At any rate to-day's game at Exposition Park will be an interesting one because of the closeness of the pennant struggle. with whom he did not live happily. They did not live together very long. When Matsada was a youth in his own country he had as a teacher the celebrated Japanese wrestier, Isciagaha. In Japin Matsada was considered a third-rate wrest-ler, but in this country he stood in the front ranks. He wrestled with all the first-class men throughout the country. His friends say that he failed in strength ever since Evan Lewis, "The Strangler," wrestled him and broke his ankle.

Our sluggers are home again. Manager McGunnigle is far from being completely discouraged at the showing of his team. He confidently believes that he can make the team a winning one by making a few more changes. Some of these changes may be made this week but on this point the man-ager is mum until be has had a talk with the ellrectors. Besides until something definite from Frank Ward is received the proposed dianges cannot be decided on. But Manager McGunnigle is certain that one or two new players will be engaged this week. He thinks he has secured a good man in Cork-hill but many people think different. There is a notion prevaiing to the effect that Hanion is to be released. Some of the officials of the club deny this, but if there is any intention at all to dispense with the cx-manger the directors would do well to consider the matter carefully before taking confidently believes that he can make the

for the visitors by 43 runs to 28. The chie scorers for the Glenshaw team were: J. Sansom, 11; B. Brealley, 7, and W. Hanner gin, 7. For the home team: A. E. Vicker-man made 6, not out; A. Goldly, 5, and N. Broadbent, 4. Wickets were taken for Glen-claw thus: Sansom S. Conlar 2, and anelder the matter carefully before taking ny action; and so would Manager McGan-igle. If each member of the team had hayed his part as we'l as Hanlon has played show thus: Sanson. 8; Conley, 2, and Jones, I. G. Broadbent took 7 wickets, H. Fowler 2 wickets, and N. Broadbent I wicket for Allogheny. A match is being arranged between Allegheny and Brushton and between Gienshaw and McDonald. is the team his the team would never have been near last place and to say that he is a disturbin ent is nonsens

## A VERY POPULAR PLAYER.

He is a good player and a popular one, and those are two very important essentials. The truth is that very many men will be for ten miles was broken yesterday in the

The truth is that very many men will be tried in the outfield before Hanlon's equal is found, take him all in all. But the greatest efforts of Manager Mc-Gunnigle and the directors are being made toward securing a third baseman. A good man is expected this week. Regarding Mayer there is nothing to add to what ap-peared in yesterday's Disrature on that point, and Manager McGunnigle has nothing to add to his statement which was published in this paper yesterday. He may have some-thing new to report to-day. It is likely that Galvin and Hutchinson will be the two pitchers in the local game to-

from scratch, and finished with Knisley in the lead in 3:09, Gray's front wheel being less than two feet behind that of Knisley's, and both breaking the American record for ten miles, which was 30:11. Tuttle got off the course, and thus lost all chance for third. The safeties carried off all honors. The first ten men to finish rode them. It is likely that Galvin and Hutchinson will be the two pitchers in the local game to-day, although Manager McGannigle may ohange his mind and put King in.

SATURDAY'S BALL GAMES.

The League.

At Philadelphia-

annual road race of the Illinois 'Cycling

Club. The three competitors for the time medals were Tuttle, Knisley and Gray. The

two latter started together at 15 seconds from scratch, and finished with Knisley in

An Easy Victory at Cricket

The cricket match played at Pleasant Val-

ley on Saturday between the Glenshaw and

Allegheny clubs, resulted in an easy victory

Lookouts on the mast head agreed on the Broke the Becord. CHICAGO, Aug. 16 - The American record or ten miles was broken yesterday in the wasn't what Mr. Peary had cracked it up to be, and that if we had taken Captain Pike's advice and skirted the east coast of New foundland we should have been north of this point already. SCIENTISTS DRESSED LIKE PIRATES. Just before sunset someone signted a scal 100 yards aft. A wild panic followed the announcement. This was the only minute during the day when the deck hadn't looked

Captain Pike took all this in, hitched his trousers, pulled his cap over his starboard eye, climbed on the bridge and gave the order to go ahead quarter speed. We soon began crunching into it. Blocks of ice as big as houses and lots stood in in our way, white as the driven snow. What misery

would be relieved by even one of them in some tenement district in Philadelphia or

New York. The solid prow of the Kite, a mass of timber five feet thick, pounded into these. One moment she would rise on the floe and smush through it, and the next she

would hit it a glancing blow, and, stagger

After making a mile in this way the skipper varied the monotony of the work

ing for a moment, swerve as on a pivot.

by tying fast to a good sized floe for a fresh supply of water. The watch on deck, headed by the second mate, attacked the ice with axes, and sailors, scientists and lubbers warmed their litabs and cooled their finger tips in carrying armfuls and dump-ing it over the rails on to the decks. It was then transferred to the tank and the steam turned on, and soon we had 700 more gallons aboard. That steam pipe seems to hold a good deal of oil, for the ice water bore a distinct flavor of blubber.

