SOCIALISTIC FANGS EXTRACTED.

English Delegates Win Their Fight Against the Anarchists.

ONE AMERICAN THIRSTS FOR GORE

BRUSSELS, Aug. 19.-The British delepates to the International Socialistic Work. men's Congress held a meeting to-day to consider the committee's report presented to the congress yesterday in favor of pledging workmen of all countries not to support a candidate for public office unless he announces himself prepared to advocate reforms for the benefit of labor and the protective legislation demanded by workmen.

The amendment offered yesterday by Herr Bebel, providing that candidates must accept the full socialist programme, was rejected by the British delegates, who declared themselves labor, and not socialistic delegates. They adopted a modified resolution to the effect that workmen should exercise their political rights to secure any

A VOICE LIFTED FOR WAR. When the Congress reassembled to-day de bate was resumed on the committee's report. Mr. Kahan, of America, declared

the report was inadequate. "It is useless," he said, "to beg, cringe and fawn for needful legislation. We must forcibly exort reforms and the abolition of the existing wage forms and the abolition of the existing wage system. This Congress should declare plainly for a labor war and an unflinching struggle between labor and capital." The Congress, after a long discussion, passed the resolution virtually as modified by the British delegates, with a provision that there be organized in every country a permanent commission to inquire into the conditions of labor. The passing of the resolution was the signal for a scene of wild

After quiet had been restored Mr. Kaban opened the discussion on the stritude of labor toward the Hebrew question. He breed that sympathy be extended to the Hebrews.

BOTH FOR AND AGAINST HEBREWS. The committee having reported in favor of a resolution condemning anti-Semitism as a device of the capitalist and governing classes to divert the socialist movement and sow disunion among workmen, several speak ers reminded the congress that Hebrew

bankers and financiers were also great op-pressors of labor. Finally a resolution was passed, condemning anti-Semitism and He-brew financial tyranny.

This impossibility of reconciling opinions and interest is the keynote of the proceed-ings of the Congress, the discussions leading to no practical result. The English dele-gates have invited the foreign delegates to attend a fraternal demonstration on the field of Waterloo.

#### TROUBLE IN THE GERMAN CABINET. The Minister of Finance Appeals to the

Kaiser Against the Chancellor.

Bestin, Aug. 19 .- Herr Miquel, the Minister of Finance, has sent a petition direct to the Emperor, asking the latter to suspend the duties on corn for three months. Herr Miquel has been compelled to take this step, according to his friends, because Chancellor recording to his friends, because Chancellor von Caprivi has declined to enter into any farther discussion of the question.

At the Cabinet meetings the differences between Von Caprivi and Herr Miquel, the man who is supposed to be the Emperor's favorite, seem to increase day by day, and have mudoubtedly reached such an acute stage that it would seem the end must be the fall of one or the other of them.

RUSHING RYE OUT OF POLAND.

Warsaw Millers Exporting All Flour Possible Before the Ukase Takes Fffect, Wansaw, Aug. 19.—The millers of the city are now exclusively engaged in preparing rye flour and bran for exportation. All the available threshers of the vicinity of Warsaw have been hired at high prices, the object being to export all the rye poss ble before the prohibition is enforced.

#### MONEY FOR EVERYBODY.

A Chicago Crank Proposes to Defy the Government and Issue It at Will.

SPECIAL TELEGRAM TO THE DISPATCH.] TOPERA, KAN., Aug. 19.—Alfred B. Westrup, of Chicago, who believes that there should be no government, held a secret meeting last night with a number of People's party and Alliance leaders in regard to a scheme for making money, which was so wild and taring that even the most radical of the new party theorists laughed it to scorn. Westrap believes it is possible to induce the Alliance to substitute "The Mutual Bank Propaganda" for the sub-Treasury plan and issue money on mules, horses and wheat without the consent of the Government and in defiance of its laws. For the past two or The definite of its laws. For the past two or three days he has been interviewing the People's party and Alliance leaders and appointed a meeting in the law office of A. W. Mackey, has partner of the late Sam Wood. He gathered the leaders around him in a mysterious fishion, and in his opening address declared that he did not believe in government of any form. The Government and not have any more right to say that this coin or that piece of paper should be ac-cepted in payment of a debt than any of its citizens and all the financial difficulties of citizens and all the financial difficulties of the age could be easily remedied by a recog-bition of this theory. He wanted the Paople's party of kansas, which had shown more progression in financial legislation than any party which had ever existed, to consider his scheme and embody it in their platform. To illustrate his scheme, he said that any number of men could associate themselves and put their effects, either real or personal, into a fund, issue notes for any smount, and by giving proper security, could force its acceptance in any com-munity. unity.

The objection which the People's party can found with the idea was in its non-rec-

ition of the powers of Government. The ple's party believes in an advanced ernalism and wants the Government to control everything. One of the men present at the meeting said: "We more than half suspect that the meeting was a scheme of the Chicago Anarchists to capture the People's Party. We gave Westrup no encouragement, but let him down as easy as possible?

SAN FRANCISCO, Aug. 19.—The steamer scorge Wielder, which left here last month with a cargo of 1,400 tons of wheat for Peru strived this morning, 15 days from Callao. Captain Lewis stated that everything was quiet at the latter port, but there was a great demand for wheat and produce, their Chil-ean supply being cut off. American flour-was selling at the rate of \$18 a sack and pota-toes brought high figures.

A Modern Vesuvius,

If Pompeii, 1,800 years ago, was startled into the belief "The hour has come," so surely have inhabitants of this and surrounding communities—city and country—been convinced that in their midst is a modern volcano, not "sending forth fire, smoke and lava," as per the old geographical definition, but, in street parlance, an eruption far more agreeable "to take." A most noticeable difference in these two active mountains is this—in Pompeiian days the result of from the heated outporring the people fled from the heated outpouring of the mount, while toward our ideal Vesuvius the mass of humanity flock with out-stretched hands! ### OUR GREAT AUGUST CLEARANCE

Is assuming more gigantic proportions every day. As the prices go lower, the crowds of purchasers become greater. If our sales keep on at the present rate, the month of August, supposed to be the dullest of the year, will show up in excess of any busy season month of 1891. This, mind you, is attributable only to our phenomenal reductions in every department.
