GOOD TROTTING AT POINT BREEZE.

Results on the Sheepshead Bay Track-General Spo ing News of the Day.

There is certainly a Jonah dogging the track of the Brooklyn team. Their presence here this season has almost on all occasions been the signal for very bad weather, and vesterday was no exception. As soon as John Ward and his men arrived in the city rain clouds began to gather, and before the team reached the grounds a good sized thunder storm was holding sway. As a result, when the game started only about 250 people were in the grounds, as it was generally understood there would be no game.

The rain ceased about 4 o'clock, and with sponges and sawdust, the grounds were got-ten into something like a recognizable con-dition. But they were wretched. The contest started at 4:20 and was stopped at the end of the first half of the fourth inning, with the score standing 5 to 4 against the

home players.

What the result would have been had nine innings been played nobody can say, as both pitchers were being hit hard and both teams were fielding badly owing to had grounds. Singles by Shugart and Beckley and a fumble by Ely enabled Shugart to score. The visitors in their half made four runs. Collins got his base on balls. Pinekney made a safe bunt and Fouty's sacrifice sent the runner to second and third. They both scored on a single by Burns. A short fiv by Ely was caught by Bierbauer, and the latter threw the ball to Beckley, but Jake dropped it or Burns would have been oubled out. After that mistake Griffin made double and so did O'Brien, and altogether

arned.

In the second inning Reilly was hit by a sitched ball, but was forced out at second by Corkhill. Baldwin struck out and Biernaner got to first one fumble by O'Brien. Sugart got his base on balls and Miller's haner got to first on a famble by O'Brien. Shugart got his base on balls and Miller's long fly was muffed by Cellins, Corkhill and Bierbauer scoring on the error and Shugart reaching third. Beckley's single scored Shugart, making three unearned runs. In the third inning with Brown out Ely got his base on balls, second on wild pitch, third on Griffin's sacrifice and home on O'Brien's single.

The home team had four hits and three errors and the visitors six hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and hits and three errors and the visitors are the error and the visitors are the error and hits and three errors and the visitors are the error and the error and hits are t

Attorney Morton Hunter yesterday filed his report as master in the case of Chris Fritchman against Theodore Boley, executor of Thomas Coates. The suit was brought to obtain a dissolution of a partnership between Fritchman and Coates, and an ac-counting of the business. The two went into counting of the business. The two wentimes the general merchandise business in 1874 in Bradford. In 1878 they moved to McKeesport, and in 1881 they quit doing business. The firm was not dissolved, nor was there any accounting of the business. The bill was filed by Fritchman, who claimed there was money due him, and asked for a decree of dissolution and an accounting. While the case was pending before the master the matter of dissolution was settled by the death of Coates. It was then agreed to settle the case by paving Fritchman 8805 and dividing the costs. The master reported the matter to court for confirmation.

Movement for Speaker, WHILE HOLDING TO DEMOCRACY.

Competitor in Him. A SOUTHERN TOUR FOR ALLIANCE VOTES

Crisp and Mills May Yet Find a Formidable

FROM A STAFF CORRESPONDENT. 1 WASHINGTON, Sept. 3.—If anybody counts Farmer Hatch, of Missouri, out of the race for the Speakership, that somebody is making a great mistake. Amid all the talk of the "sure thing for Crisp," and the sleek combinations being made by Mills with New York for the chief clerkship, some other State for Deorkeeper, and so o through the leading positions in the House, Farmer Hatch proceeds to play a card that

may prove to be stronger than all.

While not uniting with the Alliance, and still entertaining good Democratic prin-ciples, Mr. Hatch is playing the farmer movement for all it is worth, and there are good prospects that he will be able to hold the balance of power and finally compel his own election. He is popular with every person who has been in Congress with him, regardless of party, and many a Democrat would rather vote for him on personal grounds than for any of the other candidates. He will have the vote of Missouri, part of Kansas, and scattering votes from

sound Democrats everywhere.

He will have all of the Alliance members, unless it is concluded best to bring out bers, unless it is concluded best to bring out a genuine Alliance candidate, which is not propable, In such a case he will also have all the Democratic members elected by combination with the Alliance, and all amonable to its influence, and that is not a few.

