The four councils in Chicago are thriving. They are anxious to see the two councils that were refused charters instituted, so that the work in Illinois may proceed. They have an idea that Chicago would be the place for the National Council in 1833, and in order that that body might be entertained in the characteristic Windy City style, they want the organization as well represented as possible. as possible.

as possible. Despite the opposition, the National Coun-cilor's report will show nearly as great an increase in membership this year as during the previous term. About 35 councils have been organized and the increase in member-ship will number from 1,500 to 2,000. Brother McCleary has had the assistance of 57 dep-uties during the year as against 35 the pre-vious year. His official visits have been more frequent than any previous National Councilor, and they have resulted in keep-ing the interest in the growth of the organ-ization alive as no other work would have done.

The following is from the official organ of the order. Every true member of the order Mrs. J. E. Hayward, of Thirty-fifth ward, W. S. P. P. of White Rose Lodge, No. 34. 0. D. of St. G., will leave Monday to attend the convention of the Grand Lodge at Plynouth. Next Thursday the C. M. B. A. will take the orphans of the different Catholic asy-lums in this county out for a day in the woods at Seminary Park, Glenwood. Every arrangement has been made to give the children a good time.

The following is from the official organ of the order. Every true member of the order can endorse the sentiments expressed and it is hoped that the difficulty will be met "fairly and squarely" and settled upon a basis of equity and justice: "The Annual Session of the Daughters of Liberty will be held in the City of Waterbury, State of Con-necticut, commencing on Tuesday, August 95th, at 10 A. M., and continuing from day to day until the business is completed. Owing to elroumstances that have arisen during the last few months this session will without doubt be the most important and of the greatest vital interest to the future welfare of our order of any session held by this body. We regret very much that matters have so shaped themselves during the past year, but in as much as they have, and are at present in rather an unsettied state, we believe that the coming session of the National Connell is the place for final settlement, and, there-fore, every member of that body should be willing to meet these matters fairly and squarely, and render their verdiet from stitution and laws of the order, and not from a personal spite or prejudice. Every State should make an extra effort to have their councils fully represented at this session so that their voices may be heard upon these matters. Lady Trumbull Coun-ch, of Waterboury, is making preparations to give the members of the National Council a right royal welcome to the Brass City of the Nutneg State, and no member who can Arrangement has been made to give the children a good time. Stokes Lodge I. O. O. F. meets every Tues-day evening in the Thirty-second ward and is well attended. This lodge is only in its infancy, being only about one year old, but it has a membership of over 100, and is tak-ing in new members every evening. A lively interest is taken in the meetings, and many pleasant evenings are spent by the members. Mountain City Division 172 O. of E. C. United States Lodge, No. 174 H. of K. 7, and Altooma Lodge, No. 287 B. of L. F., will hold a uniton meeting in Altoona Opera House Saturday evening, September I. M. Bann, ex-Covernor of Idaho, and well known in Pittsburg, met with a peculiar no-cutient in the Thoroughfars the other day, while fishing, which nearly cost him the forefinger of his right hand. He had been fishing for weak fish, but, tiring of the sport, he baited for bigger game and, wrapping the ine about his finger, stretched himself out in the best to await developments. He soon In the bost to await developments. He soon fell asleep, when suddenly there was a tug at the line which almost upset the boat. Grab-bing the line in time to save his finger, the avakened angler began a battle which lasted I minimes before the shout of a big shark was pulled above water. The monster measred six feet, and was killed with an oar.
