

A BATTLE OF BASEBALLS. Some Remarks About the Local Baseball Team and the Old and New Managers.

ASSOCIATION'S PEACE EFFORTS. A Few Entertaining Features of Amateur Playing by the Various Local Teams.

COBBETT'S CHALLENGE TO THE WORLD. The Two Appending Big Sports Events and Pritchard's Offer to Fitzsimmons.

Western Association are much to be regretted by all who are interested in baseball affairs. While there may be some hope as to the holding together of that organization, it has been torn asunder to such an extent that a very large amount of damage has been done, and more will follow.

Our poor and unfortunate baseball team finished their second Eastern trip yesterday, and it probably will be better for everybody concerned if there is as little said about it as possible.

I am sure that it becomes wearisome writing about defeats day after day, and I can, therefore, understand how painful defeats are day after day to those who have money invested in the club.

These Peace Rumors. The week just ending has been somewhat peculiar because of the rumors that have been in circulation regarding the connection between the American and the National League.

There is nothing strange on that score, as far as the Association is concerned. But the League has not been driven out of Cincinnati; on the contrary, it is there and doing ten times better than it ever did.

The Western Association. The troubles that have overtaken the

of the original tribes of New Zealand. But no matter how that may be, for one I am glad that Stansbury has been challenged by a man from a new quarter, and I suppose many of us will watch with much curiosity the result of the proposed race.

There has been little else to talk in the pugilistic world during the week and one of the most significant talkers has been James J. Corbett, who some time ago along with Peter Jackson performed so long that they had to be stopped.

Our Amateur Ball Players. A day or two ago, as far as watching an interesting ball game is concerned, I had an enjoyable time.

Although nothing of much importance has happened in the pugilistic world during the week there has been much significant news.

Electricity and the Grip. The influenza, or as we know it "the grip," has appeared in Russia again, and is

Here is a picture of one who within a few days past has solved the mystery of the future existence.

A Chance for Young Sawbones. Are there any doctors about who wish to acquire a lucrative practice without great expenditure?

The Prince of Naples' Breath. A light summer shower, such as makes the roses blow their warm, red throats,

Work for the Explorers. Readers of THE DISPATCH of Wednesday last will recall a telegram stating that the Geographical Congress in session at Bern, Switzerland, authorized the production of a map showing the districts on the earth's surface yet open to the explorer.

A MODEL FOR NEAL. John T. Raymond's Wife Sat for the Picture of Mary Queen of Scots.

The death of Marie Gordon, the once beautiful wife of John T. Raymond, recalls the fact that she was David Neal's model for the celebrated statue of "Mary Queen of Scots."

The wheat crop being almost a total failure this season, the Russian Government has already forbidden the exportation of wheat.

THE GOSSIP OF THE DAY. Labouchere's Go-Lucky Career Should Make Him Popular Here.

Labouchere's Go-Lucky Career Should Make Him Popular Here. ELECTRICITY MAY CAUSE GRIP.

Unknown Quarters of the Globe Where Fame Awaits the Explorer. STORIES OF THE SHAH OF PERSIA.

Every one it a white and black of the unique actions of the Shah of Persia.

At the present time his chief occupation is to be a diplomat, and he is criticized from every point of view, both in parliament and out of it.

The wheat crop being almost a total failure this season, the Russian Government has already forbidden the exportation of wheat.

The fair Chilean rises late. She dresses hastily, throwing a charitable shawl about her shoulders to hide manifold sins about her little feet thrust carelessly into slippers, her splendid black hair, snarled and plaited in two long braids that fall down her back, and her abruptions, if she troubles herself to make any, being merely a form of politeness at the wash bowl.

Of course she must go to morning mass, but the black mania that causes her to do so is not the same as that which has been to the eyes and closely enveloping the body, obviates the necessity for any further dressing.

At the sunset hour or in the early evening—before the onset of the cool, dry repairs to the promenade, to enjoy a little music and perhaps some mild flirtations—the last mentioned amusement, however, being discreetly resorted to only on the women the days by in one monotonous round, year in and out.

There are not many who are not familiar with the habits of the Prince of Wales, and he is reported by correspondents that recovery is so far unknown under native treatment.

There is nothing strange on that score, as far as the Association is concerned. But the League has not been driven out of Cincinnati; on the contrary, it is there and doing ten times better than it ever did.

A BEAUFORT OF CHILE. She Drags Out a Monotonous Existence as if Life Were a Bore.

She Drags Out a Monotonous Existence as if Life Were a Bore. DAUGHTERS DON'T KNOW MOTHERS.

Experience of an American With the Servants of Concepcion. A BEVERAGE USED INSTEAD OF TEA.

CONCEPCION, CHILE, July 14.—This is life in Chile; in a dull, dull, dull life, where the hot sunbaths are cooled by breezes from the Andean snowfields—happily exempt from all excitements except those that spring from natural causes, notably love, earthquakes and revolutions; to attend strictly on all fiestas of the Romish Church, and by that means (so say the priests) to secure for oneself an equally tranquil hereafter.

Of course she must go to morning mass, but the black mania that causes her to do so is not the same as that which has been to the eyes and closely enveloping the body, obviates the necessity for any further dressing.