Mr. Hatch has just passed through this city on his way to speak to the farmers of West Virginia in several places, and after that will go through other Southern States, capturing the "Alliance fellers" wherever he goes. Without doubt Mr. Hatch would make the best all-round Speaker to be found among the Democratic timber. He is as calm and judicial as Crisp, and is a much better parliamentarian than any of the other candidates. Both Speaker Carlisle and Speaker Reed called him to the chair frequently, and during the most refractory and rebellious moods of the House, his calm and dignified demeanor and unfailing fairness always begot him the respect of members, while Mills, MoMillan and Springer were invariably guyed. bers, while Mills, McMillan and springer were invariably guved.

Moreover, Mr. Hatch is a real farmer, though he practices law, and his intercourse with his acquaintances has the air of a comfortable, educated farmer, confident of himself, and placing sense and knowledge above fine clothes and society etiquette, though always thoroughly at ease in any circle.

SENT TO AN ASYLUM.

Lucy Horton, Who Once Tried to She Senator Morgan's Son, Insane, Washington, Sept. 3.—[Special.]—About four years ago a great sensation was created four years ago a great sensation was created at the noon hour one day by an attempt on the part of a pretty department female clerk to shoot a son of Senator Morgan of Alabama, who has since, with a lady companion, been drowned while rowing in the Potomac. Young Morgan sat at luncheon with a lady friend in the cafe of Riggs Hotel when the clerk, Miss Lucy W. Horton entered and immediately shots they. Horton, entered and immediately shot at Morgan, barely missing his head. The matter was hushed up and no names were pub

lished.

A jury under a writ de lunatico inquirendo was sworn to-day in the Criminal Court room by Deputy Marshal Leonard in the case of Miss Horton. She has exhibited some symptoms of insthity, and on August 25 at the instance, of the officers of the department, she was taken into custody by Detective Mattingly, and has since been in charge of one of the police matrons. The jury found that she was insane, and she was sent to the asylum this evening.

PRISON STATISTICS.

Census Figures on Sentences Imposed on

Convicts in Different States. WASHINGTON, Sent. 3.-The Census Office tistics of sentences imposed by the courts upon prisoners in penitentiaries. Of 45,233 prisoners in penitentiaries, §3 were not sentenced, 2,486 were serving sentences of less than one year, 39,757 had been sentenced to morisonment for a definite term of years, 2,688 for life, 12 during their minority, and 62 2,688 for life, 12 during their minority, and 62 were under sentence of death, awaiting execution. A tendency to greater severity of sentence is apparent in the South and West. The average sentence of a native white convict of native parents is 5 years and 208 days, of a foreign-born convict 5 years and 208 days, and of a colored convict 6 years and 183 days. The average sentence of a male convict is 5 years and 225 days, and of a female convict 4 years and 215 days. The differences between the average sentences in different States, the bulletin says, are a surprise. They range from 2 years and 356 days in Rhode Island to 12 years and 116 days in Mississippi, and seem to be governed by no discoverable law.

Philadelphia, Berks, Butler, Schuylkill, Delaware, Lehlgh, Lackawanna and Luzerne gave him a solid vote and he got the bulk of the ballots from most of the counties. Lancaster, York and some of the adjoining counties stayed with McSparren. The nomination was made unanimous. When the result was announced there were loud cheers for Wright. For State Treasurer, R. Representative Fow made a caustic speech, that pleased the delegates. Mr. Foley at this point offered a resolution authorizing Chairman Kerr and the Excentive Committee to fill any vacancies that might occur on the ticket. It was passed.

Hobert E. Wright was then introduced. He had a speech written. He frequently referred to his manuscript in its delivery. He said that never in the history of the State Government has such a corrupt state of affairs existed in Pennsylvania. It has been a systematic robbery of the people by officers whom they trusted. He accepted the nomination and predicted a victory for the party this fall.