August. It seems strange to go to bed in brond sunshine and food like Welsh rarebits feels out of place at that time. Hot toddy will lose much of its charm. All the Esquimaux who came aboard brought with them handkerchiefs or bags containing articles for sale. These consisted for the most part of moccasins and tobacco pouches made out of the skin of the hair seal. There were also sealskin breeches and jumpers, but not of a first-class kind, as there have been three whaling steamers, from Dundee here this season which have taken nearly everything purchasable left by the Danish officials. Very attractive little kayaks are made by the Esquimaux containing a miniature whaling and soiling outfit. These retail at about \$1 25 in cash, or about 25 cents' worth of worl or linen shirts. Cash is at a discount here, one of the tew places in the world where it is

against all comers.

They prefer merchandise. mand. Skin breeches are too warm for the summer and the natives don't get very much cloth At first they declined to take any other currency than trousers, and they would have nothing with a hole or patch in it. It mattered not how old or shabby it was as long as it was reasonably thick and it. The Senator Stewart at the Hoffman the other day and asked him about this. The Senator holds the spokes of this silver wheel inside of the political wheel and tars, deligners, and they is also and is been to be the other sparks by the column. He said: "The people believe that the present fin-Trousers are the article in greatest de

department of the ship, which gets up about 4 o'clock in the morning, is generally stowed in its bunk by 9 at night and then classes shall prevail. There you have, gen-erally speaking, the primary and principal causes underlying all financial agitation. They correspond to the fundamental differsession of the cooks' galley, and hold it ences between capital and labor-capital seeking labor at the lowest possible price, It is our last sunset to-night. Peary's labor demanding the highest possible price it can obtain. From a reasonably liberal party will not see the sun set for three months. We who stick to the Kite will have continual daylight until the end of point of view there is no special honesty or dishonesty, no distinctly perceptible right or wrong in either case, or on either side. Such charges and assumptions are of no foundation in truth. Buying as cheaply as possible and selling as dearly as possible is the mainspring of all trade. It holds as good in regard to silver and gold bullion as in potatoes and scrap iron. It has been considered legitimate from Joseph-of the impregnable virtue and picturesque coatwho cornered the grain market for Pharoah, down to "Old Hutch." There isn't any-thing more mysterious or dishonest in the fluctuations and manipulation of the stock market and speculations in specie than there is in other branches of trade. All

public and interest enough excited to cause the Rural Improvement Society to get perthe stones. In April, 1887, a committee, of which Fred B. Knapp, formerly of Harvard University, was chairman and the struggle that followed the Emperer the University, was chairman, made two excavations of the graves marked by the stones Close by this was a second ancient grave -on the same line as the others. When opened the bones of a man about 5 feet 6 or 7 inches in height were disclosed. He was plainly much older than the woman, as the single tooth found showed much wear. Near the skull was a small quantity of hair, rather short and quite white, stained a little by the earth. writers speak of Standish as a short man, though by what authority is not known.

On Saturday August I, last, Mr. Fred B. Knapp, Rev. E. J. V. Hiuginn, C. B. Wheeler and others made further excavations and found on the other side of the body of the old man the remains of a young woman, over 25 years of age and probably not over 30. The teeth were white and ne fect, a little irregular, but all there, and the edges of the incisors but little worn. The hands were crossed and bound together with homespun cloth-white with a very fine blue stripe. The bandage was probably to keep the limbs in place when the body was carried by the pallbearers. ### A FEW SUGGESTIONS.

## An Admirer of Fittsburg's Team Gives Little Free Advice.

Sporting Editor of the Dispatch:

As the Western Association seems likely to give up the ghost and as the Pittsburg team is still dong as hadly as ever, a word about some good playa in that association would seem in place, Ward, of Minnenpolis, leads that team at the bat

and has done so ever since he has been with the ram. He is a great "get there" man and would be an invaluable addition to Pittsburg. As he was and is considered a far better batter than Shugart, "ittsburgers can have an idea of his worth. Ryn of the same team, is also a great batter, and would be agood addition. His batting average to date is 525. Ward's is .345: Burkett, of Lincoln, still keeps up his hat year's record with the New York team and is a very hard hitter, a fine fielder and not a poor plicner. Batting, .321. Plekett, of Kannas City, is also butting very hard and would fill a big hole at third base to perfection. Batting,

