The year 1891 will go into history as a year of plenty in the lines of farm and gar-den products. Nature has rarely been so generous as she has been this season on the American continent. Cereal, fruit and vegetable crops have probably never been so large as they are this season. So enor-mous has been the yield in fruit and yege table lines that producers are complaining that they get little or nothing for their toil and trouble. What is the producer's loss is the consumer's gain. Not for a dozen 

that consumption uniformly falls off in hot weather. The wonder is that the weakness of markets has been so long delayed with

rd Plate Glass Changes Hands at a

Very Low Figure-Apathy Rules the Regular Board-Considerable Vim in New York and London.

The event of most interest in speculative bar of the start of the sale under the hammer, by John D. Bailey, in the after-noon, of 100 shares of Standard Plate Glass is seen in the large acquisition in the num-ber of those who own the houses they live Company stock at \$21. Reed Bros. & Co. were the purchasers. About a year ago there in. Ten years ago small payments and long \*Ex-div. time on the remainder were rare. Cash, or were orders for it at \$105, with none on the its equivalent, was the rule. Now anyone

market at that price. He also sold 10 shares of Masonic Bank stock at 58. The Exchange price an hour or so disposed can acquire a home by paying a small part of its cost at the time of purchase

and the rest practically at his own convenience. Almost any real estate agent will sell houses on terms so moderate that payments will not exceed the rental. payments will not exceed the rental. This is certainly a strong inducement to be-come a proprietor, and that it is viewed in this light is shown by the hundreds of com-fortable homes which have been established in the outskirts within the last few years, and they are still going up with amazing rapidity. Ninety per cent of the 2,000 houses for which permits have been granted this year are of this class. They belong to work-ing people. It is to the credit of land owners, building associations and capitalists that they have made it possible for any frogal, industrious man to acquire a home and pay for it out of his accumulations. Money thus invested is a sure reliance in time of need.

He also sold 10 shares of Masonic bank stock at 58. The Exchange price an hour or two before was \$85,000. Nothing of interest transpired on the regu-ular board. It was an off day. There were only two sales, involving 110 shares. Prices underwent no material change from the previous day, abont the only differences being a weaker feeling in Philadelphia Gas and a slight advance in Electric. The Trac-tions were featureless. New York opened active and strong on heavy buying orders from London. The close was dull but firm. London was strong and generally higher. Traders who had sold their stock worked for a reaction, but every decline brought in new buyers. There is a bright as well as dark side to the natural gas question. A broker said yesterday: "I think the proposed advance in the price of the fuel to consumers will be a benefit to all concerned. It will compel users to be more economical. I have just put in a burner that consumes about 15 cents worth of gas in 24 hours. The burner cost me 50 cents. People can use gas at small cost, even at the advance, if they will be careful. It will also benefit the com-panies by giving them a more reliable mar-ket." Some people think the Birmingham and Duquesne Traction Companies made a mis-The London Times, in an article on trade and its prespects, says: "Europe will need to buy 640,000,000 bushels of wheat, rye, po-

### Flour, Feed and Grain.

There were no sales on call at the Grain Exchange to-day. Receipts as bulletined, 38 cars, 20 of which were by Pittsburg, Cincinnati and St. Louis Railway, as follows: Three cars of wheat, 3 of corn, 2 of hay, 11 of oats, 1 of bran. By Pittsburg, Ft. Wayne of oats, 1 of bran. By Pittsburg, Ft. Wayne and Chicago, 4 cars of oats, 1 of feed, 1 of hay, 5 of flour. By Baltimore and Ohio, 1 car of ear corn. By Pittsburg and Lake Erie, 1 car of hay, 2 of wheat, 3 of flour. With the exception of corn cereal markets remain practically as they have been for a number of days past. Corn is firm at higher prices, a condition no doubt brought about by the cool wave which extends over the country. Speculators are working the chill for all that is in it, as will be seen by opera-tions at Chicago Grain Exchange on Tues-dny's call. Oats are weak, with a downward tendency.

Following quotations are for carload lots on track. Dealers charge an advance on these prices

posed "Three-Americas" railroad of suffi-cient importance to devote three columns to its consideration.

-Lelan Stanford's personal organ, the San Francisco Weekly Argus, booms him in a three column article as the Pacific Coast's Presidential candidate.

