It is very likely that the team of English amateur cricketers, who are to be brought to this country next month by Lord Hawke, will visis Pittsburg. The question has not been definitely settled vet, but a member of the Pittsburg Cricket Club stated last evening that efforts are being made to arrange a game between a local eleven and the visitors. During a conversation the member made the following suggestion:

"While it is true that our team is not so strong as formerly, we can soon get an eleven together that will keep the English amateurs busy. I therefore suggest that we get to work at once and get an eleven together so that they can get all the practice cossible between now and the time of the proposed game. Lord Hawke will bring a good team with him, but we ought to be able to make a good showing against them. The Euglish team will go to Chicago, and they could easily stop off here and play a game of one innings or two innings. They could play here either in going to or coming from Chicago. I would further suggest that either Exposition Park or Recreation be 361 Forty-fourth st., Seventeenth ward, city. scentred for the contest, and if this were done the affair would be a great success." GOSSIP ABOUT THE TEAM.

Relative to the coming of the team to this country a dispatch from Philadelphia says: Arrangements for bringing over the team of smalegys to be captained by Lord Hawke were concluded yesterday by cable. The team will sail on the City of New York on eptember Is, and will come to this city as be guests of the Germantown Club. The rest match, against Ali Philadelphia, will be layed Friday, Saturday and Monday, September 25, 25 and 25, and the second on Thursay, Friday and Saturday, September 3) and to ober 1 and 2. The local team for the first arch will be chosen by the International latch Committee at the request of the Germantown Club. TWO GOOD BOWLERS. Woods and Jackson are the two Cam bridge bowlers, Woods, the Australian enck, being the equal of any professional in England. Smith, brother of the Belmont wler, has been making a very active record this year, and, it is understood, has been invited for Australia with Lord Sheffield's team, key's standing is well known, as is that of Lord Hawke, Hewest and the Palairets. Most of and open players, scoring fast, and, with Woods included, would make a team Philadelphia would have plenty to do to best. The eleven will be thoroughly amaenr and it should be said that all the artenr, and it should be said that all the arrangements will so proceed as to recognize this complexion most strictly. Lord Hawke having given special attention to this point. Changes may be minds in the list now sent, but a formidiable side can be expected.

The matches will, of course, prove gain days, as usual, for Germantown and its neighborhood. The new clubbouse at Manhoim will be finished before the arrival of the club's guesta, and as Mrs. Key, Mrs. Vernon and Miss. Hawke will accompany the cricketers, it is possible that a ball may be given. Lord Hawke and Lord Throwley are bachelors.

Many of the league clubs are carrying more men to-day than they will carry through the season. The season is half over and many of the mysteries have been solved. Much dead wood has already beet dumped, and more will go as the season goes on. Young men are being picked up to take the places of old men who are not up in form. Many side were tried in both National and Players' leagues last season, and the managers have acquired a foundness for young men who do not make the pay roll appear so heavy on the debtor side. PEOPLE PACK THE PARKS.

The parks were appreciated yesterday. They were thronged with young and old, the poor and the proud, the grave and the gay-in short, by everybody who had 10 cents to get there and back, and ability to enjoy an outing in the green fields and leafy

The street railway companies performed their devoirs creditably, excepting that the usual overcrowding was permitted; conductors failing to realize when their ears had as many passengers as could travel comfortably without being walked over, sat down upon and incommoded to the extent of a great loss of temper by the people packed in upon them. The suggestion has been made that with so many cars, running so rapidly and at such short intervals, the various companies should regulate the number of passengers admitted on a car.

Schenicy Park held its many thousand vesterday, every unit of which was giad of the fine expanse of green word devoted to the fine expanse of green wood devoted to their use. The day was warm, the air free and bracing and appetites were picked up on every yard of the ground. The one drawback to the full pleasure of the day was just on this account. There was absolutely nothing to be had in the way of affectment. in the way of refreshments. Parents who brought their little ones out for an airing would have been glad to buy them some milk, or a cake or so, but beyond the empty booths dedicated on other days to the pur pose there was no suggestion of this rational attainment in the whole park. This fact was commented on so frequently as to become a popular outery, and the question was general as to why such a line should be drawn between the vending of milk, cakes, pie, fruit, etc., in a res-taurant, and a similar sale in the open air. Other cities, was the cry, have these rational conveniences, small as they are; why should

KILLING THE HEMLOCK

Ravages of the Measuring Worm in the Timber Districts.