Such deals are a direct vio-lation of an old statute on the subject. The telegram states that someone discovered the existence of the law about a year ago, and a bill was introduced into the Legislature annulling the laws on the subject of street railway leasing and consol-idation and making valid all previous opera-tions of the kind. The bill passed both Houses, but was vetoed by Governor Patti-son.

son.

It is further stated that the annual reports now being filed with the Secretary of Internal Affairs show that this law has been constantly violated, since the bill legalizing such operations was vetoed, and that there is a probability of litigation being opened up. The local street railway officials do not attach much importance to the matter, saying that a way had always been found and always would be whereby roads could be merged, leased, bought and sold, and that no test case had ever been decided against them.

no test case had ever been decided against them.

Secretary Neeper, of the Pittsburg, Allegheny and Manchester Traction Company, said vesterday he did not think the matter would be revived, as it had already received a quietus at the hands of Judge Ewing when the minority stockholders of the Pittsburg, Allegheny and Manchester Passenger Railway Company had filed a bill in equity to restrain the Pittsburg, Allegheny and Manchester Traction Company from leasing the lines of the Union Line Passenger Railway. The court dismissed the bill after hearing the arguments.

Commodore W. J. Kountz, who for 18 years has guided the destinies of the Manchester line was shown the Harrisburg telegram last night and said that he did not believe the old ground would be gone over again. He didn't think there was much in it.

THE FIRE RECORD.

At Nineveh Wednesday evening the new dwelling of Meade Duncan, not yet occu-pied, burned down. Loss, \$1,800; no insur-ance. Laid to fire bugs. NEAR Stockton, Utah, Wednesday night the shaft house, holsting works, machinery and timbers in the shaft of a mine burned Loss, \$40,000 to \$50,000. No lives were lost, the miners who were in the shaft escaping by another outlet. The property is owned by Niedringhaus, of St. Louis. AT Fort Shaw, near Great Palls, Mont. Wednesday evening, fire broke 'out in the kitchen of the residence of J. W. McKnight, post trader. The restaurant, two warehouses, post office and store buildings were burned. Loss, \$15,000. The fire is supposed to have been started by children playing in the kitchen.

Ar Duquesne at an early hour yesterday morning fire was discovered in the Central Hotel, which only a few days ago was set on fire by some unknown person. This time the fire originated from a defective fine and was damaged to the extent of about \$1,200. The building is owned by Miss Zella Bovard, and the hotel was managed by Harry

A7 Erie Beach, Ont., opposite Buffalo, early yesterday morning a disastrous fire oc-curred, which started in the Eric Beach Hotel. The wind was strong and flames soon wrapped the entire building and spread to Joseph Ellis' cottage in the rear. In half an hour both places were destroyed. Total loss estimated at \$15,000; no insurance. Origin unknown. AT Charleston, W. Va., yesterday the ex-

tensive planing mills and lumber yards of Morgan & Co. were destroyed. Four residences near the lumber yards were also conword the framer yards were also consumed. The fire waged so furiously that it was feared that entire part of the city would go. Total loss placed at between \$25,000 and \$30,000. There was but \$4,000 insurance on the mill and stock, and scarcely an insurance on the four houses. The mills will likely be rebuilt at once.

Balmaceda Is Said to Be Making His Way Toward San Francisco.

MINISTER EGAN RECEIVES AN INSULT

WASHINGTON, Sept. 3. - Admiral Brown's cable dispatch to the Navy Department, received this morning, announce ing the complete success of the Junta, was communicated immediately to Mr. Whar-ton, the Acting Secretary of State. While Admiral Brown is not a diplomatic representative of the Government, his statement or facts is taken as an addition to the official information before the Department of State, to the effect that Balmaceda's Government is a thing of the past and that a new regime has been established.

The requirements of diplomatic practic have been so far met that it is probable that the Department of State will now proceed to take official cognizance of the state of affairs in Chile as modified by Balmaceda's resignation and the victory of the Congressional party. At the department it is said that there had been no undue delay in according recognition when proper to bestow it. FOLLOWING A SETTLED POLICY.