244 1973

-William Hanly fell from a scaffold at a height of 121 feet in Brooklyn and dropped in a mortar bed on the ground below with-out receiving any injury.

-The report, that France and Russia have agreed that in case of war Schleswig;Hol-stein snall be restored to Denmark, has in-creased the war feeling in Berlin.

-The most magnificient hotel in the world, to be built of marble and tower up 12 stories, is proposed to be created on the present site of the Hotel Brunswick in New York.

-Among the witnesses subprenaed to give evidence in the case of the seized steamer ltata, are J. W. Grace and J. F. Fowler, of the firm of W. R. Grace & Co., of New York. -From a recent canvass, it appears that Minnesita Legislators are about six to one against increasing the World's Fair appro-priation should the proposed extra session be called.

-By the explosion of a dynamite blast in a quarry at Kingston, N. J., at the wrong time, Daniel Haggerty was killed and five of his fellow workmen badly injured, some perhaps futally. -August Terbet, a woodcutter of Cave-In-Rock, Hardin county, III., is under arrest, charged with passing counterfeit money, It is thought that Terbet was the topl of a

gang of counterfeiters. -The World's Fair management has ac

cepted the proposition of the Henry R. Worthington Company, of New York to put in a pumping plant, with a caracity of 40,000,000 gallons a day, free of charge. -The Commissioner of Immigration has authorized the Inspector of Immigration at Baltimore to accept bonds signed by the President and Secretary of the Hebrew Orphan Asylum, of Baltimore, in the case of the 38 Russian Hebrew immigrants detained at that port at that port.

-Edward Baker, an old eitizen of St. Louis county, Mo., died at his home abont two weeks ago, apparently in destitute circum-stances. A few days ago, some of his rela-tives were cleaning up the house in which he died, and discovered an old trunk con-taining \$17.000. taining \$17,000.

-Since the last fight with the notorious Dalton gang in the Indian Territory, in which a United States marshal was killed, it has determined to make a war of exter-mination on the bandits and pursuing offi-cers will shoot them on sight. Every dep-uty marshal in the Territory is now in pur-wit.

suit. —Importers of American agricultural machinery in South America complain be-cause of the failure of the manufacturers to print in Spanish the instructions for putting the machinery together. The purchasers profer to deal with European manufacturers who furnish their customers with Spanish instructions.

-At a meeting of the Boston Waiters' Al-lirnce letters were received from Philadel-phia, Pittsburg, Washington, New York, Denver and San Fr nelsco containing information of the organization of alliances in those cities, and approving the suggestion of the Boston Alliance that a national organiz-tion be formed.

-An attorney named Cattin, from Terre -An attorney named Cattin, from Terre Haute, was placed under \$2,000 bonds at Chi-cago yesterday. It is alleged that on Satur-day at the Palmer House, he called upon J. W. Phillips, agent of the Keeler & Jennings Carriage Manufacturers, Rochester, N. Y., and, while Phillips' attention was averted, purloined papers valued at \$50,000.

-On account of the exposures of boodling by Premier Mercier and his colleagues, Lieutenant Governor Angers, of Que-bec, has, it is said, decided to dismiss his Ministers, and will call upon the leaders of the opposition to form a new Cabinet. This is a step that has only once been taken before in the history of the Quebec Legislature. the Quebec Legislature.

-A clergyman in the province of Kazan Russia, has written a letter to the Pall Mal Russin, has written a lefter to the Pall Mall Gazette, in which he gives a harrowing de-scription of the sufferings of the unfortu-nate peasants of that province, brought on by the failure of the crops. Large numbers of them, he says, are in an absolute state of starvation. Many have been unable to ob-tain bread for weeks, and in their efforts to sustain life they have been compelled to eat grass and leaves. In one of the villages of the province, consisting of 140 houses, the grass and leaves. In one of the villages of the province, consisting of 140 houses, the elergyman visited all the peasants. Here were found 16 persons in a terribly ema-ciated condition, and slowly and painfully dying from starvation. Of all the residents only 30 were found eating ordinary food in a quantity sufficient to keep them alive.

SPEAKS FOR ITSELF.

