LOW GRADE BEEVES

Are Still Coming to Our Markets in Excess of Demand, With

PRIME STOCK IN SCANT SUPPLY.

Good Cattle Strong at Last Week's Prices and Common Dull.

SHEEP AND SWINE FAIRLY STEADY

OFFICE OF PITTSBUIG DISPATCH,

MONDAY, Aug. 17. Markets opened at East Liberty yards with 110 carloads of cattle on sale, against 105 leads last Monday and 102 the previous week. Quality of offerings was, if possible, below that of the last few weeks. Prime beavy beeves have ceased to be a factor in the Liberty livestock markets. This grade has of late been conspicuous for its absence. From all livestock centers the report comes that prime heavy beeves are in short supply. The few city butchers who enter to e first-class trade must needs order their

supplies of cattle direct from Chicago. demand for high grade beeves has declined very much in the past few weeks, owing to the absence of large numbers of consumers who are taking their summer rest on mountain or seashore. There were no beeves offered at East Liverpool to day which were good enough to bring 6c per which were good chough to bring so per pound in carload lots, and yet prime heavy cattle are worth more than se in Chicago. So far as could be learned the best on sale were sold at \$5.73. The supply of light, tidy hutcher cattle was not up to demand, and for this grade markets were strong at last prices. Common and low grade prices than prevailed a week ago.

Good Beeves Scarce. The difficulty with markets for a month has been that common stock has been too abundant and offerings are beyond our capacity to absorb, while of choice cattle, especially those of light weight, there is never a sapply equal to demand. Fresh cows are in light supply this week, but demand is equally light. There were close to 400 calves on sale, the bulk of which were heavy Markets were slow at last week's range for vealers, which was 56554c per B nd 214 313 to for grassers. Sheep-The numser on sale this morning was it double deck onds, against 30 loads last Monday. The public of offerings in this line was gener-ity low. The lambs on sale were for the nest part very common. The range of prices for the best sheep on sale was \$2,650 very few bunches being good enough the outside figure. Lambs ranged like per h. All choice stock was in

from Sgase per B. All choice stock was in-demand at last week's prices, but common stock was weak and lower.

There were 12 to 15 loads of hogs on the market against 16 loads last Monday. Qual-ity of offerings was below average. The hest on sale were sold at \$3.85 to \$5.90, and

Receipts of cattle at Herr's Island yards

ere below late average in number and marats were a shade stronger than they were week ago. Prices, however, were practically the same as last week, the range being ows: Best heavy Chicago beeves, 5 5 to \$6 50; medium weights, \$5 15 to \$5 85; light weights, \$4 15 to \$5 15; common to fair thin steers, \$2 50 to \$3 75; bulls and dry cows, \$2.50 to \$3.50. There were only two fresh cows on the market, and they were sold at ad. The number of calves on sale was 63
ad. Vealers sold at a range of 5c to 6c per

CAME DOWN LIKE A STICK.

Another Day of Wild Excitement Among Grain Speculators, but Wheat Comes Down a Few Pegs-Corn, Gats and Rye Close Higher Than They Open.

CHICAGO, Aug. 16.-The fever which was aging all Saturday in the wheat pit was as much as ordinary human constitutions could stand, and although the fluctuations to-day were even wilder the excitement was no greater than on the closing day of last week. The usual news which influences the mone-tary fluctuations were unheeded. The crowd merely bought or sold according to the impulse communicated by disappearing margins. All the customers of commission houses who had trades open were called heavily for margins, and much of the trade done in the first half hour of the session was in the way of closing up, as best it could be done, such of their business as had not been

sufficiently protected by margins.

