COUNTRY PRODUCE-(Jobbing Prices)-Sup-

ply of creamery butter is not up to demand. Markets are very firm at the ad-

vance already noted. It is a rare thing that

creamery of choice grade is in such short supply as it is at present. With an advance

of 2@3c per ib since the beginning of the week, markets are very firm and drift of

prices is upward. Cheese is firm and un-changed. Eggs are slow with 17c per dozen

as top price. All farm and garden products

are in supply above demand, and as a result the situation is favorable to the buyer.

Bananas are a drug on the market, and shippers who get enough to pay freight bills have reason for congratulation. Large quantities of ripe bananas have been sold on track within a day or two for less than 50c per bunch. Peaches and melons seem to have taken the place of tropical fruits, and the latterare dull and slow.

The market opened with small fractional gains over last night's figures, extending to % per cent, and while there was some hesitation on selling of some shortstock in Union Pacific; the tone was soon recovered and an upward movement was inaugurated which, with but slight interruption, lasted throughout the session. Missouri Pacific early took the lead in the advance, but later the Grangers and Union Pacific came to the front again, and specially sharp gains were

## SPEAKS FOR ITSELF.

S.S.S. not only speaks for itself, but has thousands of people to speak for it. The testimonials that have been given in its favor by people who have been cured by it would fill pages of a newspaper. No other medicine has been so thoroughly endorsed by the public. Here is a

sample of Disinterested Testimony. Rev. M. B. Wharton, pastor of the First Bap-

tist Church, Montgomery, Ala., writes: "I have seen Swift's Specific used, and have known many cases of the worst form of blood disease which have been cured by it. I know the proprietors to be gentlemen of the highest type, and of the utmost reliability. I recommend it as a great blood remedy une-qualed by anything that I know of."

The features of the week in produce lines have been the excessive receipts of farm and garden products with a consequent

downward tendency of prices, and a strong upward movement of choice dairy products,

Hides and Calfskins.

The hide situation has not improved any in the week past. Buff hides are very dull

by no means strong at our quotations.

Following are prices paid by Allegheny tanners for stock delivered here:

incendiary and the key of the burglar, will be as faithful in 1891 as in 1881. God's hand is mightier than the machinations of stock-gamblers, or the plots of political demagogues, or the red right arm of revolution, and the darkness will ily and the storm fail dead at his feet.

So there are persons in feeble health, and they are worried about the future. They make out very well now, but they are bothering themselves about the future pleurisies, and rheumatisms, and neuralgias, and fevers. Their eyesight is feeble, and they are worried unless they entirely lose it. Their hearing is indistinct, and they are alarmed lest they become entirely deaf. They felt chilly to-day, and are expecting an attack of typhoid. They have been troubled for weeks with some perplexing malady, an i dread becoming life-long invalids. Take care of your health now, and trust God for the future. Be not guilty of the blasphemy of asking Him to take care of your while your sleep with your windows tight down, or can chicken salad at 11 down, or eat chicken salad at 11 down on the pulpit sofa to rest, and then go on again. Theodore Frelinghuysen had a great horror of dying till the time onne, and then went peacefully. Take care of the present, and let the future look out for itself. "Sufficient unto the day is the evil thereof."

NOT ALWAYS SMOOTH SAILING.

Again: The habit of borrowing misfortune

is wrong, because it unfits us for it when it setually does come. We cannot always have

smooth sailing. Life's path will sometimes tumble among declivities and mount a

THE TRIUMPHS FOR JOYOUS SOULS

ISPECIAL TELEGRAM TO THE DISPATCH,

BROOKLYN, Aug. 16,-Dr. Talmage has

returned from his Western tour reinvigor-

sted in health, and cheered by the hearty and enthusiastic greetings he has received in

the numerous cities he has visited. Thou-

sands of persons who have read his sermons

in their local newspapers have struggled to

get within sound of his voice wherever he

has spoken. His sermon this week is on

the very common and foolish habit of "Bor-

rowing Trouble," and his text is Mathew

vi., 34: "Sufficient unto the day is the evil

DESPONDENCY UNFITS FOR DUTY. .