7

S.S.S. not only speaks for itself, but has thousands of people to speak for it. The testimonials that have been given in its favor by

people who have been cured by it would fill pages of a newspaper. No other medicine has been so thoroughlyendorsed by the public. Here is a

sample of **Disinterested Testimony.** 

Rev. M. B. Wharton paster of the First Baptist Church, Montgomery, Ala., writes: "I have seen Swift's Specific used, and have known many cases of the worst form of blood disease which have been cured by it. I know the proprietors to be gentlemen of the high-est type, and of the utmost reliability. I and it as a great blood remedy une-

qualed by anything that I know of." Books on Blood and Skin Diseases Free. THE SWIFT SPECIFIC CO., Atlanta, GB

MEDICAL.

# DOCTOR WHITTIER 814 PENN AVENUE, PITTSBURG, PA.

As old residents know and back files of fittsburg papers prove, is the oldest estab-lished and most prominent physician in the city, devoting special attention to all chronic diseases. NO FEE UNTIL CURED From re-NO FEE UNTIL CURED From re-NO FEE UNTIL CURED sponsible NERVOUS eases, physical de-cay, nervous debility, lack of energy, ambi-tion and hope, impaired memory, disordered sight, self distrist, bashfulness, dizziness, leeplessness, imples, eruptions, impoversigni, seiness, pimples, eruptions, impover-ished blood, failing powers, organic weak-ness, dyspepsia, constipation, consumption, unfitting the person for business, society and marriage, permanently, safely and privately

the week that there was a constant accept-ing of orders at below the posted prices for many grades of softs and at one time Phile. his was soliciting orders for granulated at 1-16c, under the New York quotations. but the American Sugar Refining Company adopted the opposite course to relieve the surplus of the Spreckels refinery, and sud-denly advanced granulated 3gc Friday, giving Philadelphia refiners the market unless bey chose to follow the advance. Philadelphiat followed the advance, and now buyers must pay for granulated, say 4.16c, when re-duced to the use cash price, with all dis-consts off. The demand is only moderate, because refiners over-produce, and stimulate the consumption as much as possible. In reality the demand is harge, and the demand upon the raw market for supplies of sugars necessitated the last advance in refined, and will eventually cause a turther advance. lowed the advance, and now buyers

# SPECULATORS SURPRISED.

The Expectation of Continued Weakness in Wheat Disappointed-Quite a Flurry Near the Close Caused by a Russian

Rumor-Corn Leads in Nervousness. CHICAGO-The trade was treated to a surise on 'Change to-day. The indications at e start to-day were for a continuation of he weakness and decline of Monday, but in as than an hour after the opening the indiations had all been lost sight of and the kets, which were soft early, became trong before the close. December wheat hat one time was down to \$1 03%, sold up to \$1 06 and closed at \$1 05% c, the rise ig due to sensational news from Rus and heavy clearances. Corn was whipsawed the clique and the short sellers, who took dvantage of the enormous receipts to sell reely, but were forced to cover in a way which sent prices up 4c or 5c at a jump. suptember sold off 60/gc, went to 65c, and closed at 60/gc and October sold at 55/gC Sgc and closed at 69c. The other markets are quiet and fairly steady. When seemed inclined to weakness to-day

nd was controlled mainly by the local set and was controlled mainly by the local sen-timent. The big receipts at the primary markets in this country, present and pros-pactive, and the weakness displayed in the domestic markets, with advices from the Northwest that the frost damage has been very light, made the professionals bearish, and there was liberal selling in der which December wheat, after selling in to \$1 0430

here was liberal selling under which abor wheat, after selling up to \$1.04% broke to\$1.05%. Then the real strength lightimate situation began to attract tion and there was a rally of a cent, sales back to \$1.04%, then broke to , back to \$1.04% and \$1.04. Strength in wheat at the close was re-ader, the highest prices of the day be-ade ten minutes before the close, with v excited tinde. Prices shot up nearly a fin few minutes, when December cents in a few minutes, when December ose to \$1 05 and closed \$1 05% or 1 cent over ast night. The cause of the flurry was the statement of a Russian paper that wheat exports from that country would have to pay a big duty. Corn led all the other pits in speculative

