Orners of Privation Disparce, for the interview of one of our leading store manners to send y conterview. An end with the ord matural gas and conset who found their occupation gone the pairs of the store and matural gas and conset to call has very greatly stimulated demand for the old methods of heating. Coal miners who found their occupation gone the pairs of the store of the st an extraordinary demand for gas furnaces of late, and the way ordert are coming in proves that we are to have 'trads in this line this fall, which will exceed anything in the past." It is clear that there must be an entire change of tactive in the line of heat-ing appliances in the near future. It will be hard for the housek seper to go back to old-time methods. This means greater halor and more dirt, but it now looks as though the time is near when only the rich can indulge in n tural gas.

Coffee Statistics

stics on coffee point to lower prices tio coffees of the new crop are coming in The contees of the new crop are coming in freely, and markets are weak. The total stock of coffee at Rio, according to latest reports, was 251,000 bags, against 167,000 bags for the corresponding period last year. The ally average, receipts last week at Rio were inity average receipts last week at Rio were 3,000 largs. There were shipped to Europe ast week 32,000 bargs and to the United sates 61,000 largs. The visible supply of Rio roftee at New York is figured at 356,570 bags, grainst Si2,276 bags this time a year ago, and 30,620 bags for the same time in 1839. Cotain receipts of the crop at Rio up o August 27 were 659,C00 bags. Same time a year ago receipts were 422,000 bags, ame time in 1839, \$81,000 bags. Receipts at attos are reported heavier than at Rio. It s evident that the Rio coffee crop this sea-ton is unusually large and that future changes are likely to be toward a lower evel. Java coffees are not so abundant, and wel. Java coffees are not so abundant, and mrkets are reported very firm. Coffee and gar are lower to the consumer this year

agar are lower to the consumer this year han they have been for many a year. A year ago our sugar cost from 2c to 3c per more than at this time. Cheap sugar ad cheap fruit will very greatly reduce ousehold expenses this fall as compared cith heat fall.

The Banana Trade.

It is within the memory of people not ery old when bananas were brought to this city by the barrel. The pioneer of our produce commission mer-chants, who is still hale and hearty, said reently: "When I brought the first barrel of manas to this market, along in the early bananas to this market, along in the early sixties, there was no demand, and I had hard work to get rid of my stuff." This week the receipts of bananas have already reached 30 encloads, and, before the week is out, re-colpts will no doubt reach 50 carloads. The produce commission man who, a quar-ter of a century ago, had an ele-phant on his hands when he re-ceived a barrel of baganas, at this day only talks of carload lots. Were it not for the immense crop of peaches and other do-mestic fruits, our market would have little tradit fruits, our market would have little tradit on basorbing 100 carloads of bananas received on Monday. The tact that we are capable of absorbing 100 carloads of peaches in a week, as well as a haif hundred cap-loads of bananas, proves that we have grown

estic fruits, our market would have little omble taking in the 30 carloads of bananas ceived on Monday. The fact that we are pable of absorbing 100 carloads of peaches a week as well as a half bundred car-uds of bananas, proves that we have grown be of considerable importance among the ade centers of the land. WHEAT VERY CHANGEARLE. A new pool in Chicago Gas has been organ-ized and is said to have about all its line of stock. Several millions of the yellow metal are on the way to this country from Europe. The Independent Deposit and Loan Asso-ciation of Pittsburg was chartered at Har-risburg yesterday. The capital stock is \$1,000,000, and the directors are William E. Stevenson, Fred E. Schenck, H. W. Dunlap, Jacob Lauer, E. W. Denmier, John C. Dil-worth, Charles Large, William A. McCatch-eon, C. Beckert, Jr., George Campbell, John W. Robson and John M. Roberts, all of Pitts-burg. m nar demand. auspices. The big crops began to have their effect, the outpour of gold to Europe was checked, and confidence took the place of distrust and uneasiness. Improvement grew with the month, and when, yesterday, September stepped into its place, there was everything to encourage the hope that the forward impulse would be maintained, not only for the remainder of

the year, but for several years to come. The money question is, of course, para-mount in any forecast of the future. Fears Gold is already returning from Europe. All of the financial centers report sufficient funds for all business purposes. Apprehen-sions of this kind do not affect people who are looking to ultimate results. On this