First-Such a habit of mind and heart is

wrong, because it puts one into a despon dency that ill fits him for duty. I planted

two rose bushes in my garden; the one thrived beautifully, the other perished. I

found the dead one on the shady side of the house. Our dispositions, like our plants,

seed sunshine. Expectancy of repulse is the

d sunshine. Expectancy of repulse is the ase of many secular and religious failures, ar of bankruptey has uptorn many a fine siness and sent the man dodging among note-shavers. Fear of slander and abuse often invited all the long-beaked vulces of scorn and back-bitting. Many of the shortance of life, like hyenas, flee if you rageously meet them.

It was poorly prepared for religious duty is an who sits down under the gloom of example of the sits of the standard products of the standard products.

How poorty prepared for religious duty is a man who sits down under the gloom of expected unisfortune! If he pray, he says, "I do not think I shall be answered." If he give, he says, "I expect they will steal the money." Helen Chalmers told me that her father, Thomas Chalmers, in the darkest hour of the history of the Free Church of Scotland, and when the woes of the land seemed to weigh upon his heart, said to the children, "Come, let us go out and play ball or fly kite," and the only difficulty in the play was that the children could not keep up with their father. The M'Cheynes and the Sammerfields of the church who did the most good, calkivated sunlight. eagle and an owl got into fierce battle; the eagle unused to the night was no match for an owl, which is most at home in the darkness, and the king of the air fell helpless; but the morning rose, and with it rose the eagle; and the owls, and the night-hawks, and the bats came a second time to the combat: now the eagle, in the sunlight, with a stroke of his talons and a great cry, cleared the air, and his enemies, with torn feathers and appashed with blood, tumbled into the thickets. Ye are the children of light, in the night of despondency you will have no

the night of despondency you will have no chance against your enemies that flock up from beneath, but, trusting in God and standing in the sunshine of the promises, you shall 'renew your youth like the eagle.' Again: The habit of borrowing trouble is

wrong, because it has a tendency to make us overlook present blessing. To slake man's thirst, the rock is cleft, and cool waters leap into his brimming cup. To feed his hunger, the fields bow down with bending wheat, and the cattle come down with full udders

from the clover pastures to give him milk, and the orchards yellow and ripen, casting their juicy fruits into his lap. Alas! that amid such exuberance of blessing, man

Alas! that amid such exuberance of biessing, man should growl as though he were a soldier on haif rations, or a sailor on short allowance; that a man should stand neck deep in harvests looking forward to famine; that one should feel the strong pulses of health marching with regular tread through all the avenues of life, and yet tremble at the expected assault of sickness; that a man should sit in his piessant home, fearful that ruthless want will some day ruttle the broken window sash with tempest, and sweep the coals from the hearth,

and sweep the coals from the hearth, end pour hunger into the bread-tray; that a mun fed by film who owns all the harvests should expect to starve; that one whom

God loves and surrounds with benediction, and attends with angelic escort, and hovers

and attends with angelic escort, and hovers over with more than motherly fondness, should be looking for a heritage of tears! Has God been hard with thee, that thou shouldst be foreboding? Has He stinted thy loard? Has He covered thee with rags? Has He spread traps for thy feet, and guiled thy cup, and rasped thy soul, and wrecked thee with storm, and thundered upon thee with life full of calamity? If your father or brother come into your bank where gold and silver are lying about, you do not watch them, for you know they are honest; but if an entire stranger come by the safe, you keep your eye on him, for you do not know lie designs. So some men treat God, not as a father, but a stranger, and act suspiciously toward Him, as though they were afraid He would steal something.

SOUR-HEARTED CHRISTIANS.

It is high time you began to thank God for

Many Christians think it a bad sign to be jubliant, and their work of self-examination is a bewing down of their brighter experiences. Like a bey with a new jack-knife, hacking everything he comes across, so their self-examination is a religious cutting to pieces of the greenest things they can lay their hands on. They imagine they are doing God's service when they are going about borrowing trouble, and borrowing it at 30 per cent, which is always a sure precursor of lankruptcy.

