Sixty-One Corpses in All Taken From

the Park Place Ruins, BUT MANY OTHERS ARE MISSING.

Cruel Red Tape Responsible for the Delay in the Ghastly Work.

NEW YORK, Aug. 26.-The last body was taken this afternoon from the ruins on Park Place, making the total number of corpses recovered 61. The announcement that the search was concluded had its effect upon the crowd, which with morbid curiosity had clung to the rope that formed the fire line. Most of the people went away and the overworked police breathed sighs of relief. The Bureau of Incumbrances kept up its work of removing the debris from the street until 5 P. M., when all work stopped.

There still remained about the spot several desolate women whose dead had not been found and who refused to believe that there had been a cessation of the work of the searchers. Indeed it was a matter of wonder to all that there was so large a U. P. Church lot, has increased its production and yesterday was flowing at the rate counted for. The theory was advanced that, owing to the fierceness of the flames which raged several hours, some of the bodies were entirely consumed.

MEASURES FOR RELIEF. .

Mayor Grant has appointed a Relief Committee, and money for the families of the dead has commenced coming in. One thousand dollars has been received from Mrs. Crain, owner of the building that collapsed. She sends a letter saying she wished she could give more for the families of the dead. The Coroner will begin an inquest next Mon-

The work of delving for the dead in the ruins of the Taylor building continued uninterrupted through the night. The first body taken out after midnight was discovered at 1-15 A. M. At irregular intervals thereafter bodies were recovered until the ghastly task was finished. Eight were taken out between

was finished. Eight were taken out between midnight and 630 in the morning.
That human beings should so far forget their duty to the dead, as to leave them rotting and putrifying in a vast moldy pit for three days, it presented as an incident in a romance, would be condemned as a violastion of decency and an insult even to man'n imagination. Yet such was the revelatio which last night's labor caused, and further proved that these horrors could have been averted, if proper decency and common humanity rules at all among men. TO WHOM PRAISE IS DUE.

There are three men whose names should

earn the praise and gratitude of all self-respecting men and women. They are Dr. King B. Page, who volunteered his services in assisting to identify the bodies, and has worked 15 hours out of the 24 ever since the worked 15 hours out of the 24 ever since the calamity; T. E. Crimmins, who, being shrewdly aware of promises made by the city in this matter, stated last night that he would pay the labor of his men (125), now at work on the ruins, if necessary, and who has practically shown that with prompt action all the bodies would have been recovered before putrification destroyed all chance of recognition; and Chief of Battalion Cashman, who has worked with unflagging energy to expedite the recovery of the bodies. The heads of various city departments seem to have been more auxions that the expense attending the work should not be charged to their particular account than that the bodies of the dead should be recovered before all chance of identification was gone. Ever since Saturday night the work ered before all chance of identification was gone. Ever since Saturday night the work of clearing out the ruins has been greatly delayed by the presence of a huge mound of debris, hocking up the street in front, and leaving no place to deposit the wreckage taken out, and yet it was not till last night that any steps toward removing the blockade were taken, and only then because a city contractor stepped in and offered to pay for the work himself, if the city officials couldnot decide which department should pay the bills.

DANGER FROM OIL FIRES.

THE SITUATION AT M'DONALD INVITES A CONFLAGRATION

General Activity Ail Along the Line in the Southwest Pools-The Wildwood Pools Show Up With Two Small Wells-Other

The Cook lot well at McDonald is still on fire, and the possibility of a general conflagration in that village becomes more evi-dent every day. For weeks the oil men who have followed the business for the last two decades have been expecting a fire at almost THE INQUEST WILL BEGIN ON MONDAY any moment. There are 75 wells drilling in the heart of the borough, and

in the heart of the borough, and when these are all completed, and the derricks covered with crude petroleum the danger will be increased ten-fold. Experience has shown that when the atmosphere is humid and heavy a fire in an oil town always works the greatest damage. At such a time the gas from the wells and tanks has accumulated just on top of the ground. With the speed of a star the flames shoot through the banks of gas from well to well and tank to tank, and the adjacent houses then become ignited, and it would take a Pittsburg fire department to cope with the flames which spring up in a dozen different places. This has been the history of every town in the oil country where wells have been drilled among the dwelling houses. McDonald has more wells in its borough limits than any other town in the oil regions, and consequently the danger from a fire is much greater.

CANADIANS ARE WILD.

Their Cattle Export Trade Threater an American Syndicate.

[SPECIAL TELEGRAM TO THE DISPATCH.] TORONTO, Aug. 26.—The Canadian cattle export trade is wild over the proposal of the Ottawa Government to admit American live cattle into this market for slaughter by the cattle into this market for slaughter by the request of a big American syndicate that wishes to engage in the dead meat trade at some point on the St. Lawrence convenient for shipment to England. They say the object of the movement is to confuse Canada's live stock trade with England and destroy it, which would of course result in some advantage to American dealers who do not enjoy the advantage in the English markets accorded to Canadian cattle shippers.

A big meeting was held to-day here to protest against the scheme, and some dealers are confident the American syndicate will not get what they desire. otget what they desire.

KAUFMANNS

25,000 Boys and Girls will file into our public school buildings next Tuesday. Nearly all of them are in need of shoes. We could easily supply them all, and still have more school shoes left than any other house in the city.

In anticipation of this big demand for school shoes, we ordered sample shoes made expressly for our trade by the fourteen different manufacturers—the best in the country. The manufacturer who made the most substantial shoe for the least money was to get our entire order. HE DID. By this means we are now able to supply every school boy or girl with a better pair of shoes and at a lower price than ever before. The following two examples will fully substantiate our claims:

At this price we will offer Boys' Calf Shoes, made with a special view to durability and comfort. We have them in button and lace, and in sizes from 11 to 2. The same shoes, for bigger boys, sizes 21/2 to 51/2, in button, lace and congress styles, a

We positively guarantee these shoes equal in every respect to those sold in other stores for double the money. But this isn't all. Here is one of our

ple and good enough for the richest. Come right in and examine them closely. You will find them made of extra quality pebble goat, with solar tips or plain toes, heel or spring heel, thoroughly well made and solid throughout. The sizes of these shoes range from 11 to 2.

Same shoes for smaller girls (sizes 5 to 8) at only 75c. Now, don't object to being jostled or crowded a little when attending this sale. Don't be selfish. Your neighbor is as anx. ious as you to get a good bargain. To avoid long waits, how ever, we have greatly strengthened our force of salesmen, thus insuring prompt attention to every customer.

Boys' and Misses' School Caps.

For the balance of this week we offer you Boys' Cloth Caps from 39c to \$1.50, and the popular Misses' Yachts and Sailors from 25c to 98c. They come in silk and cloth, checks and plain and all colors,

Don't fail to stop at our special bargain counter. We have a lot of 50 and 75c Outing Caps which we will sell at 25c to close them out. They will make elegant caps for school wear.