sions of this kind do not affect people who are looking to ultimate results. On this subject a leading New York banker is quoted in the Financial Chronicle as saying: "When the danger of a pinch comes you will see gold flowing back from across the Atlantic. Meantime it is, perhaps, well for Wall street to keep its eye skinned for finan-cial trouble. It may in that way moderate its transports and permit the inevitable rise to come along in a natural and legiti-mate way. But as for a repetition of last year's tight money I do not see anything of the kind approaching. The thing that was lacking then was confidence. There is plenty of confidence now, and confidence begets money when money is wanted." The fact is that the confidence which seemed to be somewhat wavering a month ago has reasserted itself, and business and financial interests are now united in taking a cheerful view of the outlook so far as money is concerned.

quiet, st. ong; Western, 6@84cc; part skims, 4@7c. st. LOUIS-Flour steady, unchanged. Whent-The opening was 14c lower and 14c was added to this, then a rally of 1/c was scored, but another relapse of 134@152 fol-lowed. The market finally closed firm at 24c below yesterday: No. 2 red cash 374@ 574c; September, 37%c; December, \$1.085 (%1.02, closing, \$1.01; May, \$1.07c, closing \$1.075/c nominal. Corn - First prices were %c off from yesterday's closing, but speculation continued slack with light trading. Later there was a reaction and market became strong and closed 1%c above yesterday's prices; No. 2 cash 58%@ 50c; September, 58@59c closing at 39%; Year 425/@439/c, closing 43%c. Oats weak early with corn and wheat, but strengthened later and closed firm; No 2 cash, 3736@29a September, 27%@27%c; clos-ing 28c bid; May, 324c; closing 22%c. Ryo-No. 2, 88c. Barley quiet; Iowa 56c. Butter firm; creamery, 21@22c; fancy Eigin, 25c; dairy, 16@18c. Provisions-Higher. Pork \$10.75. Lard 85 30@0 33. cheerful view of the outlook so far as money is concerned. Real estate is fast recovering its wonted activity. There is a good inquiry for all de-scriptions of property. A number of large deals have been consummated within the last few days, and jothers are cooking. Every day the prospect for a heavy fail business grow better and better. Advertis-ing is meeting with prompt responses. Another reflection of the favorable out-look and revival of confidence is shown in the improved demand for bonds and the better speculative conditions cansed by the favorable outlook for the railroads, the crop situation here, and the probable export movement of cereals. With ordinary pru-dence, the conntry is reasonably certain of severa. years of prosperity. Business News and Goesty. WHEAT VERY CHANGEABLE.

Yesterday the Bears Were Ahead Again Until Near the Close, When a Spurt Took Place-Corn Weak at First, but Soon Braces Up.

CHICAGO-Again the sentiment in the wheat plt changed during the night. Yesterday it was bullish and an advance of over 4 cents was scored; to-day it was bearish and at the bottom price of the session was 515

at the bottom price of the session was 33 cents under yesterday's last price, though the close showed a recovery of 1 cent. The wheat bought yesterday for Decem-ber at around \$1.04 was all for sale at a con-ber at around \$1.04 was all for sale at a considerable reduction as soon as busifiess started this morning. Buyers were as hard

started this morning. Buyers were as hard to find at the start as sellers were yesterday morning until the asking price had gotten down to to about \$1.05%. There were a few sales at \$1.03 and some at \$1.02% but the great bulk of the first trades were made at wound \$1.05% (1.02%) with the offerings so great as to prevent any recovery to speak of from those prices. The estimates this morning, based on the per coitage figures of the Vienna Congress, were much less bullish than those made yeaterday, as they put the world's shortage in wheat at only \$0,000 bushels. There were not lacking those, however, who were unable to see how these figures were arrived at. The trade, ho were, inclined strongly to the bear side, and a heavy bushess was done. The yrice tended strongly downward and