THE TENDER FOLIAGE IS ALL GONE. Wood-Choppers Completely Surrounded by

the Creepers. THEIR APPEARANCE UNPRECEDENTED

SPECIAL TRLEGRAMS TO THE DISPATCH. BRADFORD, Aug. 2.-Potter county alarmed, and with good cause, over the ravages of a worm that is destroying the foliage and killing off the bemlock timber. Only about five days ago it was noticed by lumbermen that the tops of the heavy timber on the mountains were turning brown as though the trees were dying. The trees looked exactly as though they had gone through a forest fire or were withering up for lack of irrigation. An investigation was at once set on foot by the lumbermen interested, and it was discovered that the affected trees were covered with myriads of

worms The worms were cating the green and tender folinge of this year's growth, and when that had disappeared turned their attention to the growth of the preceding year, the woody twig not being touched.

A remarkable scene is presented in the "choppings" where the bark peelers are at The worms are swarming about the men by the millions, while on all the trees from Coudersport to Port Allegany miles and miles of trees are turning brown, and ruin is threatened to the vast lumber inter-

ests of that section. IT IS A LITTLE WORM.

The worm that is doing the damage is of the "measuring worm" species, about an inch long, and barely an eighth of an inch in diameter. The depredations are taking in such a vast area that experts have already such a vast area that experts have already been placed on their track, and the following accurate description is furnished:

The worm is covered with spots on each side, and has ten legs, six in front and four awkward props behind. In moving it arches its back, hence the vulgir name of "measuring worm." The appearance of the worm in such vast numbers is unprecedented in this region, and grave fears are entertained in Potter county that the forage of the worm means the entire destruction of the growing timber and injury to the old trees.

An effort has been made to stop the advance of the worm, but it is too late this season to even make an effort toward saving the bark, and the timber is already greatly damaged. Reports from Glen Hazel, Elk county, and from the east side of that county, state that the same worm, in countiess numbers, is devastating the hemlock there. TOTAL DESTRUCTION THREATENED. As it is said that the continued ravages of is worm mean the total destruction o ung hemlock and the crippling of the

tanding timber and drying up its bark, s crisis confronts the whole population of the Pennsylvania, as the worm is steadily advancing and spreading, and owing to the great numbers working destruction with inconceivable rapidity. Not only the lumbermen are concerned, but the tanners, farmers, railroad men, and in fact everyone, for this is pre-eminently a hemlock region from Elmira, N. Y., to Punxsutawney, Pa., thousands of men being employed in the bark and lumber interests and millions of capital invested.

The life of the worm is from four to six weeks, when its death gives birth to a fly or gnat. They are exceedingly voracious, and during the brief period of their existence eat several thousand times their own weight Pennsylvania, as the worm is steadily ad

during the brief period of their existence eat several thousand times their own weight of growing vegetation. Though this horde of worms may only be a transient visitation, still there is nothing known here of them or their ravages, even the oldest lumbermen stating that they had never seen them before. Some of the worms, with specimens of their destructive work, have been sent to the Agricultural Department at Harrisburg.

THE BRUMFIELD MURDER.

Information Obtained by Parties Living Seven Miles Away.

HUNTINGDON, W. VA., Aug. 2.-For the time it is utterly impossible to get the exact story of the horrible murder of the Brumtield family in the adjoining county of Cabell. The only definite information brought to this city to-day was brought in by a school teacher named Fuller, who lives at Shoals seven miles from the scene of the tragedy. Saturday night the Brumfield boys were me going up Twelve Pole creek armed to the teeth with Winchesters, and with revolvers buckled about their beits. The boys were excited, and said the Italians had murdered Ross Brumfield by shooting him 25 times. Not satisfied with that, they had shot his wife twice.

wife twice.