The wildness of the first hour's transactions can be judged by the range of the price of December wheat during that time. There was one simultaneous jump for it at the starting signal at from \$1 00 to \$1 12 for December, and it went sometimes le at a time until it struck \$1 18, and some impetuous spirits even made trades at \$1 1614 before the advancing tendency was checked. In the furore one transaction for 10,000 bushels was made at \$1 15, but the legitimate top of

the market was \$1 14.
Aside from the buil fever which was raging bot in the veins of nearly all of the traders, there was plenty of bullish news at the opening. London cargoes for prompt shipments were is 3d higher, Liverpool was Shipments were is a light to the state of 5c higher, and the New York Produce Exchange not being open for a half hour after trading began here, its members were bombarding their brokers here with buying

orders.
Suddenly there was a change of some frac-Suddenly there was a change of some fractions. New York houses selling heavily, and and Berlin was quoted 1 cent lower. The decline which followed was almost as rapid, and accompanied by about as sensational features as was the preceding advance. It tumbled like a huge bowlder down the side of a mountain until it struck \$1 05, and after a rebound to \$1 07, the operators became apparently equally exhausted; and a long interval of quiet followed the fierce struggle. Nobody had defaulted at the Clearing House settlement, which removed a load from the scattlement, which removed a load from the overstrained commission men and gave them time to look about them and see where they stood. All of this occurred before 11 o'clock, or within the first hour and a half of the see in.

o'clock, or within the arise hour and a lart of the session.

Thereafter, while the tendency was downward, it was at a more deliberate pace. By 12:30 o'clock the price of December had got down to \$1 03, it reacted to \$1 04, weakened again and closed unsettled at \$1 02'.401 03, against \$1 09\text{\sqrt{s}} at the close on saturday, after having covered the phenomenally wide range of 10011\text{\sqrt{c}} c during the day. On the "carb," after the close of the session, December sold up to \$1 04, calls sold at \$1 10\text{\sqrt{c}} and puts at 98\text{\sqrt{c}} 0.

During the excitement in the early trading nothing less in margins than 10c a bushel would be accepted by brokers, and this fact was a material element in the excitement.

The corn market was a good second to wheat in the amount of excitement in the pit and the violence of its fluctuations. Like the superior article it had its exciting bulge and inglorious collapse, and the trading in it was also largely governed at the opening, as in wheat, by the question of margins. On the advance a lot of heavy long lines were realized upon. Among others, B. P. Hutchinson, of New York and Chicago, commenced feeding 69c September corn to the shorts, and sent a dispatch saying that he thought both wheat and corn great sales.

The opening of the market was highly turbulent and frothy, with September bringing anywhere from 55c to 69c. The highest prices of the day occurred shortly after trading commenced, September reached 50c, October 53\text{\sqrt{c}} c, vaar 51\text{\sqrt{c}} and May 49c. The tendency during the remainder of the day was strongly downward, but some reaction set in near the close causing a recovery from the extremity of the day's decline, and leaving prices showing about it gain over Saturday's close for August and September.

from the extremity of the day's decline, and leaving prices showing about le gain over stunday's close for August and September. In the stronger ending it breke away from the controlling influence of wheat.
Oats, like everything else, were higher and greatly excited at the opening. Shorts bought freely, the market sympathized strongly with wheat and corn, and prices went up rapidly, though the advance was less marked than that in the other cereals. They broke with them, declining slowly and closing slightly above bottom figures. Anticipated heavy receipts had something to do with the reaction, but it was largely due to oats. The Dryg ods Market.

New York, Aug. 17.—There was an improved demand for drygoods, plain and fancy colors glightly above bottom figures. And ticpated heavy receipts had something to do with the reaction, but it was largely due to cots.

In ryc there was a 9 cent fluctuation in the price of the September futures. The first sale was \$1.95, the next \$1.10. There was a better feeling throughout the market.

Hogs—Markets in this line were quiet, but prices were firm at last week's range. A small lot of selected hogs was sold at a shade better prices than were obtained a week ago. There were no Chicagos on sale. Total receipts, 189 head, 126 of which were from Pennsylvania, the balance being from Office Last week's receipts, 382; previous week 66. The top price was \$5 90, and the range was \$5 75 to \$5 90.

The Greenawaits had on sale at Woods' Ban yards 239 head of cattle, of which list head was from Chicago and 46 from Ohio. Chicago cattle sold at a range of \$4 00 to \$5 per ewit and Ohios from \$5 50 to \$4 75.

