

Auditor E. W. Poe, of Columbus, Internal Revenue Collector G. P. Waldorf and Immigrant Inspector Ryan, of Toledo. The ex-Congressman is in excellent condition and well equipped to enter upon the arduous duties of the next 60 days. He has no pubt about the result, and in his opinion, his only a question of majority.

The silver issue is coming to the front and it may swamp the tariff question a month from now. The people in the cities are not giving much attention to the subject of free silver, but the farmore res said to be doing a "powerful sight on thinking." The Major rather invites the new issue, even if

tta the tariff in the shade He thinks the Democrats will lose more votes on account of it than the Republicans.

"The Democrats," he said, are divided on this question, and the Republicans are united in support of an honest dollar. I have great faith in the intelligence of the Ohio people, and feel sure that they will come out on the right side of the silver issue.

STRONG IN THE FAITH.

"I still pin my faith to the tariff. You have heard the story of the Canadian and American farmer who met in the Buffalo markets. Wheat was selling for \$1 per bushel, and the Yankee granger went with his hundred cents in his pocket. The Canadian returned to his farm house with only so. It is not hard to tell who paid the dury of 20 cents. The opposition say that the tariff is a tax, but the people are commencing to know better. It is the Canadians who haven't much use for the American tariff.

Immigrant Inspector Ryan took up the discussion at this point. He oid: "The other day a Canadian captain put in at the Toledo port with a load of rails. He complained if it had not been for the confounded McKinley tariff, he could have obtained 2 cents more in the price of his rails. He admitted that the duty came out of his pocket, and not from the American purchasers. This shows who pays the tariff. It is the foreign manufacturer and not the people of the United States. I never saw such a clear illustration of how the tariff protects

the home market." AN ENTRUSIANTIC RECEPTION.

When Major McKinley drove into the fair grounds at this place he was loudly cheered by the large crowds. The Second Regiment, under Colonel Howe, is encamped here, and after the speech-making way over, the Major held an informal reception in the Colonel's tent. He shook hands with most of the guardsmen and a large number of ladies and gentlemen. The old hoys gave the Major a hearty reception when he was introduced by Judge Nearing. The wind was against him, and he requested his audience to change their posi-

tions. This caused some good-natured guying, and some one proposed three cheers for the Governor of Ohio. They were given with the usual tiger. During the speech his remarks were frequently emphasized by exclamations from the audience. After one oratorical flight an aged soldier said fervently, "Thank God." The Major studiously avoided alluding to politics. There was nothing in the speech to make hishearers go wild. But what he had to say about pensions elicited considerable applause.

WORTH ALL THAT IT COST.

"The Union was worth saving," the Mayor said. "It cost a great deal to do it. No man North or South regrets what it cost to preserve the best government on earth. We little appreciate the great cost of that great war. We had enlisted 2,886,000 men in the army and navy; 85,000 men were killed, 185,000 men died in camps and hospitals; 500,000 men were made prisoners of war. But to preserve the Union was worth the cost. That war advanced the

General. In chatting about the Ohio out-look he remarked: "Ship-building is one of the main industries of Toledo. Our manu-facturers admit that without a protective duty they would not be able to compete with the Cauadians. It is not generally known that Toledo is the horrest grain ex-porting city in the country. On an average 1,000,000 bushers of wheat are shipped from this port per month. Last week the ship-ments amounted to 3,555,000. The tariff on main share out the foundation of the shipments amounted to 3,555,000. The tariff on grain shuts out the Canadian farmer and makes it possible for our grangers to get good prices for their products." "How about the Blaine movement in Northwestern Ohio?" was asked. "Blaine is the only man talked of here for President. He is very popular with the masses as he is in Pennsylvania. Indeell, there is something kindred between the two States."

States." Major Mckinley was much pleased with his reception here. This evening he was given an ovation at Toledo. He admitted that the people wanted a red-hot political speech, but under the circumstances this would have been out of place.

A motion to lay the resolution on the table was defeated by the vote of the Chairman, which made the vote atle. The resolution was then rejected. The closing session of the day was protracted by a dis-cussion whether the candidacy of Frank Brown for Governor should be "indorsed," "recommended" or "commended" to the farmers of Maryland. The issue was the adoption of the following preamble and resolution: "WHEREAS Frank Brown "WHEREAS, Frank Brown, of Carroll

LANCASTER, Pa., Aug. 13 .- There is great agitation among the Ephrata Community, or Sisterhood of Spiritual Virgins, near here, over threats recently made by certain miscreants to burn down the famous old cloister Cotos, Aug. 12 .- The enthusiasm at Iquique buildings on the banks of the historic Cocalleo. These buildings were among the first to be erected by the Protestant monks who located in this county 159 years ago, and by reason of their age and associations they form perhaps the most interesting land-marks in the whole region. The trustees of the Seventh Day Baptists, in whose control the cloister buildings are now vested, evicated a secular tenant the other day for non-pay-ment of rent, and contemplate other evic-tions in the near future. Hence the threats, Resort has accordingly been had to the civil anthorities by the Ephrata Sisterhood, who occupy the cloisters, and now the buildings are constantly guarded night and day by police officers to prevent the execution of the incendiary threats. who located in this county 159 years ago, and

WOLFE HAS THE CALL

For the Place of Chief Executive of the

State's World's Fair Commission. [SPECIAL TRLEGRAM TO THE DISPATCEL.] HARRISBURG, Aug. 13 -There will be con-

siderable business transacted at the second regular meeting of the World's Fair Com

mission in this city to-morrow. Governor Pattison will arrive from the Second Bri-

Pattison will arrive from the Second Bri-gade encampment to anght and be on hand to preside at the meeting. He will appoint the several standing committees and the commission will elect the chief executive offleer, which position a number of prom-inent gentlemen have been seeking, among them E. A. Bigler, of Clearfield, and Eben Brewer, of Erie. But as it looks now neither of these gen-tlemen are in it. Charles S. Wolfe, of Lewis-burg, the Prohibition-Democrat, is the stated candidate and appears to have the call. He has been at the Capitol frequently during the past month and is here to night.

A BANKER'S WIFE MISSING.

circles of this city are excited over the mys-

terious disappearance of Mrs. Ida Burgesa-Lord, wife of Woodson K. Lord, of the Mer-

Lord, wife of Woodson K. Lord, of the Mer-chants' Br n', and daughter of Thomas Bar gess, President of the Bargesz-Frazier Iron Company. Stremous efforts have been made by the family to keep the matter secret, and, al-though the disappearance took place last Thursday, it was kept quiet until to-day. The last seen of her was when she had a trunk taken to the depot. Detectives have been put on the case, but so far not a single clew has been obtained. Mrs. Lord is a sis-ter-in-law of ex-Governor Silas Woodson, here.

A MISSING BARK ARRIVES.

She Was Driven 5,060 Miles Out of Her

Course and Given Up for Lost.

PHILADELPHIA, Aug. 12. - After a nine

months' voyage at sea the Portuguese bark, Tentadora, which was given up for lost, ar-

rived at Spreckels' wharf and is now dis-

charging sugar. In the voyage here from

Pernambuco the vessel was driven 5000 miles out of her course, having been twice posted up in the Maritime Exchange as be-

ing lost with all hands. The owners and