Good pitchers are rather scarce. Inks is occa anally good, but very wild, Killen, of Minne-sells, who formerly lived about Plitsburg, is on f the best. Gilliand, of Denver, formerly of Me comport, also shows up well. Both are left handed titten has good speed and good command, while silliand has great speed with fair command only acties, of Milwaukee, is a man worth looking fluer. Freed Smith, of Milwaukee, is a good man. Honk there are no catheres in the Western Asso-iation that would improve on the present staff at

Tithburg. German, of the Buffalo, N. Y., team is probably s good a pitcher as there is in any minor league. uppy, of Meadville, is very promising indeed, evenil i think, should be given at least two weeks' isi at third. In his league he was unapproacha-ie as a tailter and fielder, and his work certainly are promise of a bright inture. Relily has proven innelf unable to fill the hole at third satisfactor-as give Newedla chance.

gave promise of a bright hiture. Reliv has proven timmed numble to fill the hole at third satisfactor-ity, so give Newell a chance. I believe that if Hanion was off the team alto-gener that jestousy would soon die out, and then, with judiclows changes, Pittaburg might have a visating team. Let the beam be somewhat as fol-tows: Catoners, Mach, Miller and Benger; pitchers, Galvin, Baidwin, King, Killeuand, German, Gil-Hand or Cuppy, first base, Beckley; second, Haertaaner; third, Newell or Picketi; short stop, Shugart: left field, Miller, when not catching, and Narketi: center. Ward; right, Ryn, If Carroll keeps up his good work hemight be retained. Han-ton has certainly been doing good work at the bat iately, but if harmony in the team is the price of keeping him, he is too dear. He cannot now and never could handle a grounder, and a single to his field is almost always good for two bases, as along with his family to be indeed above, there would be three fielders who could occurionally keep a man from secoring on a fy to the field, who could field, hit the field hard on fin the bases well. As asuan who is interested in the work of the Pittsborg team, who has mode a soty of maschall for pleasure for a number of years, and who knows annost every player in the League, Association,

Fifteen persons were injured and some of face of the earth is so subject to myopia or short sightedness as the Teutonic, and this them so seriously that they will probably die. s because when reading in even a moderate light the bewildering fine lines of German FRENCH WHEAT CROP DEFICIENCY. type compel the paper or book to be held so near the eyes. But for Bismarck's' strong opposition

"Do you people want the remonetization of silver at its present bullion value per dollar, 412½ grains, or would it be all right brought to a parity with gold? The Sena-tor answered: Gothic type would have been well nigh banished before this, and the Iron Chancel-"The question whether the gold standard lor's opposition was dictated solely by his intense patriotism, amounting almost to idolatry. A simple instance of this may be

and contraction, or the restoration of silver, and contraction, or the restoration of silver, shall be the policy of this country must be determined before confidence can be re-stored or the agitation stopped. If the pos-sessors of fixed capital prefer agitation, dis-cord and final bankruptey or repudiation to the remonetization of silver, let them be re-sponsible for the consequences. The fact that there is not enough gold for use as money is undeniable. The paramount ques-tion is, how to supply the deficiency. Shall it be done by the restoration of the money of the Constitution in conformity given in the case of the German for the word envelope. At first a Germanized form of the French word was used, but Bismarck in-sisted on a longer and more strictly German name, meaning letter coverer. A man who will prefer an awkward compound to a terse, brief name can not easily be brought to see the advantages of a change from the type his

incestors used.

or the other is inevitable. - But stop the agments Contain Poison. itation you cannot while every producer in There are a great many people in St. Louis the land is writhing under the cruel grasp of the iron hand of contraction. The money who use neither salt, pepper nor any other question will be an issue in every political condiment in their victuals, and the taste for unseasoned food is growing, says Dr. Belle S. Robinson in the Post-Dispatch. The ampaign and in every session of Congress until the Gold Trust is forced to yield to the demand of the people for a reasonable sup-ply of money to meet the legitimate re-quirements of business." desire for strong condiments is just as unnatural as the craving for tobacco or ardent spirits, and if the results are not so pro-nounced the reason must be looked for in WHERE THEY ARE INTERESTED.

the fact that the elements composing most spices are not so deadly as those entering In other words, neither Senator Stewart nor the silver producers and silver agitators he represents, want free coinage upon any other but the present basis. If a silver dol-lar is to cost just as much as a gold dollar to the two articles mentioned. Pepper, nutning and allspice all contain poisonous principles, and people would be much healthier without using these season-ings. But unseasoned food, to be palatable, and each buys just the same, they care nothing specially about free coinage, bemust be of the best quality. A taint in flesh, age in vegetables can be concealed by the liberal use of condiments, but will be cause in that case free coinage would neither open up a high-priced market for their sil-ver bullion nor materially increase the volume of the national currency. Now, instantly detected when they are absent.
