## MEAT ON THE HOOF

Receipts of Cattle at East Liberty Below the Late Average.

MARKETS STRONG AT OLD PRICES.

Light, Tidy Butcher Beeves Are Scarce and a Shade Higher.

SHEEP AND SWINE FAIRLY STEADY

OFFICE OF PITTSBURG DISPATOR,

There were 102 carloads of cattle on sale at the East Liberty yards this morning, against 130 lears last Monday and 146 leads the previous Monday. Offerings consisted in the main of medium and low grade stock. There were no heavy prime beeves on sale and very few light primes. Demand for the very best in the cattle line has declined of lare, for the reason that large numbers of consumers with whom cost is immaterial are away from home on the summer vacation. In to-day's offerings were about 25 leads from Chicago, which were mostly common and low grade cattle.

There were not all told 10 per cent of the receipts which in largest charity could be called good beyons. A few loads of good.

The market was rather pervous during the market was rather pervous during the

### A BEARISH OPENING.

Heavy Buying on Foreign Orders Sends Prices Up Later-Shorts Began to Cover Rapidly and Purchases Were Freely Made at an Advance.

CHICAGO-The feeling in the wheat pit was rather bearish at the opening this morning, and the tendency for the first few minutes was downward. It was a holiday in England and there were no cables from Liverpool to affect values. Receipts were 50 carloads more than the estimates. The weather in the Northwest was perfect for harvesting which is well under way and earlier than usual, with an immense crop assured, and buyers were indifferent. De-cember, which opened at 89%c against 89%c at the close on Saturday, sold off to 89%c. Then New York and St. Louis came in with

noon.
The market was rather nervous during the called good beeves. A few loads of good Indiana and Ohio cattle were on sale, which were held at \$6.00 per cwt, but did not quite reach this price. Buyers were present in good force, and all good beeves found ready sale at strong last week's prices, while common and medium grades were intrly stendy. There was some inquiry for handy light feeders, but holders were asking more than frequirers were willing to pay. Fresh cows were in fair supply, and those of good quality were in good demand at outside prices. The range of markets was \$25.00 to \$1.00 per head, and sales were reported at \$10.00 per head, and sales were reported at \$10.

ONE HUNDRED AN HOUR

OUTPUT OF THE SHORT LOT WELL AT M'DONALD INCREASING.

It Has Been Agitated Since Saturday Night -Preparations for New Work in Southwest McCurdy-A Number of Dry Holes Reported Yesterday. Every day more people go to McDonald, than were there before, and not a day passes

but something occurs in that locality to cause comment among the operators. It is showing more activity now than ever before because a large number of operators who because a large number of operators who have secured leases and were resting on their oars awaiting developments have commenced with all possible energy to develop their property. The well of LaCount & Vallilee on the Short lot, which started off last Saturday morning at 90 barrels an hour, and soon fell off to 50, was agitated late Sunday night, and until last evening had been putting out from 100 to 120 barrels an hour. Sunday morning the well was making 100 barrels an hour, and when the tools were run yesterday morning the well was making 100 barrels an hour, and when the tools were run yesterday morning this was increased to 120, and hast night it was making an even 100. The well of Weixel & Co. on the Smith lot should be in early this morning. The well on the Cook lot will get the Gordon sand to-night. Gartland & Hayes were drilling in the Gordon last night in their No. 1 on the Miller farm with a light showing of oil. Gackert & Steele are down about 1,909 feet in their well on the Mevey farm. The well of Mellon, Wilson & Sparks on the McCarty farm below McDonald, is down 1,400 feet. Hurtman & Co, on the Sauters three acres, next to the big Sauters No. 3 is down about 600 feet.

It Is Almost Dry. McCurpy-Mellon & Co.'s No. 5, on the Scott farm, has been drilled through the sand, and is little better than a dry hole. It sand, and is little better than a dry hole. It will be drilled 200 feet below the bottom of the sand. The Forest Oil Company has rigs up for No. 2, on the McGregor, No. 2, on the Ewing, and No. 2 on the Wright farms, in the southwest part of the field. Hoffman \$88.85-98:—u gain of over \$27,219,170: in July, 1891, \$88.85-98:—u gain of over \$21,200.000. & Co. are down 800 feet on the Moore farm.
Black, Emerson & Guffey's Nos. 1 and 2,
Aiken, will be in this morning.

Forty Barrels a Day. OARDALE-Preston, Holmes & Co.'s well, on the Ewing farm, has been shot, and will make 40 barrels a day.