The settled policy of this Government has been to avoid the encouragement or premature recognition of revolutionary movements, particularly in the case of the unsettled republics of the American hemisphere; and in the exceptional cases in which departures have been made from that practice the result has not always been sat-isfactory. So in the case of the Chilean Congressional movement the Depart-Congressional movement the Department of State has confined itself, the officials say, to a strict observance of the practice of this Government as fixed by many precedents, and has awalted the receipt of the official information necessary to enable it to know beyond doubt that the Congressionalists have succeeded in securing absolute domain over Chile. The requisite information is now probably before the department, and the nextstep is recognition. Several cable dispatches have been sent to Minister Egan, and there is reason to believe that when he is satisfied that a Government (even though it be temporary in form) has been securely established in Chile, he will immediately open official intercourse with that Government, is equivalent to accrediting a Minister to the new Government, and as soon as such new Government officially notifies the Department of State that it has authorized its special envoys to represent it regularly in the United States, Dr. Montt and his colleagues will be recognized at the Department of State.

SETTING UP A GOVERNMENT. The Chileau Congressional envoys in this city have received information which shows that the two members of the Junta who left Iquique Sunday have arrived at Valparaiso. These two members are Waldo Silva, the Vice President of the Senate, and Ramon Baros Luco, the Speaker of the House of Representatives. Senor Montt, the Commander in Chief of the Navy, the other member of the Junta, was already at Valparaiso. These three gentlemen will now go to Santiago, where they will take steps for the reorganization of the Government in accordance with the changed condition of affairs.

Senor Montt, the principal Congressional envoy here, has received a dispatch, dated Valpariaso, Septembor 2, and signed by Messrs. Silva and Luco, in which they say that General Baquedano (to whom President Balmaceda surrendered the Government when he left Santiago) had given up the command. The re-establishment of the Constitution and the laws has been celebrated with indescribable enthusiasm.

BALMACEDA BOUND FOR FRISCO. quique Sunday have arrived at Valparaiso

BALMACEDA BOUND FOR 'FRISCO. A special dispatch from the City of Mexico says the Anglo-American states a prominent gentleman of St. Louis who is well known in the Anglo-American colony, has received the following dispatch in cipher:

"VALPARAISO, Sept. 3. "President Balmaceda is aboard the Condell and expects to disembark in San Francisco. However, if he be pushed by the insurgent warship, he may land in Mexico. If he does, extend all possible courtesies," A letter from an officer on an English warship at Valparaiso asserts that Balmaceda insuited and quarreled with the American Minister, Patrick Egan, and the French Minister; that the latter refused to accept an apology, but that Minister Egan renewed his relations with the Government under threats from Senor Godoy that if Mr. Egan threats from Senor Godov that if Mr. Egan gave Balmaceda trouble they would send him aboard an English warship.

NEW YORK, Sept. 4 .- [Special]-The Herald this morning has the following cable from Valparaiso: The torpedo Almirante Condell and the armed transport Imperiale, the last armed forces loval to the late President Balmaceda were formally surrendered to the Chilean Minister here to-day, and word was immediately sent to the Junta de Gobierno, at Santiago, that the two vessels were at their disposal. The transfer was made to-day, and the minister cabled to the Junta for instructions as to what should be done with the vessels.

A dispatch from Valparaiso says: The report that the late President Balmaceda had been killed by one of the men who are crossing the mountains with him appears to be unfounded and no such report has been heard here, and nothing is known of the fugitive ex-Presiden't movements since he left Los Andes. The probabilities are very strong against the story being true, for if Balmaceda had been killed it is long odds that the members of the Junta would have heard of

The Times censures Minister Kennedy for not preserving an attitude of neutrality.

RISON COUNTY, W. VA,, Sept. 3.-[Special]-The entire National Guard of this State comprising 15 companies, are now prese for duty at their annual encampment her As a result of the lax discipline last night there was a great deal of merrymaking among the men, which reached such proportions that an armed guard was sent among them, enforcing some kind of order. This moraing, however, the screws were put on with the firing of the 5 o'clock gnn and reville call. This being the first regular complete camp of the entire Guard of the State, and officers and men being alike inexperienced in camping rules, there has been a great deal of blundering. There was a woeful lack of provisions. Two companies last night mised a doleful howl, as they got no supper at all, and their breakfast to-day was delayed until 19 o'clock this morning. These matters are being regulated now, however. The line of guard mount was rather rocky, but, as most of the men had not slept for 48 hours, nor eaten for 24, it was considered a very creditable showing. Falling Off in Attendance at the Exposition Due to the Weather—Some Exhibits Be-ing Arranged—The General Attendance Very Good.

