REV. DR. TALMAGE TALKS IN THE WEST

ISPECIAL TELEGRAM TO THE DISPATCE.] TOPEEA, KAN., Aug. 9 .- Dr. Talmage reached this city yesterday in the course of his Western trip. He was warmly welcomed by the citizens, who came in large numbers to hear the famous Broooklyn divine. The subject of the sermon for this week is: "A Poor Investment," and the

The Lord's people had gone headlong into in, and as a punishment they had been car-ried enptive to Babylon. They found that injuity did not pay. Cyrus seized Baby-lon, and felt so sorry for these poor cap-tives that, without a dollar of compensa-tion, he let them gohome. So that, literally, my text was fulfilled: "Ye have sold your-seizes for nought: and ye shall be redeemed without money." There is enough gospel in this text for 50 for the Son of God. OFFICE OF PITTSBURG DISPATCH, SATURDAY, August 8. It has been thought for some time that light hides and calfskins were down to their

lowest notch for this season. It now looks as though there would be a further decline before many days. Advices from both Eastern and Western centers indicate a general weskening, and while we do not change our quotations, it is probable that a reduction will come before another week is

gone. Boston is the head center of the American hide and leather markets, and ad-vices from there furnish little that is com-forting to the seller. A telegram to one of our leading hide dealers from a Boston firm has this to say of the situation: "The hide market is so dull that contactions must be a practically nomiof the situation: "The hide market is so dull that quotations must be practically nomi-nal. It is rumored that a stock of at least 100,000 buff hides is in the hands of dealers and speculators. The demand here is of the most nominal description. The leather market seems to grow (if possible) duller each day. It is reported that Western leather, which heretofore has enjoyed a good demand, is now in large accumulation, and that Western tanners are curtailing produc-tion very largely as well as Eastern tanners, and

CHICAGO-Wheat was firm throughout most of Saturday's session. There was no excitement, but good steady buying and few reactions. The news was bullish. The Bradstreet bullish report on the crops of Europe and its probable import require-ments and on estimates by Beerbohm that Great Britain and the Continent would take 200,000,000 bushels of American wheat were strong bull factors. Early cables were a lit-tle mixed, but prices abroad appeared to be

tle mixed, but prices abroad appeared to be well sustained. The continued freedom of the export movement was one of the strong features. Bradatest reported both coasts for the week for flour as equal to 4,300,000, as against 2,166,000 bushels for the same week last year. A story wis also started that the reported prohibition of the breadstuffs im-portations from Russia had been officially confirmed, but this was subsequently de-nied.

and bring a better market to producers. The business which now is one of the biggest industries in the country is on a better foot-ing than it has been for years. A gentleman who is interested in oil said yesterday: "There are few outsiders who have any idea of the magnitude of the oil business. They fail to realize that it is the second industry in the Uniten States and that Pittsburg is the center of it. The coal and fron industry comes first and then oil. There has been produced altogether over 1,000,000,000 barrels of oil, and all this within a radius of a few miles of Pittsburg. There have been drilled altogether about 40.000 wells, and these at an average of \$5.000 each would amount to \$200, 000,000. Counting besides these the bonuses and the money expended in pipe and re-fineries and we have an industry that is al-most second to none. It must also be remembered that all this has occurred within the last 30 years. "Anything which depresses the oil business will be felt in Pittsburg and vice versa." There were no developments in the oil fields yesterday which would cause a fluctu-tion in any market. It is now the general belief that speculation will be good and pointe fields is the only one which is now attracting the exclusive attention of oil producers. In the McDonald Field.

London was again a buyer and the local-bear element was rather inactive, except in the stock above mentiomed. The opening was firm under the influence of the foreign buying, but the pressure upon Union Pacific and Richmond and West Point from local operators caused a slight depression in those and checked the upward tendency in the general list after Atchison had risen %c and others smaller fractions. The industrials were specially strong, however, and Sugar rose 1% per cent to 7%. The bank state-ment showed a loss in the reserves of over \$1,000,000, but had no appreciable influence on the speculation, being about what was expected, and the late trading was utterly featureless. The market finally closed dul but firm at small fractional gains for the day, no material change taking place in quotations among the leading shares. If you could buy your salvation, Heaven would be a great specula-tion, an extension of Wall street. Bad men rould go up and buy out the place, and leave is to shift for ourselves. But as money is not a lawful tender, what is? I will answer:

THE WAVES OF SIN RUN HIGH. Some years ago there came down a flerce storm on the sea.coast, and a vessel got in the breakers and was going to pieces. They threw up some signal of distress, and the people on shore saw them. They put out in a lifeboat. They came on, and they saw the poor sallors, almost exhausted, clinging to a raft; and so afinid were the boatmen that the men would give up before they got to chem, they gave them three rounds of them, they gave them three rounds of

poor saliors, almost exnaustee, eninging to a raft; and so afraid were the boatmen that the men would give up before they got to them, they give them three rounds of cheers, and cried: "Hold on, there: hold eni We'll save you!" After a while the boat came up. One man was saved by having the boat hook put in the collar of his coat; and some in one way and some in another; but they all got into the boat. "Now," says the captain, "for the shore. Pull away now. pull!" The people on the land were afraid the life-boat had gone down. They said: "How long the boat stays. Why, it must have been swamped and they have all per-ished together." And there were men and women on the pier-heads and on the beach wringing their hands; and wilted waited and watched, they saw something looming up through the mist, and it turned out to be the lifeboat. As soon as it came within speaking distance the people on the shore cried out: "Did you save any of them?" And as the boat swept through the boiling surf and came to the pier head, the Cuptain waved his hand over the exhausted sallors that lay flat on the bottom of the boat, and cried: "All saved! Thank God! All saved!" So may it be today. The waves of your sin run high, the storm is on you, but I cheer you with this The Distress Not Over. "But the financial distress of the trade is by no means over, nor will it be till after the 1st of October, at which time money due manufacturers begins to mature and there should be a good deal coming in. saved! Thank God! All saved!" So may it be to-day. The waves of your sin run high, the storm is on you, but I cheer you with this gospel hope. God grant that within the next ten minutes we may row with you into the harbor of God's mercy. And when these Christian men gather around to see the re-sult of this sorvice, and the glorified gather-ing on the pier heads of heaven to watch and to listen, may we be able to report all saved! Young and old, good and bad! All saved! Saved for time, saved for eternity. "And so it came to pass that they all escaped safe to it came to pass that they all escaped safe to land."

OIL ON THE JUMP SATURDAY. A Drop to Fifty and a Bally to Above

Seventy. There is hope for the oil trade yet. On Friday, when the price dropped to 50, traders and operators alike were in despair at the prospect of the speedy retirement of the

certificates, leaving nothing to trade in. Saturday the unexpected happened. It was the liveliest day in the business for a year or two. The excitement was started by the announcement that the price at Oil by the announcement that the price at Off City had shot up from 50% to 60. A broker immediately bid 62. An order was received about this time to buy at 63%. At this jucture many of the old-time scenes were re-enacted. Excitement spread among the stock brokers and the lobby in-creased. There were no sellers. All were buyers. Later the market advanced to 69% for cash oll here and 70% for Sentember at