The boys said the trouble grew out of the shooting of an Italian by Brumfield's sons. The Italians had been caught by them stealing straw a week ago, and in the fight that followed the Italian was killed. The gangs of Italians along the line of the extension of the Norfolk and Western road had given the farmers a great deal of trouble, and their depredations culminated in the Brumfields putting a load of shot into one of the Dagos.

STREET ASSESSMENT DISPUTE. Sutler's Municipal Improvements to

Carried Into Court. BUTLER, Aug. 2.-This little city is just now vrestling with an interesting street ques tion that will likely result in a test case be fore the matter is decided. The municipal improvements made in Butler during the past year exceed in point of expenditure the outlay of the past two decades. Over two miles of street are being paved with vitrified fire brick, at a cost of over \$120,000, and an entire new system of seworage is being put in which will cost quite as much.

A nice legal question now arises from the assessments made on the property owners for the payment of two thirds of the cost of the Main street paying. In the residence portion of the town the pavement was made narrower by several feet than in the business portion, and the disputed point is whether the cost of the whole street should be equally assessed on the abutting property or divided where the width changes, and assessed separately. The original petition and contract made no reference to a division, and as it will mavitrified fire brick, at a cost of over \$150,000. reference to a division, and as it will materially affect those interested a test case

Both returned shortly and after a few minutes conversation, Rev. Mr. Bauer decided to hunt up the trustee who had possession of the key, but he possitively refused to surrender the much sought article. Mr. Bauer again retired after having demanded it, but it was still refused him. The pastor said to-day that he had not made up his mind what to do. His dismissal is illegal and contrary to the wishes of a number of his congregation, but if they will pay him his salary to September 17, when his time expires, he will step down and out; if not he will probably carry the matter into the courts.

A HOWLING AND DRUNKEN MOB

TURNED LOOSE AGAINST THE OMAHA SMELTING WORKS.

They Refuse to Work Under the Old Law and Demand Eight-Hour Shifts-Men Driven From the Furnaces by the OMAHA, NEB., Aug. 2.-Trouble at the

Omaha and Grant Smelting Works over the eight-hour day took on aspect to-day The men have been working 11 and 13 hours shifts, and have many times agitated the question of the shifts of eight hours each. When the eight hour law went into effect Saturday, the company handed the men contracts binding them to work the same hours

for the same pay as before. The men were not willing to do this, an vere asked to report to the main office of the company in writing. Several did so report and were promptly discharged. This created much dissatistaction, and all last night mutterings of discontent were heard. A strong force of police was put on guard at the works, and the trouble was avoided at the time.

At 7 o'clock to-night the day shift men ssembled at the hall in "Bohemia town," and there in Bohemian, Polish and other foreign tongues discussed the question. When liquor and oratory had sufficiently aroused the men they marched in a body to the works and drove the men from the furnaces and other parts of the building. Police were on duty but could do nothing with the mob. At this hour-11:30 P. M .- a crowd is howling about the company's office. The works employed about 1,500 men, nearly all Bohemians and Poles,

He laughed in my face.' They Empty a Jugful of Whisky They

Shortly after 11 o'clock yesterday morning Mrs. Downey stepped out to a neighbor's house and was gone about 20 minutes. A neighbor called at the house durin gher absence and saw on the kitchen floor a denijohn of whisky with the contents partially spilled over the floor. The boy and girl had been filling up on the

The woman hurried to notify the mother, and when she returned the boy was quite intoxicated and soon fell limp to the floor. The little girl did not give signs of being so affected. The lad said he had been drinking the whisky and had induced his sister to drink some, but as considerable was spilled on the floor it could not be ascertained how much they took. A physician was sum-moned without delay and the little girl was put to bed and was soon sleeping soundly. Attention was then directed to the boy. Emetics were given and the physician applied restoratives so keep the heart beating. The girl died at 11:30 at night and the boy

On July 4 last, while returning home from a pienic, he was attacked by a dog, which bit him in several places. The boy had his wounds dressed by a local physician on the following day and then went

about his work. Several days ago he com-plained of feeling unwell, and remained home from his work. This morning, at the sight of a glass of water, he went into a spasm, and since then water, he went into a spasm, and since then he has gone from one convulsion into another. He looks and snarls like a dog, and tries to grab his attendants by his teeth. Three or four men are required to keep him quiet during his frenzied exertions, and he pitifully begs his attendants to kill him. Physicians say it is a well-developed case of hydrophobia and there is not one chance in a thousand of saving his life.