Developing New Territory. LAWSONHAM-The Lawsonham Oil and Gas Company, of which George Sparks, of Pittsburg, is President, has leased 2,000 acres of land in this vicinity, and Mr. Sparks will locate a well to-day. The land is located along Red Bank creek, in the southern part of Clarion country, and six miles from Red Bank Junction, on the Allegheny river. Struck a Gas Vein.

RIMERSBURG-The well which the Citizens' Natural Gas Company has been drilling on the Arams farm is a strong gasser. It came

CRAFTON-The Forest Oil Company's No. 3 on the Hartley farm, is expected to get the sand to-day. The McCalmont Oil Company's No. 2, on the May farm, in the Chartiers field, was rigged up for pumping yesterday and will make a 30-barrel pumper.

In Advanced Territory. GLADE RUN-Patterson, Brown and Steel smith have started to drill a well on the Lloyd farm, 31/2 miles in advance of the Glade Run field. They are building a rig for No. 2 on the Same farm.

Work at Murdocksville. MURDOCKSVILLE-The Ohio Valley Oil Company No. 1 Porter, and Finnegan, Downing & Co.'s No. 1 on the Witherson, are both dry. The Raccoon Oil Company's No. 7, on the A. M. Armor, is good for seven barrels, and their No. 8, same farm, is down 300 feet. The Forest Oil Company's No. 2 Dunlap is doing 125 barrels: their No. 1 Criswell is dry. The same company's No. 2 Prudy is down 500 feet; No. 1 Plance, 1,600; No. 2 Donaldson

Drilled a Dry Hole. WILDWOOD-The well of Nicholas & Co., on the Lindow farm, is in and dry. Showing for a Well.

Hookstown—The Augusta Oil Company's test well on the Kennedy farm is in the and and showing for a fair producer. Its exact capacity was not known last night.

Two Butler Dusters. BONNY BROOK-T. W. Phillips is through the third sand on the Kenn farm and dry. The Empire Oil Company's well on the Sypher farm at Rough Run is also a duster.

Personal.

James Gormley, who was drowned in Chautauqua Lake Sunday was one of the most popular men in the oil country, and was known to every oil man in' Pittsburg. He had been in the torpedo business in Bradford for years, and was in Pittsburg in Bradford for years, and was in Pittsburg until a few months ago.

Henry Rodgers, of the producing firm of Ireland, Hughes & Rodgers, was dangerously scalded at their well on the Harris lot at McDonaid Friday night by the feed pipe to the boiler blowing out while he was connecting it up. For a time it was feared his highries would prove fatal.

thing Good to Turn Up. OFFICE AND STREET NEWS AND GOSSIP

A brief survey of the business situation seems timely at the opening of the week. Facts and opinions from various reliable sources go to show that the financial situa-tion is sound and the activities of the country on a substantial basis.

The August interest and dividend dis-

bursements amount to about \$22,000,000. This vast sum will have to be invested. This will give a powerful impetus to all lines of trade.

Money at the leading financial centers,
particularly New York, is rather more sensitive, with a more rigid scrutiny of names and collaterals on applications for time contracts, and firmer rates for such loans. The disposition on the part of lenders appears to be to obtain absolutely good security and otherwise to insure the repayment of the loan or else not to lend their money on time

A veteran stock operator says: "There is nobody at home to buy stocks. The bears have got all the rumors on their side and tired holders have sold out, but when gold starts from the other side, as I think it will, the market will go up ten points easier than it has gone down two, and there will be more bear failures in 39 days than there have built failures in three years. I don't believe in all this talk about large foreign banking houses being in trouble." Locally there have been no new develop-ments affecting the intrinsic value of share

Locally there have been no new developments affecting the intrinsic value of share properties, excepting, perhaps, the Central Traction decision, and the general conditions as regards present and prospective earnings are very encouraging.

The crop situation continues very favorable, and furnishes a strong contrast with that of a year ago. Then the condition of the growing grains was going from bad to worse, and the outlook daily getting more unsatisfactory. This year the yield of winter wheat is exceptionally large, and indications point to an unusually heavy crop of spring wheat.

Another satisfactory feature in the general outlook is found in the generally good reports of railroad earnings which are coming to hand. Gains in May and the early part of June were small over those of a year ago, but later there came a change and the improvement has been fully maintained.

The Hancial Chronicle reports some uneasiness at the European monetary centers. Rumors of difficulties at London, Berlin and Paris were afloat last week, though they seem to have had but little more substance than those circulated in New York. The Chronicle is assured that the situation in London is distinctly better than it was a short time back, though of course fallures are possible, and almost probable, from time to time after a period of decline in prices so long continued.

