Cincinnati Price Correst estimated the wheat crop of the United States at \$5,000,000 bushels and exportable surplus at 200,000,000 bushels. This was probably the most potent factor in crop of the United States at \$5,000,000 bushels. This was probably the most potent factor in the early weakness. An estimate of the Minneapolis *Tribune* putting Minnesota and the Dakotas at 130,000,000 bushels against 79, 000,000 bushels last year and 55,000,000 the year before was also quoted. Commission houses show large selling or ders from New York and St. Louis around the opening, and this fact added to the weak feeling, especially as most of the big local traders were inclined to the bear side. Latter in the day, however, the bulls had their innings and scored several points. Dispatches began to come in reporting an active resumption of export business at the senboard, and especially at New York, where 60 boatloads were reported as taken before noon. This hardened the market a little, shorts began to cover and the bulls took courage and picked up a good deal of wheat. Then followed the report of the large ex-port clearances. 501,000 bushels at New York, 20,000 bushels at Baltimore and 70,000 at Philadelphia, besides liberal clearances of foor, and the market quickly developed strength.  They All Want It. They All Want It. Wilkinsburg people are all anxious for the Female College trustees to accept the offer of the Singer property as a permanent loca-tion for the institution. Being almost in the center of the populous East End district, they think the local patronage would be ample to sustain the college. Besides, it would confer an additional distinction upon Wilkinsburg. It is understood that negotia-tions are proceeding favorable, although the consummation of the deal is still in doubt. The property is held at \$100,000 or more. terred the Market NEW YORK, Aug. 6 .- The stock market to day was dull and narrow but active in spots, and while displaying a firm tone throughout the greater part of the day, was weak at times with spells of feverishness. The great feature of the day was the selling of Union Pacific, a large portion of which was apparently for London account. Oper-ators are beginning to acknowledge that there is and has been a steady dribbling of stocks to this market for the account of European speculators, and this has helped in great measure to keep prices for stocks down and the rates for exchange up, while having a very deterrent effect upon this market. The stories of late put in circulation reflecting on the financial condition of the Union Pacific Company were freely bandied about in London this morning, and the equivalent of the last London quotation for Union Pacific before the opening of our market was 36% against 38% here last even-

Ing. There was a rush to sell Union Pacific at

ing. There was a rush to sell Union Pacific at the opening and large blocks changed hands, the first price being 37% from which it de-clined to 35% but received considerable support around 37 for a time. When this was withdrawn the stock fell away to 35% In the meantime the rest of the market, of which Burlington and St. Paul were the principal part, showed a strong tone and under the influence of the buying for the shorts and the very encouraging reports of the weather in the corn belt, advanced frac-tionally, Burlington rising 3% per cent. The persistent selling of Union Pacific, however, at last had its legitimate effect and the general list yielded, wiping out the early gains in almost every case and scoring some small losses in a few stocks. St. Paul : nd Rock Island were weak by spells under spasmodic hammering by the bears. The Industrials were also specially weak during the early portion of the day, though Sugar was a marked exception, but the later deal-ings developed streit, thin them and the losses were entirely recovered. The pressure upon the list was entirely re-moved in the last hour when the shorts went in to cover with a will and rumors that the floating debt of the Union Pacific which has troubled the bears for so long a time had been arranged for, with some others of a like nature were circuited. The upward more-ment resulting was very sharp and all the active stocks scored material advances, not only lifting them above opening figures but making large gains beside. Union Pacific mearly recovered the day's loos and St. Paul, Burlington, Rock Island and others were specially prominent in the upward more-ment. The market finally closed active and J. Burlington, Rock Island and others were specially prominent in the upward move-ment. The market finally closed active and strong at the top figures. The final changes show small fractional gains in stocks, but Sugar is up 3% cand Cordage 1% c, while the losses in Chicago Gas and Union Pacific were 1 per cent each. Bailroad bonds were quiet to dull in the general list, but Atchison 4's were active and contributed \$18,000 to the day's total of \$556,000. There were, however, no import-ant movements among the leading issues and a loss of 4 in Oregon Short Line 5's at 66 was the only material change for the day. The list showed a steady temper through-out.
