The League's Great Race. It is a remarkable race, the National League race for the pennant. The leaders are just as close as ever, with the Chicagos slightly in front. They have a shade the best of it, as they are homeward bound and next week the Eastern clubs will come West, Philadelphia is making a game fight of it while the Clevelands are weakening mostly because of their lack of good pitchers. The tailenders seem to be doomed to their posi-tions. The following table shows the stand-

Manager McGunnigle Explains Matters Relative to Our Sluggers.

THE OUTFIELD IS AWFULLY WEAK

[SPECIAL TELEGRAM TO THE DISPATCH.] PHILADELPHIA, Aug. 15 .- The three straight defeats by the Phillies has put Manager Mc-Gunnigle, of the Pittsburg club, in anything but a pleasant frame of mind. He knows the weakness of his team, and is doing all in his power to remedy it. After to day's game he went into a long dissertation on where, and by what means the club was losing so many games. Said he: "It is our outfield that is weak and from

that one cause alone we are suffering. What we want is three good men that can hit the ball, cover some ground and throw the ball further than the infield. Had we these I am sure we would make a better showing. Lots of little hits go over the infield that should be easy chances for the outfielders, and this thing of playing pitchers and catchers out there is all a mistake. I now have a good man in center, and when Mayer joins us Reilly will go into the outfield. This, I think, will make us much stronger. Our pitchers are doing good work and no fault can be found with the infield. They are

HITTING HARD ENOUGH. but it is that one weakness that not only demoralizes the pitchers but breaks up the whole team. There will be several changes in the ctub, but just what they are I am not at liberty to state just now. President O'Nesi has been here with us and we have

O'Neil has been here with us and we have talked matters over at great length and the changes will be made just as soon as we return home. There is no truth so far as I know, in the rumors that are now going the rounds as to the release of certain players and in fact we may change our minds again so that you can state that nothing definite has been arranged.

Manager McGunnigle is determined to get good work out of the team and he will not suffer anything to stand in his way. The men are not pulling together and no one knows it better than he does although he will not admit it openly. President O'Neil was highly indignant after to-day's game when he learned that Manager Wright, of the Philadelphia club, had determined upon retaining Mayer. It now transpires that Mayer did not sign any contract nor even agree to terms as was stated. All that was said or done was to give him their terms and tell him that he could play in Pittsburg if he so desired.

WILL DO SOME PROTESTING. Mr. O'Neill evidently thought that Mayer would accept and took it for granted and gave it out that he had signed. Now when he sees a really good player slipping away he gets mad and threatens all kinds of

"I will protest every game he plays with the Philadelphia club after next Tuesday, when his ten days expires" was the way he greeted your correspondent. "I have it by two witnesses that Mayer agreed to our terms and he will play with us or I will know the reason why. Sharp practice that after I had arranged everything and just because they were unfortunate. But that does not end the matter, by any means, and I shall call upon John I. Rogers to settle this point. I have never failed to get anything that I went after, and this shall not be the first time."

Lack of time was the only reason, perhaps, that prevented the genial President from saying more, for the last words were uttered just as he stepped aboard the 9:20 express West, and it pulled out of the station. the Philadelphia club after next Tuesday,

A GREAT RACING CENTER.

Lots of Fine Horse Racing Going on at Chicago and a Treat in Store.

CHICAGO, Aug. 15 .- Chicago now enjoys the reputation of being the largest racing center reputation of being the largest racing center in the country. Two first-class tracks in full operation with high class racers is something no other city can beast of.

At Hawthorne the attendance continues large, attracted partly by the free admission mangurated by Mr. Corrigan immediately upon the opening of the Garfield Park track. The entry lists fill well daily and the racing is arounced first-class by competent indees is prounced first-class by competent judges. At the Garfield Park track everything is brand new, and the appointments are second to none in this country. The average daily attendance has been 5,000 or more, and the quality of the thoroughbreds has increased weekly. Some of the best horses in training are quartered at the track, and a special representative of the club is now in New York offering flattering inducements for Eastern owners to send their "cracks" to Garfield Park to try conclusions with the Western flyers.