bear ride, and a heavy business was done. The price tended strongly downward and not until alter December had sold as low as \$1.084 was there any rebound from the sever-stlesses it had made. There was some good buying, partly for foreign account, about mid-way in the ses-sion, which caused a sudder spurt to \$1.034. The Board of Trade's second Liverpool cable, showing a decline of from \$4300 coming to hand about the time of the cul-mination of the temporary advance, gave more encouragement to the seliers and they gutckir foread the price down to \$1.094. There was some tendency toward a slight bour, but trading, which up to that time had been brick quieted down and orders from the ourside aimost censed. There was the usual active sport during the last ten min-tures of the active sport during the last ten min-

citive spring the last ten min-f the session. The price, being in-d by the closing bulge in corn, recov-end closed at \$1 013. Cont market opened weak, with a trying to get Sec for October, but no could be found at above 5.70c, and ry many at that \$7%c, or %c below

buyers could be found at above 57%c, and not very many at that, 57%c, or 3%c being reached before buyers in any number could be secured. The tendency continued down-ward for shout an hour, in sympathy with the weakness in wheat, but after October had declined to 56%c the market began to take an independent course, and a recovery to 57c took place, and after temporarily incumating between the latter figure and 56%c it mades rapid advance to 58%c. Firm-ness was the latest characteristic of the trading, and the reactions in a downward direction were quickly recovered from 58%c. being the trading price about 20 minutes from the close of the session, with the short sellers cridently anxious, as shown by 1c firther advance in the following five min-ness, 59%c, and for one or two lots 59%c being paid. The closing quotation was able to manipulation. The fluctuations were occlined to a range of 5%c.

The provision market was easy at the pening, in sympathy with the decline in arn and wheat at the same time, but aickly firmed up on some buying orders ad romained rather strong during the rest the session. Pork shows an advance of over yesterday's closing price; lard is 73gc higher and ribs 10%175c. The leading futures record as follows

The leading futures ranged as follows, as cor-rected by John M. Oakley & Co., 45 Sixth sireet, numbers of Chicago Board of Trade:

BEAR'S BRIEF VICTORY.

MANIPULATORS ON THIS SIDE DE. PRESS LONDON STOCKS.

Losses Recovered and Additional Gains Scored-Shares Comparatively Inactive Except Among the Leader-Business Much Smaller Than on the Previous

Much Smaller Than on the Previous Day-Bonds Quiet. New York, Sep. L.-There was nothing in the news this morning, either foreign or do-mestic, to cause any change in the temper of the stock speculation, and theadvices of the day were of a uniform character from a bull point of view. Nevertheless, the prices made in London this morning before the opening of the Stock Exchange here were materially lower than our figures of last evening, and the opening of this market was made in sympathy with the lower prices on the other side, bringing losses, which extended in the active shares to 1 per cent, The London Eleven permits were taken out yesterday for 13 buildings, costing, as estimated, \$14,-290. The list follows: Robert Arthurs, three frame two-story dwellings, on Center avenue, Thirteenth ward. Cost, \$1,800. Charles Schnitt, frame two-story dwelling, on Natchez street, Thirty-second ward. Cost, \$1,800. Margaret Smith, frame two-story dwelling, on Broad street, Nineteenth ward. Cost, \$1,600. Robert Stevenson, frame two-story dwelling, on Oppress street, Sixteenth ward. Cost, \$200. John Luffman, frame two-story dwelling, on Liberty street, Twentieth ward. Cost, \$2,400. Mr. Finne-gan, frame two-story dwelling, on Liberty street, Twentieth ward. Cost, \$2,400. Mr. Finne-gan, frame two-story stable, on Atlantie avenue, Twentieth ward. Cost, \$2,400. Mr. Finne-two-story dwelling, on Boston street, Fourteenth ward. Cost, \$700. T. Grifin, frame two-story dwelling, on Boston street, Fourteenth ward. Cost, \$900. Mrs. Duncan, frame two-story dwelling, near Taylor street, Sixteenth ward. Cost, \$900. Adam Moshaner, frame two-story dwelling, near Taylor street, Twenty-first ward. Cost, \$4,800. Robert Arthurs, three frame two-story dwelling active shares to 1 per cent. The London cables, however, reported heavy selling by houses with American connections, and the explanation of the lower figures was readily seen to be manipulation from this side, which was continued with vigor in the early dealings nere. To-day's operation was only a repetition of

the old programme, and the concessions brought about by the manipulation referred to were not only recovered in the later dealings, but fractional advances were scored all along the line, and in some instances
