EAST LIBERTY RECEIPTS LIGHT,

And Prices Advancing on All the Grades, Good Cattle Leading.

SHEEP ARE STEADY AND SWINE LOWER

OFFICE OF PITTSBURG DISPATCH, }
WHENESDAY, Aug. 26. {
There were all told about 80 loads of cattle on sale at the East Liberty yards this week, a decline of 40 loads from receipts of last week. Offerings last week numbered 120 loads and the previous week 115 loads. With the reduced quantity came an increased number of buyers, so that markets opened at an advance of 10 to 20c per cwt, which advance was fully maintained, especially for good butcher beeves. The later were in very short supply, and all offered were promptly taken at fully 20c per cwt better prices than could have been obtained for similar grades a week ago. There were no strictly prime heavy beeves on sale this week in car load lots, and very few light primes. Average quality of offer-ings was even lower than that of last week. best on sale did not bring above \$5.50 in olesale way, and as there were sales last at \$5.75, it is plain that quality this was much below that of last week. I fresh cows, which were in limited by and were in good demand at week's prices, while common were and dull. A car-load was sold by one rat an average price of \$35.50 per head, swere in good supply, and vealers of quality sold at 6.4c. Sheep-Market ed Monday morning with only a half-in loads on sale, against 15 loads the lous Monday. Owing to high receipts desale way, and as there were sales last doren loads on sale, against 15 loads the previous Monday. Owing to light receipts market opened strong and active at 4c higher than last week. Since the beginning of the week about 10 loads have been received, and most of the advance has been lost. The offerings have been mostly low grade. A few bunches of choice lambs were sold at \$5.75, but top of market to-day is 55 for sheep and 55 c for lambs. Hogs—Receipts have been large this week and quality low. There were about 20 loads on sale Monday, and about 6 loads were received since. The proportion of good corn-fed hogs was small and markets are slow all along the line. Top price this morning was \$5.70.

A Leading Firm's Review. Following is the report of the situation at East Liberty stockyards by Holmes, Rowlen,

Briggs & Co. week, against 112 last week, making a short-age in the receipts of 24 loads. This shortwith a better attendance of buyers, recal in prompt sales of all offers. As to
hir, there was no improvement, and dedefor good fat buyers could not be
ped, and such grades were readily sold
to 25 cents over last week, while comproduce were about 10 to 25 cents in the des were about 10 to 20 cents higher, sold by 12 o'clock Monday. This me state of trade is reported in all mar-ts this week East and West, and unless reipts get heavier this week from the West ts got heavier this week from the West can expect a firm tone all along time from East to West. We quote good to 1,500 cattle at 5½ to 5½, good to 1,500 at 4½ to 5½, good 1,000 at 4 to 4½, mixed helfers steers and rough half-fatted 900 (200, 5½,60%); bulls and cows, 26%,60% kers, 7,9 to 900, 2½,60%, fresh cows and agers, \$20,00,000 00 per head; veal calves in light supply and firm at 6%656; heavy grass calves 5%40.

are in light supply and firm at 6365/c; heavy and grass calives, 35/4c.

Receivts of sheep and lambs ran light this week, not being enough to supply demand, and everything is readily sold at about 1/c higher than last week. We quote: Good, 10 to 100, sheep at 84 55/65 50; 80 to 90, 84 408/4 65; 70 to 80, 84 608/4 25; light, thin sheep and culls, 82 25/63 50; spring immps, 85 008/6 60.

Receipts of hogs have been more liberal than the past week, which is made up principally of half fatted grassers and pigs, which there is but little demand for, and very hard to sell at very irregular and unsatisfactory prices. Corn hogs are scarce and in demand at 85 508/5 76; grass hoes, 84 75/65 10; pigs, 83 50/64 50; roughs, 34 00/64 75.

MARKETS IRREGULAR.

Wheat Generally Bearish, but Quick to Respond to Bullish News-The Cold Wave Helps a Strong Close-The Tactics of the Corn Clique.

CHICAGO - The speculative markets n Change to-day acted irregularly, on Change to-day acted irregiantly, with grain averaging weaker and provisions firmer. Trade was fairly active, and the local feeling in corn and wheat was bearish, but was easily startled on receipt of any

bullish news.

Lower cables from Liverpool and weak domestic markets, together with the nerv-ous fear of immense receipts, were weakening factors, and caused a weak and lower opening for wheat. December started at \$1 043661 0434, and sold off to \$1 0434. New York was credited with being a liberal seller, as has also the Northwest, in anticipation of big deliveries in that quarter. Offers were readily absorbed, however, and early sellers were soon fighting to get back the wheat they parted with, giving the bulls a chance to get in their work. Under bullish news the market soon began to display much strength, and December finally improved lyc, selling up to \$1 05%, then broke and fell to \$1 04%, back and forth, a nervous feeling being apparent on the part of traders, who were apprehensive over the effect of the impending large deliveries of grain in the Northwest.