Fruits and vegetables have been a drug for the week past and prices are daily declining. Peaches are in supply far beyond the capacity of our markets to absorb, and, except for the very choicest, prices have been nominal for several days past. On Thursday of this week there were not less than ten carloads of peaches on sale at the produce commission houses of the city, and over ripe stock was sold at what it would bring. The heavy receipts of peaches have had a disastrous effect on the banana trade. Bananas were sold on track at 40c to 50c a bunch the past few days and were dull and slow at these prices. Large quantities were sold at prices which would not more than half pay freight bills. Dealers in tropical fruits report that trade is no good of late, owing to large receipts and low prices of domestic fruits and melons. In vegetable lines we have to report the same situation as in fruit lines. Markets are glutted with tomatoes, cabbage, potatoes, and in fact, all kinds of garden stuff, and prices are lower than they have been for years. Gardeners complain that stuff is so plentiful that it yields little for the work expended. What is the producer's loss is the consumer's gain. There has been no time in the past decade, if ever, when the consumer could obtain so much for his money in fruit and vegetables lines as he can right now.

and then will be the dawning of better things. Collections on boots and shoes are hard at the present time, and well they may be, from the condition of the South and Southwest. But matters are rapidly drawing toward the brightening. The situation has been rendered particularly aggravating from the fact that banks in this part of the country have lately been discriminating against boot and shoe paper to the extent that they have. The banks have explained, or attempted to show, that they have been able to loan all of their money on collaterals, and hence they have had no money to loan on boot and shoe paper. But this situation of affairs is changing, and probably about the time the banks find that they have money to lend on boot and shoe paper, collections will have been sufficient to give manufacturers more of the money they want.

into the fifth sand, and asked "What is coming next?" Less than six months ago this spot was just visible in the tail of Wildwood's rapidly disappearing comet, and could only be seen with a powerful glass through the noonday rays of McCurdy's sun. To-day the Wildwood meteor has been lost in space, the Wildwood meteor has been lost in space, and McCurdy's orb has almost reached the horizon on the descendant, while it is believed that the full brilliancy of McDonald is yet to come. The output in that field to-day will be over 10,000 barrels, and unless men who could not be considered otherwise than the best judges are mistaken, it will not be long before this is increased to 25,000 barrels a day. It is a record with few parallels. When the history of Pennsylvania's wonderful oil-producing pools is eventually written, the word McDonald will be the keystone of the names around which the interesting volume will be constructed.

Final prices as compared with those of the previous Saturday show the following changes: Philadelphia Gas improved ½. Wheeling Gas 1½, Luster ½. Central Traction lost ½. Citizens' Traction 1. Pleasant Valley ½, Switch and Signal 1. Airbrake 1. There was some appreciation in the bank stocks, while insurance stocks about held their own. Duquesne Traction submitted to a material concession, but the others of the unlisted group came about as they went in. Sates Saturday were 60 Luster at 12½, 6 at 12, 25 at 12½, 2 memberships at 400, 5 non-assented Electric at 2.

Although the opening of the week in financial circles was apathetic, the close was active, with a distinct improvement in the borrowing demand for money and routine lines up to the best level of the season. Bank clearings were smaller than the week before, but general conditions were better. The Clearing House report for the day and week is appended: seus as appended:

HOME SECURITIES. Business Not at All Bad for the Dullest Month in the Year. The volume of speculative trading last week was fair for the season, sales on call footing up 1,970 shares against 761 the previous week. There were no changes in conditions to materially affect values for better or worse, but the tone of the market wa stronger. This was not reflected in the fig-ures, but proof it was found in a broader demand in a greater number of orders, and in the sharper appetites of buyers. Final prices as compared with those of the

New York, Aug. 15.—Business in drygoods was moderate and restricted as usual on Saturdays. Agents were in receipt of a good many small orders for a wide variety of goods but spot transactions were few and light.
