The school year begins Tuesday of next week. SUPERINTENDENT WEIR'S IDEAS. "There can be no question about the great benefit public baths would be to the people of Pittshurg. I hope to see a movement on of Pittsburg. I hope to see a movement on tool for the establishment of such a place here. Considering the amount of patron-age a public bathhouse would draw, and the inestimable benefit it would be as a san-itary measure alone the cost would be very small. There is no necessity for anything elaborate. On the other hand, it would be a mistake to have the place constructed in any but a very blain style, since its natrons To leave stocks, bonds and valuables in safes accessible to others when you can for a small sum have your own private box in the safe-deposit vaults of the Farmers' De-posit National Bank, 66 Fourth avenue. Administrators, executors, guardians and others will find it to their advantage to look ifto this any but a very plain style, since its patrons would be plain people. My idea would be to rent or build a house at as small cost as possible, equip it with a sufficient number of tubs, shower baths and all neceslook into this. number of tube, shower baths and all neces-sary equipments. A swimming pool might also be added, but that would not be abso-lutely necessary. It might be well to charge 5 cents a bath to all who carred to pay if in order to make the establishment self-sustaining or nearly so. A small charge would not make it any fees a public bath. Those who felt indisposed from one reason or another to pay even that small sum could be furnished a ticket on application to the proper authorities which would admit them at all times. The cost of keeping the place up would be very small and the city could well afford it. Friday, Poor Man's Day. Just now, when we are selling off all spring and summer clothing, poor people have a chance to buy what they need in men's suits, boys' suits and pants for almost nothing. These are the prices for to-day: 160 men's black worsted broadwale suits..... 275 men's suits, made up in sack style,

ADVANTAGES FOR MILL MEN.

Working in our many manufactories are hundreds of men, and women too, to whom such an establishment would provide a luxury heretofore unattainable by them. Many of these people would now patronize Many of these people would now patronize baths run by private firms, in barber shops, horels, etc., but they will not be admitted. A man who has worked all day in an iron will and comes out biack and dirty cannet go to these places. If he auplies he is told all the tubs are occupied, or something of that soat. It is this class of people, just as worthy and respectable as those with cleaner ecupations, that would be benefited by public baths. I know nothing about how these afflairs are conducted in other cities, but I do know the people of Pittsburg are sadly in need of something of the sort, and will lend my aid heartily to any movement to further R." Coroner McDowell has repeatedly stated his approval of the public bath idea. His work in the summer months brings him in daily contact with the effects of a lack of proper bathing facilities. His records abound with cases of accidental drownings, ne was shown by a publication of a portion of these records in Ture Dispart several weeks ago.

weeks ago, "Public baths have become an absolute necessity," said he, "and they must come."

Why Kennedy Is Popular.

The large number of select outing parties, weddings and affairs of that kind that W. J. weddings and affairs of that kind that W. J. A. Kennedy, caterer, of No. 2 Sixth street, is called upon to attend is perhaps the best proof of his increasing popularity. Ken-nedy's service is excellent, and people who wish to have something really fine never think of going to any other place, as they know that the very name "Kennedy" as-sures their guests that a rare feast is await-ing them, and this more than anything else adds to their fame as entertainers. adds to their fame as entertainers.