ONE WEDDING OCCURS IN THE GAS CITY

Another story of desertion and dual mar-NEW CASTLE, Aug. 2.-The political outriage has just come to light. Edward F. look in Lawrence county, and in fact of this Murphy, a brakeman on the Pittsburg and Western Railroad, living in Butler, is the person in trouble. In February last he ook out a marriage license which permitted him to wed Miss Lawyer, of Butler. They set up housekeeping, and everything went on smoothly until last week, when Mrs. Murphy left to make a visit to her parents, who reside in the country near

Her husband took advantage of her absence and found another to fill the place of his wife, for on Wednesday he turned up in Pittsburg with Miss Breel, of Glade Run. She is 17 years old, a bright and handsome young lady of the blond type of beauty. Accompanying them was the mother of Miss Breel, who looked on Murphy with much favor. She encouraged the early marriage of her daughter to Edward, and planued a long and pleasant trip to all the leading cities of the country as a wedding tour, she to foot all bills. REGISTERED AT THE RED LION.

After registering at the Red Lion Hotel, this city, Murphy started out to procure the licence. This done, they were straight-way made man and wife, and as a conse-quence, Murphy was married, with both wives alive and well.

In registering at the hotel, so sure was he of the marriage taking place that he wrote "Mr. and Mrs. Murphy, Butler, and on the rext line, "Mrs. Murphy, Butler." The clerk assigned them rooms 16 and 18, respectively, which adjoin. The handwriting is plain. The "Mrs. Murphy" who was registered was Mrs. Breel, mother of the This was the first thought that wife No. 1

had of any division of her husband's love When she learned the truth she was heart-broken. After she fully comprehended the situation she consulted friends as to what was best for her to do, and upon their advice she told her story to the authorities. This resulted in a warrant being sworn out, and Saturday evening Chief of Police Gardner, of Butler, came to Pittsburg in search of the gay brakeman. He was found near the Red Lion Hotel, seemingly in a happy frame of mind. He was taken to Butler, nd will have his hearing in a day or two. BELIEVES IN HER SON-IN-LAW. It is said that Mrs. Breel is very much in-

fatuated with Murphy; and when told what the situation was, would not believe it. Whether this is true or not no one knows, as she evidently knew her name was regis tered at the Red Lion Hotel as "Mrs. Murphy, Butler." She seems to take the matter very hard and says she cannot believe the story. She is the widow of Bernard Breel, of Glade Run, who last year blew out his brains, after he had shot his wife, as he supposed.

Mrs. Breel has a fair share of this world's goods, and proposed after the honeymoon to take the young couple to her home and place him in charge of her business. This proposition seemed to please Murphy hugely, as he laid plans for it to be a part of his future. She is very indignant at the turn affairs have taken.

Mrs. Murphy No. 2 does not take the matter so hard as her mother. She acts as though life was just commencing for her, it

being a long way from 17 to the grave. She sheds no tears. Wife No. 1 is grief-stricken and nearly crazed. No words from friends seem to lighten her burdens. She does not know and herself, as he was uniformly kind and

sible by their friends, as all parties conin which they live.

A MYSTERIOUS MONSTER FISH.

