THE POPE FAVORS FOREIGNERS. An Important Election of the Head of

Church Order Coming.

Roma, Aug. 31,-Considerable interest Charles Corrigan, a laborer, living on Stobo street, Fourteenth ward, created a big exfelt in diplomatic and ecclesiastical circles in the approaching election of a General of the Dominicans. This will take place some citement in that neighborhood last night by setting fire to his own house. He has been time in September. At the Vatican, and especially on the part of Pope Leo, it is earn-estly desired that the choice may fall upon chastising his wife, and although she made considerable noise while an archough she made considerable noise while unlergoing the treatment, the neighbors naid no attention to what was going on until they heard a crash of glass, and a moment later saw a cloud of smoke issuing from the house. Then they rushed in and extinguished the flames a foreigner, and if possible, a Frenchman,

a foreigner, and if possible, a Frenchman. The Provincial of Lyons is prominently mentioned in this connection. Ever since the Pope's accession to power he has thrown his influence in favor of placing foreigners at the head of the re-ligious orders. He has had two reasons for this course. He has desired to mark in an-emphatic manuer the international char acter of Catholic institutions and to prepare the way gradually for a foreign Pope and flames. Corrignn had disappeared, but his wife ex-plained that he had thrown a lighted lamp at hen, which missed her head by an inch, and struck the wall, breaking and the burn-ing oil setting fire to the house. But little damage was done by the flames. Corrigan was arrested and taken to the Eleventh ward station by Officer Hildebrecht. acter of Catholic institutions and to prepare the way gradually for a foreign Pope, and he has itso desired to give renewed vitality to the religious orders in Itsiy, where they are less well organized than in other conn-tries. In pursuance of this policy he se-cured the election of Father D'Andermatt, a Swiss, to be General; of the Capuchlins, and of another Swiss priest to be General of the Redemptorists. If now the Dominicans choose a Frenchman, this will be another step in advance, as the choice will fail, not upon a subject of one of the great political powers.
