15 Braddock people, who knew the Bohem-ine well, but did not know Eusnak, were taken into the area of the county jail and the three prisoners were brought out. The Braddock people at once and simultaneously pointed out Eusnack and said there was no doubt as to the very close resemblance he bere to the missing Bohemian. It is be-lieved necordingly that the man who swore he saw Rusuak strike the fatal blow was honestly mistaken and that the te m who a barge-load of stone, the work was for the present suspended. David Hohenstatt, the diver who was down yesterday, said to a the report says: Jacob H. Walter appeared before the Anditor and presented a claim for \$33,960 39 with interest from May 25, 1854. The books of the Penn Bank and his own bank book show that on May 26, 1884. Mr. Walter was indebted to the bank in the sum of \$9,284 61. Mr. Walter sys that his account, as it appears on the books of the bank, and in his own bank book, is wrong. His exclanation of the matter is that in his bank book he is charged with the sum of \$43,225 which ought not to be there. The same charge appears in the bank's books, but in two amounts-one as of January 2, 1884. 'One charge appears in the bank's books, but in two amounts-one as of January 2, 1884. 'One charge of \$43,220,' and the other as of the same charge and immediately below it "5." By striking off the charge of \$43,235 against him, we have a balance in his favor of \$53,940 39. The Auditor has quoted the testimony of Mr. Walter at some length, and has done so because he purposes to rest his decision of the case mainly upon that testimony. Mr. Walter claimstwo dividends on the sum, \$33,940 32. When the Auditor turns to his account with the bank effads that instead of the bank being indebted to him, he is indebted to the bank in the sum of \$9,294 61. Mr. Walter says the obank and no money passed to him in the particular transaction. Mr. Walter's entire claim is refused, the scheme weat the to defraud the bank, but he forgot to to be there. What was they for the the scheme schemes to defraud th Jacob H. Walter appeared before the Authis Was the most difficult job that he had yet under-taken, owing to the irregularities in the bed of the river, which the dredge boat had left full of holes and pitfalls. When asked if the heavy diving suit did not impede his movements and hamper him in his efforts, he said: "While a diver encased in his suit weighs about 500 pounds when above water, and can just manage to drag himself about, when under the water and with the air pumps at work he works with almost as much freedom and ease as any workman on dry land, except when the water is muddy, which prevents us from seeing and we have to feel our way about. We have an elaborate code of signals by means of which we communicate with those above on the boat. THE WORK MAKES ONE DROWSY. "The work is exhausting, and makes us very drowsy. We stay under water from three to five hours at a time. There is no particular danger connected with our occu-pation, unless a man loses his bearings when groping around, gets tangled up and rattled and loses his head, in which case he is liable to give the wrong signals." Mr. Hahenstatt takes a very matter-of-fact view of his peculiar work, and has be-come so accustomed to it that he cannot see take care of Walter. Mr. Walter's entire claim is refused, the report stating in conclusion that "the aud-itor is of the opinion that Mr. Walter is not entitled to have his claim recognized and thus share in the distribution." anything interesting or remarkable about it, but to the average person the thought of THE GEM OF THE MONONGAHELA.

Physicians of the Electropathic Institute. Additional evidence of the skillful and cientific treatment given by the physician

of the Electropathic Institute is shown in the case of Mrs. M. A. Sankey, aunt of Ira Sankey, the Evangelist, residing at 115 Lacock street, Allegheny. During an in-terview Mrs. Sankey said: FAT MEN DOING GOOD TIME.

When the ball game was finished the races were called up. The course was one of those indefinite ones that starts' at the mark and ends at a big tree. A strong guesser put the distance between 50 and 100 yards. It was 100 yards for the fat men and about 50 for the lean men. In the fat men's race a man had to weigh at least 160 pounds. James Klingensmith, won the fat men's race by a very small margin. One of the contestants started out in his stocking feet, but stepped on an acorn and stopped to nurse his foot. The lean men had to do somewhat better time. All men weighing over 130 pounds were barred. Frank Finlay, one of the baseball men, won handily. The drummers did not seem much in-The drummers did not seem much in-clined to listen to speeches, but really enjoyed the only two that were made. William Smith made a short address and introduced A. J. Edwards, assistant Post-master of Pittsburg. Mr. Edwards made a most interesting speech, and his only mis-take was that he told two stories, which his extreme youth prevented the possibility of his invention. They were both good stories, however, and would go with a rush at any place but a real, live drummers' picnic. The drummers and their friends, after enjoying an elegant lunch, continued to Mrs. M. A. Sankey, 115 Lacock street, Allegheng Mrs. M. A. Sankey, 115 Lacock street, Allegheny. "My throat was most affected. I suffered terrible pains, both sharp and dull, it felt as though a band of iron was tightly bound around it. I could scarcely speak without the effort causing me pain. To swallow caused me great suffering. The net of chewing my food was attended with almost unbearable pain. "Together with the above trouble I suf-fered greatly from neuralgic pains, supple-mented by nervous prostration, until I be-came so bad that I shared the belief of my friends that I would never regain my health. The boy says ie knows Rusuak and that he was at witness' mother's house for some time on New Year's Day, talked for some time and then went up on the hill. This is after-discovered evidence, and Mr. Blakely expects to binin an absolute pardon for Rusnak.

Michael Sabol admits that he was engaged in the riot, but denies that he struck the man who was killed, and as the only with ness against Sabol is the one who testified to Rusnak having struck the fatal blow, in is argued that the force of his evidence is broken. So it is hoped that Sabol's sen-

tence will be commuted. It has already been noted the Slavonian societies of this country are taking a lively interest in the matter and so also are the Hungarian societies in New York. They are said to be composed of highly intelligent people and some of them not only stand well in business and social circles, but have abundant means. These societies propose to spend money to see the trio get a square show, and they have issued peti-tions printed both in Slavonian and Enclish, asking for leniency to the convicted

Are Gradually Getting It Back at the Electrical and Medical Institute, 443 Penn Avenue, Corner Fifth Street, Through the Same Treatment That Mr. Geo. Helman Received.

Very few people have any idea of the number who were rendered partially or to-tally deaf by that terrible disease—In grippe —and to fully realize the facts it is only necessary to observe the vast number who are treating for deafness at the Electrical and Medical Institute, at 442 Penn avenue, corner Fifth street, who were prompted by the article giving an account of the good for-tune of Mr. George Helman, of Manor station, which he afterward corroborated by his own personal letter to the public. This publica-tion caused others to follow and partake of the same transmit and the same treatment and rejoice as everyone of them is realizing a benefit, while some of the results are simply mar-velous, as for instance in the case of Mr. P. J. Quin n, of Hazelwood, who is employed at the Glenwood cemetery. He has recov-ered from that point where it was necessary

to conduct all conversation in writing, and in nine days he can understand ordinary conversation distinctly. Others who could not hear the loudest sound can now hear

their names when called in a clear tone at a distance of three feet behind them. These William A. Reese to obtain possession of results have been accomplished within two or three weeks.

When it is taken into consideration that numerous articles have appeared in the pa-pers from prominent business men and oth-ers, both in and out of the city, regarding their remarkable success in the various chronic diseases, together with the reputa-tion they have signal in sectors be tion they have gained in restoring lost hear-ing, it certainly bears out what Mr. George S. Sanford, a traveling salesman, says of them, that "their treatment is a godsend to humanity.