Another cold wave was reported from the Northwest, with the mercary hovering near the frost line. Wheat again had a bulge, December selling up to \$1 05%, off to and closing at \$1 04%.

The action in corn to-day was almost a ler, as has also the Northwest, in anticipa-

the frost line. Wheat again inda bulge, December selling up to \$1 65%, off to and closing at \$104%.

The action in corn to-day was almost a repetition of yesterday, though on a smaller scale. The clique let the crowd sell themselves very short, then supplied their necessities at higher prices. The market was quiet and easy during the first hour. Soptember started at 65% and October at 55%. October sold down to 55% early, railied and held steady until later on, when a sudden jump in wheat caused a scare among the corn shorts, and September made a quick spurt to 60c and October went up to 65%. The clique then began to sell and there was a rapid break to 65% for September and 50c for October. September closed at 64% and October at 55%. Outs were again weakened by large receipts, the arrivals reaching 322 cars. The market was rather quiet with sales of September at 55% 53% c, closing at 30% c; May sold at 33% 53% c, closing at 30% c; May sold at 33% 63% c, closing at 30% c; May sold at 33% 63% c, closing at 30% c; May sold at 33% 63% and closed at 63% c.

Provisions were only fairly active, and prices were generally easier. Lard and ribs, as well as ports, sold considerably lower carly, hogs being 5% 10c cheaper, but subsequently values rose in response to a better inquiry. October pork opened at \$10 25% sold to \$10 27%, broke to \$10 17%, back to \$10 27% and at 12 o'clock neon was \$10 25. Lard was quiet and firm at \$5 35% 60 for October. THEORETICAL TOWN - BUILDING.

Names of Some of the People Who Are

Erecting Houses on Mt. Washington. THE RAPID GROWTH OF WILKINSBURG

There is no place in or around Pittsburg for the theoretical town-builder-the chap who starts a town on paper, works up a demand for lots, sells all he can, and then disappears. Quite a number of towns at short distances from the city are in various stages of development, but they are not of the the oretical sort. They are backed by substantial industries, which will sooner or later give employment to large numbers of peoole. Some are apprehensive that these new ndustrial centers are a menace to the prosperity of the city. This is a mistake. They perity of the city. This is a mistake. They are being built by Pittsburg capital, and will be settled by Pittsburg people. Pittsburg will be their headquarters and their market. Each of them will pay as heavy tribute to Pittsburg as if located within the city limits. The necessity for enlarging the manufacturing area of the city has long been felt, and this movement is the result. By making room for new enterprises, the entire community is the gainer.

Mt. Washington Builders.

Mt. Washington Builders Building is quite active on Mt. Washing-ton. Kirk Bigham has commenced the erection of 12 houses on La Beile and Olympla streets, which will be completed this season. Mr. B. J. Williams of Baltensperger & Williams, has just finished two on Belonda street and started two more on Natchez street. Mr. Gibbons is building two handstreet. Mr. Gibbons is building two handsome dwellings on Bigham street. Minsinger Bros. & Co. are putting the finishing touches to four brick dwellings on Cowan street. B. J. H. Carnegie is erecting two fine houses on Ulysses street. Charles Reitz has recently completed five on Merrimac street. Single houses are going up on every street. The incline runs all night, and by buying coupon tickets the fare is reduced to about 2 cents a trip.

A Prosperous Community. Although the first settlement at Wilkinsorg dates back nearly 100 years, it was an obscure place until 1887, when it was made a borough. Since that time the population has increased from 2,000 to 6,000, nearly every street has been sidewalked and two of them
—Penn and Wood—paved with firebrick. It ms one of the finest schoolhouses in the has one of the finest schoolhouses in the county and two more in course of construction. There are 12 thurches and about 30 stores. Buildings are of a good class. The advance in real estate has kept pace with the material growth. Lots which a few years ago were offered at \$500 or \$400 are now held at \$1,200 and \$1,500. One was sold on Penn avenue a short time ago at the rate of \$161 a foot front, and another at \$103.

without sales. Old stock was on a level with new. This was not well relished by those who had donated 40 per cent of their holdings to the company. But there is another side to the matter. Without the surrender, it is claimed, there could have been no reorganization. What the value of the old stock would be had this been the case is, of course, purely conjectural, but it is safe to place it considerably under the present figure, so the concession may have a good financial stroke after all. There is more old stock here than many suppose. Considerable of it is held by banks as collateral. There was no meeting of the Electric and Manufacturing Company. A few stockholders were on hand, but were informed that there was nothing for them to do. It was stated that reorganization is so nearly completed that further meetings to help it along will be nunecessary.

completed that further meetings to help it along will be innecessary.

