### HARVESTING OF HAY

Now Being Done In Allegheny County In a Very Thriftless Way.

RATHER POOR STUFF TO FEED ON.

Thousands of Tons Are Allowed to Become Thoroughly Soaked.

Aside from garden truck, hay is almost the only crop the average farmer in Allegheny county can raise with profit, and this is being harvested in very poor shape and in a very thriftless manner. Thousands of tons have had from one to three wettings before being stacked or put away in mows. It may sell, but it is likely to bring a poor price, and the poor brutes that must feed upon it are to be commiserated, as they will scarce be able to get around a sufficient quantity to be well nourished.

The average Allegheny county farmer has lost his grip, and has no right to complain if his hay fetch but little more money than No. 3 prairie or packing hay. He does not cut his timothy until it is dead ripe, and the silica in the fiber predominates. Much of the grass being cut now is dead ripe, and the seed shells off with the least shaking, and there are many meadows yet un-

LITTLE MACHINE HARVESTING. Comparatively little machinery is used in harvesting in this county, and farmers say it does not pay on hilly land. But as they must pay mechanic's wages for very indifferent help, it is evident that the interest on a few hundred dollars' worth of machines would be saved in one week each harvest, guy lines were of iron. for in these days of sharp competition only a first-class article of hay is worth shipping to market, and machines have gotten very cheap. For instance, a mowing machine that cost \$150 25 years ago can now be sought for \$60, and the machine has been greatly improved in that time by the use of stronger and at the same time lighter ma-

It is true that hav does not command so high a price as it did then, but it should be berne in mind that it costs just as much to produce a poor article as a good one. If instead of allowing a field to lie in swath all it is wet two or three times before ing stacked, a smaller amount were cut ach foreneon and cocked quite green in a mirrhoon, it would cure and make such better hay, and the work could be exted just as well as in the other fashion. LOCAL PRUIT CROP SPOTTED.

Notwithstanding the extraordinary fruit respect in early spring, the local crop is uite spetted. In many parts of the county of a mile apart, one having about half a crop, and less than a wagon load in the other, but in some of the orchards will be s at one time u the spring was expected. The fruit, however, will be of better quality han it would have been had the early exions been realized.

Early pointies in good ground that has been well worked are phenomenally large and in splendid condition, larger than known previously for a special condition. known previously for a generation past, but most other vegetables are late, and grade-ness will tell you that the home crop of ripe tomatoes will not make much show in mar-ker until the new moon has attained some size. And here the lunatics have science on their side, as it has been amply demon strated that vegetables, such as tomatoes and cereals, ripen faster in light than in darkness, and moonlight becomes an im-

### ONE CHAPTER OF A VENDETTA.

Crime for Which a Negro Po Was Hanged at Houston, Tex.

St. Louis, July 31.-The following is the story of the crime committed by William Caldwell, who was hanged at Houston, Tex., to-day: William Caldwell's death probably scaled the lips of a man who could, and he wished, have told more about the origin of the fearful strife which raged between the Jay Bird and Woodpecker factions in Fort Bend county than any other person. He was a negro, far above the usual stand-ard of his race in intelligence. The warfare which existed for two years extermin-sted whole families, but Caldwell is the only person who met a judicial death on account of it. He killed Dr. J. M. Shamblen on the night of July 31, 1888. This was the first murder committed by either side of the

bird." or Democrat. He was regarded as the ender of the opposition to those who were political destinies of Fort Rend county at that time. Caldwell was a wards of the former company.

Whoodneeker, or Republican. On the night The Carbon Iron Company was operating of the assassination Dr. Shamblen was siting at a table in his home, a few miles out ting at a table in his nome, a few miles out of Richmond, the county seat of Fort Bend county, with his wife and family surround-ing him. He was holding family prayer. Suddenly a load of buckshot crashed brough a window near which he was sitting. The doctor dropped from his chair and expired. No one saw Caldwell when he shot Dr. Shamblen. The evidence upon sheet he was purely circumstantial. Caldwell had been resting a farm from the murdered man, and there had been some trouble be tween them over a division of crops.

### A CELEBRATED ARTIST'S BROTHER

Found Praying and in a Demented Condition in Chicago.