The number of sheep and lambs on sale was

and under an active demand advanced 20@25 cents more; but when wheat and corn broke it followed, receding 55@30 cents, amid considerable excitement and heavy sales. Toward the close there was a rally of 20@22\(\frac{1}{2}\)cents, leaving prices 20\(\text{@30}\) cents lower than on Saturday. Lard was less decided in its fluctuations, closing with a loss of only 7\(\frac{1}{2}\)cents. Ribs lost 7\(\frac{1}{2}\)\(\text{@10}\) cents.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 45 Sixth street, members of Chicago Board of Trade:

TRADE ON THE TURN

Business Affairs Show Steady Improvement All Along the Line.

THE WEEK BEGINS ALL RIGHT. Speculation Rather Quiet Here, but Lively

Enough Elsewhere. OFFICE AND STREET NEWS AND GOSSIP

Everything indicates that Pittsburg is ilmost to resume the career of prosperity interrupted by the financial upheaval of the latter part of last year and beginning of this. The question of providing better business facilities in the downtown quarter is, therefore, of more than ordinary importance. Shall the old buildings that encumber and disfigure many of the streets be allowed to stand, or will they be removed to make room for modern stores and ware-houses? These buildings are at the top of houses? These buildings are at the top of their rent-producing capacity. Their substitution by good warehouses would be a distinct gain to the owners and to the city. There is no danger that they would not be promptly taken. They would be snapped up as fast as they could be finished. But a few unoccupied buildings of this sort would not be amiss. They would be handy in case of emergency. This is a matter of special interest to owners of downtown lots encumbered with antiquated structures that are bringing in a rental amounting in some cases to not more than 2 per cent on the valuation, and will never yield more.

A Hopeful Look Ahead.

A Hopeful Look Ahead. Nearly everybody believes that this coun try is on the eve of a great business revival. try is on the eve of a great oursiness revival.

Here is what a prominent business man says:

"I am disposed to be hopeful and look for decidedly better times to come. Weak spots are disappearing. Of course, Europe is still in an unsettled condition, and the unearthing of rotten concerns there, from ime to time, is bound to affect us somewhat. But I believe-in fact I know-that over here they are beginning to awaken to the fact that this is the country in which the nost money can be made in the next 6 or 12 months. It has been brought home to them in terrible earnest that the crops of the world are practically a failure, and that the United States will have to feed it. I have the reputation of swinging a large line of stocks when I am active, but what I have done in the past would not be a circumstance to what I will do in the future, as soon as I feel reasonably certain that the corn crop is out of danger."

Railroads Doing Well. With the beginning of July the railroads of the United States turned a corner in their affairs, and returns for the second half of he year are likely to be more encouraging than those for the first baif. Of course harm to the crops might even now mar the pros-pect in some degree, but the chance of any yery great damage seems rather remote, and at present certainly all the indications point in the one direction—that is, toward excellent harvests and a large traffic for the carriers. Resurns for July cover 146 roads, and these show \$3,273,641 increase, or 8.52 per cent, over the earnings, for the correspond-ing month a year ago. In no previous month of 1891 has the result been so favorable.

Bonds Rather Slow. What may be termed a seasonable dullness revails in regard to railroad mortgage investments. At the same time dealers indi-cate that the conditions in connection with prime issues show a slight improvement, and that it is easier to sell than to buy the best class of securities. The general bond best class of securities. The general bond market, too, including low priced and speculative issues, has improved to some extent, mainly in sympathy with the better tone of the share list. But the demand is still very much restricted, and the absence of European buying produces a noticeable effect on the general situation.

Business News and Gossip. The week opened with a good feeling in business circles. There has been a notable change in this respect in the last week or

ten days. Permits for the erection of nearly 2,000 louses have been taken out in Pittsburg this year. Not bad.

The M. E. church in course of erection at ture, \$33,000. The foundation is well under way, and the corner stone will probably be placed in position next week.

The bulge and tumble in wheat were the drawing cards in speculative circles yesterday. Local traders neglected their own business to watch the movements. W. E. Von Bonnhorst, E. P. Long and F. A. Samert have retired from the Exchange. New York traders who tried to break the market are buying back their stocks.