The second day of the Exposition was not as well attended as might have been expected had the weather been satisfactory. The showers that descended in the afternoon and kept up with but few intermissions all day and evening were not conducive to a good attendance, and the people did not care to go when they knew they had 38 days more before them. Still, there were a good many there, especially in the evening, when Cappa's band discoursed sweet music and the brilliant electric lights made everything

the brilliant electric lights made everything glitter and show up in its best colors. It is a large building, however, and it is necessary to have a very large crowd to make it look full or anything like it.

All the exhibits are not quite ready yet. They look well, but there is plenty of fixing to be done before they will be exactly as their owners intend them to be. Still, it is interesting to watch the deft fingers of the attendants as they trim and touch up their exhibits and bring order out of what to the nataught eye seems to be the veriest chaos. Especially is this true of the stands devoted to jewelry, glassware and works of art. The movement of a statuette, the placing of a picture at a different angle, the arranging of some lovely goblet, pitcher or bottle of cut glass so that it will eatch the rays of the electric light, makes a great difference in the general appearance of a display and it requires an expert to do it effectively. The farniture exhibits are complete and form an interesting feature.

farniture exhibits are complete and form an interesting feature.

The general appearance of the hall as one enters from the main entrance is very brilliant. Each firm has apparently done its best to outdo its neighbor and the result is a display of which Pittsburg must necessarily be proud.

Since the hour of opening will be 9 o'clock throughout the continuance of the Exposition, the management has issued a strict order that all dusting and sweeping must be over before that hour, and that all coverings of exhibits must be removed before the doors are thrown open to the public. The system that always prevails at the Exposition will be maintained this year. The determination is that the comfort of the public shall be paramount, and there will be no neglect of rule that will conduce to that end.

sought the exit, was a roughly dressed man in boots, with travel-stained dress and face, and wearing a broad-brimmed straw hat. A little, golden-haired, fair-complexioned child about 6 years old, toddled along by his side, and a bare-legged 10-year-old boy, his son, strode alongside. In his arms, concenied in wraps, the man carried very tenderly indeed, a 3-months-old baby. His story was short, simple and sad.

"I am a native of the State," said Thomas McEldowney, the name legave, "and seven years ago went out to farm in Kansas. I tried several locations, and at length settled at Pottawattomic county, where I leased 350 acres of land and a herd of cattle on shares. Well, it didn't pay. Farming in Kansas was never worse than 'during the last three or four years. It is all right now; this season is good, but the good time came too late for me. I hired out as long as I could, but when my poor wife died about four weeks ago I gave up the farm and decided to come East. My brother-in law is a milroader living at Spear's Landing, near Brownsville. His name is I. N. Heath, and I am going to live with him. He doesn't know I am coming, but I have some money, and mean to start again."

All McEldowney had with him was a small bundle of goodness knows what. He wore no coat, but he wrapped the little one closer to his breast as he started out with Special Officer Fred Zimmerman to hunt up lodgings for the night. He was accommodated at Homan's on Penn avenue, and will leave by boat for his brother-in-law's home this morning.

MEMORABLE DAY FOR THE OLD TOWN

[SPECIAL TELEGRAN TO THE DISPATCH.] URBANA, O., Sept. 3. — This has been a gala day in Urbana. All the morning people were arriving in the city for the purpose of seeing and hearing the great cham-pion of America and American industries, and the man they think will be the next Governor of Ohio, Major McKinley. The city was gaily decorated, flags and bunting ating everywhere, while tin-American tin-was displayed in badges, in picture frames, in canes and in decorations on business blocks and private houses. and is composed principally of agents for manufactories and not farmers.