CHICAGO, July 31 .- Last Sunday an insane man was found praying on the steps of the First National Bank. He claimed that his name was Pierre Millet, and that he was an artist, and the brother of Jean Francis Millet, the renowned French artist, who painted the "Angelus." A letter was received in this city from Rev. Narcisse Cyr. of Boston, who says Millet is unoutstedly what he claims to be, and that he is an artist of merit. His present residence is in New York, though he formerly lived in Brooklyn, where he suffered from a severe case of sunstroke, which has apparaffected his mind. parently allocted his mind.

Mr. Millet has apparently fully recovered
from his attack of last Sunday. He has an
extremely sensitive nature, and his friends

all avoid the unpleasant subject of his malady when in conversation with him.

### INSURANCE MEN IN TROUBLE.

Themselves Indicted for Fraud and Their

Company to Be Dissolved. ALBANY, N. Y., July 31.-Superintendent of Insurance Pierce yesterday, upon receiving the report of an examination in the affairs of the Flour City Life Association of Rochester, requested the Attorney Generel to take steps to dissolve the corporaion and wind up its affairs on the ground of

Deputy Attorney General Maynard to-day notified the officers of the company that they would be given a hearing Thursday, when they must show cause why the company should not be dissolved. Several of the officers of the Flour City Company are already under arrest on indictments for

forcery and fraud. Rev. Dr. Moffat Chosen.

Rev. Dr. James D. Moffat, of Washington and Jefferson College, has been elected to the chair of Systematic Theology in the Western Theological Seminary. The distinguished devine and orator has not yet

signified his acceptance.

#### INSECURE STACKS

Apparently the Cause of the Elba Mill Disaster-The Coroner Begins His Inquest on the Death of the Three Victims of the

Coroner McDowell yesterday afternoon began the inquest on the three deaths in the Elba mill disaster last Wednesday. The testimony was largely to the effect that the collapse of the building resulted from the stacks being poorly supported. D. Baldwin, a foreman, was present at the acci-THE PROSPECTS FOR EATABLE FRUIT

Aside from garden truck, hay is almost

dent. Tuesday evening the building was in safe condition. The guys to the stacks had been loosened about ten days before to admit the setting of a truss. All the girders were up and every precaution had been looses and brass instruments, marked down.

Description:

At Hamilton's midsummer sale you can buy a good violin, with bow, for \$1, a fine guitar for \$3, a beautiful banjo \$1 50.

Everything, including fine Swiss music boxes and brass instruments, marked down. dent. Tuesday evening the building was were up and every precaution had been taken. At the time of the accident the witness and several other men were taking in slack of a line from a truss being righted into position. The pulling in of the slack could not have had strain sufficient to make the building fall.

W. Meyers corroborated this testimony.

James Bach, of Baltimore, was not working on the building, but from what he wit was in safe condition. There were very few gny lines to the stacks. The latter were three or four feet out of plumb, and he believed the wreek was caused by their he believed the wreck was caused by their falling, and taking the building with them. Had the building fallen toward the river or any other way it would have shown faulty construction, but to collapse as it did proved that something had fallen to the top. He

did not think the stacks were safe.

Thomas B. Easton had noticed the stack leaning, and said to his fellow-workmen:
"It looks a little shaky for us to work there." He made no mention of this matter to any of the officers of the company in-terested or to the foreman. There were very

few guy lines. Edward Condon was working on the roof and saw a guy line unhooked from below. He then felt the vibration of the building and jumped in time to save himself. heard remarks about the unsafety of the stacks and of their being out of plumb.

John Battles testified that pulling the beam into place had no effect on the stacks. James Taylor on Tuesday evening saw that the third truss was considerably bent and leaning toward Second avenue. Wednes-day morning the bend was greater, and the part of the building so supported looked

W. A. Mullane, of Akron, O., who had the contract from Riter & Conley for placing the roof on the building, said he had charge, and Mr. Everson and Cook, of the Oil Well Supply Company, were at the building the evening prior to the accident. No strain had been brought on the building that could have thrown it down by any work he had ordered done. Everything was in good condition except the stacks, which were old and rusty and were not sup-

ported enough. Thomas Evans saw the bend in the third truss and told some workmen. The latter nenced to fix the truss. A little later the building collapsed.