It Puzzles the Inhabitants of a Minnesota

Settlement. NORTHFIELD, MINN., Aug. 2 .- A myserious fish or animal that has long furnished food for speculation to the residents about Shieldsville, this county, again put in an appearance Wednesday. Michael Mc-Mahon, the inventor of the flying machine that was on exhibition here last winter, on coming out of his house early in the morning, saw an object lying outside of the rushes in the water which he at first thought to be a boat bottom side up. After reaching the lower part of the rushes he saw it turn and move directly across the lake toward the east shore. About midway in the lake it seemed to raise the front part of its body in the water, as though it were taking an observation, and then settled down and moved on. Arriving near the shore it turned and moved parallel with the lake until it disappeared near the northern

Mr. McMahon, at the distance from which he saw it, could not make out the shape of the animal's head, but he saw that the general contour of the creature was cigar shaped. Philip McKenna, the post-master at Shieldsville, says that he saw the animal about three years ago, and at first mistook it for a log lying on the water. It then moved down the line of rushes and turned across the lake in the same general course it took when seen by McMahon. Other people there have seen it, and a great deal of interest is felt in the occur-

SHE MARRIED BY MISTAKE. A Woman Who Wrongly Thought She Had

Secured a Divorce. DETROIT, MICH., Aug. 2 .- Mrs. Mathilda Wood, or Van Dusen, she is not certain which, filed a remarkable bill for divorce yesterday morning. She states that she applied for a divorce 11 years ago from her husband, Augustus M. Wood, and suit was begun in court by the late C. E. Wilber. All preliminary proceedings were taken down to the entering of an order pro confesso, as Wood never appeared to oppose her appli-cation. Then, being ignorant of law and hearing nothing more from her lawyer, Mrs. Wood made up her mind that she was

a free woman. Some time later she married a man named Van Dusen and removed to East Saginaw. She bore him three children. It was only a week ago that she made the discovery that the decree had never been granted, and that she had unwittingly committed bigamy She hastened at once to Detroit and engage H. F. Chipman to straighten out her much tangled matrimonial affairs. The result was the filing of a bill in the Circuit Court today, in which she asked leave to state case right away and receive a divorce from Wood in real earnest.

MATED TO AN UNSEEN MAN.

An Ohio Society Belle Engages Herself by CHESTER, O., Aug. 2.-Miss Lydia Anna

perle, a society belle of this city, is the heroine of an interesting romance which will be culminated on Thursday, August 6, by her marriage to a man she has not seen. Miss Lydia, who is pretty, cultivated and charming, has had many eligible suitors, but she has ever yearned for the romantic, and has at last obtained it in the person of a white-haired Albino, to whom she was introduced through a matrimonial advertisement. They have not seen each other except by photographs. The man's name is William W. Tharp, and he is a teacher of the higher mathematics in the Weaubleaw Christian Institute, of Missouri.

He is about 24 years old. Miss Aupperle will leave Chester Tuesday, August 4, to meet her intended husband. The wedding will take place August 6, at Conway, Mo. Rev. W. T. Pare will tie the knot. Miss Ella Tharp, sister of the groom, will be bridesmaid, and Charles, a brother, will be best man. The parents of the groom will give a wedding reception on the night following the wedding. A month will be spent visiting through the West, when they will settle at Urbano, Dallas county, Mo., to live. This marriage will be followed soon by the marriage of Clara, a younger sister, who has been conducting the same kind of a courtship with Charles

Tharp, a younger brother. CRUELTY IN A MADHOUSE.

Insane Asylum Officers Accused of Maltreatment of a Patient.

CARTHAGE, ILL., Aug. 2.-The people

of Oppanoose township are considerably stirred up over the alleged inhuman treatment of William Thompson, formerly of this place, who has been an inmate of the Inane Hospital at Jacksonville for 14 years. On November 9, 1877, a jury adjudged Thompson to be insune and not a fit person to manage his own affairs. Subsequently Thompson's wife was appointed conservator of his estate. In the meantime Thompson was taken to the Insane Hospital at Jacksonville. His brother, John A. Thomp-son, moved to Ohio, and a short time ago visited the asylum to see his brother, He claims that he asked the attending physicians as to his brother's condition and alleges that he received the following reply 'Well, I don't know; I haven't exami him for four years." Thompson further de-clares that he found his brother to be perfectly sane, yet a physical wreck, and charges that the patient, although not a pauper and paying his own expenses at the asylum, had been compelled to perform ex-cessive manual labor.