Reports from nearly all the monetary and commercial centers note returning confidence and sanguine expectations of a heavy trade in the fall.

olutely colorless so far as expression went. There were only two sales—50 Philadelphia Gas at 11½ and 10 Pipeage at 8½.

The bears had the upper hand, and while they were unable to make a material impression upon values, they clipped and pared here and there, and left the majority of things on the active list lower than they

Price changes were too trifling for special mention. The light demand for Philadelphia Gas indicated that the big orders noted last Gas indicated that the big orders noted last week had been filled. Central Traction was wanted in a small way at 16, equal to 18½ with the assessment. The rest of this group showed no animation whatever.

Luster went off a trifle on unsatisfactory news from the mine. The manufacturers of the big mill will send men down to put it in order. The contract binds them to do this. Airbrake and Switch and Signal were steady. Boatman's Insurance advanced to 33 bid. Bottman's Insurance advanced to 33 bid.

A strong point was the starting of the air-brake works at Wilmerding on full time.

BACK TO THE OLD PLACE.

THE STOCK MARKET RETURNS TO ITS

The Feeling Was More Bullish Than for Some Time-The Shorts Displayed Considerable Nervousness, Which Led to Efforts to Cover Outstanding Contracts.

New York, Aug. 3.-The stock market today went back almost to its old condition of duliness and listlessness, and the Grangers, especially Burlington and St. Paul, furing. The feeling among the professional operators was more bullish than for some time, and the shorts displayed considerable nervousness, which led to efforts to cover outstanding short contracts early in the day, making a higher opening and some activity in the first half hour. The glowing reports from the West of the excellent condition of crops and the extraordinary movement of winter wheat are having their legitimate effect, and while the leading bears still maintain apparent confidence in their position and predict still lower prices for everything, the evidence goes to show that the desire to cover which caused the rally last week is not yet satisfied. The nature of late transactions in the stock, market is sufficiently indicated by the cessation of all activity when the efforts at depression cease. The dealings today, after the first spurt of activity due to the demand from the shorts left over from last week, became utterly devoid of feature or movement of interest even among the specialties and low-priced shares which usually furnish some movement even in the dullest market. Prices throughout the day failed to get more than a fraction from the opening figures, and absolute stagnation reigned during the afternoon, accompanied by the most intense duliness. Raiding on a small scale was attempted during the forenoon on various items of outside news, but all failed to do more than kill the animation in the market and hold prices down to the level of the opening figures. In the last hour, however, there was an attempt to cover the contracts put out carlier in the day with the result of making a little more activity and bringing prices up to a slightly higher figure than during the first hour. The market finally closed dull and firm, at something better than the opening prices. Burlington was the one feature of the day, although St. Paul showed a little larger business, and it was the only stock which shows a material improvement, its gain for the day being 1 per cent.

Railroad bonds were dull, and except for some little animation in the Richmond and West Point 5s and the Oregon Improvement, its gain for the day foot up only \$572,000. Government bonds have been dull and irregular. State bonds have been dull and irregular. State bonds have been dull and irregular. The monetary situation at other leading cities is about as follows: Stronger at Boston, with borrowing by wool dealers and manufacturers a feature. A Giorious Sensation

It is to feel that you are recovering vitality and flesh, improving in appetite and the ability to sleen. These are the invariable results of using Hostetter's Stomach Bitters, most reliable of invigorants. So also are a departure of indigestion, the disappearance of malarious symptoms and those which mark the presence of bilious, rheumatic and kidney complaints.

THE MAN WITHOUT A STOMACH THE MAN WITHOUT A STOMACH
May exist as a museum freak, but most of us recognize the stomach as necessary to life and comfort. Most of us experience a little trouble from this source occasionally, wrong action of the stomach causing dyspepsia, etc., and often the trouble extends, involving the liver and bowels, whence we find biliousness and constipation. We find also that the bowels and kidneys (nature) sewage system) become clogged with effete matter, from which comes impure blood, boils, biotches, pimples, scrofula, scrofulous swellings and cancerous complaints. The Burdock Blood Bitters taken at the beginning, or at any later stage, arrests the trouble, restores the disordered organ to activity, thereby removing every vestige of disease. B. B. B. is an absolutely pure extruct of roots and herbs, which cannot injure even the most delicate constitution, and as a cure for dyspepsia, biliousness, constipation, bad blood, etc., succeeds in 9e cases out of 100.