Mr. Baldwin was here recalled. He said the truss was not bent Tuesday. John Cook, superintendent of the Elba Iron Works, saw truss 3 buckle over to second avenue. He called Mr. Everson's attention to it. Men were put to set it right, but instead of pulling it up they pulled it down and set the building in motion. None of the mill men had anything to do with the work. The inquest was here adjourned until this morning at 10 o'clock.

#### DERAILED BY LIGHTNING.

A Strange Railroad Accident During a New York Thunder Storm.

NEW YORK, July 31.—During a storm last night lightning, in the shape of a ball of fire, fell within a few feet of the railway station at Sheepshead Bay just as a passenger train was pulling into the depot. The hock threw the train, which comprised three cars and an engine, completely off the track. Intense excitement prevailed for a lost their presence of mind in the face of what they considered inevitable death. They were finally quieted and sent home on

another train. Almost simultaneously with the Sheepshead Bay freak a ball of fire fell in the rear of be Manhattan Beach Hotel at Coney Island, and created consternation among the guests and employes. It struck the telegraph wires with a report like that of a can-non shot. No serions damage was done excepting to the wires.

### A PITTSBURG IRON COMPANY SUED.

Springfield, Ill., Company Seeks to Prevent the Removal of Steel Ingots. SPRINGFIELD, ILL., July 31 .- The Springfield Iron Company has brought suit in replevin, in the United States Circuit Court, against the Carbon Iron Company, of Pittsburg, to prevent removal of about \$20,000 worth of steel ingots and plate now in the

the steel plate mill of the Springfield Company under lease, it being stipulated that the lessees should leave the property in as good shape as they found it. About two weeks ago the mill burned down, and now the Carbon Iron Company refuse to rebuild daug and is preparing to remove its property from the State. The United States Marshal has placed a custodian in charge. The Carbon Iron Company has a large contract for steel armor for Government cruisers now being built at San Francisco, and the fire seriously interfered with its operations.

### ECZEMA ON A LADY

Her Face and Body - Many Doctors Baffled.

Marvellous and Complete Cure by Cuticura-Six Years Have Elapsed and No Return.

A lady customer of ours (Miss Fanny Atwood, of Caroline Depot, N. Y.,) has been cured of a stubborn case of skin disease by the use of CUTICURA REMEDIES. She remarked that her case had befled the skill of many well-known physicians. They unanimously pronounced it Eczema, with Rheimatism lurking in the blood. Some predicted that any treatment strong enough to cure the Eczema would surely increase the Rheumatism. She used two sets of the CUTICURA REMEDIES. The effect was mirrellous. Her case of Eczema was not only completely cured, but her Rheumatism was greatly relieved during the treatment. Six years have elapsed since the cure was performed, her Rheumatism has since never increased by the freatment, but rather diminished, and she sees no symptoms of the return of the Eczema which once so completely took passession of her face and body. Miss Atwood delights in teiling of the good effects that the CUTICURA REMEDIES for Eczema and all kindred allments. Your preparations find ready sate; indeed, CUTICURA SOAP is on the list to buy almost continuously.

DRUNKENNES

Or the Liquor Habit Positively Cured by Administering Dr. Haines'
Golden Specific.

It is manufactured as a powder, which can be given in a glass of beer, a cup of coffee or tea, or in food, without the knowledge of the patient. It is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreek. It has been given in thousands of casea, and in every instance a perfect cure has followed. It never falls. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. 45-page book of particulars free. To be had of A. J. RANKIN, Sixth and Penn av., Pittsburg. Trade supplied by 6EO. A. RELLY & CO. Albegheny agents, E. HOLDEN & CO., 52 Federal st. jy2-80-TTS

## 25 PER CENT DISCOUNT.

The chance of a lifetime. Our store (corner Sixth street and Penn avenue) is\* leased to other parties, and we give possession September 15.

The people who are acquainted with our good

qualities and low prices are buying our clothing for their needs to-day and heavy suits for next fall and winter. The most unheard-of bargains in worsteds and dress suits-just such as are wanted every day in Next comes clothing made to your measure. 25

per cent off the price. It counts large. The discount is very large. Note this solid fact: Prices here below all other dealers to begin with, and now an extra 25 per cent off. Our friends far and near have heard the news and are getting their bargains.

Nothing Reserved. Everything must go.

WANAMAKER & BROWN. Cor. Sixth St. and Penn Ave.
