(From a Staff Correspondent.)

HARRISBURG, Sept. 2.—The story of the Democratic convention to-morrow will be short and simple. One Harrity, Secretary of the Commonwealth, is at the helm, and if present signs fail not, his ticket will be nominated as easily as a greased pig could escape through a hole in a fence.

Under his leadership the sentiment of the delegates, if not of the people, has crystallized in the last few days in favor of Wright for Auditor General, and Tilden of Erie, for State Treasurer. There was considerable grumbling at first among some of the delegates, but all signs of discontent have disappeared from the surface.

One of the kickers was Representative Samuel U. Wherry, the Democratic statesman of the Cumberland Valley. He claims the ticket had been set up by Harrity six weeks ago, and he was opposed to the new premier and dictator.

said for Wherry he wants to be State Treasurer. This has been his ambition for years. Six weeks since, as it is stated, he went to Harrity and desired to make an announcement of his candidacy. The Secretary objected, and remarked that such a move would be impudent. The Democratic slate was take advantage of Republican mistakes, and therefore as nearly as possible to the clamors of the people. He intimated to Mr. Wherry that he did not think he would be the best candidate for the position that could be nominated at this time. It is now charged that Wherry is a sorehead.

Representative Ritter, a bright young lawyer from Williamsport, was a candidate for Auditor General early in the day and when he saw how things were going he pulled out. This evening he regretted that he had done so.

SORRY HE WITHDREW.

"I am thoroughly convinced now," he said, "that I could have been nominated if I had not withdrawn. A number of delegations who were dissatisfied with Wright offered their support, but it was too late. I am young and too poor to go into a campaign. I have no money and no time before election day. I would not be surprised to see all sorts of exposures made in the financial department of the State. They would hurt the Republican party."

The impression soon got abroad that the slate of Wright and Tilden, more than half of the 400 delegations are here to-night, but all interest in the nominations soon ceased. The Republicans in the city chaffed the delegates a good deal about the alleged lack of bosom. Numerous comparisons were made between Quay and Harrity, and it was a matter of conjecture as to which had the stronger grip on the machine of its party.

Among Democrats the Secretary is placed higher in the ranks as a political manager than the wily Republican leader. Certainly no insects can find standing room on Mr. Harrity's back, just as Wright had been put on the ticket some time ago, and the recent and sudden boom in his favor was in accordance with a prearranged plan.

NOT A NOISY CROWD.

The headquarters of the Democrats are confined to the Commonwealth and Bolton House. Chairman Kerr, with his Secretary, was last night during the day receiving delegations. Wright had his rooms in the Commonwealth, and Raymon of Dauphin, who would like to be State Treasurer, entertained his friends at the Bolton.

Unlike the Republicans, the candidates made no blusterful hurrah. The telegraph poles and hotel lobbies were not plastered with handbills, nor were places of rendezvous. The only one who made any fuss at all was Raymond. The Middleton Democratic Marching Club, accompanied by a band, came up in the evening and serenaded him. Mr. Raymond is young, and small of stature. His appearance is much more modest and dignified than to make a good impression on delegates who met him to-day for the first time. He says, he is going into the convention and he will be named by Dr. Middleton.

Mr. Raymond said he counted on 70 delegates and 40 that are doubtful, but the general opinion is that he will get a good showing. It is said that Harrity originally favored Raymond for State Treasurer because he has a barrel and was willing to spend some money, but he found the rifle could not be made.

THE CHANGE IN PROGRAMME.

Then a change in the programme was made and Farmer Tilden was shifted to the treasury portfolio and Wright was substituted for Auditor General. Tilden has been induced to take a corner for his position. Erie seems to do this year to have its plans and men knocked topsy turvy.

But Tilden will not repeat the mistakes of Price. He has his delegation well in hand, and means to take them instead of being bossed. He is willing to take a corner for his position. Erie seems to be this evening that he supposed he would be nominated for State

Treasurer, but like Price, he prefers the Auditor Generalship.

The Democracy will cater to the farmers' vote. General P. N. Guthrie thinks the ticket will be weak unless the soldiers are recognized. A small sized boom was started for "fighting" Dick Couter, of Westmoreland, and the clever work of Harry could not be undone.

Only four members of the Allegheny delegation were here to-day. W. J. Brennan, a member of the State Executive Committee, was among the number. The remainder of the delegates are expected to arrive late to-night or to-morrow morning.

INTEREST IN THE PLATFORM.

The greatest interest is in the Presidential planks. All sorts of wild rumors were floating around during the day, but it was generally agreed that Pattison's managers would not force him on the convention. It would mean a red-hot fight and the Governor and Harrity were too well known to be named in connection with the high office, it must be content this fall with a ringing endorsement of his administration.

For the moment, Harrity stands in his relations to Pattison. It is generally conceded that he is with the Governor. The Governor is the only man in the state second to the State delegation. His great ambition is said to be to rival Quay. He does not care what Pattison does, and the anti-Pattison delegates will make a fight on the Governor in the convention. The Major discussed at length the tariff and the silver issues, and found a practical lesson of a local character to enforce the truth of his argument to the tariff.

POMEROY'S BIG INDUSTRY.

Pomeroy has a mill employing about 800 men in the manufacture of ties for the balling of cotton. This establishment turns out about one-seventh of the whole product of the iron bands in this country used in the manufacture of cotton ties. The mill is located upon the life and supports of the town. Under the protective tariff there is no foreign competition, and the kind of music the boys would like would follow. Harrity has been busy all evening in Chairman Kerr's room in the Bolton House, when in platform session, to see that the anti-Pattison delegates will make a fight on the Governor in the convention.

ST. LOUIS, Sept. 2.—The published stories of how and for what reason the deaths of the late Crown Prince Rudolph and Marie Vetsera were brought about are so widely different and far from the truth that Henry Wilson, of this city, who was in Vienna at the time of the sensation, and whose most intimate friends were in the touch with the inner workings of Austria court-life, feels impelled to correct the many errors of those who have written on the subject.

He says that the Emperor's assassination plot was hatched by the Prince and the anti-Pattison delegates will make a fight on the Governor in the convention.
