### COKE REGION OUTLOOK.

#### The Market Is Still Very Quiet With No Direct Expectation.

[SPECIAL TELEGRAM TO THE DISPATCH.] SCOTTPALE, Aug. 13 .- The coke market is in about the same condition as reported last week. The blowing out of ovens at the Frick works, owing to a scarcity of orders, has reduced the production, with a corresponding effect on shipments. The Frick, Overton, Dexter, Home, Calumet and Emma works will make five days this week, while the McClure, Cambria, Rhiney, Southwest and Atcheson interests of the district will make six days. The outlook, according to well posted individuals, is still satisfactory. Frick & Co. ovens as a rule are operated about five days of the week, while those of the McClure Company work on nearly full time. Shipments of coke for the week ending Saturday, August 8 are as follows: Cars West of Pittsburg, 2,538; to Pittsburg, 2,150; cers to points East, 912 total, 6,66 cars. The shipments for the week ending Saturday show a decrease of 28 cars from the 6,513 shipped the previous week, which shows a somewhat downward tendency with not enough buoyancy to warrant any speculation or any increase of trade.

But another bull wave soon swept over the crowd; New York sent in more buying orders and St. Louis began buying, while the offerings sucdeany became meager. Later the excitement in rye caused a nervous jump to \$7.5c. Estimated large receipts for to-mearrow, linear leasting sales by early layers, an 'a ramor that foreigners were a fring in New York finally carried December back to \$9.5c. reacted some, then broke to \$60. The market grew dull and continued weak, and chosed at \$5.5c.

Onts were rather neglected for the wheat and ryetpits, though fluctuations covered a range of 55c, closing near the bottom.

It is an unusual thing for the rye market to affect the price of wheat, but such was the case to day. It was the tail wagging the dog. September started at 57c and sold to 50c, against 95c at the close Monday. Cash closed at 53c04c.

Hog products were slow and steady during the greater portion of the session, but about noon a sudden mid was made on pork. Stop loss orders and exhausted margins kept bringing out others, and a partial panic followed. September going off to \$10 65, against \$10 42% at the close yesterday in a very few minutes. There was a slight reaction, but the decline was resumed and continued to \$2.50, and the close was dull at \$2.7%. Lard and ribs suffered in a lighter degree in symmathy with pork.

Bental Rates for Office Buildings. The Engineering Magazine has the follow-ing on rental rates in New York: "Ordinary upper story offices in first-class buildings situated on important business streets are found to rent from \$2.50 to \$3.50 a square foot of floor space. Few, if any, bring less than \$2.50, while the large offices on the lower and street floors bring much more than the highest figure given." Compare these rates with those at which Pittsburg office buildings are rented, and it would seem that there are great possibilities ahead for the owners of such properties. It has been shown that Pittsburg land values are less than those in any other important city in the country and a comparison of rental rates will lead to the same conclusion. Both are moderate, when the superior business advantages of the city are taken into consideration.

The stock market yesterday was interest ing, although the only sale was that of a membership at \$400. That good inquiry and generally higher prices failed to bring out the stuff is susceptible of no other interpretation than that holders are confident the market is working their way.

Among the best features were Philadelphia Gas, Pleasant Valley, Airbrake, Liberty Bank and Luster. Philadelphia Gas closed

of five years, the Irish block, 52 to 58 Sixth street, consisting of four store rooms, at an annual rental of \$12,000, or \$60,000 in all. The lessees are the present occupants. The new lease begins April 1 next. This is one of the most im portant transactions of this kind for several years, and the figures when compared with former leases of the same property show a considerable appreciation in rental rates.

Think It Will Pay.

It was learned yesterday that a deal is on foot for a frontage of about 300 feet on the Pennsylvania Railroad, between Swissvale and Hawkins, with a view to the erection of a number of dwellings, for which there is a good demand from the surrounding districts. The prospective purchasers are well known business, men, who are satisfied that the investment will pay. Negotiations are not far chough advanced to warrant particulars, but the chances are that the transaction will be closed this month.

NEW YORK, Aug. 13-The stock market today was less active, but displayed a firm to strong tone, which, but for the influence of Union Pacific, might have been the cause of material improvement in prices. Signs are not wanting that the Union Pacific floating debt scare has served its purpose in the street, and the probability is that in a few days some other sensation will take its place, and the floating debt will be allowed to settle itself, as far as Wall street is con-cerned. The market during thi last few days has shown an unmistakable disposition to break away from Union Pacific, and as-

Inturion Pacific to-day was still the most conspicuous figure in the market, but its transactions were on a much smaller scale than during the last few days, and its fluctuations were brought down to a parity with those in the rest of the list, while late in the day its relative importance in the dealings was subordinated to that of some other stocks. Burlington, Atchison, St. Paul, and later, Rock Island and Louisville and Nashville were features of the trading, but the remainder of the market, with the single exception of Cordage, showed no animation

—Henry Henson, the wife murderer, was hanged at St. Louis yesterday. The prisoner spent his last hours joking with the failor and executioners. He refused to receive any visitors, to hear the death warrant rend or to have religious services performed in

his behalf.

The people of Prussia are greatly excited over the Russian ukase prohibiting the export of rye, regarding it almost as a death sentence. Famine stares the peasantry in the face. In many European circles the opinion prevails that the Russian rye crop is not so small as reported, and that the act is merely a political move against Germany and Austria.