Every train dropped a great number of people at the station to-day, while a solid stream of vehicles poured their loads of people into the city throughout the morning hours. The Methodist Episcopal Conference also adjourned and heard the great orator. The people of Champaign county did indeed turn out to do the Republican standard-bearer great honor. All were delighted with the manner in which Major McKinley handled both the tariff and the silver issues. All wondered that he could make the subject so plain.

The meeting was held on the fair ground, the speakers' platform having been built in front of the grand stand. The grand stand has a seating capacity of 4,000, and it was filled. Chairs for a hundred or more distinguished people were on the stage, while all around was crowded with those standing. When the Major appeared there was a great storm of cheers—a perfect ovation.

The meeting has aroused the Republicans of Champaign county to a greater degree of usefulness and has opened the eyes of many Democrats to the fallacies of their party platform. The crowd would doubtless have been larger had not the Clark county fair been in progress and for the fact that Major McKinley is billed for speeches in all the county seats or larger towns near by.

The other State candidates present were General A. L. Harris, for Lieutenant Governor; Captain W. T. Cope, for Treasurer, Hon. Frederick B. McNeal, for Dairy and Food Commissioner. Hon. D. W. Rawlings, candidate for State Senator from this district, was also present. Chairman Hahn accompanied Major McKinley.

The Nominating Committee reported in favor of the following State ticket: For Governor, J. W. Bruce, a retired farmer of Canastota, Madison county: Lieutenant Governor, Georges W. Halleck, a prosperous farmer of Suffolk county; Secretary of State, William E. Booth, of Livingstone county: State Treasurer, Francis E. Crawford, Westchester cis E. Encohs, the Republican nomines for Congress in the Portsmouth district. When two such strong Fornker men as these two get together it is cause for comment and gossip that something is going on which will be to the detriment of Senator Sherman, and incidentally the Republican ticket. Mr. Cappeller was asked: for his views on the political situation, and summed them up with the statement that he would wager \$100 that he next United States Senator from Ohio would be a Republican; \$100 that his name would not be Sherman, and \$100 that Major McKinley would have a plurality of 15,00.

\$100 that Major McKinley would have a plurality of 15,002.
Captain Jake Donaldson, the right hand man of Senstor Sherman, said a few minutes later that Senator Sherman has a majority of the Republican candidates for the Legislature, and that his nomination is assured. He counts on the strong counties and districts which are Republican sure, and in which there is no chance for Democratic success. Captain Donaldson thinks Foraker is ill-advised.

With Them to Washington. WASHINGTON, Sept. 3 .- [Special.]-Ohioan after summer vacations spent in their State, give enthusiastic accounts of the prospects for the election of Major McKinley. In for the election of Major McKinley. In Southern Ohio, they assert, there will be savage cutting of Campbell among the Germans and their sympathizers. Many Ohio Democrats with whom The Disparce correspondent has talked admit that there is hardly a fighting chance for Campbell. The worst feature of the situation, they say, is that Democrats all over the State seem to be convinced that Campbell is beaten from the start, and, therefore, thousands of them who have a grievance against the Campbell administration will either stay at home or vote for McKinley. ministration will either stay at nome or vote for McKinley.

So general is the report of this dissatisfac-tion, and it is so often frankly admitted by Democrats, that more weight is attached to the reports than is usually given to cam-paign stories from the States.

Among these drinks are phospho-caffeine, bromo-seltzer, bromo-caf-feine, bromo-soda and the genuine Carlsbad water. Of carbonated waters Vichy is still the most popular, and Geneva magnetic water is taking the place which the Lebanon water

filled last year. Mixtures of Vichy and Horsford's acid phospate and Vichy and phospate are quite popular with certain

The farmer has had another resource dded to the list of devices for controlling wild or refractory stock. Atl he now has to do to insure the safety of his cattle is to connect up his wire sence to an induction coil and a primary battery. A vigorous current is thus maintained, and if any of the cattle should touch the wire with the idea of breaking the fence or otherwise, they will experience a new sensation, which will induce a wholesome caution as far as future regotiations with the wire fence is con-
