reason That Our Mar-

kets Are Overstocked.

SHELL CORN FIRM AND OATS QUIET

OFFICE OF PITTSBURG DISPATCH, FRIDAY, July 31. COUNTRY PRODUCE (Jobbing prices)-Eggs now a weakening tendency and the main the afternoon some of the specialties developed marked strength, with the effect of recovering a portion of the losses of the ority of sales are at inside quotations Dairy products are still in short supply, and markets rule strong for Ohio cheese and all choice grades of creamery butter. Tropical fruits are slow for the reason that markets are flooded with home-grown fruit. Lemons are the exception to the rule, there being an uproved demand and better prices in this ne the past week. So long as domestic fruits keep coming in as they do now, there will be little demand for tropical products. resistance to the pressure this morning was more vigorous than during the last three The first grapes of the season put in their appearance this week. All things in fruit days. The circulation of rumors reflecting on the standing of some of the best houses in the street was looked upon in some appearance this week. All things in fruit and vegetable lines are a drug in the markets. Prices of apples, peaches, melons, cabbage and potatoes show a downward inclination. The fact is that receipts both this week and last are beyond the power of our markets to take in, and hence the buyer has the field. in the street was looked upon in some quarters as an indication that the promulgators of the stories had about come to the end of their rope, and more disposition was evinced to take a chance on the other side of the market, which was encouraged, also, by purchases for foreign account, estimated at some 25,000 shares. The smaller shorts ran to cover, but the larger bear interests maintained their attitude and sold the list, as usual concentrating their early efforts

has the field.

APPLES—3'650c a bushel, 75c@\$1 25 per barrel.
BUTTER—Creamery, Eigin, 21@22c; Ohio brands, 19620c; common country butter, 12@13c; choice country rolis, 15@15c.
BEANS—Navy, \$2 20@5 35; marrow, \$2 50@2 50;
Lima beans, 54650c.
FRUIT—Huckleherries, \$1 00 a pail; blackberries, 56@76c a pail, 9@10c a box; Concord grapes, 15c per pound.
BEESWAX—30@32c \$1 for choice; low grade, 22 \$25c. ran to cover, but the larger bear interests maintained their attitude and sold the list, as usual concentrating their early efforts upon Rock Island and Northern Pacific preferred, though the unusually large gain of the latter at the opening gave the opportunity for effective hammering in it. Rock Island, however, was the only stock in which any real important decline was effected among the leading shares.

Later in the day some of the specialties made dips, which were generally quickly neutralized, and prices, as a rule, were well held throughout the day. The foreign demand, with the covering of the shorts, made a decidedly strong opening, first prices being from ½ to ½ per cent higher, with Northern Pacific preferred up ½c. The demand, however, was not sufficient to overpower at once the pressure still brought to bear, especially upon Rock Island and Northern Pacific preferred, and those stocks declined materially, dragging the rest of the list down to about the level of last evening's figures. The downward movement was checked before noon, and after that time decided strength was shown in all parts of the list, all the active stocks rising over 1 per cent, with the industrials leading, Chicago Gas shooting up ½ per cent.

The trading was marked by irregular

list, all the active stocks rising over 1 per cent, with the industrials leading, Chicago Gas shooting up 2½ per cent.

The trading was marked by irregular movements, and Cordage, after dropping 1½, rose 2 per cent, other low-priced shares acting in the same manner. The best prices were made at about 2 F. M., when realizations on the advances made caused the list to sag off slowly; but the usual result of a check to the selling was seen in the duliness. The market finally closed dull, but steady to firm, at close to the highest figures of the day. The final changes are quite irregular, with a majority of advances, and while most stocks are only fractionally changed from last evening, Colorado Coal is up 2½, Chleago Gas 2½, Tennessee Coal 1½, C. C. C. & St. L. 1¼, and Pacific Mail 1 per cent, while Sugar declined 1½ and Rock Island 1 per cent.