On Saturday next, weather permitting, the great Garfield stakes will be run, and Chicago race-goers will witness probably one of the grandest equine battles of the year. THE WEATHER. DEAD TO SWEET SOUNDS. Remarkable Recovery of Hearing

Through Electricity. SIMPLE, POSITIVE PROOF

Of the Superior Skill of the Physicians of the Electropathic Institute at 507 Penn Avenue.

"My occupation is that of a railroad brakeman, but of late my health has been so poor that I have been unable to work at snything." The speaker was Thomas Me-Greevey, a young man well and favorably known at his home in Port Perry, Pa. "I have had esturrh for years, and catarrhal deafness also. I have suffered untold agonies of mind and tortures of body, and I want to make known to the public and all sufferers, that I have been cured of a seemingly hopeless disease by the physicians of the Electropathic Institute, at 507 Penn avenue, Pittsburg.

Thomas McGreevey, Port Perry, Pa.

'My case of catarrh, as I have said, was of some years standing and a most aggravated case, and had resulted in deafness, unfitting me for my business. The discharges from my ears were large and most distressing, and my ears presented a very unsightly and unpleasant appearance. My head ached nearly all of the time, the disease had so affected my stomach as to seriously impair my digestion and my nervous system was almost ruined. I knew no rest from trouble night or day.

"The constant strain on me had completely broken me down. 'Did I endeavor to get cured?' I had tried nearly everything and doctored with and CONSULTED THE LEADING SPECIALISTS

on catarrh and ear diseases. They would profess to be able to cure me, but none of them seemed to understand my case, however, and this treatment instead of curing me seemed in reality to aggravate my case. I almost despaired of ever being any better, when my attention was attracted to the Electropathic Institute of 507 Penn avenue. Pittsburg, and its method of treatment.

"I called on the physicians in charge and they made an electrical diagnosis of my case, discovered the true nature of the disease and pronounced it curable. The result has verified their verdict. I am cured. Every one of my horrible symptoms are gone, and I feel like a new man. My catarrh, my deafness and the discharges from my ears are thoroughly cured. My general health is better than it has been for rears, and my exhausted nervous system has been completely built up, and, in fact,

I AM A WELL MAN and have been able to resume my occupation and suffer no inconvenience whatever from my old trouble. I cannot too highly commend the physicians of the Electro-pathic Institute for their skill and science, their perfect and varied electric appliance and their intelligent use of them, as in my desperate case."

This young man is, as has been said, very

favorably known in the village of Port Perry, and his rapid and complete recovery from an apparently incurable disease of years standing has given great surprise as well as much pleasure to his numerous

"I suffered constant and unremitting pains for years. Consuited and was treated by different doctors, in vain. Tried the elec-trical treatment as administered by the physicians of the Electropathic Institute, has dist ppeared," said Mrs. M. A. Sankey,

Mrs. M. A. Sankey, 115 Lacock street, Allegheny, uffered terrible pains, both sharp and dull t felt as though a band of iron was tightly bound around it. I could scarcely speak without the effort causing me pain. To swallow caused me great suffering, and the food I attempted to swallow would nearly choke me. "The act of chewing my food was

attended with almost unbearable pain.
"I had some of the best physicians in the two cities attending me, yet they all were in everything in their power yet I stendily grew worse and worse. Together with the above trouble, I suffered greatly from neutroinie, I sunreed greatly from help raigie pains, supplemented by nervous prostrution, until I became so bad that I shared the belief of my friends that I would never regain my health.

"I at last decided to seek the assistance of

the physicians of the Electropathic Institute at 507 Penn avenue, to alleviate, if possible, my sufferings.
"Their first treatment was followed by marked improvement, and in a short time my pains, aches and aliments disappeared as if by magic. Although 83 years old, I am en-joying as good health to-day as ever before in my life."