The \$2 50 assessment of the Central Trac-tion Company is payable September 1. The annual meeting of the Pittsburg Forge and Iron Company will be held today.
Standard Plate Glass was offered at 98.
The last reported sale was \$129. W. E.
Schmertz was, until within a few days, treasrer of the company. Movements in Realty.

Reed B. Coyle & Co. sold a block of ten lots n their Glen Mawr Park plan, at Haysville, Piftsburg, Fort Wayne and Chicago Railway, fronting on Riverview avenue and extending through to Merwyn avenue for \$1,500

G. B. Hart sold for J. F. Ferree, in Coraopolis, two lots, 52x159 each, on State avenue, to Mrs. Jennie M. Cornelius, for \$1,600 cash.

Hoffman & Baldridge, Wilkinsburg, sold a lot on Ross street, near Center, Wilkinsburg, 33x132, for \$800.

Peter Shields sold for the Schenley Land. Company to Mrs. Eliza Jones a lot 25x145 feet, on Winterburn avenue, in their Schenley Park plan, for \$000 cash.

ROSY VIEWS.

The local money market was comparatively

Great Things Expected for Business From the Big Crops.

active yesterday, with no change in the sentiment of the people who control it. Those spoken to said conditions at home and abroad were steadily improving, and that a heavy fall trade was assured.
One of these remarked: "The opinion lately expressed by the Governor of the Bank of England, that the financial affairs of Europe were in such shape as to render disaster almost impossible, should have great weight in this country. With the largest crops in ten years and cash waiting for them as soon as marketed, brisk times for a year or two at least seem to be the only legitimate outcome. We may not experience the full force of the revival this year, but next year, I think, will surpass all others in the history of the country.

Checking was of good volume, depositing heavy and rates steady at 667c on the usual classes of loans. Currency was scarce. Bank clearings were \$2,010,045 76 and balances \$209,149 25.

At New York yesterday money on call Bank of England, that the financial affairs \$250,149 25.
At New York yesterday money on call was easy, ranging from 2 to 3 per cent, last loan 2, closed offered at 2. Prime mercantile aper, 5% 67%. Sterling exchange quiet and

HOME SECURITIES.

QUIET IN PITTSBURG, BUT VERY LIVE-LY EVERYWHERE ELSE.

The Conservative Armor of Home Traders Proof Against Outside Influences-A Few Ups and Downs, but None of Much Significance—Waiting and Watching. A tremendous bulge and an equally tre

and active share market in New York and better values in London were the features of the speculative markets outside of Pittsburg yesterday.
Ordinarily these stimulating influences would have made local speculators hop around quite lively, but they falled for once to break through the conservative armor of

the home traders, and, although there was a pretty fair business for Monday, nothing of an exciting nature transpired, and the day passed without an incident worth record-There were a considerable number of orders floating around, but were not adjusted to the market, were utilized very

sparingly, and, therefore, were no support. Philadelphia Gas held it own. Central Traction improved 1/4, and Pleasant Valley % Luster dropped 1/2. People's Natural Gas was stronger. Chartiers Gas dropped Inast out of sight. Airbrake was steady.
Unassented Electric was wanted at 10. Liberty National Bank was higher, and Fidelity
Title and Trust lower. The changes had no
significance. The situation may be reversed
to-day. When the bears growl the buils are

to-day. When the bears grow the buils are silent and vice versa.

The Financial Chronicle says: "The Westinghouse Company is proceeding with the reorganization, and although the stock on the market is in a state of coma the business and sales of the company, say its friends, show very encouraging increases from month to month. The Westinghouse Convent has certainly a very large operatfrom month to month. The Westinghouse Company has certainly a very large operating field and with judicious management good results ought to accrue. When the company comes forth fully rehabilitated there will doubtless be a fresh interest shown in the stock."

Sales yesterday were:

First call—50 Duquesne Traction at 13½, 5 Pleasant Valley at 22½, 10 Luster at 13½, 5 Second call—25 Pleasant Valley at 22½, 30 Duquesne Traction at 13½. Third call—No sales.

Third call—No sales. Bids and asking prices at each call are

ACTIVE STOCKS AND BONDS.