puy a big duty. Corn led all the other pits in speculative nervousness, and the rapidity and sharpness of the fluctuations made the trade crazy. The big receipts-lill cars-started the market decidedly lower this morning, and the first sales of September were at 695(66), and Dotoher at 265(65)/c, and for a time the first sales of September were at 695(66), and Dotoher at 265(65)/c, and for a time ther, was pienty for sale at these prices, but everything was repidly absorbed, and when the selfing came to a halt prices quickly started up. Then the carly short reliers took alarm and began to buy back what they had so freely sold, but it was hardly to be had, and the scarcity made the shorts frantic to get it and the price was quickly bid up to 365c, with an occasional trabasche at 55. At this point the longs began to lot go some of their early pir-chases, and there was a quick but irregular drup to 50/c for September and 57/c for Oc-tober. There is erident manipulation by the flique. Their brokers seem to buy freely on all depressions, but when the short sellers prices. In this way the short reliers were miked without remorse. About reliers were miked without remorse call and

sell at higher prices. In this way the short sellers were uniked without remorse. About noon there was another nervous call, and september went to and closed at 61% and her ut 60c

etober at 60c. Oats were quiet and generally easy. Sep-mber opened at 30%c, sold to 31%c and of 95%c and closed at 30%c. May sold at Prostike and 46.c.

## The Drygoods Market.

The Drygoods Market. NEW YORK, Aug. 25.—Domand for drygoods showed imptovement as regards transac-tions on the spot and mail orders were larger in some instances. There is less activity at both first and second hands than seems to be expected but stocks with agents have de-creased considerably in the past two weeks, and in two weeks more, more at the same rate will be almost scarce; prices remain steady.

The Building Record.

Begin to Disgorge.

the last few years have been almost entirely

to the advantage of buyers, and the result

Crop Shortage in Europe.

time of need.

positions on the strong stocks of yester-day. The idea of a further reaction in the market seems to have been given up for the present. The European shorts are said by those in a position to know to be covering their shorts

present. The European shorts are said by those in a position to know to be covering their shorts and there was undoubtedly heavy buying for foreign account in the early trading this morning, helping materially this market. There was a strong opening and further advances in the forenoon. The buy-ers of Northern Pacific preferred, Rock Island and some other stocks yesterday were inclined to realize on the profits, but even these stocks afterward felt the stimulus of the continued steady demand for stocks. For the last two days there has been less of the professional look about the dealings than seual for a long time, and the buying is considered excellent, while many of the sold-out buils who were looking and work-ing for a reaction last week have concluded to get aboard at the higher level and float with the tide. The opening gains this morning extended to % per cent, while in the subsequent deal-ings St. Paul and Atchison were rather unudly prominent in the trading, but did not make any material advance. The Grangers, in fact, were given rather a secondary posi-tion in the market, as far as strength is con-cerned, and their place was taken by the trunk line stocks, among which the Vander-blits were, of course, most prominent. A areat deal of buying in these stocks was airs, Angusta Amena Miller, Pittsburg, lot 39, block 2, for \$609 cash. Thomas McCaffrey sold for A. J. Volbrecht to Dr. F. Gartner, property on Penn avenue, near Thirty-fifth street, lot 27x100, with house of 14 rooms, for \$7,450. bilts were, of course, most prominent. A great deal of buying in these stocks was credited to foreign operators, and the fact that they have been reached in the upward The following permits were issued from

credited to foreign operators, and the fact that they have been reached in the upward movement gave renewed confidence to the buying. There were several marked advances among the inactive shares, and the gains in the Rio Grande Western stocks, the Chesa-peake and Ohio's and Great Northern pre-ferred, were especiall prominent. The ad-vance continued almost without interrup-tion throughout the day, although there was no sharp upward movement and no lack of effort to prevent it. The only reaction of note occurred in the last hour, but the mar-ket at the close was again active and strong at the highest prices of the day. The list is almost invariably higher, and Lackawanna and C., C. & L. are up 13/ cach; Lake Shore 2 per cent, Louisville and Nashville and Burlington each 13/, and Atchison 1 per cent. the inspector's office yesterday: Michael McCaffrey, brick addition two-story dwelling on Conard's alley. Sixth ward: cost, 51, 550. A. O. Brantner, two two-story brick dwell-ings on Thirty-seventh streat, Fifteenth ward: cost, 53, 600. Mrs. D. Taylor, frame two-story dwelling on Auburn street, Twenty-first ward; cost, 52, 850.
