Good Butcher Stock of Light Weight Again in Short Supply.

SHEEP LOWER AND CORN HOGS FIRM

OFFICE OF PUTTSBURG DISPATCH,

WEDNESDAY, August 12. week at the East Liberty vards was 115 carloads against 110 loads last week and 140 loads the previous week. Of the 115 loads on sale this week less than 20 per cent were fair to good stock. Prime heavy beeves are no longer quotable at these yards, as none of this class have been

offered in carloads for weeks past. The few that come to this market are ordered directly from Chicago, Good butcher beeves of weight, ranging from 1,100 to 1,300 lbs of weight, ranging from 1,100 to 1,300 lbs were strong at last week's prices for the reason that there were not enough to go round. The highest price paid was \$5.75 while primes are worth \$6.30. A great scar-city et prime cattle is reported from all the live stock centers of the country. In the absence of primes exporters are compelled to accept cattle, which in former years would not have been considered good nair supply and weak for all excepting there shows been shout 400 head of calves on sale at Liberty, an increase on last week's run, and markets were slow on subsets of the resolution of the was been boot for the state of the state of the subset of the market. AT THE BULLS' MERCY.

Another Day of Excitement and Higher Prices in All the Grain Markets-Favored by Foreign News-Provisions Fail to Keep Pace and Continue Dull.

CHICAGO-Again the bulls in the wheat pit roared, and again the bears danced right merrily to their piping. On top of the 33c advance recorded yesterday, there was piled a further appreciation of 2% c in the ruling option-December-though all of it, except 14c had disappeared at the close,

Sheep-There have been loads on sale this week against 25 loads is week, and markets are of the uncovered short interest here, and the possibility that one or more of the persistent bears might be driven to the wall, nasettled confidence and tended to an evening up of trades, both long and short, at the first sign of danger. The result was a series of stampedes, which alternately sent the market up and down in the liveliest and most bewildering fashion. The news at the opening was bulish.

Orn started easy, and September sold from 36% to 56% to the weakness being due to the late fine rains in corn belt and the hesitation in wheat at the opening. Shorts took advantage of the weakness to cover, and the market rallied some. Finally, when wheat made its big advance, corn got ex-cited and September sold to 65% the After the flurry was over, September sold off to and closed at 36%. Outs were quiet but strong most of the day, influenced chiefly by the strength in the other grains. Hog products had another dull day, and prices ruled steady. The excitement in grain seemed to be entirely lost on the pro-vision market. Receipts of live hogs were 2,500 more than expected, and there was very little demand for products. September pork kept between \$10.40 and \$10.55, and closed at \$10.420.

RAPID TRANSIT LINES TO PITTSBURG.

It is ten miles from Pittsburg to Braddock by way of the Pennsylvania Railroad, with scarcely a break in the line of houses the entire distance. This has led some enthusiastic people to think that consolidation is among the probabilities of the present decade. Citizens of Braddock are of a different opinion. With a steady growth in population and wealth they think they are, and will continue, entirely able to paddle their own canoe.

Braddock was organized into a borough in 1876, when the population was less than 500. It is now 9,000. Including North Braddock and Copeland it is 15,000. For administrative purposes the borough is divided into three wards. These will probably be increased to six or eight by the

NEW YORK, Aug. 12-Aside from a fairly active request for low-grade bleached goods and grain bags, both of which are scarce, and a firm demand for clothing woolens, trade was moderate all along the line. Rapid transit has recently been introduced to provide requisite transportation facilities. The Braddock and Turtle Creek Electric Street Rallway, the pioneer in this line, be-gins at Rankin station, on the Baltimore and Ohio, and runs as far east as the Edgar Thomson Works. It will be extended to Turtle Creek, and perhaps to Walls. In the other direction it will take in Copeland, where a loop will be formed. At this point connection will ultimately be made with the Second Avenue Electric Railway. The Du-quesne people are making rapid approaches, and promise to run into Braddock within six months. It is said the fare to Pittsburg will be is cents. Copeland and North Braddock are busy, progressive places, and building operations are active in each of them. There was considerable trading in local stocks yesterday, enough to show that the market is not flat on its back. Sales were 180 shares on the three calls, besides two memberships at an advance and a batch of Birmingham Traction bonds.

When the bids for membership in the Exchange was struck, there was some surprise, a movement in this direction ing quite unusual. These transactions

seem to indicate increased confidence in an upturn of business, as well as satisfaction with present conditions. There was a strong disposition to buy Phil-adelphia Gas, but orders were hard to place. A large amount could have been marketed at a slight concession. It took ten days to fill a 500-share order. How long those now out will hang fire is an unknown quantity. Holders are beginning to realize that there is something in the stuff. There were buyers for Luster, but only one small jac changed hands. It seems to be held by people who have access to inside news, and are prepared to await events. PEACHES PLENTIFUL.

RECEIPTS THE LARGEST OF THE SEA-

Farm and garden products keep coming in quantities far beyond the capacity of our markets to absorb. Receipts of peaches to-

day were beyond anything this season.

There were close to ten carloads on sale at

the produce commission houses, and prices

touched their lowest point for this season.

scarce. The Wall Street News says: "We think that people who are banking on the possibility of a bull market right away, would do well to nay close attention to the condition of the money market. They would probably save both time and cash, that is, if they can cor-rectly interpret existing signs and condi-tions. There is a plethora of call money, and bankers and brokers are glad to get 2 per cent per annum or even less for their balances. Although there seems to be less pressure to obtain time loans, it will be found that this is simply because nobody is buying stocks to carry for any extended period, and, therefore the demand is slack. On the other hand, the offerings of time monony were never scantief. Here and there certain lenders are willing to put out small amounts at 5 per cent for six months, but they are looking very closely at the col-lateral, and a good many stocks and bonds do not find any favor with them." At New York yesterday money on call was easy, ranging from 32/62 per cent, last loan 2 closed offered at 1. Prime mercantile paper, 53/67%. THE MAN WITHOUT A STOMACH

THE MAN WITHOUT A STOMACH May exist as a museum freak, but most of us recognize the stomach as necessary to life and comfort. Most of us experience a little trouble from this source occasionally, wrong action of the stomach causing dyspepsis, etc., and often the trouble extends, involving the liver and bowels, whence we find billousness and constipation. We find also that the bowels and kidneys (nature's sewage system) become clogged with effete matter, from which comes impure blood, boils, blotches, pimples, scrofuln, scrofulous swellings and cancerous complaints. The Burdock Blood Bitters taken at the beginning, or at any later stage, arrests the trouble, restores the dis-ordered organ to activity, thereby removing every vestige of disease. B. B. R is an abso-intely pure extract of roots and herbs, which cannot injure even the most delicute consti-tution, and as a cure for dyspepsia, billous-ness, constipation, bad blood, etc., succeeds in 29 cases out of 100. jc29-91-Tra-eosu