BOTH INCREASE IN STRENGTH AND ADVANCE IN PRICE.

Bonds Positively Active for the First Tim This Year-The Movements in Grain Have But Little Effect-Good Buying Orders From London.

New York, Aug. 17.-The stock market today was, especially during the forenoon, active, a volume of business being transacted which has not been equaled in months, while a most-decidedly strong tone marked the dealings and higher prices were attained than for many a day. There was manipulation of the market for both sides of the account, but the bears were not so

powerful as of late.

The buils who bought last week were liberal realizers on the advance, but the new buying was of such magnitude that it stead-ily advanced prices. The heavy upward movement in grain, which may have the effect of checking the export movement and so delaying the return flow of gold, was of little influence, and the upward movement in prices continued almost uninter-rupted. Atchison was given the greater prominence, but the business was very well distributed.

prominence, but the business was very well distributed.

London came higher this morning, and London buying orders were in the market, which, with the usual demand for the commission people, caused a decidedly strong opening, first sales being made at from ½ to ½ per cent advance on Saturday's final figures. The trading, in the main, presented few special features, everything sharing in the general strength, and the last prices were generally the best of the day. The market closed active and strong.

Railroad bonds, for the first time this year, were positively active and strong, while the market beamed out materially, and most decided gains were made in the active issues. The business of the day footed up to \$1,953,000. The advances of note include Atlantic and Pacific 4's 23' to 73's; the incomes, 2's; Rochester and Pittsburg consols, 2's; Chicago and Erie incomes, 2' Kansas and Texas 2's, 2'. Northern Pacific 5's, 2'. Peoria and Eastern 4's, 2's', Union Pacific, Denver and Gulf 5's and Oregon Short Line consolidated 5's, 3, while Missouri Pacific collateral trust 5's lost 5's'.

5'S lost 54.

Grain, Flour and Feed.

There was one sale on call at the Grain Exchange to-day, namely, a car of sample oats, 40%c, spot. Receipts as bulletined 30 cars, of which 25 cars were by Pittsburg, Ft. Wayne and Chicago Railway, as follows: Six cars of cars, 2 of rye, 1 of wheat, 5 of hay, 1 of straw, 0 of flour, 1 of feed. By Pitts-burg, Cincinnati and St. Louis: Two cars of hay, 1 of middling, 2 of wheat. Wheat, rye and flour have taken another upward move, as our quotations will reveal, and all cereals are firm. How far the present flurry in wheat and flour is speculative will be deter-mined in the next few days. It is difficult to discover any legitimate reason for the bull movement which sent wheat up 15 to 20c per bushel in Chicago the past few days. It is the opinion of this editor that bullish operators who fail to unload at an early day will be sorry. Dealers are unwilling to contract ne sorry. Dealers are unwilling to contract ahead at present prices, and wisely so. Ce-real markets have been wild of inte, and there is little doubt of a reaction at an early day. The crops of the country are too big for any successful bull movement that will have staying qualities. Following quotations are for carload lots on track. Dealers charge an advance on these prices from store,

SICK HEADACHE_Carter's Little Liver Pills.

SICK HEADACHE_Carter's Little Liver Pills. THE MAN WITHOUT A STOMACH May exist as a museum freak, but most of us recognize the stomach as necessary to life and comfort. Most of us experience a little trouble from this source occasionally, wrong

trouble from this source occasionally, wrong action of the stomach causing dyspepsia, etc., and often the trouble extends, involving the liver and bowels, whonce we find biliousness and constipation. We find also that the bowels and kidneys (nature's sewage system) become clogged with effete matter, from which comes impure blood, boils, blotches, pimples, scrofula, scrofulous swellings and cancerous complaints. The Burdock Blood Bitters taken at the beginning, or at any later stage, arrests the trouble, restores the disordered organ to activity, thereby removing every vestige of disease. B. B. B. is an absolutely pure extract of roots and herbs, which cannot injure even the most delicate constitution, and as a cure for dyspepsia, biliousness, constipation, bad blood, etc., succeeds in 99 cases out of 169.