Railroad bonds were also more active, the sales of all issues reached \$775,000, but this increase in activity was all in two bonds—Oregon Improvement 5s and Richmond and West Point 5s, the latter being specially strong, while the former was equally so. Oregon Improvement 5s rose 3 per cent, to 6l. The general list followed closely the changes in stocks.

The following table shows the prices of active tocks on the New York Stock Exchange yesterday. Corrected dally for The Disparch by Whitney & Co Sugars are firmer, but prices are un-changed. The Sugar Trust has trade so well in hand that prices are not likely to decline further this season. The great fruit crops and low price of sweetening stuff insure for sugar an unprecedented demand.

BULLS BADLY BITTEN.

They Were Heavily Stocked in Expectation of a Rise Yesterday, but Were Disappointed-Wheat, Corn, Oats and Provisions Are All Materially Lower. CHICAGO-The bulls in wheat were dis-

appointed to-day. They were loaded with grain and expected to sell out at a good profit. The opportunity was not furnished them, however, for at no time during the session did prices go as high as the closing figures last night, and the close was 360140 lower than the then prices for the futures. Some of the early news was rather favorable to their hopes. Liverpool was 1d higher on spot wheat and 1/4d on futures, and Paris

was quoted 10@30 centimes higher according to some private cables; but London cargoes were 254d lower. Receipts were 84 carloads were 23/4 lower. Receipts were 24 carloads in excess of the estimates. The weather was fine for harvesting, and corn was decidedly weak and lower. The latter pieces of news undermined confidence a little, and when it was discovered that all domestic markets were starting off on a decline and that New York, which has for some days furnished most of the bull stimulant, was selling heavily, the crowd quickly followed suit, and in the anxiety to get rid of their holdings began making concessions.

furnished most of the bull stimulant, was selling heavily, the crowd quickly followed suit, and in the anxiety to get rid of their holdings began making concessions.

The later cables quoted Liverpool as lower, and Paris came in 25 centimes lower, with good weather in the United Kingdom and on the Continent, and the liquidating became more eager. There was not much individuality in the selling, but everybody seemed to have some property he did not want and others seemed to be indifferent about obtaining possession of it. The result was a session of much weakness and a drop of about leent from the early figures.

December opened at 90 \$200.5c and gradually receded to 89 \$60.5c. The market ruled dull and narrow during the last hour, and December kept most of the time at 89.5c and 89.5c. The Board of Trade's closing table from Paris was 10@15 centimes higher than yesterday, and Liverpool was also higher. This news helped the market a little and the close was at 89.5c. Nearly all private cables from the Continent quoted lower prices, and even the Board's cable give the decline at Berlin at 3 marks on July wheat. Crop prospects continue brilliant, and some dispatches reported threshing already commenced in Minnesota with yields ranging from 25 to 31 bushels per acre. South Dakota reported the wheat crop assured, and North Dakota wired that two weeks more would bring the crops to maturity.

The prediction of frosts in the Northwest, which gave the corn market a boost near the close yesterday, was not fulfilled. On the contrary, the weather in that section was clear and warmer. As a consequence, corn had a bad break to day. Sales of September were made around the opening at anywhere between 59%c and 57%c, and its soon sold below the former prices. The weakness in wheat and heavy estimates for to morrow were also weakening factors. Beceiver had heavy selling orders, and the clique made but a feeble effort to stop the decline. September broke to 56%c; reacted to 56%c; again touched 56%c; cracted to 56%c; again touched 5

to 57c; dropped to 55%c; advanced to 55%c; again touched 55%c; reacted to 55%c, at which it closed.

Outs was weak in sympathy with corn and on an excess of 60 cars in the receipts above the estimates. The close was %c below yesterday's final figures.

Hog products were lower, largely in sympathy with the weakness in the grain pits, and especially in corn. September pork sold from \$11.37% to \$11.37% and closed at \$11.32%, a loss of 10c compared with yesterday. Lard and ribs lost 5c.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 45 Sixth