An official of the company remarked:
"There is no use in adjourning from time to thue. The work of reorganizing the company is going along smoothly, and as rapidly as circumstances will permit. The directors can do and are doing all that is necessary to complete the plan, and there is nothing for the stockholders to do."

It is the opinion at headquarters that the new certificates will be ready for use by the middle of September, and possibly before.

BUOYANT WALL STREET.

THE SECURITY OF THE MONEY MAR KET GOOD FOR STOCKS.

No Let-Up to the Stubborn Strength of the Market-Foreign Purchases and a Good London Market-Granger Shares Still Lead in Activity.

New York, Aug. 26 .- The stock market was again active and strong to-day, making sub-stantial progress toward higher figures in all portions of the list, with at times a buoy-ant tone to the dealings. The market gives evidence of broadening from day to day, and its stubborn strength in the face of the most strenuous efforts to check the rise or to bring about a reaction, shows the growing confidence of outside investors and speculators in the future of prices.

The feature of the last two days' dealings

tors in the future of prices.

The feature of the last two days' dealings has been the evident disposition to take up the most promising of the low priced shares, and while a few of these have been forced to higher figures than the times warrant, all have been placed apparently upon a permanently higher level. The money situation seems to be secure, as far as can be foreseen, and with the surplus now in the banks and the disbursements of the Government, including the payment for the 4½ per cents to be redeemed, there is little likil-hood of a squeeze in money for some time to come.

hood of a squeeze in money for some time to come.

In to-day's market however, the Grangers were again in the first place, as far as activity goes, and the realizations assumed large proportions in them, induced by the high figures to which they had attained, while the efforts of the bears to force a reaction of substantial proportions aided in weakening the entire list during the afternoon. The foreign purchases were the features of the forenoon's business, and while realizations were even then heavy, the impression made upon prices was measured by small tractions only, and a full and fine recovery took place under the urgent demand for stocks.

London prices this morning were materially better than ours of last evening, and the early demand made an active and decidedly strong opening; and while the pressure to sell was sufficient to force a reaction to the level of the opening figures, prices could not be kent down, and later

pressure to sell was sufficient to force a reaction to the level of the opening figures, prices could not be kept down, and later marked advances were made. The final dealings, however, again developed considerable strength in the list, and the market finally closed fairly active and firm at only slight changes for the day in most cases. The transactions reached \$15,816.

Railroad bonds were also remarkably active and many of the speculative issues were specially prominent, the Atchison incomes, the Reading incomes, Wabash debentures and Kansus and Texas seconds being most conspicuous. Many of these sebred handsome gains, and the market remained strong until the close.

ABUNDANCE OF FRUIT.

SHAPE AND DEMAND ACTIVE.

Operators Are Very Cautious and the Movement Slow-The Lumber Trade Disappointing.

OFFICE OF PITTSBURG DISPATCH, COUNTRY PRODUCE (Jobbing Prices)-There were on the market to-day about a dozen carloads of peaches, and stock was of better quality and in better shape than the average receipts of late. Demand proved good for all offered at prices quoted. Apples, bananas and melons are slow stock owing to the heavy receipts and low prices of peaches. We reduce our quotations on watermelons in accordance with stubborn facts in the shape of actual sales. Choice dairy products are firm at quotations. New York choese is reported in light supply and firmly held at the factories. Ohio make is Le to le lower than it was at this time a year ago, and promises to advance. Supply of good creamery butter is scarcely up to demand, and markets are firm and active at quotations. Seeds are firm at a shade higher prices for timothy.

The Best Teacher,

The surest lamp to guide our wayward feet, is experience. It points to Hostetter's Stomach Bitters as the best medicine, the surest safeguard in cases of malarial disease, whether in the form of chills and fever, billous remittent, dumb ague or ague cake. The same guides indicate it as sovereign in constipation, rheumatism, "la grippe," liver complaint, kidney trouble and dyspepsia.

Grain Exchange this week. It is not often that buyers are so cautious as they are at this THE MAN WITHOUT A STOMACH May exist as a museum freak, but most of us recognize the stomach as necessary to life and comfort. Most of us experience a little and comfort. Most of us experience a little trouble from this source occasionally, wrong action of the stomach causing dyspepsia, etc., and often the trouble extends, involving the liver and bowels, whence we find billousness and constipation. We find also that the bowels and kidneys (nature's sewage system) become 'clogged with effete matter, from which comes impure blood, bolls, blotches, pimples, scrofula, scrofulous swellings and cancerous complaints. The Burdock Blood Bitters taken at the beginning, or at any later stage, arrests the trouble, restores the disordered organ to activity, thereby removing every vestige of disease. B. B. B. is an absolutely pure extract of roots and horbs, which cannot in jure even the most delicate constitution, and as a cure for dyspepsia, biliousness, constipation, bad blood, etc., succeeds in 99 cases out of 100.
